

Henderson-Massey climate action initiatives

June 2021

Delivery organisation	Project name	Activity	Status	Location	Description	Climate impact	Weblink
Auckland Council	Live Lightly	Environmental education programme	Current	Online	Live Lightly shows everyday lifestyle choices we can all make to save money, have a healthier life and care for the planet.	Education	https://livelightly.nz/
Auckland Council	Future Fit	Carbon reduction	Current	Online	Online carbon calculator and action selector to make positive lifestyle changes to reduce carbon emissions.	Education	https://www.futurefit.nz/
Auckland Council	Community Facility Energy Efficiency Upgrades	Community facilities upgrade	Planning	Various	Immediate projects include: refurbishment of Corbans Estate Arts Centre, Kelston Community Centre renewal, Massey Community Centre renewal.	Built environment	
Auckland Council	Emergency Facility Solar and Battery Resilience Project	Community facilities upgrade	Planning	Various	Identification of key strategic emergency facilities for solar, battery and charging facility installation.	Built environment	
Auckland Council	Eco-design advice	Environmental education programme	Current	Regional	Certified home performance and eco-design advisors can provide up to an hour of free expert advice on how to make a house warmer, drier and more energy-efficient. Available to homeowners, landlords or tenants.	Built environment	https://www.aucklandcouncil.govt.nz/environment/sustainability-eco-design/create-healthy-energy-efficient-home/Pages/get-advice.aspx
Auckland Council	Enviroschools	Environmental education programme	Current	Various	Enviroschools is a programme that supports children and young people to plan, design and implement sustainability actions. Participating schools range from early childhood through to secondary school and beyond. The programme includes student-directed process of exploration, decision making, action and reflection, as well as action projects with environmental and educational outcomes that benefit the school and wider community. There are 18 participating schools and early childhood centres in Henderson-Massey: ACG Sunderland, Arohanui Special School, Colwill Kindergarten, Flanshaw Road School, Freyberg Community School, Holy Cross Catholic School (Henderson), Lovingcare Kindergarten, Massey High School, Massey Kindergarten, Peninsula Primary School, Pomaria Road School, Royal Road School, Rutherford College, St Dominic's Catholic College (Henderson), Tirimoana School, Waitakere College, West Harbour School, Western Heights School (Auckland).	Education	https://www.aucklandcouncil.govt.nz/environment/education/sustainability/Pages/enviroschools.aspx
Auckland Council	Home Energy Audit Toolkit (HEAT kit)	Environmental education programme	Current	Libraries	Home Energy Audit Toolkits (HEAT kits) can be borrowed for free from any Auckland Library and they can be requested through the Auckland Libraries catalogue. HEAT kits can help householders find out which areas of their home use most energy, how the home can be made healthier and warmer, and how savings can be made on power bills and carbon footprint reduced. HEAT kits contain: <ul style="list-style-type: none"> • A hygrometer - to measure air temperatures and moisture levels including tips on how to avoid cold, damp conditions that cause condensation and mould. • An infrared thermometer - to find thermal leaks due to poor insulation of ineffective seals including tips on how to fix them. • A stopwatch - to measure your shower flow rate including tips on how to make savings through efficient use of hot water. • A power meter - to measure the running cost of plug-in appliances including tips on how you can save money on appliances, heating and lighting. • Instructions on how to use each tool. • A record booklet for recording your measurements and energy saving actions. Infosheets you can take away with more detailed information. 	Built environment	https://www.aucklandcouncil.govt.nz/environment/sustainability-eco-design/create-healthy-energy-efficient-home/Pages/hire-home-energy-audit-toolkit.aspx
Auckland Council	Professional Development for Educators	Environmental education programme	Current	Various	Annual series of sustainability education professional development workshops for educators and a range of cluster-based learning opportunities. Workshops and clusters focus on sustainability education in the curriculum. They cover a range of activities, resources and topics to help educators on their sustainability education journey.	Education	https://www.aucklandcouncil.govt.nz/environment/education/sustainability/Pages/professional-development-for-educators.aspx

Auckland Council	Wai Care	Community water quality monitoring	Current	Various	Wai Care is a water quality monitoring, education and action programme for Auckland community groups, individuals, businesses and schools. The Wai Care programme looks after our waterways and catchments. Activities include: litter clean-ups, water quality monitoring and macroinvertebrate sampling, planting, weeding and pest control, school projects, workshops and fieldtrips, connecting communities to our waterways. There are multiple Wai Care water quality monitoring sites in Henderson-Massey.	Education	https://waicare.org.nz/Home.aspx
Auckland Council	West Wave Aquatic Centre	Community facilities upgrade		Henderson	West Wave Aquatic Centre is the Community Facility with the highest carbon footprint in the Henderson-Massey Local Board area. The West Wave Pool located in the heart of Henderson is open seven days a week and visited by over 70,000 people each year. It is also Auckland Council's community facility with the highest energy use and the biggest carbon footprint. Gas boiler replacement will reduce energy use by an estimated 3,300,000 kWh saving over 632 tonnes of carbon emissions per year. The renewal of the facility will include the installation of LED lighting in the main pool hall, re-instating the rainwater harvesting system and upgrading the building management system.	Built environment	
Auckland Council	Waitakere Community Recycling Centre	Upcycling facility	Current	50 The Concourse, Henderson	The Waitākere Community Recycling Centre is part of the larger Council-run transfer station which also includes an education centre, the Zero Waste Zone. There is no charge for household items that are saleable, clean and recyclable, and no charge for scrap metal, including whiteware.	Economy	https://www.aucklandcouncil.govt.nz/rubbish-recycling/Pages/recycle-organisation.aspx?ListItemId=133
Auckland Council	Young Leaders Programme	Environmental education programme	Current	Regional	A sustainability leadership programme that builds the capability of Auckland's young people so they can take their role as change agents, future leaders, early adopters and influencers within their communities. The programme accepts around 50 students a year. It is designed to build action competence and support Year 11 - 12 students to create action plans for sustainable change in their schools and communities. The Young Leaders Programme is based on the United Nations Sustainable Development Goals. It partners with the corporate sector to develop career pathways for participants with organisations that are committed to the sustainability journey. Auckland's young leaders also host an annual secondary schools sustainability conference, GreenJam.	Education	https://www.aucklandcouncil.govt.nz/environment/education/sustainability/Pages/young-leaders-programme.aspx
Auckland Council	Zero Waste Zone	Environmental education programme	Current	50 The Concourse, Henderson	Waste minimisation centre offering free sessions where you can learn how to minimise your waste. The Zero Waste Zone is a fun, hands-on learning centre located at the Waitākere Refuse Transfer Station, Henderson. The Zone's surrounding garden showcases creative upcycling and features a 'Make Space' workshop and a discovery trail made entirely of waste. This programme looks at waste, where it goes and how to reduce it. Students learn about worms and why food waste is an important resource. Activities include: sorting waste, learning about recycling and how to make good choices to look after the environment. There is also a transfer station tour where students can see the volume and types of waste dropped off at the site.	Economy	https://www.aucklandcouncil.govt.nz/rubbish-recycling/ways-reduce-waste/Pages/book-waste-minimisation-learning-session.aspx
Auckland Transport	Travel Wise	Environmental education programme	Current	Regional	An innovative schools-based programme that aims to improve road safety and achieve a reduction in the number of vehicles driving to and from school at peak times. There are 37 Travelwise schools in and 7 'walking school buses' in Henderson-Massey. Participating schools include: ACG Sunderland, Birdwood School, Bruce McLaren Intermediate, Colwill School, Don Buck School, Edmonton School, Flanshaw Road School, Freyberg Community School, Glendene School, Henderson High School, Henderson Intermediate, Henderson North School, Henderson Primary School, Henderson South School, Holy Cross Catholic School, Lincoln Heights School, Liston College, Massey High School, Massey Primary School, Matipo Road School, Peninsula Primary School, Pomaria Road School, Rangeview Intermediate, Ranui School, Royal Road School, Rutherford College, Rutherford Primary, St Dominic's Catholic College, St Paul's School (Massey), Summerland Primary, Sunnyvale School, Te Atatu Intermediate, Tirimoana School, Te Kura Kaupapa Māori o Te Kotuku, Waitakere College, West Harbour School, Western Heights School.	Transport	https://at.govt.nz/cycling-walking/travelwise-school-programme/
Auckland Transport	Travel Demand	Environmental education programme	Current	Regional	Provides businesses with help for employees with their commute to work and to cut the costs of company cars. The programme encourages employees to leave their cars at home and switch to more sustainable modes of travel. It has many benefits for your organisation, including less demand for parking, lower parking costs, healthier and less stressed staff, and higher productivity and staff engagement. It also contributes to less congestion and fewer delays to business vehicle trips overall.	Transport	https://at.govt.nz/driving-parking/ways-to-get-around-auckland/working-with-businesses/
Auckland Transport	North Western Busway	Transport initiative	Planning	Various	\$100 million worth of improvements scheduled for the North Western Motorway to allow faster and more frequent bus services, the Northwestern Bus Improvements could mean up to 35 minutes saved on a bus trip from Westgate into the city.	Transport	

Bike Henderson	Bike Henderson	Transport initiative	Current	Henderson	Inspired by the idea of Auckland as a city of villages, Bike Henderson is a grassroots local group brought together around a vision of Henderson as a bike-friendly place. We're into anything that makes it easier for people of all ages to jump on a bike for local trips – bringing the streets to life, and adding fresh air, fun, and community connectedness to everyday activities. Got ideas for events, suggestions for rides and routes, or questions about how to get around on wheels? Join the conversation! Bike Henderson strictly includes Sunnyvale, Henderson Valley, Henderson Heights and Lincoln. We also include Ranui, Swanson and Glendene, until localized burbs form in those areas.	Transport	https://www.facebook.com/groups/bikehenderson
Bike On New Zealand Charitable Trust	Bikes in Schools	Transport initiative	Current	Various	Bikes in Schools is a complete biking package implemented within a school that enables all students to ride a bike on a regular basis. Includes: a fleet of new bikes; a bike helmet for every child; combination of riding, pump and bike skills tracks; bike storage facility (where needed) and bike coach to introduce the programme and teach basic riding skills. Projects have been completed at: Royal Road Primary School, Ranui Primary School, Pomaria Primary School, Edmonton Primary School and Henderson North School. All the bikes and helmets are owned by the school and remain on the school property. The tracks are built within the school property. The storage facility (eg. converted shipping container or bike shed) is also owned by the school. This package can be complemented by a Travelwise Safe School Travel Plan (in Auckland) or other local Council school road safety programmes, and also a cycle skills training programmes from a range of different providers.	Transport	https://bikeon.org.nz/bikes-in-schools/
Bike Te Atatu	Bike Te Atatu	Transport initiative	Current	Te Atatu	Proposal to implement numerous cycle safety improvements to Te Atatu streets to increase uptake of cycling. Have proposed using Te Atatu Peninsula as a demonstration project of what could also be achieved elsewhere in Auckland. (See "futurementary" on website). Advocate strongly for Auckland Transport and Auckland Council to prioritise improvements to our streets, starting with low- cost "tactical urbanism" projects. In order to achieve a step-change in numbers riding requires going beyond an upgrade of one or two priority routes considered by "Henderson's Future" cycling investigation. Recent submission on Local Board plan called for use of Auckland Transport's Local Board Transport Capital Fund allocation specifically for improvements that make it easier for people to make local trips on foot or bike, putting the needs of walking and cycling first, when making improvements/upgrades to Council parks, libraries and community centres e.g providing plenty of visible bike parking and at events supported by the local board. Public transport and cycling directions first, then car parking locations with a lower-priority. Funding and advocating for Te Whau Pathway, the bike hub in Henderson, and explore the possibility of having a pump track permanently on this site. Work with Auckland Transport to maximise improvements to footpaths and shared paths, especially linking up existing gaps in the network. Support improved wayfinding.	Transport	https://biketeatatu.org.nz/
Community Waitakere	Epping Wetland Restoration Initiative	Ecological restoration	Planning	23 Epping Road	An initiative to restore an area of Epping Reserve into a freshwater wetland with native species and a LIUDD stormwater device and Project Twin Streams restoration project. In partnership with Auckland Council Healthy Waters.	Natural environment	https://www.communitywaitakere.org.nz/index.cfm/our-work/in-the-environment/
Community Waitakere	Project Twin Streams Henderson Creek Restoration Work	Ecological restoration	Current	Cranwell Park	Works with numerous community groups, individuals and organisations on weeding, planting, mulching and rubbish collection along Henderson Creek.	Natural environment	https://www.communitywaitakere.org.nz/index.cfm/our-work/in-the-environment/
Community Waitakere	Te Atatu Community Nursery	Community nursery	Current	Te Atatu Peninsula Park	Community Waitakere acted as an umbrella organisation for the establishment of this community nursery by Hone Pene and He Toru Aroha Trust. Nursery operations are currently coordinated by Community Waitakere. The nursery is sited on 350 square metres of land leased from Auckland Council.	Natural environment	
Community Waitakere / Forest Bird Predator Control	Harbourview - Orangihina Ecological Restoration Plan Implementation	Ecological restoration	Current	Te Atatu Peninsula	Restoration plan implementation for the Harbourview-Orangihina reserve, particularly covering the restoration aspects of the reserves wetland areas. The restoration and hydrological planning phase (2019/2020 financial year) will provide a set of recommendations for the implementation of ecological restoration and providing for a freshwater wetland area. The project will include community groups, individuals and iwi as they have been included in the restoration plan development. It is proposed that this be funded through an existing targeted rate.	Natural environment	https://www.aucklandcouncil.govt.nz/plans-projects-policies-reports-bylaws/our-plans-strategies/topic-based-plans-strategies/parks-sports-outdoor-plans/Documents/harbourview-orangihina-park-masterplan-adopted-february-2019.pdf
Community Waitakere	Wild About Te Atatu	Environmental education programme	Current	Te Atatu	Wild about Te Atatu is a unique Environmental Education programme for schools brought to you by Community Waitakere in partnership with the Auckland Zoo. These programmes are designed to increase your students awareness of the unique and special biodiversity of Te Atatu, what threatens this biodiversity and how our actions can make a difference. Outdoor learning experiences are suitable for all year levels and are aligned to the New Zealand Curriculum. Programmes are delivered at your local Te Atatu park or reserve by experienced educators. 'Hands on' learning experiences include: Water quality, native birds, impacts of pests, understanding our local wetlands and estuaries and much more! Wild about te atatu, which encompasses the pest free coordinator.	Education	http://www.communitywaitakere.org.nz/index.cfm/our-work/in-the-environment/wild-about-te-atatu/

Earthsong	The Earthsong Centre Trust Building	Community building for education and presentations	Current	457 Swanson Road	A large community building at the heart of Earthsong known as both the Earthsong common house (for residents) and the Earthsong Centre (for the Trust) is a venue for presentations and educational tours. It is made available to groups, organisations and users that are compatible with the objectives of the Earthsong Centre Trust outlined in the 'statement of intent' on the earthsong website.	Built environment	https://www.earthsong.org.nz/
Earthsong	Earthsong Educational Collective	Environmental education programme	Current	457 Swanson Road	Tours aiming to educate and share the earthsong experience and knowledge on sustainable housing, permaculture and the environment. Public tours run four times a year on a Saturday and guided by some of the earthsong educational collective members. As well as general interest public tours, there are tours for groups on request, which also happen very regularly; as often as once a week. The Earthsong educational collective runs presentations and seminars on co-housing, permaculture, eco-design and community organisational structure(s).	Built environment	https://www.earthsong.org.nz/
Earthsong	Earthsong Educational Collective	Environmental education programme	Current	457 Swanson Road	Our vision is to develop a successful and inspiring commercial and residential cluster that will serve as a model of a socially, environmentally and economically sustainable town centre development in Ranui.	Built environment	https://www.earthsong.org.nz/
Earthsong	Walk to Work	Community development	Planning	449 - 459 Swanson Road	Walk to Work owns the land in front of Earthsong. A mixed-use commercial and residential cluster is envisaged as a model of sustainable town centre development, with the vision and values of Earthsong, and contributing to the diverse cultural character of Ranui. The initial concept for developing the site is a 3-4 level building with shops, offices, consulting rooms and perhaps educational facilities on the lower levels, and residential apartments on the upper levels.	Built environment	https://www.earthsong.org.nz/
EcoMatters Environment Trust	Bike Hub	Upcycling facility	Current	Falls Carpark, Henderson	In collaboration with the Panuku Development Auckland project Unlock Henderson, this project will operate a temporary bike hub at The Falls carpark site. It will work towards identifying a location and community partners for a future permanent bike hub repair centre for secondhand bikes in the Henderson-Massey Local Board area. It will continue to develop a sustainable operating model for the bike hub that ensures predictable operating hours for users. It seeks to secure funding and support from other sources to enable the development of the bike hub and its programmes.	Transport	
EcoMatters Environment Trust	Healthy Homes on a Budget	Environmental education programme	Current	various	A minimum of six workshops to be provided to communities on topics such as: <ul style="list-style-type: none"> • waste minimisation (how to sort your household rubbish, including home composting, options and demonstration) • water saving (how to reduce your water consumption and bills) • energy efficiency (cut your power bill) • sustainable living. 	Built environment	https://www.ecomatters.org.nz/for-homes/home-advice/
EcoMatters Environment Trust	War on Weeds	Ecological restoration	Current	various	A targeted pest plant reduction campaign will be run annually in March, where jumbo bins are provided at key sites in the local board area for a four-week period, in a minimum of 3 locations, for community disposal of weeds.	Natural environment	https://www.ecomatters.org.nz/in-nature/weed-bins/
EcoMatters Environment Trust	Ecomatters Environment Centre and Sustainability Hub	Environmental education programme	Current	Olympic Park	Environment Centre (Ecohub) - A 'one stop shop' for sustainable living and reduction of ecological footprint, located at 4 Olympic Place, New Lynn. Displays include solar hot water heating, water- efficient appliances, bike hub, worm farms and composting. The centre also runs workshops, seminars and ecofilms, including workshops held in the Henderson-Massey Local Board area. Open 30 hours a week.	All	https://www.ecomatters.org.nz/
EcoMatters Environment Trust	Love Your Neighbourhood	Funding	Current	various	Rapid response assistance up to a value of \$500 to support volunteer-driven practical environmental initiatives, this includes not-for-profit preschools. This is also to respond to requests from the Henderson-Massey Local Board to support community action. Funding is available for projects like: organising a clean up of your street, local park or beach, community plantings or weeding bees, local food growing projects, installing composting or rain harvesting systems at your playcentre, school or community garden, or setting up a pest trapping programme in your neighbourhood.	All	https://www.ecomatters.org.nz/campaign/love-your-neighbourhood/
EcoMatters Environment Trust	Love Your Streams	Ecological restoration	Current	various	This project engages and supports individuals, schools and community groups to adopt a proactive approach to pollution prevention of Henderson-Massey waterways. It will organise and facilitate events to promote stream stewardship. It will also enable community streamside weeding bees and planting at priority sites within the Henderson-Massey Local Board area, including continuing to support weeding bees and planting events along the Manutewhau Stream and in Sunnyvale.	Natural environment	https://www.ecomatters.org.nz/campaign/love-your-streams/

EcoMatters Environment Trust	EcoWest Festival of Events	Events festival	Current	various	EcoFest West Festival runs from mid-March to mid-April each year. EcoMatters deliverables include: - provide a community-based environmental festival with access to free public events - design and deliver an event that provides information and practical ideas for making sustainable living easy - market the festival to businesses, institutions and community groups acknowledging Henderson- Massey Local Board's funding - promote the festival in ways that target the diversity and distribution of the population - to work collaboratively with other agencies who may be delivering similar events at the same time - a minimum of 10 events in the Henderson-Massey Local Board area.	All	https://www.ecomatters.org.nz/ecofestwest
EcoMatters Environment Trust	Watercare – Water Demand Management Programme	Environmental education programme	Current	Regional - including Henderson-Massey	The EcoMatters Team attend events to engage with Aucklanders on wise water use, including: water saving devices, water saving information (e.g. pamphlets, posters, home water audits, how to check for a leak), Water Advice Line (WAL) where we provide one-to-one household assistance over the phone. Callers are provided with a Water Reduction Kit and stepped through a DIY Water Audit to identify areas of high water use and a written progress report is provided to households after each invoice cycle, highlighting any progress made towards their pledged goal of water reduction	Built environment	https://www.ecomatters.org.nz/for-homes/saving-water/
EcoMatters Environment Trust	The Compost Collective	Environmental education programme	Current	Region	EcoMatters is working with Kaipatki Project and Auckland Council on a The Compost Collective, a collaborative project aimed at increasing the number of Auckland households engaged in composting and organic waste reduction. Over 120,000 tonnes of organic waste goes into landfill each year in Auckland. We are working with the Auckland Council to reduce this startling statistic. Through their funding the Auckland Council is supporting to us to supply discounted compost systems and deliver free composting workshops for all Aucklanders. We are encouraging individuals, schools, businesses and community groups to compost and take other actions to reduce their waste by providing information, help and inspiration.	Food	https://www.ecomatters.org.nz/zero-waste/compost-collective/
Epping Community Garden	Epping Community garden	Community garden	Current	Epping Reserve	Epping Community Garden is located in Buscombe Ave, Henderson on Epping Reserve. It has about 20 plots looked after by various individuals and groups and an orchard of 25 fruit trees. The Epping Community Gardens we are a small volunteer community gardens in Henderson. A community garden for those interested in gardening learning how to grow veg who would like to get involved with the community and meet new people. Regular meetings on Buscomb Ave between Rosebay Rise and Woodford Ave at Epping Esplanade Park. Winners of the eco wise 2012 karaka award for the best community garden that is tended and utilised by the community.	Food	https://www.facebook.com/EppingCommunityGarden
Extinction Rebellion	Extinction Rebellion	Environmental education programme	Current	Waitakere / Henderson	We are the local group of an international movement attempting to halt mass extinction and minimise the risk of social collapse. Demands are: 1. Declare a climate and ecological emergency and communicate the need for urgent change. 2. Act Now: Halt biodiversity loss and reduce greenhouse gas emissions to net zero by 2025. 3. Go beyond politics. Create and be led by the decisions of a Citizens' Assembly on climate and ecological justice.	Community and Coast	https://extinctionrebellion.nz/event/waitakere-public-talk-in-henderson/
Forest and Bird	Orangihina / Harbourview pest control	Ecological restoration	Current	Harbourview / Orangihina	Two weekly checking and resetting traps along different tracks from north to south, targeting rats, stoats and possums to help the birds.	Natural environment	https://www.forestandbird.org.nz/branches/waitakere
Forest and Bird	Taipari Strand Bush Restoration Project	Ecological restoration	Completed	Taipari Strand	Bush restoration of the northern end of Taipari Strand / Tawa Esp. Area next to Roy Ranby Walk. Restoring mixed lowland coastal Towai Forest.	Natural environment	https://www.forestandbird.org.nz/branches/waitakere
Forest and Bird	Project Spring-Clean	Ecological restoration	Current	Harbourview / Orangihina	Picking litter and debris in the Harbourview/Orangihina reserve and foreshore with local community.	Economy	https://www.forestandbird.org.nz/branches/waitakere
Forest and Bird	Kiwi Conservation Club	Ecological restoration	Current	National	For over 20 years the Kiwi Conservation Club (KCC), junior Forest & Bird, has been teaching Kiwi kids about New Zealand's wildlife and wild places. KCC now has over 16,000 members throughout New Zealand who receive our Wild Things magazine. Written by Ann Graeme with cartoon-like illustrations by Tim Galloway, the Wild Things magazines make topics like wild rivers, marine reserves and worms fun for kids. In most places around New Zealand, volunteer KCC Coordinators also arrange adventures for KCC members to explore their local beaches, forests and everywhere in between. Some clubs also get involved in local conservation projects like tree planting, creating lizard gardens or making nesting boxes for little blue penguins.	Natural environment	https://kcc.org.nz/
Friends of Glendene Reserve	Glendene Reserve	Ecological restoration	Current	34 Glendene Avenue, Glendene	Community reserve restoration project, community planting days.	Natural environment	
Friends of Sunhill Reserve	Sunhill Reserve	Ecological restoration	Current	Awaroa Road, Sunnyvale	Community reserve restoration project, annual community planting day, Education garden and guided walks.	Natural environment	https://www.facebook.com/SunhillScenicReserve/events/

Hugh Green Group	Redhills Green Subdivision	Community development	Current	Redhill	Redhills Green comprises 256 hectares of live zoned land within the Auckland Unitary Plan Redhills Precinct, a new suburb encompassing some 600 hectares of land to the west of Fred Taylor Drive, Massey and adjacent to the Westgate/Massey North Metropolitan Centre. Redhills Green will be a master-planned community of high quality residential development with a local centre to be established at its core to provide a heart and focal point for the precinct. Proposed schools, extensive parks and stream corridors, green roads (high amenity priority cycle and pedestrian circuits) and public transport routes will create a sense of place that potentially provides an attractive and suitable environment for more intensive residential development. The Westgate/Massey North Metropolitan Centre (a 56 ha mixed used development located at the nexus of the Northwestern and Upper Harbour motorways) will also serve the high population growth forecast for the area. Commercial developments completed to date in the town centre include a Mitre 10 MEGA store, Palmers, Pak'n Save and Countdown supermarkets, as well as the NorthWest Mall.	Built Environment & Economy	https://www.hgg.co.nz/project/redhills-subdivision/
Jadewyn Park Community Gardens	Jadewyn Park Community Gardens	Community garden	Current	Massey	Community gardens.	Food	https://www.facebook.com/jadewynngarden/
Kai West	Kai West	Food growing / distribution	Current	27 Corban Ave	From one meeting to another over a 2-3 month period in 2015 Kai West was formed. The motivation was food, affordable food that if purchased in bulk, can keep the costs down. The food for purchase is fresh fruit and vegetables only. Kai West could be deemed as a live community resource made up of devoted individuals who offer their time and expertise to help / benefit others out west . 'more than just food' caters for other strengths that we bring as a group, which we can offer to community. This comes in the form of vegetable gardening, cooking demonstrations and other community know-how. Vegetable gardening either at the Hub West community garden or better still assisting those who don't have gardens at home. Cooking demonstrations on the basis of cooking / sharing what has been grown in the Hub West community garden.	Food	https://www.facebook.com/groups/kaiwest/
Kai West	Te Puna Market	Food growing / distribution	Current	Henderson	Te Puna Market is a weekly market run in the heart of Henderson, in the Falls Carpark. We have an assortment of fresh fruits & vegetables other produce and natural made products.. We also have occasional workshops and activities centred around kai. We have an assortment of fresh fruits & vegetables other produce and natural made products. We also have occasional workshops and activities centred around kai. The name for the market, Te Puna, was gifted by the local iwi, Te Kawerau a Maki. The direct translation of Puna is a pool or a well. Historically, the Puna was a place where people would gather. An important kaupapa was to share stories and socialise, similar to conversations that could happen when people meet and eat together. The purpose of the collective is to grow capacity for local food initiatives to thrive, connect and strengthen communities across the West Auckland area.	Food	https://www.facebook.com/TePunaMarketHenderson
Kainga Ora	Retrofit Programme	Funding	TBC		Through the Retrofit Programme Kainga Ora are upgrading and improving our older homes to help provide great places to call home for our customers. Following the successful pilot in the Hutt Valley which has seen nearly 200 homes retrofitted, they are rolling out the Retrofit Programme to more areas to help more of our customers have warm, dry and healthy homes. The programme is an investment of \$500mil and will see 1,500 homes across the country upgraded over the next two years. This is a significant investment in our homes and the regional economies they are located in.	Built environment	https://kaingaora.govt.nz/news/upgrades-for-more-homes-through-retrofit-programme/
Massey Community House	Triangle Park (Massey) Community Garden	Community garden	Current	Triangle Park	The triangle park garden has been in place since 2010 and has been associated with the Massey community house. It includes several large plots for vegetables, a composting facility, water tank and large garden shed. Its current size is 1050 sqm with the addition of a fruit forest (665m2) in 2014. There is also strong support for educational components and open days.	Food	https://www.masseymatters.org.nz/massey-matters-news/2017/6/11/triangle-park-community-teaching-garden
Massey Community Men's Shed	Massey Community Men's Shed	Upcycling facility	Current	396e Don Buck Road , Massey	A place to share and learn practical skills, make or repair things, work on community projects and socialise with like-minded men. Pojects have included producing worm and compost bins for the Compost Collective, children's garden bench seats, and bird feeders for Arohanui Special School.	Economy	https://www.masseymensshed.org.nz/
Massey Matters	Cooking Club Tuesdays	Food growing / distribution	Current	Massey	Learn and share hearty, healthy, home cooked meals together at Massey Hub.	Food	https://www.masseymatters.org.nz/upcoming-massey-matters-events/2020/7/21/massey-hub-cooking-club-tuesdays
Massey Matters	Fair Food Rescue Distribution	Food growing / distribution	Current	Massey	Massey Matters collects food waste rescued from supermarkets by Fair Food Rescue from Avondale and distributes it to community groups and people in need within the Massey community. Rescuing food from landfill and redistributing free of charge to people who struggle to put food on the table.	Food	https://www.instagram.com/fairfoodnz/
Corban Estate Weaving Circle and McLaren Park Henderson South Community Trust	Pa Harakeke Ote Iwi Garden	Community garden	Current	89 Smythe Road	A flax garden built alongside the Opanuku Stream contains 19 flax cultivars, including one gifted by local iwi Te Kawerau A Maki. The other 18 sourced from Manaaki Whenua who are kaitiaki of a collection of traditional weaving varieties of flax donated by Rene Orchiston of Gisborne, as well as a number of rare and endangered natives.	Natural environment Kaitiaki	http://www.mphscommunity.org/

McLaren Park Henderson South Community Trust	Millbrook Edible Garden	Community garden	Current	Millbrook Esplanade	The Millbrook Edible Garden was created in spring 2008, when Green Jon, the (former) community coordinator for PTS Oratia set about creating a community garden near the Oratia Stream. Currently, the garden is undergoing a change in direction due to falling interest from the local community as there are less gardeners involved, part of the problem is theft for produce by passers by on the cycleway.	Food	http://www.mphscommunity.org/
McLaren Park Henderson South Community Trust	MPHS Projec Twin Streams maintenance contract	Ecological restoration	Current	Henderson/ Sunnyvale	McLaren Park Henderson South cares for 7 reaches on the Opanuku Stream from Candia Road to Great North Road and 9 reaches on the Oratia Stream from Parrs Cross Road to Westcity Mall, totalling over 20 Has of West Auckland Significant Ecological Areas. They undertake all the ecological restoration activities such as: weed control and native trees planting as well as Predator Control over an area of 1.8 Has. Their partners are Walsh Trust, Idea Services, Spectrum Care Trust, Dept. of Corrections, local schools and other one-off groups such as BNZ. They engage around 30-40 people tops on a regular basis. One-off sessions with help from the partner may involve more participants.	Natural environment	http://www.mphscommunity.org/
McLaren Park Henderson South Community Trust	MPHS Nursery	Native Plant Nursery & Education Centre	Current	Bruce McLaren School	MPHS run a native plant nursery out of Bruce McLaren School, using only eco-sourced seeds from the local area, they then plant, bag and nurture the seeds into seedling plants for stream restoration work. Of their 8,000 trees they plant annually, about 4,000 are grown in their nursery operation.	Natural environment	http://www.mphscommunity.org/
McLaren Park Henderson South Community Trust	Tipping Point	Upcycling facility	Current	50 The Concourse, Henderson	MPHS have taken over operation of the reuse / used goods shop, which contains a full range of reusable household goods in working condition for sale, diverting from landfill. Also contains goods that were seized from noise control and other issues and never reclaimed (e.g. stereos). There are seven paid MPHS staff working at the trial site.	Economy	http://www.tippingpoint.org.nz/
McLaren Park Henderson South Community Trust	Tipping Point	Upcycling facility	Current	50 the concourse, Henderson	MPHS run, at the rear of the RRC site, a upcycling depot for timbers, including untreated (and some treated) construction waste, shopping trolleys and planting pots. These are (mostly) de-nailed and sorted by size etc and then on-sold for reuse or upcycled into outdoor furniture etc. MPHS utilises corrections workers who consider the work to be quite valuable in terms of the skills they gain, and is beginning to be in a position of employing some of thier volunteers. (three part-time employees) Has been established for approx. 1 year as of Nov 2015, the trial is continuing and being extended into the operation of the reuse shop at the same site.	Economy	http://www.mphscommunity.org/
McLaren Park Henderson South Community Trust	HubWest Community Garden	Community garden	Current	27 Corban Ave	Cultivated in August 2013, this community garden grows seasonal fruits, herbs, and vegetables with the fantastic help of diverse volunteers. As of March 2021 the garden is in the process of being revitalised.	Food	http://www.mphscommunity.org/
McLaren Park Henderson South Community Trust	My Backyard Garden Project	Community garden	Current	Henderson - Massey	People who are keen to start a garden join the group, help to set up some backyard gardens for others, and then it's their turn to have a backyard garden set up at their place. The gardens are created from waste wood and donated materials to keep costs really low and divert resources from landfill. There's a Facebook group for staying in touch, sharing garden updates and asking for growing advice.	Food	http://www.mphscommunity.org/
Monex Tiny Houses	Monex Tiny Houses	Community development - Tiny house	Current	14G Clemway Place, Henderson	Monex Tiny Houses build and sell tiny homes.	Built environment	https://monex-tiny-houses.business.site/
Panuku	Unlock Henderson	Community development	Current	Henderson	<ul style="list-style-type: none"> The vision proposed for Henderson is for it to grow into an Urban Eco Centre, enhancing the mauri (life essence) of the Twin Streams Wai o Panuku and Wai Horotiu that converge in its centre. This vision will guide planning and development in Henderson – with the outcome towards 'liveable growth' by creating a safe, attractive and vibrant mixed-use environment with a uniquely west Auckland identity. It is hoped the strong 'eco' focus will act as a catalyst for high-quality living and development that resonates with and attracts families, businesses, investors and visitors to this growing metropolitan area. Panuku's Climate Change Startegy will apply to planning and design in Henderson, including the acceleration of public transport-oriented developments and resource efficient homes and buildings. 	Built environment	https://www.panuku.co.nz/henderson
Panuku	Haumaruru Apartments for Older People	Community development	Complete	21-33 Henderson Valley Road	<ul style="list-style-type: none"> 40 apartments for the Haumaruru Housing portfolio (Social housing for older people) was completed November 2019. Haumaruru Housing is managing the new village (Haumaruru is a limited partnership between Auckland Council and The Selwyn Foundation). The development is targeting a Homestar 7 rating to ensure the units are warm, dry and more resource efficient. A special feature of this building is that 100% of units are accessible by mobility scooter or wheel chair, including those on the top floor via medical grade lifts, wide corridors and entrance ways. Carparking is limited on the site to alternative mobility was an important factor in design. The location of this development was also carefully selected to ensure elderly occupants were within close proximity to local shops and services, therefore decreasing their need to use a private vehicle or driving service. 	Built environment	https://www.panuku.co.nz/henderson

Panuku	Te Kōpua - Falls and Alderman	Community development	Planning		C40 net zero carbon - Panuku, with support of the Mayor's office, is working to finalise a plan to create a world-leading low carbon housing development in Henderson, Auckland, as part of C40's Reinventing Cities initiative. Te Kōpua will follow the holistic sustainability principles of the Living Building Challenge, but what sets it apart is the aspiration to achieve Zero Carbon over a its entire lifecycle. Key strategies include replacing carbon-intensive concrete with structural cross-laminated timber, and generating as much energy as is used via onsite renewables. <ul style="list-style-type: none"> • Te Kopua is a net positive energy, zero carbon building project that promotes sustainable consumption and lifestyle. • The project has a strong ambition in sustainable water management by providing a large amount of water consumption from water recovery and ensuring on-site waste water treatment through an innovative "Living Machine" based on phytoremediation, using living plants to clean up water. • The project maximizes the benefits of the site by recovering the wastewater heat for its energy and installing a very large surface of 1,300 sqm of photovoltaic panels. • Te Kopua addressed low-carbon mobility through a full set of solutions: limited number of parking spaces, charging stations for electric vehicles, car-sharing program as well as many services for bicycles. 	Built environment	https://www.c40reinventingcities.org/en/professionals/winning-projects/the-alderman-carpark-1305.html
Panuku	Opanuku Link	Community development			The Opanuku Link in will provide: a shared path through Opanuku Reserve to the Corban Estate Arts Centre, a walking and cycling bridge over Opanuku Stream, a pedestrian crossing over Henderson Valley Road and wheel ramps for bikes at the train station.	Transport	https://www.panuku.co.nz/henderson
Panuku	Opanuku Precinct	Community development	Current	2-4 and 6 Henderson Valley Road	<ul style="list-style-type: none"> • This precinct sits within New Zealand's first Green Star Communities rating. This recognises best- practice sustainable development within five impact categories: Governance, Liveability, Economic Prosperity, Environment and Innovation. • The current site is an Auckland Council staff carpark and existing commercial building (Central One). Panuku hopes to see the car park developed into 50-80 terrace homes and low-rise apartments, with additional enhancements to the plaza, garden and street area surrounding the existing council building. Central One will be commercially-leased and tenanted, with future potential for mixed-use development. • The intention is for the site to be a model for sustainable development. Based on the current Masterplan, 54% of the site comprises of building or landscaping elements that reduce solar reflectance and an 'urban heat island' effect. This includes vegetation, increased tree and shade cover and existing green roof elements. The site is also well situated to enable active travel within the town centre and into the CBD via train. 	Built environment	https://ourauckland.aucklandcouncil.govt.nz/articles/news/2019/12/henderson-and-takapuna-officially-nz-s-first-green-climate-resilient-communities/
Panuku	Street upgrades in collaboration with Auckland Transport	Community development	Current	Within 1 km of the Henderson Town Centre	Panuku and Auckland Transport are working on three walking and cycling projects in Henderson's Town Centre. These are the Opanuku Link (as seen above), the Oratia Link (which links the C40 Development on the Alderman Carpark) with the Twin Streams shared Paths) and the Ratanui Link (which is a tactical urbanism project funded by Waka Kotahi NZ Transport for connecting the other two links into the Train Station and town centre area).	Transport	https://www.panuku.co.nz/henderson
Pippa Sommerville	Creating Zero Carbon Communities	Carbon reduction	Current	Ranui	Encouraging residents in a designated area to see what their current carbon footprint is and what they might do to reduce it. Uses the FutureFit carbon footprint tool developed by Auckland Council. The project area in Ranui is bounded by Don Buck Road, Metcalfe Road, Pooks Road, past Ranui Domain and Swanson Road into Luanda Drive, onto Glen Road and meeting Don Buck Road. Pippa will be running open workshop sessions throughout 2021 to explore what's stopping people from reducing their carbon footprint, share ideas about designing the neighbourhood for zero carbon living, and look at how reducing emissions could be made easier for everyone.	Education	sommerville.pippa2@gmail.com
Project Litefoot	liteClub	Community facilities upgrade	Historic	various	Transform community sports infrastructure - and the culture to match - so that this group becomes collectively electricity independent, water neutral and zero waste by 2025 - Project Litefoot has concluded operations.	Built environment	https://www.litefoot.nz/
Ranui Community Centre	Maranich Community Garden	Community garden	Current	Maranich Drive, Ranui	The Ranui (Maranich) Community Garden started in 2006 and is the councils only community garden with a formal lease arrangement. The area has a large circular fenced area with plots (aroun 23-28m2) hired out to families each year. Tools are stored in a shipping container, there is also a propogation house and an adobe pizza oven. Outside the fenced area are further communal plots and an orchard. Ranui Primary School regularly visits and ther garden is primarily setup as a teaching garden. It is well coordinated and has sever annual events.	Food	https://ranuicommunitycentre.co.nz/community-garden/
Ranui Community Centre	Café Korero Social Enterprise	Social enterprise	Current	Maranich Drive, Ranui	Cafe Korero - social enterprise and cafe (using fresh produce from our own garden).	Food	https://ranuicommunitycentre.co.nz/
Ranui Community Centre	Community Shed and Makers Space	Community development	Proposed		Proposed to sit alongside the community gardens as a place to go to learn about how to create whatever you need to, how to grow whatever you need to and to learn all the skills you need to for a happy sustainable life.	Economy	https://ranuicommunitycentre.co.nz/
Ranui Community Centre	Ranui Inspirational Recycling Programme	Environmental education programme	Current	474 Swanson Road	Ranui Community House is a neighbourhood resource centre providing opportunities for social, educational and cultural activities for the people of Ranui and surrounding areas. There are a variety of classes, workshops and interest groups and rooms are available.	Economy	https://ranuicommunitycentre.co.nz/

Re:generate Market	Re:generate Market	Upcycling facility	Current	Te Atatu Peninsula Community Centre	Re:generate is a pre-loved market that does not allow the sale of new items. The philosophy behind re:generate is to reuse, recycle and rellove. We are passionate about reducing waste and getting others to do the same. Buying second hand plays a huge part in this and is such an easy step with big impact towards a more sustainable lifestyle. Re:generate market events aim to be zero waste and visitors are asked to bring their own shopping bags and coffee cup.	Economy	https://www.regenerate.net.nz/
Riverpark Action Group	Woodside Reserve Community Garden	Community garden	Current	Woodside Reserve	Since 2010, the 260m2 vegetable garden and orchard of 250m2 (planted in 2010 under the trees for babies programme) has had volunteers coming and working from time to time. The garden is run communally (no allotments). Run by volunteers who work together and share the vegetables. Everyone enjoys fresh air and exercise whilst cultivating friendships and vegetables. All participate in making decisions, sharing knowledge and learning from each other.Has a container to securely store equipment.	Food	https://woodsidecommunitygarden.wordpress.com/about/
Te Atatu Peninsula Community Trust	The Chapel Community Garden	Community garden	Current	Cnr Beach and Waipani Roads, Te Atatu Peninsula	Community Gardens are popping up all over Auckland and they are bringing communities together while doing so much more. Gardening can be fun, therapeutic, cheap and a social way to grow your own vegetables and other produce if you don't have room at home. It is also an opportunity to teach, and help those across the community through supporting the food bank as well as with classes and information workshops.	Food	https://www.peninsulacommunitytrust.co.nz/our-community/community-garden/
Shaye's Tiny Homes	Shaye's Tiny Homes	Community development - Tiny house	Current	208 Swanson Road	Shaye's Tiny Homes have been designing and building tiny homes since 2013.	Built environment	http://www.shayestinyhomes.co.nz/
Sport Waitakere	Cycle West	Transport initiative	Current	Birdwood Reserve	Cycle West is an Auckland Council led project to develop cycling opportunities for the West Auckland community. Our aim is ultimately, to increase the number of residents choosing to cycle for sport, recreation or transport. It includes, but is not limited to, programmes such as Learn to Ride (developed by Bike NZ), bike skills, BMX, mountain bike and road cycling. A key component of this project is to develop Te Rangi Hiroa / Birdwood Reserve as a regional hub for biking, catering for a range of skills, ages and activities. Sport Waitākere is working with schools in the community to open up bike tracks across west Auckland. Our Cycle West Activators will be present at a number of schools to assist riders on the tracks. The tracks are suitable for all skill levels and it's a great way to spend quality time with the whole whānau. Sessions are free, just bring your bike, helmet, and covered shoes.	Transport	http://www.sportwaitakere.co.nz/For-Community/Cycle-West/Cycle-West-1
Stankovich Metal and Steel	Steel and Metal Recycling	Upcycling facility	Current	51 The Concourse	The Stankovich Metal and Steel Recyclers accept free drop-offs of used metal and steel. They will sometimes pay for materials, depending on the quality, quantity and market price. They will sometimes come and collect the material.	Economy	https://www.aucklandcouncil.govt.nz/rubbish-recycling/Pages/recycle-organisation.aspx?ListItemId=133
Sustainable Business Network and Ministry of Business, Innovation and Employment	Climate Action Toolkit	Environmental education programme	Online	Online	Easy-to-use, free online tool to help smaller businesses create a tailored step-by-step plan to reduce their carbon emissions. The tool, called the Climate Action Toolbox, provides tailored advice and support in five major areas: moving people, moving goods, office operations, site operations and equipment, and designing and making products. Businesses go through a self-assessment to identify which areas are relevant to them. Under each area, they can choose from a range of specific actions to improve their climate impact. The Climate Action Toolbox was created through a major collaboration between the public and private sector involving the Sustainable Business Network, business.govt.nz, Waka Kotahi (New Zealand Transport Agency), New Zealand Trade & Enterprise, Energy Efficiency & Conservation Authority (EECA), BNZ, Meridian Energy and design agency DNA.	Economy	https://www.tools.business.govt.nz/climate/
Sustinnoworx	Sustinnoworx	Social enterprise	Current	7/104 Central Park Drive and 455 Swanson Road	Sustinnoworx is a social enterprise project that was launched in August 2015 as a new pathway for unemployed people to harness their skills, abilities and resourcefulness to become entrepreneurs investing in small businesses. Our stores sell pre-loved clothing; up-cycled clothing; household items; bags; masks; eco-friendly products for mind, body and soul. We call ourselves sustainable because we believe in the need for our world and our people to be self-sufficient through environmentally friendly initiatives that promote ecological well-being and self-reliance of those who contribute.	Economy	https://www.sustinnoworx.co.nz/
Te Atatu Marae Coalition - Trust Board	Te Atatu Marae Coalition - Trust Board	Community development	Proposed	Harbourview - Orangihina Park	To be built by the Te Atatū Marae Coalition on 2.5 hectares zoned for this purpose on Harbourview- Orangihina Park. The marae will be accessible to the community. The Coalition are supportive of a kaitiaki role in educating visitors on the cultural, heritage, and environmental values of the park.	Built environment	
Te Atatu Marae Coalition, Hone Pene, Hinekura Lisa Smith	Harbourview- Orangihina pa harakeke	Community garden	Current	Harbourview - Orangihina Park	Collaboration between Te Atatu Marae Coalition, TatUpcycle - Recovery First, and local weavers to establish a pa harakeke (flax garden) near the future site of the Te Atatu Marae. Flax cultivars were gifted by the Corban Estate Weaving Circle and planted at Harbourview-Orangihina in 2017.	Natural environment Kaitiaki	

Te Kura Kaupapa Māori o Te Kotuku & Community Waitakere	Whakapiki te mauri o pukearuhe	Ecological restoration	Current	Ranui	Te Kura Kaupapa Māori o Te Kotuku is located at the headwaters of the Paremuka Stream in Rānui. A puna (freshwater spring) feeds the surrounding weed infested wetland and stream areas below. The kura sits on the former Pukearuhe pā site. Community Waitākere have partnered with the kura and co-developed a restoration and monitoring plan that includes their aspirations for the wetland and explores options for land use including rongoā Māori, pā harakeke, landscaping for easier access to the wetland and creating an outdoor learning space. This project supports the continuation of this programme. The teachers, students and interested whanau will be upskilled in environmental monitoring and will start implementing the co- developed plan. This will include planting, weeding and education days. The school would also like to investigate chemical free weed control methods and will be starting a pest control programme.	Natural environment	
Te Ukaipo	Te Ukaipo Project Twin Streams Restoration & Maintenance	Ecological restoration	Current	opp 42 brookwood Ave	Te Ukaipo have had an allocated restoration area of Project Twin Streams on the Paramuka since 2006. They regularly (on a weekly basis) have groups of between 5-15 volunteers (mostly students from local schools) come down to undertake weeding in the stream area. This work is also used as an educational exercise, with the PTS coordinator for Te Ukaipo (Joanne Hakaraia) explaining the differences between light and shade in terms of the health of the stream. She particularly enjoys bringing groups down immediately after a storm. The area managed by Te Ukaipo also has regular weed spraying by Wildlands taking place. Te Ukaipo have been undertaking some stream monitoring to determine the impacts of open courses of stream (un shaded) on downstream habitat.	Natural environment	https://www.teukaipo.org.nz/home
Te Ukaipo	Te Rangi Hiroa Partnership Project Twin Streams Restoration Site	Ecological restoration	Current	Te Rangi Hiroa Park	Te Ukaipo are involved in Te Rangi Hiroa, a partnership PTS site that is seeing collaboration between many community groups with different expertise including MPHS.	Natural environment	https://www.teukaipo.org.nz/home
Te Ukaipo	Te Rangi Hiroa pa harakeke	Community garden	Current	Te Rangi Hiroa Park	Te Ukaipo are working with local weavers and the community to establish a new pa harakeke (flax garden) at Te Rangi Hiroa Park. The pa harakeke will be a local source of flax varieties to be sustainably harvested for weaving purposes.	Natural environment Kaitiaki	https://www.teukaipo.org.nz/home
Te wai o Pareira	Te wai o Pareira	Ecological restoration	Current	Huruhuru Creek	Our Rivercare Group was conceived in early 2019 from a growing sense of concern about the well- being of our much loved awa - Te Wai o Pareira / Henderson Creek / Huruhuru Creek. A poorly managed and significant untreated sewage discharge into the Huruhuru Creek in October 2018 galvanised us into action. We held our first public meeting in February 2019. From this our Rivercare Group formed and has grown considerably since then. We have been busy building our organisation, growing our understanding, networking and progressing numerous initiatives.	Natural environment	https://www.rivercaregroup.org/
Te Waka Rakau	Te Waka Rakau	Environmental education programme	Current	Various	Rongoa Maori workshops and tours - Opanuku Stream, Ranui	Economy	https://www.tewakaraku.com/
The ReCreators	The ReCreators	Upcycling workshops	Current	Various	The ReCreators is a Social Enterprise which promotes upcycling by learning to do it yourself (DIY) through our community workshops, through purchasing pre-made products or by collaborating on a custom circular design. We are a diverse and inclusive collective of upcycling creatives - tutoring, designing and manufacturing. We believe that making with reclaimed materials promotes positive mental wellbeing as well as protecting Papatūānuku. We offer various upcycling workshops for children, adults and corporates, as well as an online store. The materials we use are either discarded or offcuts that would otherwise be destined for landfill.	Economy	https://therecreators.co.nz/
Tiny Home HQ	Tiny Home HQ	Community development - Tiny house	Current	42 Munroe Road, Ranui	Design, build and deliver tiny home cabins throughout the North Island.	Built environment	https://www.tinyhomehq.co.nz/
Waitemata District Health Board	Woodford Gardens	Community garden	Current	Waitea, 55-75 Lincoln Road, Henderson	Situated at the back of Waitakere Hospital, Woodford Gardens provide professional work experience to people who may be experiencing difficulties finding employment in the wider community. Clients work alongside our occupational therapists and horticulture specialists to learn, grow and develop. Staff members love building a supportive environment for their clients to flourish in and being able to provide spray-free, organic vegetables to the community is a hugely rewarding bonus. If you can, pop on down to get your veggies. They're open Monday-Friday from 9 am - 3 pm. They accept cash only at this stage, so use the ATM on the hospital grounds if needed.	Food	
Waitemata District Health Board	Toitu Reduce	Carbon reduction	Current	Waitakere Hospital	Waitemata District Health Board is now a Toitu Carbon Reduce certified organisation. To gain this the Waitemata DHB has measured their carbon and footprint has set annual targets to reduce their carbon footprint, and put in place initiatives to achieve these. Waitakere Hospital is also proudly Enviro-Mark Gold Certified. The health sector has an important opportunity to play a leadership position in mitigating and adapting to the effects of climate change.	Built Environment	www.waitematahdb.govt.nz/about-us/sustainability/

Warm Hearts Upcycling	Clothing and Textile Upcycling Initiative	Upcycling facility	Historic	457 Swanson Road	The aim of Warm Hearts Upcycling is to keep clothes and textiles from ending up in landfill, pay local refugee women Education & Awareness to do sewing and in the process the women also develop social connections. It is run as a social enterprise business. They rescue discarded good quality natural fibre garments and remake them into unique clothes, cushions, bags and other items.	Economy	http://www.warmheartsupcycling.com/
Whau Coastal Walkway Project & Auckland Transport	Whau Coastal Walkway	Community development	Consenting	Whau River Margin Kelston to Te Atatu	13km long walkway along the banks of the Whau River from New Lynn to Te Atatu Peninsula, ultimately linking 33 individual reserves and parklands - Central Government funding of \$35m has been announced as part of the Covid recovery package. Once complete, the pathway will pass through 33 reserves, sports parks, schools and communities in Green Bay, New Lynn, Avondale, Kelston, Glendene and Te Atatū. Sections completed to date include: The following sections of the pathway have been completed: Archibald Park, Ken Maunder Park, Olympic Park, McLeod Park, Roberts Field and Tiroroa Reserve. Remaining sections include the coastal marine board walk.	Transport	https://tewhaupathway.org.nz/
Whau River Catchment Trust	Whau River Catchment	Ecological restoration	Current	Whau River	The Whau River Catchment Trust (WRCT) is a charitable entity based in Blockhouse Bay, Auckland and was established in 2012. The WRCT delivers a wide range of community-based environmental projects, principally in collaboration with the Auckland Council and other key stakeholders within the catchment, and includes programmes and projects in the areas of ecological restoration and conservation. The WRCT is the principal environmental umbrella organisation for the Whau River catchment and amalgamated with Friends of the Whau (FOW) which was established in the year 2000.	Natural environment	http://www.whauriver.org.nz
Wilkinson Environmental	Industry Pollution Prevention	Environmental education programme	Current	TBC	To reduce the risk of pollutants reaching priority waterways from industrial and commercial activities through working with businesses to increase awareness of stormwater pollution risks and facilitate action to reduce pollution risks. 40 visits conducted in target area. Five spill trainings. Final report provided to Healthy Waters showing where businesses are located, a key contact, what recommendations were made, and if the recommendations have been implemented.	Natural environment	http://wenz.co.nz/
Waipareira Trust	Kaimarama program	Environmental education programme	Current		Includes low carbon living - making planter boxes from recycled materials, composting.	Food	https://www.instagram.com/waipareira/
