Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Do you have any other comments?

i agree with all of them.

Do you have any other feedback?

Fully support Fairer Funding for Local Boards and greater accountability from the CCOs

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 8233

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

2. What do you think of the transport proposal?

Don't support any of the proposal
waste of money

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

no

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less expenditure on economic development - let businesses handle this

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Need to include cycleways...way behind most modern countries on this front. Important for environmental protection, reduce emissions, improve human health and well-being, build into tourism, etc.

2b. Is there anything you would spend less on?

Find cheaper alternatives to current raised pedestrian crossings.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

In general user-pay fees and charges are fairer and get better buy-in areas such as waste reduction, water efficiency, etc.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	I don't know
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

All good things that align with my values and those of my neighborhood.

Do you have any other comments?

Looks good. Most of the things outside the current 3-year plan should be funded.

Do you have any other feedback?

I'd like to see at least a few rubbish bins at local parks, especially coastal ones and those where large groups gather. Not all park visitors are willing to take their rubbish home.

Happy for trash collection to be fortnightly.

Would like to see Auckl

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport amenities in West Auckland

We have a fast growing population but our PT networks have been ignored or treated with piecemeal solutions far too slowly.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Please do less city place making projects or less of pedestrianising Henderson or adding planter boxes in the city to slow traffic.

Less raised pedestrian crossings and less speed bumps on Gt North Road

2. What do you think of the transport proposal?

Support all of the proposal

Introduce ability to pay public transport with debit card

2a. Is there anything you would spend more on?

AT app allowing easier midjourney alternative route searching. More journeys are being split into multi bus journeys and it's hard to search when you're stuck half way in a journey in the middle of nowhere because your first bus was late

2b. Is there anything you would spend less on?

Speed bumps as they cause so much noise pollution living close to one

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

STOP WASTING MONEY ON ALL THE SPEED HUMPS ALL OVER AUCKLAND THEY ARE DETRIMENTAL TO EMERGENCY SERVICES AND THE EXTRA FUEL OUR VEHICLES USE DUE TO HAVING TO SLOW DOWN FOR THESE HUMPS IS HUGE. THE CYCLE WAYS MUST HAVE ALSO COST A HUGE AMOUNT OF MONEY AND WI

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

STOP WASTING MONEY ON ALL THE BEAUROCRATS EMPLOYED BY THE COUNCIL PERHAPS COUNCILERS COULD ACTUALLY THINK FOR THEMSELVES.

2. What do you think of the transport proposal?

Support most of the proposal

IT'S ALL ABOUT PUBLIC TRANSPORT AND VERY LITTLE TO DO WITH THE CONGESTION ON OUR ROADS WHICH IS ONLY GOING TO GET WORSE AS MORE PEOPLE GET CRAMMED INTO AUCKLAND AND THEY ALL WANT TO DRIVE A VEHICLE OF SOME SORT. PUBLIC TRANSPORT GENERALLY RUNS AT A HUGE

2a. Is there anything you would spend more on?

FIX THE ROADS.

2b. Is there anything you would spend less on?

SPEED HUMPS AND BEAUROCRATS.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

FUTURE FUNDS SHOULD NOT BE PART OF COUNCIL'S BUSINESS.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

HOPEFULLY IT WILL KEEP THE RATES LOWER AND STOP THE ELDERLY FROM HAVING TO SELL THIER HOMES AS THE RATES AND INFLATION HAVE BECOME PROHIBITIVE.

4d. Do you have any feedback on any other part of the proposal?

"For a nation to try to tax itself into prosperity is like someone standing in a bucket and trying to lift themselves up by the handle."

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
--	----------------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Nope

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Submission: 8351

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Protection of established parks and green areas as well as ensuring new housing areas must have decent amount of green space crucial for mental and physical wellbeing

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less cultural and art festivals. Nice to have but not in these economic times.

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

No.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Taxes.

2. What do you think of the transport proposal?

Support all of the proposal

I think this proposal is really good and can improve the transportation in Auckland.

2a. Is there anything you would spend more on?

No.

2b. Is there anything you would spend less on?

GST.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

I feel like it could be good but I'm not really sure if it'll be good or not.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

I feel like investing in something important is good.

4d. Do you have any feedback on any other part of the proposal?

No.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Assess the salaries of management and the number in the different categories of Auckland Council as to whether the current number are required and whether salaries fit their duties/responsibilities assess the use of consultants and payments and whether they are necessary could cut costs!

2. What do you think of the transport proposal?

Support most of the proposal

Some of this seems contradictory - improve bus network while reducing some bus services. There are none where I live. Or increasing infringement fines and bus lanes which have already been extended, charging per park and ride & public transport delay paym

2a. Is there anything you would spend more on?

As above - delaying e.g. paying the full requested increase in KiwiRail track maintenance seems very unwise. People should be encouraged to use public transport if it is acceptable. In areas that these do not go couldn't it be permissible for adults to us

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

There would be no control by Auckland of the port and its operations under this proposal. It would go into private, and probably off-shore interests-their control charges. Port of Auckland is currently paying a substantial dividends to council. Even if so

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

This whole concept is putting a lot of faith in some investment company, and the performance of all of them is variable and very dependent on what is happening globally. The sell off is relinquishing any control on input by Auckland council in the port op

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Franklin Local Board Paths Targeted Rate - I don't know.

In relation to the WQTR you only give options for reducing the previously planned rate, while resuming some action this is at a lower level then previously planned. There should be an option to support this higher level.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport and safety improvements are essential, especially in promoting a healthy and environmentally-sustainable commuter culture. E.g. more protected bicycle paths especially to and around schools Note, by wanting the council to do more in this

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pay less on roading projects (e.g. Eastern Pakuranga overpass on-ramp). Instead, please prioritize public transport, walking or bicycle options - increase availability, accessibility & satisfy.

2. What do you think of the transport proposal?

Support most of the proposal

I commend initiatives to improve public transport patronage (\$50 cap) and electronic payment methods, flood recovery/network resilience. However, removing free park& rides, and only completing the currently limited cycleways is extremely myopic, forcing c

2a. Is there anything you would spend more on?

Absolutely - spend more on safety and accessibility for healthier, environmentally-sustainable modes of transport. Fund raised pedestrian crossing, protected cycleways.

2b. Is there anything you would spend less on?

Our car-centric culture is not sustainable, and citizens need easy access/ promotion of public transport, cycling, walking options. Spend less on roading or easy-access carparking to shift citizens towards environmentally and economically future-directed

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited

(AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Gain income through lease of port operations, but maintain input of governance in terms of environmental impact.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Franklin Local Board Paths Targeted Rate - I don't know.
 This support of Te Taiao is so poor, and the proposal to reduce\$ offerings to environmental projects - including decrease support for school engagement is very short sighted! Invest in future generations mindful Kaitiakitanga of our environment!
 Do more than the minimum!
 Increase Business accountability through business general rates.
 Pay as you throw makes households/businesses more aware of landfill, waste. Instead make this model Auckland-wide!

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

The Waitakere ranges catchment is an ecological taonga and needs greater commitment and advocacy to the council.

Do you have any other comments?

Do you have any other feedback?

Very concerned of \$0 budgets for enviromental services, planning and governance in planned capital spend. These are very important areas of expenditure - especially in strategic responsiveness to climate changes and increasing detrimental effects of urban

Support most of the proposal

There should be a congestion charge to encourage those who could use public transport to not drive their car

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Submission: 8589

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

We need more cycle lanes protected walking/crossing ways and separated bike/scooter paths not more car-only roads. More trains, more electric buses.

2a. Is there anything you would spend more on?

Protected cycle paths from West Auckland (further west than New Lynn)

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

1. Stop any walking and cycling projects that haven't signed the contract
2. Reduce Maori outcomes funding by at least half

2. What do you think of the transport proposal?

Do not support most of the proposal

I support and do not support about half of the proposal but there was no such option to select.

Questions are,

1. Will there be anything saying to finish the Open Loop project but delaying transition to NTS?
2. Can we pass any by-law to charge cyclists

2a. Is there anything you would spend more on?

Introduce a fine for fare evasion

2b. Is there anything you would spend less on?

No

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Work more closely and in conjunction with AT Transport and govt to get more train services - more lines, more trains. We will have to take that painful step forward and it will cost money to have a decent first world train system. Look at how spread out A

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less road tables - there are alternatives. Bolted down speed humps.

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Staff Report on the Mayors Proposals

E.g. see P97

I disagree with the option of reducing volunteers support. Staff have not considered the financial savings with long term volunteer action in helping maintain Council assets. Too much is put into NETR and assets like the over engineered tracks. Other better used services are neglected. If small support can be given more could be done by community volunteers rather than expensive contractors. Most important, better integration and roles needed between volunteer, rangers and contractors responsibilities.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Very Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Fully support the dark sky proposal.

Greater support for long term volunteers and have professional rangers

Do you have any other comments?

1/ Need to integrate local parks with the regional parks in terms of rangers activity and operations to save duplication.

2/ Need have funding to complete a practical recreation plan [with regional parks]so that operations on in focused on where there is

Do you have any other feedback?

Greater powers needed for local boards

Greater Council control over CCOs

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Not Important

LTP 2024-2034 Feedback Form

Submission: 8778

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Cycleway projects should not be axed

2a. Is there anything you would spend more on?

Reducing the cost to passengers on public transport

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

We need to keep control of the port as a vital supply line. We might want to relocate the port to utilize the existing land for public space. We don't want to have to wait 35 years for this

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

Submission: 8824

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I support the proposal for going ahead with Surface Light Rail, as proposed initially in 2018 - of a line from the city centre to Mt Roskill along Dominion Rd, and a line out to the North-West - or at least making sure any busway built is future-proofed f

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Urban sprawl. By allowing greenfield development rather than infilling and densifying existing areas, the cost of adding and maintaining the infrastructure goes up at a much higher rate than the additional rates generated by the new housing. It makes much more financial sense to densify areas like the inner suburbs with townhouses and apartments, than to build over what would otherwise be productive farmland in Drury

2. What do you think of the transport proposal?

Support most of the proposal

I support most of the plan, however I believe work on cycleways should not be stopped, and in fact more should be put in place.

I also support investing in Surface Light Rail along Dominion Rd, and out to the North-West

2a. Is there anything you would spend more on?

I want to see Auckland Council spending more to develop a surface light rail network. There has been significant design work done by Auckland Transport and Waka Kotahi on surface light rail pre-2019. Adopting these plans will allow any work to be fast tr

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

LTP 2024-2034 Feedback Form

Submission: 8839

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Waste reduction and climate change policies. Return rubbish bins, toilets, more mowing of parks.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

POAL is improving and not having the lease enables more options in the future. We need a port in Auckland to be a productive city.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Depends on the purpose of the fund. 50% could be used to build up a fund (no airport share sales) and 50% to pay for services.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Other

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Drop the Waitakere Rural Sewerage Targeted Rate. It's time we sorted ourselves out. Need to have an opt out or low refuse household discount if you remove pay as you throw. Need more specialised recycling drop off points and information about programmes. Green waste bins for food and garden waste need to be introduced and available in areas where food waste bins are not provided and available for other areas to opt in.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

LTP 2024-2034 Feedback Form

Submission: 8880

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Maintenance of stormwater drains and clearing of road drains, maintenance and dredging of streams and rivers. The clearing of existing debris and future natural plant growth - in order to prepare for the known climate events that are certain to arrive.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Some governance processes , but not that would amount to significant savings.

2. What do you think of the transport proposal?

Support most of the proposal

Reduce raised crossing, increase local speed limits where community supported, reinstate cycleway investment.

2a. Is there anything you would spend more on?

Road surface maintenance. A full audit of Fulton Hogan’s Council contracts, deliverables and costings.

2b. Is there anything you would spend less on?

Traffic management plans that don’t work at local levels.

Fewer traffic light controlled junctions (mini roundabout as alternatives).

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

POAL is a crucial strategic asset for the city. It is increasingly profitable and provides ongoing guaranteed returns but also gives ratepayers a return for a fair, controlled costs for every imported goods to the city.

Allowing a private offshore entity

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

\$1 million a week profit and more going forward could be used in a fund to hedge future non operational costs.

4d. Do you have any feedback on any other part of the proposal?

See above.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Focus on the basics so we get what we pay for. eg we pay for rubbish removal weekly so don't charge the same for fortnightly.

NO SALES OF OUR LAND OR BUILDINGS ASSETS ESPECIALLY TO OVERSEAS COMPANIES

NO investment in sports stadiums

2. What do you think of the transport proposal?

Support most of the proposal

Check that projects are priced competitively. The council appears to be wasting money hand over fist - eg the extravagant cost of raised crossings. Get rid of the orange cones. Actually do the work that has been orange coned for over a year and nothing do

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

4b. Which option do you prefer for the future of Port of Auckland?

Do not lease our port to overseas interests, especially!

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

This is an incredibly wasteful council. Can't wait for the next elections!

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

LTP 2024-2034 Feedback Form

Submission: 8956

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

LOCAL SERVICES. Regional co-located facilities are not sufficient for all Aucklanders. People need local libraries.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Cycleways.

2b. Is there anything you would spend less on?

Roading.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Stop privatising Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Council needs to find sustainable funding for sources for its day-to-day services AND invest funds for the future. Rates should fund day-to-day services.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools .	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Do you have any other comments?

One of the priorities should be implementing fixes to the chronic dangerous driving problems we see in Tlitirangi and Glen Eden, most particularly on Atkinson Road. There is an urgent need for traffic calming and speed control measures. What happened to th

Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

Do you have any other feedback?

I fully support the Fairer Funding proposal under the central proposal. It is important that equity is established for local board funding rather than based on the number of assets a local board area has.

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 9235

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Targeted weed and pest control removal rate - support for local groups to do the volunteer work (eg through places like EcoMatters).

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spend less on roads, put that to shared paths and public transport.

Less suburban sprawl, we can't afford it unless we increase the developer fees on new greenfield builds.

2. What do you think of the transport proposal?

Support most of the proposal

Don't compromise on safety. Each death and injury costs us.

Continue to create cycleways, shared paths and raised pedestrian crossings. Build it for less. Cycleways don't need bridges and gated concrete paths to start with. Even if there's a gravel shared

2a. Is there anything you would spend more on?

Safety and public transport.

Continue to create cycleways, shared paths and raised pedestrian crossings. Build it for less. Cycleways don't need bridges and gated concrete paths to start with. Even if there's a gravel shared path, that's a good cheap star

2b. Is there anything you would spend less on?

Any car infrastructure. We've spent enough on that and it costs us too much to maintain.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

Need to invest in other transport options other than cars - especially from Glen Eden west. There's numerous opportunities for shared paths and bus lanes to give people transport options.

Do you have any other feedback?

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 9327
Organisation: Epsom girls grammar school

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?
 Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do less
Water: Managing stormwater to minimise flooding and protect waterways.	Do less
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Enviromemtal things

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Road works

2. What do you think of the transport proposal?

Do not support most of the proposal

The public transport is so so bad

2a. Is there anything you would spend more on?

Public transport pls fix it

2b. Is there anything you would spend less on?

Also public transport as it currently is

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Seems like a great idea

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

- Continue to use it to fund council services
- We need better public transport

4d. Do you have any feedback on any other part of the proposal?

No not at the moment

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Because

Do you have any other comments?

They alright tbh

Do you have any other feedback?

Nah

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 9329

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Submission: 9434

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Changing to more sustainable ways, and giving up things harmful to the environment, and enforce more vaping laws.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

less things negative to the environment such as dog racing, vaping and smoking, and oil drillings

2. What do you think of the transport proposal?

I don't know

I don't understand much of it.

2a. Is there anything you would spend more on?

More sustainable and reliable methods of transport, that people can depend on for work and traveling.

2b. Is there anything you would spend less on?

Buying unsustainable cars and transportation.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Which ever way is more sustainable and better for the planet is best.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

I don't understand it.

4d. Do you have any feedback on any other part of the proposal?

Sustainability and more environmental action needs to be taken, rather than doing things for money and business.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
--	---------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
---	---------

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

Local board priorities

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Happy to pay the higher Wāitakere rural sewerage targeted rate to reflect fuel and labour costs - other than the fact we are charged full rate for two septic tanks right next to each other. There is no extra fuel, and in fact the number of tanks done in one day is higher because of not covering 'labour' while travelling to another property. Those with more than one tank (often installed as its better for the environment) could pay the new price for the first tank, and maintain the price for second and subsequent tanks. Please and thank you!

Local board priorities

Tell us why:

Could the 'refurbish Titirangi war memorial hall" (exterior) be funded by community or contestable funding? There are many local halls that could use this money so its unclear why this one in particular is mentioned as needing a specific allocation of fun

Do you have any other comments?

Love the priority of the train/traffic lights issue in Glen Eden!! Please check whether current community providers can provide better services before council trying to establish new services (i.e. just fund Dave Letele and BBM as much as possible).

Do you have any other feedback?

We received the letter to submit our thoughts as we have septic tanks on our property. We appreciate being asked, but hope that our comments hold more weight than those who don't actually have a septic tank? In the same way that we wouldn't make comments

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport, safe cycle ways, reducing speed limits and generally making Auckland a nice city to get around.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

We need more cycle ways and safety measures on roads to protect cyclists and pedestrians, not less!

However, remove the ridiculous speed table on Great North Road near Waterview/Avondale - what a completely dumb place to put a speed table...!

2a. Is there anything you would spend more on?

Cycle ways, buses, anything to get Aucklanders OUT OF THEIR CARS!

2b. Is there anything you would spend less on?

Car friendly initiatives.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improve public transport reliability, frequency and affordability. Proper Airport link via rail transfer at Penrose. Don't bother with light rail. Low cost, light weight solution for bike and pedestrian harbour bridge crossing.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Paying lots of staff that do nothing. Sort out spending of AT etc and make them provide results and be accountable for spending rate payers money.

2. What do you think of the transport proposal?

Support all of the proposal

RFT was ok. Make government see benefits. National providing for rich and going back on good progression Akl has had.

2a. Is there anything you would spend more on?

Public transport. Cheaper, more reliable and frequent!!! Cant stress it enough. Look at the best cities in the world! All have amazing public transport. Some could be cheaper, why cant we be do it cheaper and better.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I do not think there is one proposal, there are three. Weighting the questions here as being all about the 'Central' proposal is telegraphing what you want me to think, support and vote for. Deeply unimpressed. I want us to invest in public transport

2a. Is there anything you would spend more on?

I want us to invest in public transport and the environment, so electric buses, ferries, cycleways, safe walking options and more.

2b. Is there anything you would spend less on?

Building roads. Repair and maintain what we have, invest in safety improvements, but if there are limited funds, put them into public transport and associated costs.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

This is asset stripping by another name. Brown could not get support for his pet option of selling everything off in the last round of consultation, so he is trying again. These assets return money to the city and

the community, are owned by present ra

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Previous 'future fund' type proposals worked - eg Regional Council - and then the present. All gone. If the investment into a 'future fund' was real and was not robbed by future managers of Auckland, it would allow for a degree of 'self insurance' but a

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

'services provided from pool and leisure centres' and 'baseline fees across similar venue hire and bookable spaces so that they are charged appropriately. This includes community halls, community centres, art centres and bookable library spaces' How can one intelligently comment? You say before this set of bullet points 'we propose specific changes to fees. They are' but for the above two items you give no clue to what is proposed. Don't raise fees for use of community facilities. People should be able to easily (practically and financially) access community facilities at little to no cost. These are the kinds of things that make communities work well, and thrive.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I am happy to pay more for Auckland to rebalance its investment in infrastructure which has been under funded through low rates increase for years now. We need to invest more so we can have the city we need in the future - the time to raise rates is now.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I would be happy for Auckland council to sell some of its golf courses.

2. What do you think of the transport proposal?

Support all of the proposal

I support the key focus of Aucklands transport plan being the increased usage of public transport.

Creating a fast, easy to use and reliable public transport system is the only way Auckland is going to fix its traffic issues. We need to extend our rail, c

2a. Is there anything you would spend more on?

Public transport, extending the network and ensuring it is reliable, safe and easy to use. Auckland needs true public transport connections to the airport with rail connected to city rail loop and other lines.

2b. Is there anything you would spend less on?

Large roading projects

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

4b. Which option do you prefer for the future of Port of Auckland?

I am not comfortable handing over Auckland Ports operations to a corporate entity that will simply strip the ports and run them down.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

I do not support this plan

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

I completely support the current list of priorities for the Local Board. I am especially supportive of the Dark Sky project, community and library spaces and the Arataki Visitors Centre

Do you have any other comments?

I completely support the current priorities of the local board

Do you have any other feedback?

I do not support the merger of the Waitakere local board with Henderson local board or any other merger of local boards.

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 10004

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on systematic change to support healthy communities. Food growing projects, help with mental health through community programs, initiatives to help parents share child care.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Projects that don't directly support healthy and sustainable communities. Importance should be placed on human to human initiatives that make real positive changes in peoples lives. Cut funding for big businesses- especially any initiatives from companies that are profiting- like real estate and banking. Increase costs for big businesses.

2. What do you think of the transport proposal?

Do not support most of the proposal

Changing to tap and go system is good but, there is so much lacking in public transport the average person does not have time to take the bus. It is often more expensive than driving a car (and as aucklanders most people already NEED to have one operating

2a. Is there anything you would spend more on?

Cycle lanes and bike safety

2b. Is there anything you would spend less on?

Building new motorways

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

Ensuring the worst off in our communities are looked after. Increased support for food initiatives and funding to help people in need.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Keep the sport and recreation facilities investment fund

Support the proposal to add a further \$35 million to retain the sport and recreation facilities operating grant

Request a review of the facility maintenance plan to reduce costs and keep our facilities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut down high cost of salary on top level management, too many CEO, directors. Need to flatten the hierarchy and use funds pay the people on the bottom level who will actually do the work of ensuring our infrastructure is maintained and environment looked after.

2. What do you think of the transport proposal?

Support most of the proposal

Need the trains and buses to be quicker. Need to cut down number of traffic lights within meters of each that's just holding up traffic. Don't need raised crossing or cycle lanes that no one uses.

2a. Is there anything you would spend more on?

Storm water maintenance and ensuring our sewage doesn't go into stream and ocean, that is crucial for fighting floods etc. Our sports facilities, there isn't many basketball court or facility to maintain a popular sport that is beneficial for kids fitness

2b. Is there anything you would spend less on?

Too many operations managers, and workers not doing anything. Need to streamline that and pay the ones out and about actually fixing things.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and

transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I want to comment on the overall direction of the plan, not just to tick one of the 3 boxes. I want to DO MORE, but 14% is likely to be too high for most people. I suggest a lower amount, e.g. 10%, with reductions in areas the Auckland community deems t

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Although I support a number of the features, e.g. expansion of electric trains and completion of the City Rail link, I'm not sure that the measures proposed to make our public transport faster, more reliable and easier to use will sufficiently improve the

2a. Is there anything you would spend more on?

More needs to be spent on ensuring that the public transport runs effectively and safely and covers most Auckland destinations, so the public can depend on it.

Repairs where damage has been caused by flooding or other disasters or inferior materials mu

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Maintaining a well-functioning port while protecting the environment is important to Auckland. Leasing out the operation of the port could lead to a deterioration in its operation and have negative effect on the port.

A key consideration is the responsi

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

More needs to be done to improve the situation in most of the areas discussed in the Long Term Plan. Council services need to be properly funded to ensure that the what needs to be done can be well-planned and implemented.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Other
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Water Quality: The standard sought isn't sufficient. The funding of the WQTR to pre-2023/2024 budget levels should be re-established.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Support for people, community, the environment, the Waitakere Ranges, plus culture in all senses, are highly important in the area covered by the WRLB.

Do you have any other comments?

The priorities are in line with the local board plan and I agree with all of them. It is essential that the funding is provided so that the WRLB priorities can be achieved.

Do you have any other feedback?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Cycling infrastructure to extend safe cycling beyond dedicated bike paths. Remove painted median strips in the centre of the road and replace with cycling space on the side of the road.

Clean cycling paths more frequently to remove debris from cars and h

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop adding traffic calming bumps to main roads. All vehicles are different and carry different loads, which means everyone approaches at different speeds. This can be dangerous.

Stop funding movies in parks.

2. What do you think of the transport proposal?

Support most of the proposal

Efficient daily commuter transport for education and employment is hugely important and currently exceptionally bad. Diversity of modes is paramount. Initiatives to promote cycling, motorcycling, scooters, etc are needed along with integration, such as ta

2a. Is there anything you would spend more on?

Road sweepers for roads which cyclists use.

2b. Is there anything you would spend less on?

No more raised speed bumps on main arterial routes please.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

As we've seen with privatisation of energy companies in recent years, the profits will go to the pockets of the wealthy who own shares and everyone else will pay an increased cost.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Invest in the proposed Auckland Future Fund

I really think the Auckland Future Fund is important

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	I don't know
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Not Important

LTP 2024-2034 Feedback Form

Submission: 10092

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Actions to move cars and trucks off roads by improving heavy rail, public transport and alternate transport modes.

Ensure money is provided to maintain existing infrastructure and services.

Ensure AC meets its obligations to reduce carbon and methane emis

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Prioritising roads over other transport infrastructure unless the expense is to improve safety, build buse lanes and bike lanes

2. What do you think of the transport proposal?

Support most of the proposal

I do not support stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways.

2a. Is there anything you would spend more on?

Yes public transport and alternate transport

2b. Is there anything you would spend less on?

yes roads for cars

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Move the port out of Auckland. Do not sell the port operations, lease the land or sell the land.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

LTP 2024-2034 Feedback Form

Submission: 10102

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Weed control. Weeds are taking over in the west. Too many large tree privets, etc.

Is there any planning for reserves in the west? We are losing large pohutakawa on the coastline with no replacements for pohutakawa

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Focus on completing busways and cycleways.

2a. Is there anything you would spend more on?

Busways and cycleways. Lightl

2b. Is there anything you would spend less on?

Light rail projects. My preference is bus infrastructure as we have invested in roads and and it is more resilient - you can change a bus route in a day if necessary.

Stadiums.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

The port is way more crucial than the airport. It is part of Auckland and we need it. All the incredible waste

of money looking for alternates is appalling. The idea of putting it in a migrating bird sanctuary is insane. We need to own it warts and all. I

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Essentially money should be used. This is the function of a council. What is the point of saving for a rainy day if the roof is already leaking.

4d. Do you have any feedback on any other part of the proposal?

I do not support the idea of a future fund.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	
No detail provided about changes to CATTR	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

All these things are important to our area.

Stormwater is very relevant to me as the coastline around my house is 40-50% affected by slips, one large one due to a council stormwater pipe.

Weeds are out of control in many areas.

We need long term plans

Do you have any other comments?

I support these priorities. I would like to see driving on beaches banned if it isn't already (except for boat ramps).

Do you have any other feedback?

Is \$200,000 enough to address the problem of caulerpa. Eliminating this should be a high priority. It seems we are already way behind on this. The Hauraki Gulf is bad enough already.

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Organisation: Piha SLSC

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	
Water: Managing stormwater to minimise flooding and protect waterways.	
City and local development: Deliver urban regeneration and lead development of the city centre	
Environment and regulation: Protecting and restoring our natural environment	
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Surf lifesaving clubs play a vital role in our community, providing essential services to keep our beaches safe. However, many of these facilities are reaching end-of-life and are in need of replacement. Without adequate funding, our clubs will struggle t

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

With regard to Question 1C, Council has a central proposal that recommends spending more where it is needed most. Surf Life Saving facilities are a critical component of our community. They have served as temporary welfare and community centres, as well as civil defence centres during regional emergencies, including during the Auckland Anniversary flooding and Cyclone Gabrielle.

Our facilities aren't a nice to have, they are the heart of our service. Allocated funding is essential to ensure the continued operation of our clubs and the safety of beachgoers. The amount requested is minimal when compared to the benefit it will have for the region.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

“Initiatives to support community resilience and safety” should include the adequate funding of surf lifesaving facility rebuilds, Piha and Bethells especially will need help over the next few years

LTP 2024-2034 Feedback Form

Submission: 10129

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Facilitate more bus routes / busways. Small busses for areas not currently serviced.

Reduce road investment. Incentivise public transport for commute. Early adoption of congestion charge with low emission zone into city. More cycle routes. More commun

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Promote inside concept of managed retreat. Stricter controls on any low lying development proposals and new in areas close to sea. Ie, Tamaki Drive Herald Island. Sea level rise is greatly underestimated. Sell AIAL shares Airport.

2. What do you think of the transport proposal?

Support most of the proposal

See below for reasons why the proposal needs to be expanded.

2a. Is there anything you would spend more on?

More Busses, smaller bus connection routes to those communities not well served.

Less roads not more. Introduce congesting charging in the City. Low emission zone electrical vehicle charging in city centre car parks.

Discount consideration of replacemen

2b. Is there anything you would spend less on?

Reduce spending on speed humps. Use cameras or in car technology (smart window cards) to ensure speeds are low a crossings in conjunction with camera. Car Window Cards are self financing (user pays) and can be dual use for on line top up for admission

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited

(AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

The waterfront is Aucklands ISP. The port in its current location is an eyesore. 35 years is a long time lease in these changing times to lock into which lock out options to change later. Long Term North Port Whangārei train rail container might be pos

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Continue to fund services and invest.

4d. Do you have any feedback on any other part of the proposal?

Concern is long term lease may curtail council decision making later should an alternative port location emerge. Location is Auckland ISP. Opportunity to do something creative not a cake Tin sports stadium.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Restructure reduce internal staff costs

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce waste full spending. Remove cycle ways which does nothing in the suburbs

Review cape spend and reduce

2. What do you think of the transport proposal?

Support most of the proposal

We don't need stupid Phil goff and greens idea of light rail to no where

Instead upgrade existing links

2a. Is there anything you would spend more on?

Improve roading

Sell some parks

We have to many parks

2b. Is there anything you would spend less on?

Staff

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

Wayne brown is doing a great job.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know

LTP 2024-2034 Feedback Form

Submission: 10157

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools .	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

I don't know

I don't trust that the money is being spent efficiently by Auckland transport. Believe there is a lot of wastage and to be honest with the current activities they should change their name to 'Auckland Pedestrian' I can't not understand why having variabl

2a. Is there anything you would spend more on?

Public transport options for rural areas. Have council considered what seems to be a simple fix for area with no public transport but have daily school buses? An area relevant buses for fare paying public? It removes the need for extra buses, but gives a

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

The targeted sewage rate for waitakere requires review. Council encourage property owners to be more proactive and many have installed new water management systems. These new systems are required to be maintained every 6 months and can not be covered by the 3 year pump out service offered by this rate and therefore such properties should be exempt from paying the fee as are then being charged twice

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Not Important
Support arts and culture	Not Important
Library services	Not Important
Support community houses	Not Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

get a first world transport link from the airport to the city

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

auckland is in danger of becoming a third world grid locked city. Tourists must be dismayed when they come and find our laughable public transport system

2a. Is there anything you would spend more on?

electrifying the commuter rail system out to Helensville with a spur line to Albany

2b. Is there anything you would spend less on?

pedestrian tables, they slow emergency vehicles and are costing lives

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

once the port is sold or leased Auckland loses control of one of it's major assets. The port should be moved to Northport with a heavy rail link to an Auckland rail hub. Then only cruise ships be allowed into Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Any fund no matter how it is set up will be susceptible to being raided by future councils and maybe even central government for things other than those intended.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?
decrease the price of sports stuff.

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Not Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	I don't know

Tell us why:

Do you have any other comments?

yes i guess they will proceed to this priorities.

Do you have any other feedback?

Do you have additional pages to attach?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think paying the high tax rate and high property rate has already contribute enough money for the council to actually improve essential needs to people, for example transportation.

I don't think it is right to request money again from tax payers, in fa

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Spend less in cultural and art stuff, we don't have money to do fancy things now.

We need money to do essential things first. Because clearly our essential needs are not being fulfilled right now.

2. What do you think of the transport proposal?

Support most of the proposal

TRAIN TRAIN TRAIN;

Ask around all the people who work in the city centre every day, what is their ideal way to get to work. I believe most of the votes will go to the current train system.

But what we lack now, is a complete train network, and the frequ

2a. Is there anything you would spend more on?

NO.

In fact, I'm interested in how the government is managing the money they have.

2b. Is there anything you would spend less on?

Public transport.

Make is accessible, reliable, and affordable, as what you're saying.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

LTP 2024-2034 Feedback Form

Submission: 10558

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think public transport is what the city needs the most.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less speed bumps everywhere.

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

if you lease the land make sure it is to a NEw Zealand company ..would it still operate as a port or change its useage?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	
We have few council services in Piha so it seems unfair to charge us more for the sewerage.	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	I don't know
Restore ecological areas	I don't know
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Community activities are very important in small areas. The Piha library is amazing. Please keep the funding for that they are so much more than a library

Do you have any other comments?

I want to know the plan for Piha if the road collapses again? So many residents still panic when it rains a lot. Can Piha please have a skate park and improved playground. Nearly every other beach area has one. Only a very few people keep blocking one.

Do you have any other feedback?

We really need decent transport in Auckland.

Is there any kind of rates subsidy for old age pensioners. It's going to be really hard to pay rates on a pension..

Do you have additional pages to attach?

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Faster conversion of public bus system to electric vehicles only.

Make ALL future bus contracts require electric only buses on routes under 60 minutes in 2024, 70 minutes in 2025, 80 minutes in 2026 and continue to add 10 minutes each contract year. The

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Implement a force ranking system for ALL departments of more than 20 people. Combine smaller departments until they have at least 20 people.

Combine all supervisory staff as a "supervision department".

Combine all management staff as a "management department".

For every department (combined departments, supervision and management departments included) require a transparent, public, NAMED, list of each department and the ranking of each employee. Publish the list on February 1st.

On March 1st terminate the bottom 5 percent of ranked staff. Only if management can justify staffing needs then allow open recruitment to fill the bottom 5 percent by April 1st. Do this each year with the intent of removing the worst 5 percent of employees each year.

2. What do you think of the transport proposal?

Support most of the proposal

Need to increase cycleways especially in suburbs. Have a bicycle RIDER review the elevation change for every proposed cycleway with the intent of minimizing elevation changes at the expense of up to 20 percent longer route.

These cycle ways can start ou

2a. Is there anything you would spend more on?

Financial fees for blocking roads for any reason. Fees based on road type (arterial, secondary, suburban, ...) and time of day (06:00 to 23:00 vs 23:00 to 06:00). E.g. Block road costs \$1000 per hour for each lane blocked if arterial road (Hobson Street

2b. Is there anything you would spend less on?

Consulting work of any kind. Should be a maximum days and dollars limit for EVERY consulting contract with financial penalties and blacklisted for 24 months if consultant fails to complete work on time and on budget. For example, Need economic study of

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Leasing the Port is preventing future councils from acting in a way to best benefit Auckland City. For example, the lease would effectively block any reorganization of the port (in to an LA style "ship to rail to inland yard" for example) unless the lease

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

The Auckland Future Fund is simply having CURRENT residents pay for future services instead of having future residents pay. That is unfair.

"Pay as you go" should be the preferred council model (just like income taxes!) so current service users pay for

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Create, maintain and enable others to create more public transport, walking and cycling infrastructure across the region rapidly.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop investing in provision of more road space for motor vehicles.

2. What do you think of the transport proposal?

Support most of the proposal

I support the pay more-get more options, except for sealing unsealed roads (except where there is a clear and significant environmental benefit, such as reducing sediment loads going into waterways).

2a. Is there anything you would spend more on?

Accelerating work on improving public transport quality, efficiency and reliability; plus additional road safety improvements for active modes, and re-distributing road space to low carbon modes.

2b. Is there anything you would spend less on?

Spend less on reducing congestion - or make congestion pay for itself. To be equitable, people have to have quality options - quality PT, safe infrastructure for active modes - so that they can avoid congestion charges.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

LTP 2024-2034 Feedback Form

Submission: 10685

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The rural sewerage septic tank program is far too inflexible! In my case the sludge level at pumpout is usually no more than 25% of the tank. I would need a pumpout perhaps every 9 years, but you force me to pay for one every three years. On top of that there is now also a separately charged inspection which used to be originally part of the targeted rate. I do not feel that I am getting value for money here.

Since the sludge level is recorded at pumpout it should inform and adjust the frequency and timing of the next required pumpout (and the annual charge accordingly) instead of a rigid and inflexible 3 year schedule.

2. What do you think of the transport proposal?

Support all of the proposal

I support that the transport network must be efficient - previous efforts seem to aim to sabotage its efficiency for some ideological reason - speed bumps and reduced speed limits on some rural roads do make NO sense!

Concentrate instead on maintenance a

2a. Is there anything you would spend more on?

Not really more, but I feel the existing network maintenance is being neglected or even intentionally degraded.

2b. Is there anything you would spend less on?

Speed bumps, cycle ways, traffic management

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and

transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Port can be operated by other commercial entity, but make sure that the public transport aspect (ferries) is not adversely affected.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools .	I don't know
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Waitakere Rural Sewerage:

The rural sewerage septic tank program is far too inflexible! In my case the sludge level at pumpout is usually no more than 25% of the tank. I would need a pumpout perhaps every 9 years, but you force me to pay for one every three years. On top of that there is now also a separately charged inspection which used to be originally part of the targeted rate. I do not feel that I am getting value for money here.

Since the sludge level is recorded at pumpout it should inform and adjust the frequency and timing of the next required pumpout (and the annual charge accordingly) instead of a rigid and inflexible 3 year schedule.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	I don't know
Restore ecological areas	Not Important
Support arts and culture	Not Important
Library services	Fairly Important
Support community houses	Not Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Basics first - council should concentrate on essentials and keep cost rises to a minimum.

Incidentally - most walkways in the Waitakere Ranges have now been closed for many years: When will they be reopened????

Do you have any other comments?

Not enough emphasis on basics - rural road maintenance and improvements!
Too much money spent on fluff and non-basics.

Do you have any other feedback?

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

2. What do you think of the transport proposal?

Support all of the proposal

I support it because overall it will be good for the country and lower emmitions.

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

rais pedestrian crossings may not be nessisary for all spaces

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct,Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

both have good and bed points

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
so tax payers pay less

4d. Do you have any feedback on any other part of the proposal?

no

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do more gay stuff & more transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Wayne browns salary

2. What do you think of the transport proposal?

Support most of the proposal

We need cycleways

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

-

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

We should keep it in the family so to speak

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Council services are important, keep investing majority in them, but still invest in the future fund.

4d. Do you have any feedback on any other part of the proposal?

See how you can invest some money into auckland future fund, while

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I’d be willing to pay more for transport if it means public transport can be more reliant

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Well, inflation has been a big issue lately.

Although paychecks have risen, everything has been raised up by a lot more than the expected amount. Especially since the Minimum wage is only \$23.15/hour.

2. What do you think of the transport proposal?

Support most of the proposal

I agree with the majority of the proposal especially the first point stating that transport should be more reliable. As of cycleways, I feel like they should in be in places that are very necessary.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Funding more school trips and cultural trips - learn about their culture and importance in life. More options with school uniforms eg: hair should be able to be how you like, jewelry and makeup. We should be able to express ourselves and be who we are bec

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

House prices need to be lower and Petrol prices are outrageous. Food pricing is getting out of hand in NZ causing families to not be able to afford food.

2. What do you think of the transport proposal?

Support most of the proposal

Because it insists on making transport more sustainable, making transport faster, and more ethical.

2a. Is there anything you would spend more on?

nope

2b. Is there anything you would spend less on?

having the student discount re estate would be an amazing idea and would encourage students to catch public transport.

3. Which options do you support for the North Harbour Stadium?

Other

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would be prepared to pay more for the Auckland Council to do more to protect tree and wildlife areas. Things such as bushes and just big areas of land with its own ecosystem to be kept as they are and not replaced with buildings and concrete.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I think that it would be good to keep the cycleways as it encourages physical activity and reduces emmissions. Pedestrian crossing should also be kept in place for safety of the pedestrians.

2a. Is there anything you would spend more on?

I would spend more on having more efficient intersections so as to stop traffic in high population areas.

2b. Is there anything you would spend less on?

I would spend less on big highways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

no

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

no

2. What do you think of the transport proposal?

Support all of the proposal

i support all

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

no

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

no

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Libraries, parks, everything that makes living in a community awesome

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop selling things

2. What do you think of the transport proposal?

Support all of the proposal

Invest in transport please

2a. Is there anything you would spend more on?

Busses and cycle ways

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Get the Port out of the CBD. Ensure that the public keeps control and ownership of whatever is built there next. Also, please publicly name all government-relations lobbyists advocating for the sale of the Ports assets.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Would like more of increasing accessibility for all at local playgrounds and parks, eg wheelchair accessible playgrounds with accessible play.

More focus on increasing ease and safety for pedestrians and cyclists around urban areas.
Wider footpaths, cycl

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less focus on increasing car use.

2. What do you think of the transport proposal?

Support most of the proposal

Concerned that pedestrians and cyclists are going to be at risk with stopping some planned safety measures.

Walking in west Auckland is already challenging in places, particularly with a pram.

2a. Is there anything you would spend more on?

More focus on arts, culture, community events and library.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Bureaucracy. Streamline the organisation as it feels at times like many disconnected entities. Perhaps the mayor, councillors and leaders within the organisation (directors, etc.) could receive smaller salaries.

2. What do you think of the transport proposal?

Support most of the proposal

I like neither the 'pay more' nor 'pay less' options proposed. Do what you've committed to do with the money that Auckland residents give you to do so. The mayor and councillors were elected on a range of platforms. It seems dishonest to win those highly

Submission: 10861

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Do the basics, roads, stormwater, wastewater better, do less of everything else

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Arts and events

2. What do you think of the transport proposal?

Support all of the proposal

Roads and transport are basic, key services

2a. Is there anything you would spend more on?

Get rid of speeds humps, they cause MORE fuel to be burned & slow everything down

2b. Is there anything you would spend less on?

Arts, crafts and events

Do the basic better, s

Endless reports

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Auckland Council should not be managing Ports, it is not a Council activity
Farm that out, but keep the asset (land)

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund
Funding assets form cash flow is good

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

LTP 2024-2034 Feedback Form

Submission: 10870
Organisation: Zeal Education Trust

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

more youth initiative funding for pacific and maori

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Rates and speed bumps at lights

2. What do you think of the transport proposal?

Do not support most of the proposal

the time it takes for projects to be completed plays a big part. when projects finish most of the next generation are driving, then we are having to make more changes. these changes have to be rapid and fast so that it can be more efficient for the publ

2a. Is there anything you would spend more on?

spend more on upgrading rail system to reach all suburbs

2b. Is there anything you would spend less on?

speed bumps which are a waste of tax payers money

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

not sure why

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

put it in to the development of youth services for our next generation

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Fairly Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Not Important

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on sustainable integrated transport solutions. Low hanging fruit like cones won't cut it.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Just don't spend \$\$ on undoing things. Look ahead and be future focused. These are large complicated challenges that need more than a 10 year plan.

2a. Is there anything you would spend more on?

Safe connectivity to shared paths like Te whau pathway.

Completion of Te Whau Pathway.

2b. Is there anything you would spend less on?

Cones and traffic management costs.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

The mayor has changed from promoting a waterfront stadium that we cannot afford to leasing land. There is no credibility in this change in rhetoric - again transparency and balance seem to be missing in the information

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

I agree with developing the Waitipu (quarry) track.

And, I think more resources should go towards connectivity - being able to travel safely between shared paths and community spaces.

Do you have any other feedback?

Think of the future and progress things like Te Whau Pathway project. Connectivity, safe off road travel options and interfacing with the awa will add to the community and spaces we live in.

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 11008

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better access throughout the region to libraries and libraries services - more distributed and less centralised and based on destination buildings - ie holds or pickups for library holds/orders in more places.

Focus on health and wellbeing for all across

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less funding for extensive cultural celebrations. I know we have over 200 cultures in the Auckland region but we should focus more on our "unique NZ culture" and less on celebrating other cultures. It's like forcing religion on those that have no interest in religion rather than focusing on key aspects of Auckland. Council overdo the Chinese New Year, Diwali etc.... means we are too diversified and not brought together as one people.

2. What do you think of the transport proposal?

Support all of the proposal

I use public transport as much as possible and am sick of people saying how bad it is. I enjoy it, it is a lot better than it used to be and is about to be even better with the opening of the CRL.

2a. Is there anything you would spend more on?

Customer service, great train attendants are worth so much as they entertain the passengers and have to take care of unruly passengers. They need to be adequately trained and compensated.

2b. Is there anything you would spend less on?

Less consultation - the engineers and planners have access to the best information and they should spend their time on research less time talking to people who don't know anything but think they know everything. Too much people pleasing and not enough get

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Make sure you have tight KPI's for the investment firm and tight controls over the contract but absolutely outsource the operations to people who know how to do this best. Preferably Germans.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Investing in the future of Auckland is good.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
--	---------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investing in re-invigorating core water infrastructure. This is essential for every day life and cannot be delayed for future generations.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cutting any non-essential work. Whether this be in the arts, community development, business development, any and all non-essential workgroups should be looking at redundancies and closure. All government departments are doing this, all private businesses are feeling the purse strings tightening. The Auckland council therefore should also be taking extreme measures and these tough economic times.

2. What do you think of the transport proposal?

Do not support most of the proposal

The spending of Auckland Transport has been extreme and ridiculous. Heavy cuts should be made to this department with spending brought down to only critically necessary projects that are heavily scrutinised to ensure that every dollar spent will see far g

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

Cycleways, raised crossings, and converting roundabout intersections into traffic light controlled ones

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Leasing control will see greater efficiency and utilisation than what is currently being experienced by 100% control and ownership by Auckland Council

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support

Support most of the proposal

There are aspects of the central proposal that I think will discourage use of public transport such as removing or reducing lower performing bus services, proposal around delaying paying full requested increase in KiwiRail track maintenance costs, charging

2a. Is there anything you would spend more on?

The Pay more get more option spells out additions I would like to see included in the LTP.

2b. Is there anything you would spend less on?

This comment is not on what less should be spent on but a concern that working with Central Government may be an avenue to assistance with funding but can result in Cg making decisions that override the wishes of the community and Council. The early abo

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

4b. Which option do you prefer for the future of Port of Auckland?

The Port is an essential cog in the local economy, it is more than just the money it generates for Council. Private control of the Port will inevitably lead to increased costs to increase profitability to the private leasee

and so impact on the local econ

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

By council services I mean development of the waterfront as stated above. Look at the Wellington waterfront as an example of how a waterfront can be.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	
No	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

provide for necessary actions and services. I support current services at at least the same levels as is current.

Do you have any other comments?

OK provided they have adequate funding to do these things and the appropriate authority.

Do you have any other feedback?

The proposed plan does not address the results of the work being done on the reorganisation of Local Boards, i.e. mergers and the implications of this such as maintaining an adequate level of representation with devolution of powers and responsibilities

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 11119

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

A focus on non-personal car transport options would be better, including cycle and public transport.

2a. Is there anything you would spend more on?

Better rail connections or electrification of busses

2b. Is there anything you would spend less on?

New motorways or motorway extensions

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Best to build up strong resiliency for future crises

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Very Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

LTP 2024-2034 Feedback Form

Submission: 11137

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Improved cycling lanes & cycling infrastructure. Both as a form of transport (ie. In and through the city) and as a means of recreation (ie. Access to natural environments like the waitakere ranges) & linking existing trail networks). Why fir example does

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less payment for slow inefficient & ineffective contractors. Centralise as many services as possible. Stop spraying curbsides with glyphosate. Stop building raised crossing everywhere. Stop overdoing traffic safety operations with thousands of cones, significant gear cost & hundreds of people being paid to stand around or drive around aimlessly.

2. What do you think of the transport proposal?

Support most of the proposal

The main piece i disagree with is stopping planned cycle lanes. With the choked up roads & health system we have the more people that are on bikes the better. Sadly with the way the cycle lanes are today, this is not a safe option unless you live right ne

2a. Is there anything you would spend more on?

Cycling infrastructure, natural environments in the suburbs & beyond, public transport, & water.

2b. Is there anything you would spend less on?

Inner city development, raised crossings, temporary traffic management, natural environments in the inner city, road surfacing in the inner city & wealthier suburbs, council employees & contractors.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

Having the capital up front enables better planning and action for improving our city. It also allows a progression to enquire whether continuing to operate the as it and where it is, is actually our best option. Would be lovely to for example get rid of

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Auckland needs to do something to make it thrive again. It is our countries largest metropolis with an amazing array of natural environments and history. Yet it is poorly infrastructures, poorly planned, & poorly managed. This sadly makes it the most bori

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

As a student more advanced public transport, so more people would take the bus/train/ferry which would lower the number of cars on the motorway, fewer accidents and less petrol which would do good for the environment.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less roadworks/buildings if it isn't necessary.

2. What do you think of the transport proposal?

Support most of the proposal

It would encourage more people to take the bus/train/ferry which would lower the number of cars on the motorway, fewer accidents and less petrol which would do good for the environment.

2a. Is there anything you would spend more on?

If the council did this I'd be more than happy to pay an extra \$1-2 as long as the transport got fixed.

2b. Is there anything you would spend less on?

With transport, I would only think for children and the elderly to get a discount

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

I think it would be better for people's wallets but still maintaining a good job of the Port.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

I think we should continue to fund and support them as long as it's not too much and they do a good quality job of the place.

4d. Do you have any feedback on any other part of the proposal?

No

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Other
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We are in a climate crisis that is only going to be more expensive to address over time. I strongly support further climate actions such as more walking and cycling infrastructure, public transport etc.

I strongly support 'surface' light rail in Auckland

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Building on the edges of Auckland, we don't need more sprawl!. Especially on productive soils.

Sprawl requires more expensive infrastructure and even worse more congestion as it spread's out required public transport.

2. What do you think of the transport proposal?

Support most of the proposal

Auckland's road are very congested reducing economic growth and lowering productivity and further public transport, cycling and walkways are urgently required. As such I don't agree with reducing funding for raised pedestrian walkways and cycleways.

The

2a. Is there anything you would spend more on?

More cycleways, like the very successful cycle lane program in Paris over the last few years. Congestion is a major problem just getting worse reducing economic growth and lowering productivity and cycleways are a cheap, climate friendly solution.

A surf

2b. Is there anything you would spend less on?

I am not a supporter on wasting funds for a dedicated bike ferry.

I also do not support widening the road corridor, which is very expensive, the existing road corridor should be used including with cycleways and walkways.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

This would give up control of POAL and a key section of Auckland's waterfront which does not make any sense.

Also any private operation of POAL will increase costs for both consumers and for business which is the last thing we need right now.

The Port n

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Auckland Council services are funded in part by the profits and dividends from POAL for many years, and this should simply continue.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Not Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Not Important
Library services	Not Important
Support community houses	Not Important
Mana whenua relationship	Not Important
Support youth initiatives	Not Important
Waitakere Ranges dark sky project	Fairly Important

LTP 2024-2034 Feedback Form

Submission: 11216

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

New roads

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Use overseas research to improve and invest in public transport that is consistent

2b. Is there anything you would spend less on?

Building new roads

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Move the port out of Auckland and return the Moana and whenua to iwi

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Other
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	
Long term differential strategy: raise all rates for private businesses only	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Not Important
Library services	Fairly Important
Support community houses	Not Important
Mana whenua relationship	Very Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better public transport

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Get probation to do more maintenance

2. What do you think of the transport proposal?

Support all of the proposal

We need better transport

2a. Is there anything you would spend more on?

Roads

2b. Is there anything you would spend less on?

Vandalism

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

We control is better

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investing in the NETR to ensure conservation activities like pest control and regeneration continue to happen in priority areas like regional parks as well as supporting grass roots conservation led by volunteer groups. Also continuing to support the figh

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Need a balanced approach with less funding than planned so prioritising public transport and network optimisation are good priorities.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Lease is the best of both worlds. Allows retaining of land ownership while benefiting from a commercial operation managing risk and costs associated with the operation.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund
Current model not sustainable.

4d. Do you have any feedback on any other part of the proposal?

Self-insurance is a good option in a world where insurance through commercial companies is no longer a good option and premiums continue to increase.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

If you want to get rich, build roads first. Build more roads and improve work efficiency.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less money for climate change and more money for infrastructure.

2. What do you think of the transport proposal?

Support most of the proposal

Build more public transportation and infrastructure

2a. Is there anything you would spend more on?

Repair the road, repair the road, repair the road

2b. Is there anything you would spend less on?

It is recommended to increase supervision of outsourced engineering companies to reduce the waste of labor costs. To increase efficiency, do not let six people do the work while four people watch two people do the work.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?
 Invest in the proposed Auckland Future Fund

Support all of the proposal

2a. Is there anything you would spend more on?

a fleet of electric mini vans that bring people into transport hubs from outer Auckland between rush hours.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

This is an Auckland City Blue Chip operation.

It earns us a steady return.

It's super important to retain it for our children's future.

It's too risky in the hands of changing councils.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Tell us why:

You can't recreate this unique place.

It's like you can't buy this kind of environment at the supermarket.

It's irreplaceable so needs all the support it can get.

It generates cultural capital.

It generates environmental capital.

It's precious!

Do you have any other comments?

Weed eradication

Pest eradication

Stable roads

Up grade tracks

Water diversion

Tracks being brought back into operation

Do you have any other feedback?

Concern re ambiguity in some statements and potentially conflicting issues in areas e.g. 'environmental management and regulation - improve the consenting process ... through simplification, automation and analytics' inevitably means environment concerns

LTP 2024-2034 Feedback Form

Submission: 11307

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environment and transportation are the key elements for a survivable future city

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Zero funding for infrastructure in greenfield developments. Developers must pay 100% of the cost to build sprawl. There’s plenty that can be done with managed intensification.

2. What do you think of the transport proposal?

Support most of the proposal

Cycleways and other active modes are a critical part of "getting moving". This has to be re-conceptualized as a long term investment not a short term cost. AT the same time there needs to be investigation of how to achieve the goals in a smarter way. Doin

2a. Is there anything you would spend more on?

Cycleways.

Lobbying the Government to restore appropriate funding for transport in Auckland - this needs the council to work out the PR angle that will sell this. Make clear that 1960s style arterial road development is not wanted

2b. Is there anything you would spend less on?

Not one penny for east-west highway!

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

The lease proposal just introduces another layer of deferred responsibility and profit stripping. Not a good way to get the best return for citizens/ratepayers.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
Running expenses have to come from somewhere!

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Do you have any other comments?

Do you have any other feedback?

CCOs are pretty broken, but "taking back" usually means losing lots of prior knowledge and a big period of confusion. Maybe not now?

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Yes - govern Auckland for the collective good of all while prioritising initiatives such as public transport that address the causes of climate change

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less provision of public land for expensive golf courses for a tiny minority of rich people to use. Use Remuera Golf Course land to build public housing or sell it and put the money into visionary public transport projects

2. What do you think of the transport proposal?

Support most of the proposal

I support creation of more cycleways to make cycling safe and enjoyable and get more cars off the roads.

2a. Is there anything you would spend more on?

A more efficient and affordable public transport system. Retain half price fares - or better still make it free

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Regulate vehicle noise, including from moving vehicles.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Do not support the 3rd proposal "stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways."

Those initiatives that would enable more cycling and pedestrian options for people are extremely important for Auckland

2a. Is there anything you would spend more on?

Improving and building more pedestrian pathways separated from vehicle traffic.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

35 year lease would lock up the port area and prevent any change of such an important area of the city for decades.

Extremely undemocratic for a council elected for only 3 years to make a plan for 10 years that would

somehow lease a huge part of the cit

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

- Continue to use it to fund council services
- Do not support the creation of the fund.

4d. Do you have any feedback on any other part of the proposal?

Council should retain all shareholding of the airport and operation of the port.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Other
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	Support

Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Water quality targeted rate should be increased, water quality needs to be improving in the city, not just maintained at the current poor level.
 NETR should not go towards kauri dieback, it is a natural phenomena and is unstoppable.
 Senseless to close public areas and waste money on a pointless and totally unnatural cause.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	I don't know
Local climate action	I don't know
Restore ecological areas	Very Important

LTP 2024-2034 Feedback Form

Submission: 11526

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I don’t support stopping raised pedestrian crossing and cycleways

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Better financially long term

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

That is what is important to me

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

They all sound like initiatives that would greatly enhance the area that I live in

Do you have any other comments?

All good

Do you have any other feedback?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Concentrate on core services only that benefit ALL Aucklanders not specific minority groups.

2. What do you think of the transport proposal?

Support most of the proposal

Do not support the cap on public transport use. This is unlikely to change habits and will increase costs for rate payers.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Cycling projects. This will not make a tangible difference due to the terrain in Auckland. Cycling is not a feasible option for most people in their day to day lives.

3. Which options do you support for the North Harbour Stadium?

Other

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

This would provide better long term returns for Auckland.

Retaining the current situation creates uncertainty as to the location of the port. Moving the port will be VERY expensive and will come to either ratepayers and / or tax payers to fund the new p

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Need to think long term about how we will fund future operations.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

LTP 2024-2034 Feedback Form

Submission: 11737

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do less
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Leave the Port of Auckland as it is. You can take Cooks wharf and Marsden but leave Bledisloe so that they can add Cruise amenities and a Customs building. I will be a great first impression for Auckland if Cruise

can grow and bring wealth into Auckland.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

6a. What do you think of these proposals?

Support

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Either resume or increase NETR

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Wider water safety education to enable all children across Auckland to access this essential knowledge to keep them safer in, on and around the water.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Better public transport from NorthWest Auckland. Get the train going from Helensville. Improve the roading and minimise the pot holes.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

I think this would serve Auckland well over the long-term and enable investment in community aspects of value.

4d. Do you have any feedback on any other part of the proposal?

I support Drowning Prevention Auckland and all of the work that they do to keep people safe in, on and around the water. More investment is needed to reach the breadth of our community and ensure that new to New Zealand citizens get the education and know

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Footpaths in Huia

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop building speed humps on our roads.

Stop wasting money on raised pedestrian crossings

Stop funding large entertainment events.

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Extend rail to the airport

2b. Is there anything you would spend less on?

CRL

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Fairly Important
Restore ecological areas	Fairly Important
Support arts and culture	Very Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Not Important

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less bureaucracy. Devolve decision making closer to the work face and cut out a layer of middle management. Cut communications staff and democracy advisers among others.

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Other

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

I don't support this. Council have done a poor job of running the port

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Waitakere Rural Sewerage Targeted Rate: It is not necessary to pump out tanks every 3 years. We lived on farms for 20 years and never had our tank pumped out. It functioned perfectly well. If you persist in tank pump outs included the drainage field inspection in the fee.

Local board priorities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

We are a storm impacted community and household, so increasing storm response, resilience and readiness is a high priority for us. Increasing capacity to proactively prevent flooding and landslides (including the making space for water initiative) and sup

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

You could pay the mayor less. Just joking.

2. What do you think of the transport proposal?

Support most of the proposal

I disagree with stopping some previously-planned initiatives, such as some raised pedestrian crossings and cycleways

2a. Is there anything you would spend more on?

Exploring initiatives such as rideshares, subsidising carpooling, thinking about smaller buses or large vans for moving people where large buses are inappropriate, (such as from Piha and other remote areas to Auckland Central). More cycleways. Maintenance

2b. Is there anything you would spend less on?

New roads that just encourage more people into cars.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

4b. Which option do you prefer for the future of Port of Auckland?

I do not feel I am adequately informed to know the impacts of selling POAL.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Te Wao Nui a Tirewa Waitakere Ranges is an extraordinary area, I support all the initiatives above, plus the below initiatives being advocated for -

:

- funding for community recovery and resilience in response to last year's storms
- the Natural Environm

Do you have any other comments?

I am in support of the proposed priorities.

Do you have any other feedback?

I support co-governance models and initiatives, and Te Tiriti o Waitangi being upheld.

I would like an increase in support for storm and flood impacted people. The current approach of supporting only those that are deemed intolerable risk to life is leav

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

invest in better transpo

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

As a student, I think that pub transpo is integral as we need to use the buses/trains to go to school

2a. Is there anything you would spend more on?

Transportation/Also safety inside the vehicles

2b. Is there anything you would spend less on?

none

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Fairly Important

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I cannot say this loudly enough, I want mature trees to be protected.

I want to see more parks created. There is so much high density housing cropping up with minimal carparks and no green areas. This just clogs up residential areas and takes value away

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

An efficient train network system

A shuttle bus service to outer villages in the Waitakere Ranges Heritage Area

Pls open track entry points in the regional park.

Construction of cycleway from New Lynn to Henderson along rail line.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Council must maintain full control of ports. To have outside investment which does not necessarily have

Auckland residents interests at heart is too risky for a piece of land that is so critically intertwined with the social and cultural hub of the city.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Noxious weed management in Parau and Huia.

More roadsde cleaning/clearing and weeding

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

The arts, galleries, music and cultural events. While lovely to have our infrastructure needs more funding over this sector.

2. What do you think of the transport proposal?

Support most of the proposal

Cycleways are OK but expensive. Raised pedestrian crossings are just a nuisance especially if you are in an ambulance.

2a. Is there anything you would spend more on?

Prompt fixing of damage to road surfaces.

Cleaning up road verges, footpaths and weed-covered islands.

Subway

2b. Is there anything you would spend less on?

Raised pedestrian crossings, cycleways.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Focus on those that are in the outer cities. The train service and bus service are a shambles...three times have had to use a car because the trains were not running when trying to impress overseas guests...they just laughed

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the amount of development in the Queens street down town area....no-one from the outer areas goes to Queen street its dirty rundown and a disgrace. The outer city centers are 100 times better less dirty more friendly and functional.

the making of a "super City" has failed and yet the dead horse is still being flogged.

2. What do you think of the transport proposal?

Do not support most of the proposal

Seriously you seem to think we want to go to CBD. why not try to strengthen the urban areas. Do you know how many cars a week go to and from Piha and surrounding areas. Is there any public transport....no was there public transport Yes but it was stopped.

2a. Is there anything you would spend more on?

Rural ring roads

2b. Is there anything you would spend less on?

The CBD

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

It seems to make sense

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

it may slow the rates increase.....the rates are driving people away from Auckland...four family members this year have gone to Dunedin, ChristChurch, Napier, and New Plymouth for a better house and living situation

4d. Do you have any feedback on any other part of the proposal?

No

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Waitakere Rural sewage targeted rate . we catch Rain water, we have our own three stage septic system it is checked 2 times a year and allegedly a report is sent to some one. For this we pay around 200 each report. I don't want to pay more for those who can use town supply.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Fairly Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Not Important

Tell us why:

with the largest Land mass in the Auckland area and while not heavily populated there must be considerable cost in managing and implementing policy for this area. Comparing other areas Waitakere Ranges seem lightly funded

Do you have any other comments?

If you live in GE or Titirangi its all good. Anywhere else it seems it is minimal. When will there be services that are readily available to "townies" be available to those of us who tread the broken (if they exist) footpaths and who take their lives in t

Do you have any other feedback?

No

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Climate action via low emission public transport, walking and cycling infrastructure. Out of scope but higher density! 15min city yooooo

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I disagree with pulling back on cycleways. I think they're an excellent alternative to driving and I'd love to see the network affect amplify their usage. Cruising past gridlock traffic on the North Western and journeying through parks is waaaay better th

2a. Is there anything you would spend more on?

Cycleways!

2b. Is there anything you would spend less on?

If the option is PT and cycleways OR simply adding road lanes, then less on lanes please for the love of god. That said speed bumps on arterial routes are also annoying lol. WHY in the middle of great north road?? RIP Glen Eden what a mess.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

I prefer keeping options open long term. As I understand it, the 35 year lease may prevent repurposing of the port land for at least 35 years. I think that's fairly stink. While I'm not 100% convinced on plans to move the ports, I think the option should

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

I'm actually kind of split on this one, I'm not inherently against the Auckland Future Fund!

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Auckland Council's proposed Long-term Plan 2024-2034 lacks consistency with Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan. Auckland Council is not meeting it's own stated responsibility to address climate change and urgently reduce emissions.

The three op

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

By working with local providers, and supporting their upskilling where needed, council could save money on a range of delivery costs - such as at events and maintenance.

2. What do you think of the transport proposal?

Support most of the proposal

The proposal should do more to support Auckland Council's commitment to the Transport Emissions Reduction Pathway, and Te Tāruke-ā-Tāwhiri, Auckland's Climate Plan by recognising the important part played in emissions reduction by Public Transport, Walkin

2a. Is there anything you would spend more on?

Increase the option to choose safe, sustainable, efficient and cheap transport options by delivering a well-connected Cycle network. The network can be delivered quickly and cheaply by reallocating road space and using rubber or concrete protectors. To co

2b. Is there anything you would spend less on?

To achieve our climate goals and create an efficient, affordable transport system we should stop widening roads and instead reallocate space to Public Transport, Walking and Cycling networks.

A Bike Ferry across the Harbour is an ineffectual solution for

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

A safe and resilient community is one that is aware of Climate Actions and is supported to deliver local programmes that reflect themselves.

Do you have any other comments?

Support - the initiatives that increase access to PT and active modes are crucial. Greater maintenance and resilience around climate change risks will help build a strong community.

Do you have any other feedback?

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 12855

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Prioritise providing a functioning and subsidised public transport system across Tāmaki Makaurau. Prioritise more provides to reduce drivers licensing waitlists for safer roads therefore reducing the DSI. Improve Tāmaki Makaurau water sustainability - address enhancing grey water reuse systems and private water devices/water tanks. Safer CBD.

2. What do you think of the transport proposal?

Support most of the proposal

Previous and current rapid transport are not rapid - only the name is.

2a. Is there anything you would spend more on?

Better use of spending, not more. Network optimisation - removal of bike lanes where it is impacting traffic flow, e.g., Mount Albert intersection. Remove trucks during peak hours and enforce use of the slow lane only from Albany to Dury.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Tāmaki Makaurau need these funds now to uplift our small to medium businesses in turn our economic growth and wellbeing.

4d. Do you have any feedback on any other part of the proposal?

Focus on the greatest need across all council services and deliverables. This is not the ports, or stadiums and potentially not a future fund.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Not Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Not Important
Waitakere Ranges dark sky project	Fairly Important

Submission: 12908
Organisation: Glen Eden Business Association

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
--	---------

Water: Managing stormwater to minimise flooding and protect waterways.	
---	--

City and local development: Deliver urban regeneration and lead development of the city centre	Do more
---	---------

Environment and regulation: Protecting and restoring our natural environment	
---	--

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	
---	--

Economic and cultural development: Major events funding and economic development	Do more
---	---------

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	
---	--

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates Do not support

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support the arts, diverse cultural activities ,libraries- all of those things which make city civilised and a community of people rather than a collection of individuals.

As part of such an aspiration, it is important to i.prove public transport, cycleway

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

Cycleways, reducing private vehicle use and fossil fuel emissions should be crucial. And take no notice of business owners who object to fewer cars in their precincts- overseas experience sbows that fewer cars, good pexestrian access IMPROVE business.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

LTP 2024-2034 Feedback Form

Submission: 12966

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

NO - Major savings can be achieved by stopping AT from wasting money on ANY speed ramps/speed humps and more unnecessary traffic lights placed in between existing controlled intersections. - This money should have been spent repairing EXISTING damaged roads

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do NOT allocate ANY funds to Tupuna Maunga Authority for tree felling. - This is not only an egregious and unnecessary waste of money, it is environmental and natural amenity vandalism, and absolutely contravenes A.C.'s Climate Change pledge and obligations to ALL Auckland residents.

2. What do you think of the transport proposal?

Don't support any of the proposal

I cannot support ANY proposal to fund AT, as long as it wastes our precious money and resources on unnecessary speed ramps/ humps and extra traffic lights, when the priority should be fixing what needs fixing - e.g. roads that were damaged during the flood

2a. Is there anything you would spend more on?

See above. Money just needs to be re-directed to priorities.

2b. Is there anything you would spend less on?

See above. - Unnecessary, wasteful speed ramps/humps, and unnecessary extra traffic lights between existing intersections.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

The lease is too long to tie things up with an uncertain operator and result. Also, I do not agree with the Auckland Future Fund that has been proposed.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
(As per my previous answer.)

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	
Discontinue the Long Term Differential Strategy for business rates	
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Not Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

We are ONE community, ONE local environment. 'Investing' money in a relationship with Te Kawerau a Maki is a waste of resources which should be channeled DIRECTLY into the environment to benefit ALL the people of Auckland - and visitors.

Do you have any other comments?

As per above answer.

Do you have any other feedback?

I have already outlined my views on the CCO model that is exemplified by AT.

'Autocratic Transport' would better describe AT's egregious and unnecessary waste of public money and resources, without proper accountability.

I absolutely disagree with the cu

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Walkways, better and brighter street lighting

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cycleways

2. What do you think of the transport proposal?

Support most of the proposal

Make public transport faster, more reliable and easier to use by investing in rapid transit network actions,

2a. Is there anything you would spend more on?

Better roads and public transport and clean water for all.
public/community hubs and park, reserves etc.

2b. Is there anything you would spend less on?

Cycleways

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Protect and Keep Auckland's assets with the council for the betterment of Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Keep all Auckland assets with Auckland Council, in trustworthy hands.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Other
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

Current cycleways underutilized. Needs to be cost justified safety - proposal says safety measures will save lives. how many? comments too vague

2a. Is there anything you would spend more on?

Sort out rail properly - extend western rail to Huapai-Kumeu Plan, as priority - Harbour crossing.

2b. Is there anything you would spend less on?

Cycle ways, speed humps, unless there is solid evidence of cost justification. Bike shed, at Sunnyvale station, very flash but never used!

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

A future fund needs considerable investment. Perhaps determine level at which part of the return is used to fund council, reconsider to Future Fund.

4d. Do you have any feedback on any other part of the proposal?

Self-insurance is worth considering: - have a major excess to cover significant events?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Franklin Local Board Paths Targeted Rate - I don't know.

There must be a continued emphasis on water quality & the natural environment.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

What is the laneway project for Glen Eden. the Henderson/Massey roadway changes in the Henderson was a complete fiasco. Spent a lot of money without community input the undid it all. Don't repeat this!

Do you have any other comments?

Do you have any other feedback?

How many Maraes are needed TeHenga TeStates? Ok to have them but should council/Rates pay for them. Any development on Flood prone areas must stop. Retreat from flood prone areas must be prioritized. What does partner to reduce harm & Improve safety mean?

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 13023

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I notice that none of the major projects serve West Auckland so I would like to pay less since I will not benefit from developments.

2. What do you think of the transport proposal?

Support most of the proposal

I do not agree to the proposed congestion/time of used charges. We do not have and will not be getting any meaningful alternative PT options in West Auckland.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	
I can get a private septic tank cleanout for \$720 or less which is a lot less than the proposed increase the Council will charge. We are not able to opt out of Council service which does not allow me to find the cheaper option.	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	I don't know
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

Do you have any other feedback?

I do not support congestion charges. We do not have viable alternative options in West Auckland. We cannot compare ourselves to the likes of London, Singapore etc as we do not have a world class PT system. This is a desperate move to try to get people of

Submission: 13137
Organisation: Asian Family Services

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investment in wellbeing programme

Investing in social wellbeing programmes from council is important to the Asian and migrant community because it can help address the mental health and wellbeing needs of this community. Studies have shown that Asians an

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Don’t support any of the proposal

The issue at hand necessitates addressing the inadequate investment in a well-connected, punctual, reliable, and incentivized transportation system. This is particularly crucial for students, individuals facing financial difficulties, and seniors who woul

2a. Is there anything you would spend more on?

To encourage more people to use public transportation in Auckland, there could be increased investment in several key areas:

Infrastructure Expansion: Expanding the coverage of the public transportation network, including bus and train services, to reach

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I do not support 'time of use' pricing as a means of reducing congestion, specifically on the north western motorway. The effect of doing this will increase the number of cars using suburban streets which I use to travel to work because the motorway does

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

I think it is acceptable for council to remove the council-funded extension of the SuperGold subsidy programme for afternoon peak services (e.g. 3pm-6.30pm).

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

I am happy for a company to lease the land and run the port as a profitable venture. However, as stated there needs to be conditions to ensure that the port meets the council values as well as environmental and public interest requirements.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Half in each? It would be a shame not to contribute to the Auckland Future Fund but this should not be at the expense of ratepayers.

4d. Do you have any feedback on any other part of the proposal?

I agree with partial self insurance alongside external insurance cover with higher excess, to create a reduction in insurance premiums.

Transfer the port land ownership to Auckland Council so the council directly owns the land. This creates a simpler owner

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I am unsure about reintroducing recycling charges for schools because they are not businesses and do not generate any income. Will this be an increased cost, and how much more?

I am also unsure about introducing a rates funded refuse collection where I live in Waitākere. I only put my small rubbish bin out every 2 months and feel that I will be paying more if a flat fee is introduced.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Very Important

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support Speedway instead of continuously trying to shut it down. It is such an iconic family orientated activity, far more than many other sports yet CCO's are too caught up in their own agenda to support it and help it grow, the way it deserves to.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money on installing speed bumps or traffic lights on every piece of road throughout the region.

On one stretch of road in Glen Eden, there are 5 sets of lights with maybe 1km, as well as multiple speed bumps on the same road. It has completely stuffed up the traffic flow through the area and is just incredibly poor planning

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investing in environmental programmes delivered under the Natural Environment Targeted Rate and Water Quality Targeted Rate.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Owning of golf courses, these should be sold (to reduce debt or invest in the Auckland Future Fund) or repurposed as alternative green space that is accessible and beneficial for a much larger number of people than use as a golf course allows.

2. What do you think of the transport proposal?

Support most of the proposal

Needs more focus on public transport and active modes, especially cycling and increasing public transport frequency and reliability.

2a. Is there anything you would spend more on?

Public transport and active modes, especially cycling and increasing public transport frequency and reliability.

2b. Is there anything you would spend less on?

Roading projects that benefit mostly private low occupancy vehicles, over-consulting on projects.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Other

4b. Which option do you prefer for the future of Port of Auckland?

Maintaining control of our critical infrastructure is paramount. Also concerned about profit driven increases in costs given the monopoly position of the port and these costs being passed on to consumers of all goods flowing through the port.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

No clear preference based on the information given, but I don't support cutting Council services so if Port of Auckland profits and dividends are to be invested in the Auckland Future Fund this should be 'paid for' by higher rates rather than cuts to Coun

4d. Do you have any feedback on any other part of the proposal?

Of the options on pages 57-58 of the consultation document I support Option 3 the most, followed by Option 4, then Option 2 and I am strongly opposed to Option 1 (the proposed option).

I don't support cutting Council services so if Port of Auckland profit

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Other

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Natural Environment Targeted Rate - strongly support Option 4 (Resume at previously planned level and increase at 3.5% per year).

Water Quality Targeted Rate - support either Option 3 (Rate set to fund programme and repay capex over 30 years rising at 3.5% per year) or Option 4 (Rate set to cover only annual programme operating and interest costs in each year) as these both seem to deliver the full proposed package of investments and benefits, just differing in how the rates, payments and debt related to this is structured.

Roll out of rates funded refuse collection - support, but only if smaller capacity bins at lower cost are made available so that lower generation of refuse is still encouraged and incentivised with a financial benefit to doing so.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

Do you have any other comments?

Strongly support all identified priorities listed, and also strongly support a lot of the items identified as requiring advocacy to the Governing Body or other entity, especially to fund a shared path from Glen Eden to Sunnyvale, and to develop a solution

Do you have any other feedback?

I am strongly opposed to any cuts to Council services or investment in infrastructure or environment, and would prefer larger increases in rates, even above any of the options presented, rather than seeing any service or investment cuts. If central govern

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Have an annual programme of cleaning out stormwater drains around the city, clear streams and rivers of built up debris and vegetation and maintain good water flow which will not impede flow during heavy rain events.

Increase funding for tagging removal a

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No.

2. What do you think of the transport proposal?

Support most of the proposal

I support most of the transport proposals, and would like to be able to pay fares by mobile phone, however I don't agree with stopping some cycleway programmes.

2a. Is there anything you would spend more on?

Spend more money on mini roundabouts to solve a junction issue, instead of expensive and clogging traffic light system.

2b. Is there anything you would spend less on?

Traffic management plans. Cut the red tape.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

POAL is a crucial strategic asset for the city. It is increasingly profitable and provides ongoing guaranteed returns but also gives ratepayers a return for a fair, controlled cost for every imported goods into the city.

Allowing a private offshore enti

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

\$1 million a week profit and more going forward could be used in a fund to hedge future non operational costs.

4d. Do you have any feedback on any other part of the proposal?

No.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
--	---------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
---	---------

Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
---	---------

Discontinue the Long Term Differential Strategy for business rates	Support
---	---------

Re-introduce recycling charges for schools.	Support
--	---------

Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
--	---------

Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
---	---------

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

LTP 2024-2034 Feedback Form

Submission: 13287

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Investing in environmental programmes delivered under the Natural Environment Targeted Rate and Water Quality Targeted Rate

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

-operating grants for arts and culture programmes delivered by our community arts partners, such as Te Uru
- initiatives to support youth/rangatahi

2. What do you think of the transport proposal?

Support most of the proposal

Please fix the trains.

2a. Is there anything you would spend more on?

Trains.

2b. Is there anything you would spend less on?

Ferries.

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

I don't believe the Auckland Future Fund will actually happen.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
Most helpful use of money.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Not Important
Restore ecological areas	Fairly Important
Support arts and culture	Not Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Not Important
Support youth initiatives	Not Important
Waitakere Ranges dark sky project	Fairly Important

Tell us why:

I don't think we'll execute most of these anyway.

Do you have any other comments?

To develop a solution to the conflict between traffic and trains at the level rail crossing in Glen Eden - PLEASE

Do you have any other feedback?

LTP 2024-2034 Feedback Form

Submission: 13316

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Greater investment in Rail, bike infrastructure, and walking improvements.

Greater enforcement of existing laws, including having additional noise compliance and parking monitors.

Crack down on Auckland Transport to delivery Council priorities.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop enabling housing at the City Fringe - this costs more than infill development. The money spent there could be better spent improving existing networks.

2. What do you think of the transport proposal?

Support most of the proposal

I support:

Time of use charges on the motorway

Completing the CRL

The proposed cap on public transport

Funding of walking and cycling

2a. Is there anything you would spend more on?

More walking and cycling connections

More for improving rail, including removing level crossings

Planting street trees

2b. Is there anything you would spend less on?

Widening existing roads

Funding greenfield developments

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

This loses Council control of the waterfront, and loses out on guaranteed longterm payments.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less speed bumps the amount to road works and traffic’ that is caused when building these let a long the damage they do to the rest of the rode which then other trades people have to come and fix.

Also please don’t increase the rates we can’t survive we will have to sell and leave Auckland

2. What do you think of the transport proposal?

Support all of the proposal

Great idea for stoping the construction of raised crossing

2a. Is there anything you would spend more on?

Roundabouts - don’t know why we’re taking them away and putting in traffic lights that cause more traffic.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Make public transport 24/7

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop spending on bike paths

2. What do you think of the transport proposal?

Support most of the proposal

All the money spent on public transport and the service is still hit and miss

2a. Is there anything you would spend more on?

Stopping crime in the city.

2b. Is there anything you would spend less on?

Speed bumps

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Once again the port is a gate way to our city cruise ship visits keep going up every year.

These visits make millions for the city by them selves.

All of the land that has been given back to the city has either been snapped up by big business or has sat

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

A future fund would get so fragmented by all the interested parties it would wind up being not beneficial to anyone.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Reforest regional parks that are bare and have cattle on them. Increased enforcement of polluters into our waterways.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Yes, urban regeneration to assist developers is not a core service I want to pay for. Stip Leaf blowing and unecessary mowing of grass. Large buses on one lane roads in Titirangi transporting one or two people. Put on minivans.

2. What do you think of the transport proposal?

Do not support most of the proposal

2a. Is there anything you would spend more on?

Bus system could be good but its like a dinosaur slow and unreliable. Put on more regular services in smaller vehicles to gain peoples trust.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

What safe guards would be put in place to ensure that after 35 years of private ownership the assets are completely sweated and require billions of investment to set the port for the future. This happened with countless power distributors through NZ. Let'

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Invest in the proposed Auckland Future Fund

We need to start planning long term, yes some potentially serious short term pain, but those that come after us will reap the full benefits.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important
Support community houses	Fairly Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Fairly Important

Submission: 13366

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

Do less

City and local development: Deliver urban regeneration and lead development of the city centre

Do less

Environment and regulation: Protecting and restoring our natural environment

Do less

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

As proposed

Economic and cultural development: Major events funding and economic development

As proposed

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

Auckland City has grown so much - we need to concentrate on optimising the public transport/cycle ways etc.

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Improve profitability of the port but preserve it for the citizens of Auckland.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Income should be used to fund council services as it is a council asset.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Instituting more creative art practices and endorsing the general arts more heavily.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal

Students can't afford to use public transport if the rates of the coasts are too high.

2a. Is there anything you would spend more on?

No, because I'm a student, and can't afford to spend more on transport.

2b. Is there anything you would spend less on?

Transport. Because I can only afford so much on top if food and rent.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Maintenance of current infrastructure and services. Reliability of services. Growth and sustainability.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Not applicable. See answer above - good services rely on proper funding.

2. What do you think of the transport proposal?

Do not support most of the proposal

Overhaul of the payment system is not where the focus should be.

The frequency of buses is a problem, along with the high price of tickets.

We can't keep relying on already outdated infrastructure to see us through.

Encouraging raised pedestrian crossin

2a. Is there anything you would spend more on?

Maintenance!! Potholes are becoming more and more concerning.

2b. Is there anything you would spend less on?

No.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

This is in the best interest of Aucklanders, as well as being done in partnership with tangata whenua

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

These services need to continue and rely on funding

4d. Do you have any feedback on any other part of the proposal?

Keep our assets, do not sell anything.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Better Environmental Protection and attention to climate change

Public transport for example for west coastal villages

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Economic Development

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

Cycleways

2b. Is there anything you would spend less on?

Motorways and arterial routes used by vehicles

3. Which options do you support for the North Harbour Stadium?

Other

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
A combination of options 1 & 2 above

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support

Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

We support resuming the Natural Environment Targeted Rate (NETR) to previously planned levels, with an increase at 3.5% per year and Option 4 for NETR expenditure (Supporting Documentation, Attachment D, pg 444-451). We also support the return of NETR reserves that were diverted to enable lower rates previously.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Fairly Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No further path building in the Waitakere Ranges.

2. What do you think of the transport proposal?

Support all of the proposal

Auckland Council needs to address the problem of gridlock which is occurring more frequently and costing Aucklanders dearly.

2a. Is there anything you would spend more on?

No

2b. Is there anything you would spend less on?

More roads. These add to congestion.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Lease of the Ports means less control of this income-generating asset.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

The money should be applied now to ease the ratepayer burden.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	
Discontinue the Long Term Differential Strategy for business rates	
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Fairly Important

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Bring back our rubbish bins!!!! Leave the residential rubbish collection at weekly,,,,,get the storm water drains cleared.....

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less \$'s to AT who are wasting the money on speed bumps and making some dubious decisions....Less high level management to cut staff costs-this would be a great start and important one...less funding or no funding for neighbourhood street parties in this economic climate....stop intensifying suburbs like Te Atatu Peninsula as there is not sufficient infrastructure eg roads(reducing lanes to install bus lanes for peak hr use which are not always in high demand as opposed to the number of cars trying to get off the Peninsula) and water pipes(the latter which keep breaking and then also overflowing in rains, also becoming not enough permeable land the floods being an example.....

2. What do you think of the transport proposal?

Do not support most of the proposal

No toll fees on busy stretches of some Auckland highways eg Te Atatu to Lincoln Rd - this is ridiculous that you only want to charge some people whereas Auckland is busy in rush hour everywhere.....stop the speed bumps and raised crossings costing a fort

2a. Is there anything you would spend more on?

Widening roads to out in another lane where you have taken lanes away for buses - agree should have buses and lanes but not taking away car lanes rather implementing another lane...regional fuel tax so the money is spread across all users as opposed to ju

2b. Is there anything you would spend less on?

Making bus stops jut out into the roads blocking lanes,

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Definitely not the Auckland Future Fund please

4d. Do you have any feedback on any other part of the proposal?

Not this: and possible changes to the council's shareholding in Port of Auckland Limited and to the ownership of the port land...

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
--	---------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do less
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

none

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do less road improvements,

less park improvements, maintain existing

remove the RUC of diesel because diesel is already expensive, similar price as petrol

2. What do you think of the transport proposal?

Do not support most of the proposal

the public transport is already very expensive, how could you convince people to use it with high fare and low reliability.

2a. Is there anything you would spend more on?

no

2b. Is there anything you would spend less on?

just maintain the existing

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

private management, not council's priority now

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
just circulate the money to do the current urgency

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environmental mangement that goes well beyond the minimalistic/inexpensive targets of the "do more/pay more" option.

Require WaterCare to acheive regulatory compliance with >99% of its stormwater assets. I really think its a poor idea -- robbing t

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

Review the ATAP report of 2018, to figure out what projects have been dropped to fit within the proposed \$13.4b funding envelope; and consider what additional transport projects are now required due to the unexpectedly-rapid population growth in some part

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

I'd encourage you to put *much* less emphasis on cash dividends to Council, and more emphasis on improving (or at least maintaining) the capital value of the asset. A narrow focus on dividends (or even on

current-year profitability) could cause a cash-cow

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Yes please please please start to salt-away the *dividends* from the POA and the AIAL and other cash-generating strategic assets in a long-term fund that could be drawn upon in a *real* emergency -- rather than one that's merely delaying what I see are th

4d. Do you have any feedback on any other part of the proposal?

Self-insurance is a *long* way away for this cash-strapped Council! Selling off the AIAL shareholding and leasing-off the POA land won't raise anywhere near enough capital to prudently self-insure, especially when political forces are so strong to suck 5

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

LTP 2024-2034 Feedback Form

Submission: 13601

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Invest heavily in proper underground MTR subways like what you get in Hong Kong and Tokyo, Bullet train style linking Auckland CBD to Hamilton CBD.

Use trains more to freight and transport from ports.

Parking facilities at park and rides in urban areas

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Stop wasting money on having multiple traffic trucks out. All road works are to be done at night. There should be no reason this cannot be planned properly that any road works that need to be undertaken are all done at night with zero disruption during the day. This costs businesses and people loss of time and money.

Stop wasting money of consultation fees and red tape. If it needs building, build it. It vital for info structure do it.

By the time you spent years o and tears on running consultations etc by the time 8 or do years later your ready, the project is 10x more then it could have cost.

2. What do you think of the transport proposal?

Support all of the proposal

Cycle ways are a waste of space and resources for the population we have. We need fast public transport do thst it actually gets used.

2a. Is there anything you would spend more on?

More well networked train systems, busses and ferries. You sort this out the roads free up.

Roads free up more speed on cargo and the day to day worker. Efficiency is key. Keep It simple stupid.

Do the basics well everything else falls into place

2b. Is there anything you would spend less on?

Cycle lanes, trying to cap how high buildings csn go.

More people in areas mean more usability for services and public transport. More people use this then

costs are spread out more equal lower fees.

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Move ports to northland, develop into financial Hub and apartment living, but retain full ownership of the land.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I would like to see more investment in emergency money put aside for the oncoming environmental and climate issues that will almost certainly be occurring with an evermore frequent presence.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less of this whole ten year plan nonsense, you have an elected timeline of three years yet you want to entrench decisions and buffers that align with a small narrative that will impact us all, this whole cry wolf, cry poor, cry moderate voice of reason is clearly due to the whims of someone with ulterior motives.

2. What do you think of the transport proposal?

Do not support most of the proposal

As with most erroneous decisions to do with transport and roading from Aucklands history, this is once again DOA before it could be of any use, you're effectively capping any investment or any necessary increase that may be needed over a very long stretch

2a. Is there anything you would spend more on?

As much as we can on public transport solutions, wether that's subsidised fees or free days, and a whole host of others, we aren't getting people using it because its a hinderance so any way to maximise this as a viable option should be employed.

2b. Is there anything you would spend less on?

The endless roads, like some tar sealed junky wanting just one more fix with another lane... we need to be reducing road usage not pushing more volume onto it.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and

transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

The port is another situation where lack of foresight and investment has come back to haunt, but once again privatisation with a 35 year lease is absolutely not the answer, not dealing with the shrinking footprint the port exists in and lack of direct inf

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

I do not mean fund council services that Wayne wants, I want those revenue streams to be treated as valuable returns to our city and all that makes it great, not some binary hack and slash business experiment that our autocratic Mayor fancies. It's comple

4d. Do you have any feedback on any other part of the proposal?

Just don't sell off our assets, it weakens our position in all things to come, all for an immediate carrot that by taking will guarantee the stick.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools.	Other
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Actually yeah, stop framing these numbers as extremes, it's disingenuous and kind of morally bankrupt. All these potentials wrapped up in financials are ridiculous, your expecting people to understand for instance how targets for the Rodney district drainage targets got changed due to the council picking it up from private landowners but now its a ball to be thrown around due to the minimal voice chirping in the mayoral chains right now? It makes it all seem problematic at the least.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Because all of the above is worth saving and cultivating, its a natural resource worth fighting for

Do you have any other comments?

Invest in the community, no privatisation

Do you have any other feedback?

Just invest in people and have the backbone to stand against selling off our city, its not a business to cut and slice at, our autocratic mayor should realise that.

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 13627

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Housing. We need to intensify housing around existing transport infrastructure in our urban areas.

We need to have a mix of different housing affordability options in these areas so that a diversity of people can benefit from the services that exist withi

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No.

I expect the Council to provide infrastructure and services that make this city actually worth living in. Under no circumstances am I willing to let the Council do less.

Fund the work properly and provide good services.

2. What do you think of the transport proposal?

Do not support most of the proposal

The process of paying for public transport has not been a time waster for any of the busses, trains, or ferries that I have used every week for the last 8 years. Hop cards are well established now. Any improvements expected from introducing easier ways to

2a. Is there anything you would spend more on?

More cycleways.

More raised pedestrian crossings where necessary.

More mixed modal transport options.

Replacing fleet vehicles that run on fossil fuels.

2b. Is there anything you would spend less on?

Single mode roads for cars.

Widening existing roads for more cars.

Increasing speed limits for cars around urban areas.

Maintenance for fleet vehicles that operate on fossil fuels.

Covering more surface area with impermeable materials that cause higher ri

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Keep the assets in public hands. Keep the management of operations under Council control. This reduces the need to bring in profit-seeking private firms who would make the service, and the products that move through the port, unnecessarily expensive as a

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Because that is what Council is supposed to do - provide services.

Having an intermediary (fund managers) making decisions about how Council assets can be used is undemocratic, wasteful, and not in the best interest of Aucklanders.

4d. Do you have any feedback on any other part of the proposal?

Leave the shareholding in the Ports of Auckland Limited as is.

Stop trying to chase sugar-hits by selling off public assets. I unequivocally oppose the austerity that this will lead to.

It's time to change the name of Captain Cook Wharf to something less

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Extending cycle paths. Cleaning up rubbish and pollution, especially freshwater/wetland/marine areas.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

Cycle paths, rail, decarbonisation

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Maintain council control over these assets

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

If the council sells port shares/land the money will be immediately lost in another flood response, before there's time to build it up into a dividend generating diversified asset self-insurance fund. Then we'll have fewer assets and a flood to clean up

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	I don't know
Restore ecological areas	Very Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Fairly Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

LTP 2024-2034 Feedback Form

Submission: 13648

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Public transport

Cycling, walking mobility options

Climate impacts preparedness especially ensure no new building on risky locations

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Major roading developments

2. What do you think of the transport proposal?

Support most of the proposal

Raised pedestrian crossings are needed for safety

Cycleways and walkways are critical infrastructure to improve mobility options and reduce road based traffic congestion.

2a. Is there anything you would spend more on?

Cycleways

Safety improvements for pedestrians and cyclists

2b. Is there anything you would spend less on?

Significant roading developments

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

The self insurance concept is worth considering

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

I feel strongly that user pays encourages waste reduction so eliminating the per use charges for waste collection is a retrograde step.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Fairly Important
Support arts and culture	Fairly Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Fairly Important
Support youth initiatives	Fairly Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

Do you have any other feedback?

Empowering the the local boards by providing them more say in the use of funding that directly impacts local communities

Do you have additonal pages to attach?

LTP 2024-2034 Feedback Form

Submission: 13652

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

LTP 2024-2034 Feedback Form

Submission: 13699

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do more
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

I think that Auckland Council should do more in the fight to mitigate the worst of climate change. Auckland Council should also do more to help Auckland adapt to and be resilient in the face of climate change. I am prepared to pay more for this.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

No, I think that the do less-pay less principle will hurt Auckland communities in the long run, especially Auckland's most vulnerable (who often rely on Council services the most).

2. What do you think of the transport proposal?

Support most of the proposal

I support most of the proposal, but I don't agree with some aspects, such as charging for park and rides. I think this will disincentivize people from taking public transport options and increase congestion.

I also do not fully agree with a 'time-of-use'

2a. Is there anything you would spend more on?

Spend more on cycle ways. I agree with applying the pay more-get more principle for the Transport Plan.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

I do NOT support the leasing of the operation of the ports to invest in the proposed Auckland Future Fund. Leasing the operation of the port for 35 years for short term rates decreases is a poor trade off. Further, this is supposed to be a ten year plan,

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support

Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Very Important
Restore ecological areas	Very Important
Support arts and culture	Very Important
Library services	Very Important
Support community houses	Very Important
Mana whenua relationship	Very Important
Support youth initiatives	Very Important
Waitakere Ranges dark sky project	Very Important

Tell us why:

Do you have any other comments?

I support the proposed prioritises. I think they respond to both the needs of the community, and the issue of sustainability. Though I think that the Council should have dedicated funding for tangata whenua-led initiatives.

Do you have any other feedback?

Do you have additonal pages to attach?

Submission: 13786

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Nothing to do more need a proper balance without putting burden on a citizen much. Fit the golden balance on spending. Looking option run program smoothly as possible. Environment and regulation. Looking for longer plan improving environment. Some key of

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Environment and regulation. Looking for longer plan improving environment. Some key of environmental development need to pay more then less but no more then proposed.

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

Do not sell is it a bad idea. It will increase many thing and council will be off hand do do anything. Leave everything at present. It is not bring any plus it actually could get city a huge loss in future.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

Need a better plan but not to sell it or not lease it. It will get gain loss in future. keep fund to properly distribute for it need for the city and the port itself. .

4d. Do you have any feedback on any other part of the proposal?

Keep looking how get better the port working and get profit collected no matter what do not sell.

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	
Re-introduce recycling charges for schools.	I don't know
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Other
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	Very Important
Local climate action	Fairly Important

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Fairer Funding for Local Boards (page 110)

Since amalgamation in 2010, Local Boards have been funded as 90% population, 5% deprivation and 5% land area.

The Council now proposes to change this to population 80%, deprivation 15% and land area 5%. There does not seem to have been any consultation with local boards or the public about this change.

While reducing the impact of population will benefit Waitakere Ranges Local Board which is a very large forested area with major areas of unpopulated parkland, it does not recognize the burden, cost and responsibility of caring for an area which contains much of the region's natural eco-systems, natural habitats and wildlife.

- Support fairer funding of local boards to achieve equity, but argue there should be greater recognition of, and provision for, boards which contain the region's priority eco-systems and natural areas.
 - Propose that the formula for Local Boards should be 75% population, 5% deprivation, 20% environmental priority, and that there should be consultation with local boards and the public on this formula.
-

Thank you for the "Have your say" hearing last night, and the opportunity to share our commendations and disappointments on proposed 2024-2034 LTP issues affecting the local body, and greater Tāmaki Makaurau.

I described, on behalf of the West Auckland Co

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Specifically, we are disappointed at the proposal to “Apply a recycling targeted rate to all schools” (LTP, pg 100; and responses sought on page 144). To the best of my knowledge, the LTP document does not clearly state the value of the proposed recycling targeted rate; however, the table on page 97 proposes an increase of \$97 for the standard recycling rate—I am unsure if this is the value proposed for page 100’s recycling targeted rate fee to all schools. This penny pinching is extremely disappointing and short-sighted. Kura present a key (if not, the key) opportunity to engage tamariki and rangatahi with an early interest and sense of kaitiakitanga. Charging schools for engaging their students in mindful waste management absolutely contradicts the council’s own strategic priorities on environmental sustainability. There is considerable inconsistency in the proposed strategy/ initiatives: e.g., pg 96 “to ensure cost recovery... propose a 4.3% increase for 2024/2025 standard waste management services... prices for rubbish bin tags/ bags for council kerbside collection are scheduled to rise by a similar rate;” conflicts with pg 45 and 100 “we propose to begin rolling out rates-funded refuse collections (in regions including the Waitakeres) in 2024/2025.” Personally, our household are fans of the sense of responsibility in landfill-waste management encouraged through the pay-as-you go kerbside collection model. Here, I must disclose that my partner and I are academics, and are happy to embrace the cost of waste management initiatives today, so that we/ our children do not have to pay more tomorrow. I do not know the sentiments of our toy library members on this topic. However, if the council were seriously considering budgetary cuts, introducing a Tāmaki Makaurau-wide pay as you go service will not only increase revenue, but also engage more mindful and responsible management of household landfill-destined waste. Of course, that option would not be looked upon favorably by other rate payers, but isn’t that a more future-friendly model of waste management than charging schools for recycling waste?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less tolls, less roadworks

2. What do you think of the transport proposal?

Do not support most of the proposal

Public transport expensive I have to pay myself

2a. Is there anything you would spend more on?

Screens on public transport

2b. Is there anything you would spend less on?

Getting on a bus

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

They could make a lot of money from it and invest in AFF

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund
Invest sooner rather than later

4d. Do you have any feedback on any other part of the proposal?

I don't know, no feedback

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

To support Council's debt reduction strategy, Waipareira proposes an opportunity for Council to maintain ownership of land assets and be provided with a First Right of Refusal, renewable 99-Year

Ground Leases on suitable green and brownfield developments in West Tāmaki Makaurau, enabled

through Community Housing Provider (CHP), Health NZ and Auckland Council funding. This would

be for the express purpose of building more kaupapa-Māori housing, health clinics, and urban marae.

Such action would see Council receive additional income on previously under-utilised/unused (rezoned)

land assets in West Tāmaki Makaurau, as well as support long-term aspirations for strategic outcomes within Council.

1a. Which option do you prefer for the overall direction for council's Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do less
Water: Managing stormwater to minimise flooding and protect waterways.	Do less
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Do not support most of the proposal
why spend more money on PT when there's other stuff

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?
Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools .	I don't know
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

I just hope investments are used for good

Submission: 14895

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

I get the idea but also hate all of the transport changes, it seems to take up a lot of time

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Consider redeveloping the stadium precinct

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

Not too sure

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

I think that is the best future focused answer for a majority betterment of the community

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

No, but it all seems to have very clear objectives

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Seems awesome and balanced between a range of different communities

LTP 2024-2034 Feedback Form

Submission: 15398

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

increase awareness re islamophobia and bring awareness in this field not only for muslims but all minorities

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

stop spending money in areas that dont need it eg staff or unnecessary expenses

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

infrastructure and accessibility

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

we need to keep some assets and not sell everything on

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services
it helps with operating

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

LTP 2024-2034 Feedback Form

Submission: 15470

Organisation: Titirangi Residents and Ratepayers Association

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Support "pay more and get more" proposal for rates increases. But do not support restricting increases to 3.5% beyond the term of this council. That is short sighted & irresponsible. Future councils need to be able to set whatever increase is required at

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2.3.2. Marketing

2.3.3. Asset sales - stop selling off our open space, we oppose any sales of land zoned Open Space or Reserves. We oppose the sale of any of the port, its land or its activities.

2.3.4. Sprawl - we need a compact city not a sprawling one. We can't afford to support the infrastructure.

2.3.5. Badly planned intensification - this is all we are seeing now, the slums of the future

2.3.6. Oppose development of yet another stadium. Auckland has far too many stadia that cannot support themselves financially as it is. We certainly do not need another one

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2.2.4. Public transport & active transport (walking & cycling)

2.2.4.1. Enhance public transport and make it cheaper to use;

2.2.4.2. Support more cycleways & walkways to get people out of their cars

2b. Is there anything you would spend less on?

2.3. Do less of:

2.3.1. Roads - we don't need more roads or wider roads, we just need to maintain the ones we have properly

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Oppose asset sales proposals. Oppose leasing of port & development of port land. Leave the port operations as they are currently. Stop trying to sell off the city's assets, we need them for future generations.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
--	---------

Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support

Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
---	---------

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Council's should not be selling tags for rubbish as other part of NZ they don't, it should remain free to all New Zealand

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Because what it seems priority will put other business in chaos

Do you have any other comments?

Do you have any other feedback?

Not really but I think everything in our school should be fair so parent won't be struggling to much to meet the needs of the kids & school

Do you have additional pages to attach?

LTP 2024-2034 Feedback Form

Submission: 15561

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Once its gone we may never get it back and overseas investors will be able to charge sky high prices for people importing good and that charge will be passed on to us. Never cut off the hand that feeds you. By keeping ownership of the ports we keep the in

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

If the council sits down and works out the income from the ports for the next 35 years they may be better off because Auckland is getting bigger and the income will only get bigger. Never think of a one of payment that has to last 35 year. Overseas invest

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

LTP 2024-2034 Feedback Form

Submission: 15720

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Other

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Do more

Environment and regulation: Protecting and restoring our natural environment

Do more

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Do more

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

- We call for funding for shuttle buses for outer villages in Waitakere Ranges Heritage Area, including Piha, and services to open track ends.

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Waitakere Rural Sewerage Targetted Rate

AC is proposing a 13% increase in the Septic Tank Pump-Out Rate which provides for a three-yearly pump-out of septic tanks. The annual rate is proposed to go up from \$296.75 to \$336.80 which is an increase per tank of \$129.15 over three-years to a cost of \$1010.40. Of this \$559.41 goes to a contractor to do the actual job, and \$450.99 to the Council for admin and communication.

- We oppose the increase in the septic tank out rate and call for a review of the unacceptable Council admin costs for this rate.
- Oppose reduction in environmental education for schools

Attachment D in the Supporting Information document (pages 444-451) provides additional information about the NETR, though still not very details. It is difficult to tell how much of this expenditure will come out to the Waitakere Ranges.

This chart is a summary of what is provided.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Re-establish the full funding of the Natural Environment Targeted Rate (NETR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Revenue gained from NETR affects the delivery of essential projects to protect our biodiversity and taonga species. For example, the rate funds kauri dieback track upgrades, treatment support for landowners with kauri dieback, monitoring of the health of our forests and education for visitors to prevent further spread of the disease and predator control on our islands and the mainland. This work supports the health of our environment, which we need to be healthy to keep humans healthy, by filtering our water, catching and intercepting rainfall, holding our soils and slopes together and cleaning our air. Having spent years with large parts of the track network closed to protect kauri it is important to ensure this work continues as planned to enable safe access to our wild places, which are so important for our mental and physical health, and the health of our forests.

Re-establish the full funding of the Water Quality Targeted Rate (WQTR) to pre-2023/2024 budget levels to ensure delivery and growth of related work programmes.

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

LTP 2024-2034 Feedback Form

Submission: 15992

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

I don't want the port owned privately by overseas investors. They will have no interest in the lifestyle and culture of Aucklanders

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

4b. Which option do you prefer for the future of Port of Auckland?

A strategic asset for all of Aucklanders not overseas multi Nationals to pilage nor has the Auckland City council have a mandate to do such a short sighted act.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

The Ports are a vital revenue source for Council and as such should be attending to cor infrastructure assets it has worefully neglected in years past. It is not a slush fund for council executives salaries.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Environmental issues- soil, trees, animals, more parks. Reduce Auckland sprawl. Maintain and increase marine and fresh water eco systems. Better resources and management of the Waitakere ranges heritage area.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Why free the annual council rate to 5% after the next two years. This will only lead us to currently find ourselves in low rates that do not cover our costs. Huge region wide contracts money. Use local people and contracts.

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Less raised crossings at traffic light intersection. Keep the artificial roads free of raised crossings to allow better movement of emergency vehicles.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Submission: 16156

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

Lack consultation with people of Auckland. We don't want privatisation which could lead to loss of jobs and higher costs for businesses and consumers

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

Council should use the money to upgrade water services and infrastructure to ensure we have clean water now and in the future.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Submission: 16163

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Do more (increase council services/ investment), with higher rates increases and more debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	Do more
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do more

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Concentrate on core jobs - provide clean drinking water after our soil/trees/native animals/fresh + marine water, keep our city clean, support our local boards financially, keep our roads in a safe condition. Look after our heritage buildings and areas. L

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Do not support telling council in future years what the rates are going to be - it is wrong to tie them to an amount.

2. What do you think of the transport proposal?

Support all of the proposal

I support climate change initiatives.

2a. Is there anything you would spend more on?

Repairing existing roads to a high standard, so the repairs last.

2b. Is there anything you would spend less on?

Yes. Don't have reused pedestrian crossings on main arterial roads like great north road - hinders emergency/ police vehicles.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Don't proceed with establishing an Auckland Future Fund and transferring AIAL shareholding

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Other

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Franklin Local Board Paths Targeted Rate - Support

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

All priorities are very important. ADD treatment + monitoring of kauri dies back on public land. Resource community and get rid of weeds on public and private land. Essential that this work continues and needs a paid coordinator.

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

The port is a vital asset that Auckland should and must own. Short term money will lead to long term and permanent added cost that will impact heavily on the people Auckland. The cases of privatization ending up benefiting anything other than corporations

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

4b. Which option do you prefer for the future of Port of Auckland?

My understanding if correct selling a port our port to an offshore enterprise will eventually if not instantly put the people of New Zealand at more risk in losing jobs, money, ownership and a say on what enters our harbors. It will undermine NZ economy m

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

Investing into Auckland's future is always a good start, However by funding the councils will help this to be accomplished

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

I strongly oppose the privatisation of this asset that currently belongs to all of Auckland. If we want our country/city to thrive we have to keep our assets in our hands.

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

As Auckland grows, there is increasing need for good water sanitation public transport, housing arts and other infrastructure. We must ensure that the cities assets are used for the benefit of the city, so we have the money to grow and thrive.

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Do you have any other comments?

Do you have any other feedback?

Open our tracks to trampers

Open the Waitakere ranges. There is already much loss of respect to te Kawerau a Maki. Because of this amongst the tramping fraternity. Not good. We have lost our beloved ranges

Submission: 16368

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do more
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do more
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Fix our many potholes in our street! Take care of our beaches! Pollution in waterways!

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Pay yourselves less

2. What do you think of the transport proposal?

Don't support any of the proposal

Stick to a budget and plan, every project runs way over budget, Takes too long

2a. Is there anything you would spend more on?

Crime prevention, better housing communities parks

2b. Is there anything you would spend less on?

Auckland city council wages at the top

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

No comment

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Other

Clean up the city

4d. Do you have any feedback on any other part of the proposal?

Spend more on infrastructure

Clean up the environment

Become more like singapore with their pride for their city

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Nil

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Most of them I support but we need better infrastructure our land and waterways are stretched houses built on top of streets!

Do you have any other comments?

Do you have any other feedback?

Our residential areas are too overcrowded with compact housing that puts a strain on our roads and access to our streets

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Invest in the proposed Auckland Future Fund

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Do not support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Do not support
Discontinue the Long Term Differential Strategy for business rates	Do not support
Re-introduce recycling charges for schools .	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

No comments for paying more

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

I want efficient road work to reduce long hours wages in Auckland City

2. What do you think of the transport proposal?

Support most of the proposal

Go reduce traffic jam, especially in rush hour

2a. Is there anything you would spend more on?

no idea

2b. Is there anything you would spend less on?

effective road design for reducing traffic

jam on the road

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and

dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

Please do your best for belt-tightening of the budget,
because I do not want the rates not to be raised any more

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Support
6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?	

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project	

Tell us why:

Do you have any other comments?

Do you have any other feedback?

Recent years, I realised the council rates raising too high, even relying on the management group team

Do you have additonal pages to attach?

LTP 2024-2034 Feedback Form

Submission: 17782

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support most of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

we havent had public transport since before the storms so I've learned to live without

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Reduce the frequency of public events that have low attendance to save on costs., Cut back on expensive consultancy services and rely more on in-house expertise., Streamline council operations to reduce administrative costs without affecting service quality., Limit investment in large infrastructure projects that may not be critical or can be postponed., reducing large infrastructure means less enviro impact so double savings

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

I have barely any street lights and no bus shelters

2b. Is there anything you would spend less on?

Some new road projects, Pedestrian paths where there's not much foot traffic.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is, Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Petrol free train. Schedule should be more stable and more often (use petrol tax for the train system). More tax for the 3rd car or more and extra tax for Lux car which cost more than \$80K.

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Less rates for old buildings.

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

Car rego fee extra tax for 2nd car per person, extra tax for expensive cars more than 80K dollars.

2b. Is there anything you would spend less on?

Less public transportation fee 10 to 20% then people will consider to use it more.

3. Which options do you support for the North Harbour Stadium?

Keep the stadium precinct as it is

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Organize more community workshops on sustainability to educate and engage residents, Improve maintenance and add more facilities in public parks for better recreational spaces., Provide additional resources and support for local cultural events to enrich

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Cut back on expensive consultancy services and rely more on in-house expertise., Streamline council operations to reduce administrative costs without affecting service quality., Limit investment in large infrastructure projects that may not be critical or can be postponed., Stop wasting money on bike lanes in communities that do NOT use bicycles. Mangere Town Centre and Glen Eden were absolute stitch ups on tax payer money. I refuse to support this kind of ridiculous spending

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

The multiple raised humps in 5kms in New Lynn, Kelston, Avondale, Glen Eden is absolute overkill and adding to congestion and bottlenecks

2b. Is there anything you would spend less on?

Public transport routes that aren't busy., Planning studies that take a long time., Pedestrian paths where there's not much foot traffic.

3. Which options do you support for the North Harbour Stadium?

Change the operational management

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

LTP 2024-2034 Feedback Form

Submission: 19301

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	As proposed
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	As proposed
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council’s shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

LTP 2024-2034 Feedback Form

Submission: 19916

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

Support all of the proposal

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Submission: 20029

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

LTP 2024-2034 Feedback Form

Submission: 21522

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	Do less
Water: Managing stormwater to minimise flooding and protect waterways.	Do less
City and local development: Deliver urban regeneration and lead development of the city centre	Do less
Environment and regulation: Protecting and restoring our natural environment	Do less
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do less
Economic and cultural development: Major events funding and economic development	Do less
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	Do less

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Highways are too congested, especially Route 16 which faces daily traffic jams. More efforts should be made to improve road congestion

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Public parks are overcrowded and occupy too much space. It would be beneficial to reduce the construction of new parks

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Continue to use it to fund council services

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	Do not support
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	Support
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	Support
Discontinue the Long Term Differential Strategy for business rates	Support
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	Do not support
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	Do not support

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Proceed with the central proposal

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network	As proposed
Water: Managing stormwater to minimise flooding and protect waterways.	Do more
City and local development: Deliver urban regeneration and lead development of the city centre	As proposed
Environment and regulation: Protecting and restoring our natural environment	As proposed
Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards	Do more
Economic and cultural development: Major events funding and economic development	As proposed
Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities	As proposed

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

I don't know

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

I don't know

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

I don't know

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

I don't know

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the Natural Environment Targeted Rate (NETR) and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.	I don't know
Resume the Water Quality Targeted Rate (WQTR) and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.	I don't know
Broaden the description of bus services funded by the Climate Action Transport Targeted Rate (CATTR) to reduce the need to consult each year for minor changes	I don't know
Discontinue the Long Term Differential Strategy for business rates	I don't know
Re-introduce recycling charges for schools.	Do not support
Continue the planned roll out of rates funded refuse collection to replace the current pay as you throw service, and consequent rates change.	I don't know
Increase the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 (per year) to maintain cost recovery	I don't know

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

First off, below are comments prepopulated by Auckland Ratepayers Alliance. I agree with everything they submit. I just need to say, how, in any real world situation, can you raise costs on the consumer by 38%???

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

First off, below are comments prepopulated by Auckland Ratepayers Alliance. I agree with everything they submit. I just need to say, how, in any real world situation, can you raise costs on the consumer by 38%???

am a struggling dad with mortgage repayments and limited annual payrises which are below inflation rates.

I know people who work for AC and the common themes your own staff say are that jobs are "cruisy", "well paid" and that jobs exist which are wastefull and culturally woke and unnecessary.

Why? Along with this I face delay after delay driving to work and 90% of AT contracted road workers standing around on their phones and smoking vapes.

PLEASE , I implore you Wayne Brown, be different! Please make some hard decisions, we are not cash cows with unlimited income to dispose of, I AM SUFFERING. These rates rises will hurt me.

Aaron Morris
Rate Payer
Low income Earner

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would

see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures”

(such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be lim

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation

and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the

“pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining

in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

Stop all race based naming of council organisations, parks, reserves etc. It is not necessary and in fact it denies 85% of the people that live here, our own culture and heritage. We got rid of the last racist govt and you would do well to heed that warning. The public are angry.

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease

Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in

infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives

Of the three options presented, my preferred option is lowest option – which is still much higher

than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates sho

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to

reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed "Future Fund" and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

Organisation:

1a. Which option do you prefer for the overall direction for council’s Long-term Plan?
Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher

than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years.

Rates sho

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years.

Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic

circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's

operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of 'Reasonable Rates, Sensible Spending in our Super City!'

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?
Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?
Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools.**

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending

in our Super City!

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be lim

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and

the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay

less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in

Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland

Transport. This money should be used to fix roads and maintain transport infrastructure.

- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland

Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so

that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be lim

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to

address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.

- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

Do less (reduce council services/ investment), lower rates increases and less debt

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates should be limited to inflation and the Council should cut its cloth to reflect the current economic circumstances facing Auckland ratepayers.

Of the three options presented, my preferred option is lowest option – which is still much higher

than inflation despite it being deceptively labelled the “pay less, get less” option.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

- A hiring freeze on all non-essential roles until an independent review has been taken to address concerns of overstaffing and the salaries of council managers increasing much higher than those the private sector.
- Pausing expensive and unnecessary marketing exercises and so-called “traffic calming measures” (such as unnecessary speed humps) by Auckland Transport. This money should be used to fix roads and maintain transport infrastructure.
- Focusing on providing core council services such as effective waste management, public bins, and weekly rubbish collection.

I also call on the Council to get smarter about infrastructure investment. I support the Mayor's proposed “Future Fund” and the proposal to lease Auckland Port's operations to an expert external operator while keeping the Port's land in ratepayers' hands and ringfencing that money to invest in infrastructure so that rates and debt are kept down.

I endorse the submission of the Auckland Ratepayers' Alliance and back their vision of ‘Reasonable Rates, Sensible Spending in our Super City!’

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

Proceed with the proposal

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

Other

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

Dear Auckland Council,

I am writing to provide feedback on the Mayor's proposed Long-Term Plan (10-Year Budget).

I reject all three options for rate hikes – the most expensive of which would see a 38% increase over three years. Rates

are an unsustainable mechanism of funding a city if it is the only income. It should be limited to inflation and more

funding should come from central government. I support the proposal for central government to pay rates on its

properties such as schools and hospitals

Of the three options presented, my preferred option is lowest option – which is still much higher than inflation.

I strongly urge Councillors to explore ways of preventing rates increases over and above inflation by cutting back office

and wasteful spending, reining in Council-Controlled Organisations, and reprioritising money spent on operations and staffing to capital and infrastructure investment.

This should include:

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

More funding will enable more sport and recreation facilities to be built and there is clear evidence that such facilities provide a broad range of benefits to the wider community. This includes but is not limited to improved physical and mental health, s

1d. Is there anything else you would like Auckland Council to do less of so that you could pay less?

2. What do you think of the transport proposal?

2a. Is there anything you would spend more on?

2b. Is there anything you would spend less on?

3. Which options do you support for the North Harbour Stadium?

Major Investments

4a. What is your preference on the proposal to establish an Auckland Future Fund and transfer Auckland Council's shareholding in Auckland International Airport Limited (AIAL) into this fund (enabling the shares to be sold)?

4b. Which option do you prefer for the future of Port of Auckland?

4c. If the council group continues to operate the Port of Auckland how would you prefer the profits and dividends to be used?

4d. Do you have any feedback on any other part of the proposal?

6a. What do you think of these proposals?

Resume the **Natural Environment Targeted Rate (NETR)** and extend it to 2034/2035 so we can continue to invest in the protection of native

ecosystems and species.

Resume the **Water Quality Targeted Rate (WQTR)** and extend it to 2034/2035 at a level to only cover the annual programme operating and interest costs.

Broaden the description of bus services funded by the **Climate Action Transport Targeted Rate (CATTR)** to reduce the need to consult each year for minor changes

Discontinue the **Long Term Differential Strategy** for business rates

Re-introduce **recycling charges for schools**.

Continue the planned roll out of **rates funded refuse collection** to replace the current pay as you throw service, and consequent rates change.

Increase the **Waitākere Rural Sewerage Targeted Rate** from \$296.75 to \$336.80 (per year) to maintain cost recovery

6b. Do you have any other feedback on the proposals in question 6a, the changes to our Revenue and Financing Policy, or other changes to fees and charges?

Local board priorities

7b. What do you think of our proposed priorities for your local board area in 2024/2025?

Local board priorities	
Support community resilience	
Local climate action	
Restore ecological areas	
Support arts and culture	
Library services	
Support community houses	
Mana whenua relationship	
Support youth initiatives	
Waitakere Ranges dark sky project

Organisation:

1a. Which option do you prefer for the overall direction for council's Long-term Plan?

1b. What would you like Auckland Council to do more or less of?

Transport: Roads, public transport and safety improvements across the transport network

Water: Managing stormwater to minimise flooding and protect waterways.

City and local development: Deliver urban regeneration and lead development of the city centre

Environment and regulation: Protecting and restoring our natural environment

Parks and Community: A wide range of arts, sports, recreation, library and community services including a fair level of funding for local boards

Economic and cultural development: Major events funding and economic development

Council support: Supporting the delivery of services, enabling effective governance, emergency management and grants to regional amenities

1c. Is there anything else you would like Auckland Council to do more of that you would be prepared to pay more for?

Sports clubs are somewhere that the young and old get together to share skills, compete and socialise

Surveys of our membership continually show that while they join to enjoy their chosen sport, they find the club an important place to socialise and build c

Total	638	10

6a. What do you think of these proposals? 666

**THE
TREATY OF
WAITANGI
AN EXPLANATION**

**Te tiriti
O WAITANGI
HE WHAKAMARAMA**

**BY THE HON.
SIR APIRANA NGATA
M.A. LL.B. LL.D.**

The meaning of the Treaty of Waitangi has been much debated in recent years. In 1922, the great Maori leader, Sir Apirana Ngata, wrote an explanation of the Maori version of the Treaty that sets out its original meaning. Here is the full, unedited version of that explanation.

This booklet has been printed and distributed by the New Zealand Centre for Political Research - nzpcr.com.

SIR APIRANA NGATA

Sir Apirana Ngata (1874-1950)

Sir Apirana Ngata is one of Maoridom's greatest leaders and a prominent New Zealand Statesman who dedicated his life to reforming the social and economic conditions of the Maori people.

He was knighted in 1927 in recognition of his services to Maori communities and for his efforts as Chief Recruiting Officer during the First World War.

Of Ngati Porou descent, Apirana Ngata completed an MA and a law degree, becoming the first Maori to graduate from a New Zealand University.

He represented the Eastern Maori electorate in Parliament from 1905 until 1943, becoming the Cabinet Minister for Native Affairs in 1928.

Such is the historical significance of Sir Apirana Ngata, his portrait features on the New Zealand fifty-dollar banknote.

FOREWORD

In 1922, the great Maori leader and Member of Parliament Sir Apirana Ngata wrote "The Treaty of Waitangi: an explanation".

The explanation was held in such high regard that in 1963 the government provided a grant to the Maori Purposes Fund Board to have the work translated into English and distributed free of charge to Maori households as an insert in the March edition of the Ministry of Maori Affairs' *Te Ao Hou (The New World)* magazine.

This is what they said about the book:

"With this copy of Te Ao Hou you will find a special free supplementary booklet: the re-print of an article, The Treaty of Waitangi, written by the Hon. Sir Apirana Ngata and first published in 1922. At the time when he wrote this article, the significance of the Treaty of Waitangi was a frequently discussed topic among Maori people, and there were many different opinions as to the meaning of the different sections in it. This is still a subject which is often discussed, so his article is as relevant today as it has ever been.

"Sir Apirana was trained as a lawyer and had a brilliantly lucid understanding of legal and parliamentary technicalities. His analysis of the Treaty, article by article, is so clearly and simply written that even young people will be able to understand it, in spite of the complexity of the subject-matter."

With the meaning of the Treaty still being debated, thanks to the generosity of the New Zealand public, the English translation of Sir Apirana Ngata's explanation is being distributed free of charge as a newspaper insert to Kiwi households.

"The Treaty of Waitangi: an explanation" is republished for educational purposes by the New Zealand Centre for Political Research, PO Box 984, Whangarei 0140, www.nzcpr.com.

Extra copies have been printed as an A5 booklet and are available at www.nzcpr.com/treaty-book

THE TREATY OF WAITANGI AN EXPLANATION

by The Hon. Sir Apirana Ngata M.A, LL.B., LIT.D.

First published in 1922

Translated into English by M. R. Jones

IT WAS on the 6th day of February, 1840, when the Treaty of Waitangi was made. Waitangi is part of the Bay of Islands in the northern part of the North Island. It was made between Governor William Hobson on behalf of Queen Victoria and the Maori Chiefs who gathered there on that day. It was afterwards that some copies of the Treaty were taken to various parts of the island even to the South Island and was signed by Maori Chiefs of the various tribes.

Altogether there were 512 signatories. From then to now the Treaty and the provisions therein have been the subject of discussion by learned men and administrators of Maori affairs. At the present time the Treaty is widely discussed on all maraes. It is on the lips of the humble and the great, of the ignorant and of the thoughtful.

It was an old lady who asked me quite recently, "*Now you tell me what are its conditions and why is it the subject of discussion on the maraes?*" I wondered then whether she was right and it was wrong for the name of the Treaty to be so freely discussed on the lips of our womenfolk, when the provisions contained therein were not clear to them. The Treaty of Waitangi was first written in the English language and then translated into the Maori language. The draft was actually written by Governor Hobson and Busby (who was the previous administrator for the Queen before Governor Hobson) corrected it. This is what Busby said and it was printed in the Parliamentary Papers for the year 1861:

"The draft of the Treaty was made by me and was approved by Captain Hobson. He made a few alterations but the fundamental provisions were not altered."

Some of Busby's descendants lived at Kairakau near the coast in Hawkes Bay, and later at Tokomaru (Waiapu) where some of the grandchildren still reside. The Maori version of the Treaty was by Henry Williams, referred to as the Four-eyed Williams, one of the ancestors of the subtribe of the Williams.

The English expressions in the Treaty were not adequately rendered into Maori. There were minor parts left out. However, the Maori version clearly explained the main provisions of the Treaty, therefore, let the Maori version of the Treaty explain itself.

What is a Treaty? In accordance with the Maori language, it is an agreement between two or more peoples having authority and agreeing between themselves to certain wide powers affecting them all. The document on which these powers and agreements are recorded is called a treaty. Let the actual Maori version of the Treaty now show.

THE HEADING OF THE TREATY

This is the heading of the Treaty setting out the reasons for the making of the Treaty:

"Victoria, the Queen of England, in Her feeling of affection towards the Chiefs of the Tribes of New Zealand and in Her desire to retain for them their Chieftainships and also that peace may reign and they live happily, has thought it wise to send a High Personage as

Her representative to negotiate with the maori people of New Zealand, the maori Chiefs, to agree to the Government of the Queen having access to all parts of the land including the islands. This is by reason of the fact, that so many members of Her race were living in this land, and many more were coming. Now, the Queen has thought it good to send me, William Hobson, a Captain of the Royal Navy to be Governor for all parts of New Zealand, to be ceded now and forever to the Queen and she invites the Chiefs of the assembled tribes of New Zealand and other Chiefs to accept the following provisions".

This is the heading explaining the reasons why Governor Hobson was sent by Queen Victoria, Queen of England, and Her other lands to arrange conditions between the Queen and the Chiefs of the maori people. The main purport is in the words, *"This is by reason of the fact that so many members of Her race were living in this land and many more were coming"*. Therefore, the Queen was desirous to establish a Government with a view to avert the evil consequences to the maori people and to Europeans living under no laws.

These are very wise words.' It was correct that many Europeans had settled throughout both islands, missionaries and their families, European sellers of goods, whalers, sailors, thieves and murderers. It had been stated that 500 convicts had escaped from Australia and were living in various parts of the Bay of Islands just prior to the Treaty. maori authority had no affect on them but they often disturbed the maori people. Neither did the laws of the Queen affect them by reason of the fact that the Queen had no authority over these islands. According to the records of the missionaries, one thousand of the maori people were murdered by the Europeans in the years prior to the Treaty, and we have also heard of the maori people murdering Europeans. These were lawless times. Therefore, the Queen *"was desirous to establish a Government with a view to avert the evil consequences to the maori people and to the Europeans living under no laws"*

Now these were the important words *"living under no laws"*. It was the European conscience of the man who formulated the words of the Treaty who saw that this was the main trouble throughout North and South Islands. This was the trouble which was forcing itself to be remedied lawlessness. This conflicted with maori custom, the authority of maori Chiefs of cannibal times, of illiterate days and the individualistic European idea of the European who had strayed out of the confines of his own laws and who had left behind the very lands from which he was nurtured. It was this law, then, which was stretching out to follow him the long fingernails of Queen Victoria which she had attached to Governor William Hobson.

This was at a time when the maori tribes were fighting fiercely among themselves. There was no peace following the wars of Hongi Hika, Te Wherowhero, Te Waharoa and Te Rauparaha. Guns and powder were the goods most desired by each tribe, when chiefly women were given away, and lands were sold. This was at a time when lands were sold on a broad scale. Europeans crowded to buy land for themselves in the Bay of Islands, Hauraki, Porirua and the South Island, guns, kegs of powder, blankets, tobacco and spirituous liquor were given in payment. Many claims were made by various Europeans for the one piece of land sold to each of them by various maori chiefs. Where was the law in those times to decide what was right?

The maori did not have any government when the European first came to these islands. There was no unified chiefly authority over man or land, or any one person to decide life or death, one who could be designated a King, a leader, or some other designation. No, there was none, the people were still divided, Waikato, Ngati [unclear: Naua], Te Arawa, Ngapuhi and tribe after tribe. Within one tribe there were many divisions into sub-tribes each under their own chief. How could such an organisation, as a Government, be established under maori custom? There was without doubt maori chieftainship, but it was limited in its scope to its sub-tribe, and even to only a family

group, The maori did not have authority or a government which could make laws to govern the whole of the maori Race.

These were the reasons for the direct approach by Governor Hobson to the maori Chiefs and for arranging for copies of the Treaty to be taken from end to end of each island, seeking to obtain the' concurrence of chief after chief. It has been mentioned earlier that 512 maori Chiefs subscribed their marks or their names to the Treaty of Waitangi.

I shall explain later the meaning of the term "Government" and of the words "Chiefly Authority", but let me say here that until the meaning of these words are clear, no one can consciously understand the full meaning of the Treaty of Waitangi.

Another part of the Heading of the Treaty which requires our consideration is, *"Regarding with Her Royal favour — the Native Chiefs and Tribes of New Zealand—are anxious to protect their just Rights and property and to secure to them the enjoyment of Peace and Good Order"*. These are the words which are embraced in the minds of the maori people, *"protect their just Rights and property"*. Let us wait until the three covenants of the Treaty are fully explained to see the full significance of this thought in the mind of Queen Victoria.

Let us conclude here the explanations of the Heading of the Treaty. It will be seen that the main purpose of the Government of Queen Victoria was for New Zealand including the European and the maori inhabitants, all men and the land to come under the authority of a specific Government.

Article the First

These are the words of the first article of the Treaty of Waitangi. The First Article:

"ARTICLE THE FIRST

The Chiefs assembled including Chiefs not present at the assembly hereby cede absolutely to the Queen of England forever the Government of all of their lands".

These are but a few words but they indicate a complete cession. This was the transfer by the maori Chiefs to the Queen of England forever of the Government of all their lands. What was the thing they transferred? What was the thing which they gave away so freely forever? It was the Government of their lands. You are somewhat confused with the purport of those words "their lands" as being just a land matter. No, their real meaning includes "their boundaries or territories" The English word in the English version of the Treaty, "territories". What is a "Government?" The English word is "Sovereignty". The English word for such a personage as a King or a Queen is "Sovereign" This is the same as the maori words "Ariki Tapairu" and is referred to as the absolute authority. The "Sovereign Power" of the English rests with the King or Queen and his or her Council called Parliament. This gives a clearer understanding of the term "Government" as used in this article of the Treaty, that is, it is the absolute authority over the people which the article transmits into the hands of the Queen and Her Parliamentary Council. It is Parliament which makes the laws for the people, for the land, for health, for sickness, for crime, for good order and for everything pertaining to the well-being of all throughout the world. The Ministers of the Government, the officials, the Departments under their administration, the courts, the boards, the judges, the policemen, the inspectors, the surveyors, the schools, the hospitals, all other groups having authority as administrators, upholders of the law, and adjudicators are all within the laws made by Parliament. The laws made by Parliament affect all the people living on the face of this land, the land properly delineated and known as Aotearoa, the South Island and adjacent islands. They are made for the humble and the great, for the ignorant and for the chiefs without discrimination.

This first article of the Treaty of Waitangi carries out the wishes of the Queen, *"to establish a settled form of Civil Government with a view to avert the evil consequences to the maori people and to the Europeans living without laws"*. It is this article of the Treaty which leaves and embodies within these islands the Government of the Queen of England. What was it that the maori chiefs ceded? This article states, *"They do absolutely cede to the Queen of England forever the Government of their lands"*. Well, it has been said that the maori did not have any Government, how can he cede something, he did not have? Let me explain again. The explanation is in the meaning of the words "Chiefly authority". It was this chiefly authority held by each chief who subscribed his mark to the Treaty of Waitangi that each chief ceded to the common weal and to Governor William Hobson, as an offering to Queen Victoria. The sum-total of the authorities of the maori Chiefs ceded to the Queen was the Government of the maori people.

Now what was the chiefly authority? What was the authority of the maori chiefs at the time of the signing of the Treaty, to the people, to the land, and to the tribes under their separate authorities? That was the time of Te Hapuku, of Te Rauparaha, of Te Rangihaeata, of Te Whero-whereo, of Te Waharoa, of the great Te Heuheu, of Kawiti, of Patuone, of Hone Heke, of Tupaea, of Te Amohau, of Te Pukuatua, of Moko-nuiarangi, of Aporotanga, of Aopururangi, of Te Houkamau, of Te Kani-a-Takirau, of Te Potao-aute, of Te Eketuoterangi and of the many others who have departed to "the realms of night—the terror of the land, the power over man". One could make lengthy additions to this part of our explanations.

Let us express in brief, the chiefs gave away to the common weal the kiwi cloak, the dog skin cloak, ornamental cloaks to hang in Museums for Europeans to view, and to expound the virtues of the maori. *"These were the treasures of the maori while they had authority"*: now the maori looked on, sighed, recited and uttered *"Farewell to the abode of death, to England the abode of pleasure"*. Having received these treasures the Queen gave red blankets in return. It is said these made up the greater part of the gifts laid by Governor Hobson, his officers and the missionaries before the maori chiefs who signed the Treaty.

During the time when the maori chiefs had authority and there was no authority of British law, the word of the chief was law to his tribe. It was he who declared war, and he who sued for peace. Here are some of the words of that period; *"The fire burning yonder, go forth to put it out"*. A great number of the people thus disappeared — loss of man, loss of land. The chief was separated from his daughter who was used as an offering to the invaders to bring about peace. It was the chiefs who bespoke the land and gave it away. They had the power even for life or death. These were the powers they surrendered to the Queen. This was the understanding of each tribe. The main purport was the transferring of the authority of the maori chiefs for making laws for their respective tribes and sub-tribes under the Treaty of Waitangi to the Queen of England forever. The embodiment today the Governor, his Ministers, the Members of the Lower House elected by the people and the Members of the House of Lords, appointed by the Governor, together they make the laws.

My dear old lady, this is part of the answer to your question *"What is the Treaty of Waitangi?"* It was the first article of the Treaty which transferred the chiefly authority of your ancestors, affecting you and future generations forever. This is the reason for the speeches in Parliament now in session in Wellington, making the laws, good laws, bad laws, laws for relief and harassing laws.

Article the Second

This is the second article of the Treaty of Waitangi.

"ARTICLE THE SECOND:

The Queen of England confirms and guarantees to the Chiefs and Tribes and to all the people of New Zealand the full possession of their lands, their homes and all their possessions, but the chiefs assembled and all other chiefs yield to the Queen the right to alienate such lands which the owners desire to dispose of at a price agreed upon between the owners and person or persons appointed by the Queen to purchase on her behalf".

I said at the beginning of my explanations that the maori version was not a good translation of the English terms in the Treaty. * There were small parts left out. Young students from among you can see for yourselves the English version of the second article of the Treaty as follows:

"ARTICLE THE SECOND

Her Majesty the Queen of England confirms and guarantees to the Chiefs and Tribes of New Zealand, and to the respective families and individuals thereof, the full, exclusive, and undisturbed possession of their Lands and Estates, Forests, Fisheries, and other properties which they may collectively or individually possess, so long as it is their wish and desire to retain the same in their possession; but the Chiefs of the United Tribes and the Individual Chiefs yield to Her Majesty the exclusive right of Pre-emption over such lands as the proprietors thereof may be disposed to alienate, at such prices as may be agreed upon between the respective Proprietors and persons appointed by Her Majesty to treat with them in that behalf".

- * Note added: The Hon. Sir Apirana Ngata was not aware at the time of writing this, that the "Littlewood final draft" existed, it was the final English version that was translated by Rev. Williams, hence his confusion then, in 1922. The English version he likely is referring to and attempting to align is an initial draft written by Freeman but disregarded by Governor Hobson. The Littlewood final draft reappeared on in 1989.

Now it will be seen there are several words in the English version which were not adequately rendered into the Maori language. This is my translation:

"Ko te Kuini o Ingarangi ka whakapumau, ka whakaoati kia whaka-tuturutia ki nga Rangatira, ki nga Hapu o Niu Tirenī, a ki ia whanau, ki ia tangata ranei o ratou, te mana te rangatiratanga o o ratou whenua, o o ratou ngahere, o ratou taunga-ika, o era atu taonga ranei a ratou, a ia tangata ranei o ratou mo te wa e hiahia ai ratou ki te pupuri i aua mea; Oti ia e whakaae ana nga Rangatira o te Whakaminenga, me era atu rangatira katoa ki te tuku atu ki te Kuini i te mana motuhake ki te hoko i nga warhi whenua e hiahiatia ana e nga tangata no ratou aua whenua kia hokona, mo nga utu e whakaritea i waenganui i nga tangata no ratou aua whenua me nga tangata e whakaritea e te Kuini hei kai hoko mana".

This is the article from which stems the matters which are discussed throughout the maraes in regard to the Treaty of Waitangi. When a bad law is made, it is said to contravene the Treaty of Waitangi. The Government confiscates the land, it is said this is wrong, because it contravenes the guarantee of the Queen under this article of the Treaty. This has given rise to wishful thinking on the part of many Maori groups, for the formation of Absolute Maori Authorities, variously called Kotahitanga (United Group) Kauhanganui (Open Forum) maori Parliament or other designations. All this wishful thinking goes back to this article in the Treaty. Indeed, these ideas were due to confusion as the authority of the Maori was set aside for ever by the first article of the Treaty.

What is this authority, this sovereignty that is referred to in the second article? It is quite clear, the right of a Maori to his land, to his property, to his individual right to such possessions whereby he could declare, *"This is my land, there are the boundaries, descended from my ancestor so and so, or conquered by him, or as the first occupier, or so and so gave it to him, or it had been occupied by his descendants down to me. These properties are mine, this canoe, that taiaha*

(combination spear and club), that greenstone patu (club), that kumara (sweet potato) pit, that cultivation. These things are mine and do not belong to anyone else".

At the time of the Treaty both islands were widely inhabited by maori tribes. They had partitioned all the lands and had named all the various parts. At the time of the Treaty the chiefs and tribes were disputing among themselves the titles and the boundaries between their lands. They fought with guns, with patu (clubs), to take by conquest the lands of the others, or to bar the way of others intent on conquest.

The Queen did not do anything, to take away the rights of the maori over his lands, instead she made the ownership permanent and truly established. This is the reason dear old lady you appear before the Maori Land Court to show your rights, whether of land not yet clothed with title, or by long occupation, when you related the trails, the fern root hills, the tawhara (young shoots of kiekie) swamps or other token and relics of your ancestors.

There are two main provisions in this article of the Treaty, they are:

- 1 The permanent establishment to the Maori of title to his land and his property
- 2 The giving of the right to the Queen to acquire Maori land.

I shall first explain the provisions affecting maori land. You are all fully aware of our rights to land. It is not just now that disputes have arisen between maori and maori over land. "*Is it mine or is it yours?*" and claims would go back to the realms of darkness and to ancient ancestral rights.

This is what Sir William Martin; Chief Judge of the Supreme Court said some time ago in regard to the rights over maori land:

"From what I have seen the rights of the maori affected the whole face of the land, there is not a part unaffected by the claims of the Maori people except those parts which have been sold by them. I have never seen or heard of any part which is not affected by the claims of the maori people. There have been many disputes among themselves as to their rights, but no one would be mistaken that the matter under dispute would be in regard to land".

Now having established under this article of the Treaty the rights of the maori, the law poses a question to the Maori, "Now, to whom does this land belong?" The reply would be noisy, there would be calls from, this one, calls from that one. Blood would be spilt, that was Waitara, the repercussions spread to Waikato, and the fire spread to the far ends of Aotearoa (North Island). The chiefs arose and began selling the lands, whether it was their own or someone else. This was selling without proper title; the Court had not enquired into the ownership of the land that had been sold. There was Heretaunga (Hawkes Bay), Wairarapa, Otaki and many other lands sold before the Maori Land Court sat in any part of these islands. Owing to the many problems which arose *it* was considered necessary to appoint an authoritative body to enquire and to decide the rights of maori claimants to their lands. Parliament then enacted the Maori Land Act of the year 1862. This is what was stated by Section 5 of that Act:

"The Governor shall from time to time have the right to set up a court to enquire and to decide who are the maori people entitled under Maori custom to the maori lands, to apportion their interests in such land, and issue certificates of Title to them for such lands".

This was the beginning of the Maori Land Court as it is today.¹ Until it had adjudicated upon lands not clothed with title, and had given judgement, would it carry out the provisions of the second article of the Treaty of Waitangi, which established to us our Maori rights to our lands.

The part that is not clear of this portion of the second article to the Treaty is in regard to fishing grounds. This part should include the lakes, that is, fresh water lakes, mud flats, pipi (cockle) beds and oyster rocks. As to fishing grounds they are out in the open sea or at the mouths of rivers. Parliament and the Courts have been side stepping these matters. In some cases, the Courts have given judgement, that is, in regard to oyster rocks and the Maori people have been judged to be in the wrong. The case for the fresh water lakes is at present being considered. I shall hold up my explanations of these matters until the third article of the Treaty.

In regard to that part of this article of the Treaty affecting the acquisition by the Queen, its main purpose is to confine to the Crown only the right to acquire Maori lands subject to the price being properly arranged between the Maori owners of the land and the Crown Purchase Officer. This has been a matter which successive Governments have greatly disputed in the past and up to the present. As each Government is elected it is mooted that purchases of Maori land should be curtailed, and for all purchases to be confined to the Crown. Another Government is elected and it is mooted that purchases of Maori land should be permitted to enable any European or anybody else to purchase. This was the law from 1862 down to the year 1892. In the year 1892 acquisitions were confined to the Crown only. When the Government wanted to acquire a block of land, a prohibition was placed on the land, it was gazetted in the same way as is being done by the present Government. In the year 1900 there was complete prohibition of purchases by the Crown. In the year 1905 purchases by the Crown began again in various parts of the island and in 1909 purchases by the Crown and Europeans greatly increased. In the year 1913 the present Government enacted the present law which now directs sales to the Crown and confines the sales of land to the Crown only. This takes it back to the position in the year 1892. That was the basis of the Treaty of Waitangi. We object to such purchases as it restricts the Maori owner to the low price offered by the Crown, and it also restricts the land owner in doing what he wishes to do with his land, as he has to wait for very long periods until the Crown has fully bought up the interests of all the willing sellers before it applied for partition of the interests it had acquired. The objections to these oppressive measures are fully justified, but the blame cannot be placed on the Treaty of Waitangi which laid down this basis.

These, dear old lady, are the main features of this part of the Treaty of Waitangi setting forth the conditions affecting these islands, the Maori Land Court and its activities, the purchases by the Crown which are biting into the land.

These are the words of Nopera Panakareao, a Chief of the Rarawa when a copy of the Treaty reached Kaitaia for Te Rarawa and Aupouri Tribes to sign: —

"It is the shadow of the land which had been given to the Queen while the soil remains."

These are very wise words, an old time saying. The saying of the elderly chief has combined the words of the first article with those of the second article of the Treaty. It is the shadow, that is, the main authority covering the land; it is the power to make laws, the power to say this group shall adjudicate, that authority should see that the purchase is right, while that one leads the individual through the many intricacies of the law, that was the shadow ceded to the Queen by the first article of the Treaty. As for the soil, it is yours, it is mine inherited from our ancestors. It was the second article which firmly established this to the Maori people.

Article the Third

This is the third article of the Treaty:

"ARTICLE THE THIRD

In consideration thereof, Her Majesty the Queen of England extends to the Natives of New Zealand Her Royal Protection, and imparts to them all the rights and privileges of British subjects".

This article explains what Her Majesty the Queen gives in return for what the maori chiefs have ceded to Her Majesty's Government. Here is the explanation.

- (1) The Queen of England extends to the maori people of New Zealand her Royal protection.
- (2) She imparts to them all the rights and privileges of British subjects.

These are very important and formidable words. The first part is that all the maori people would receive protection. Looking beyond the shores of New Zealand we find that it was through the Queen and her descendants, through their prestige and might that we have been protected against invasion by foreign powers, namely the French in its time when it attempted to take the South Island and had actually settled at Akaroa; and after that came the Russians and its attempts to conquer us were staved off; and only yesterday we faced up to the Germans and only after a bitter struggle were they defeated; who knows we may have to face up to the Japanese.* The might of England has protected us, the King has given us his protection.

* Prophetic, considering 1941-45.

When we look at ourselves, we realise the full significance of this protection. The Treaty found us in the throes of cannibalism: that was murder, a crime punishable by death, be the murderer rich or poor. That was the British law which became law for the maori under the provisions of the second part of the above article "*and imparts to them all the rights and privileges of British subjects*". The Treaty found the strong committing outrageous acts against the weak, the chiefs against the commoner, the Pakeha against the maori, and such acts were breaches of the law punishable by imprisonment with hard labour, according to the British code of law adopted as the law for both the Pakeha and the maori under the provisions of, "*and imparts to them all the rights and privileges of British subjects*". British law as provided by the Queen did not prevent crimes. Crimes were committed; there were murders, there were thefts, there were libels and defamations and other crimes conceived by the human mind, however, very few escaped the strong arm of the law.

The second part of the Article "*and imparts to them* (that is, to all the maori people of New Zealand) *all the rights and privileges of British subjects*", is the most important part of the Treaty of Waitangi. This is the part that impresses the maori people most and a part overlooked by the advocates of the maori people in their efforts to interpret the Treaty in years gone by.

This article represents the greatest benefit bestowed upon the maori people by Her Majesty the Queen. It is in a great measure to balance up what the maori people had given her under the provisions of article One of the Treaty. Here is a brief explanation. This article states that the maori and Pakeha are equal before the Law, that is, they are to share the rights and privileges of British subjects. When the Supreme Court was established in New Zealand it declared it was the Treaty of Waitangi under the provisions of Article Three, under discussion, which provided the basis for the administration of British Justice as affecting New Zealand conditions of these times. Now, it is not only the laws made by Parliament that are effective. There are some laws that issue from decisions of Courts of Law. There are some which have originated from British Law and from the Treaty of Waitangi and have become law here in New Zealand. Yes, British Law has been the greatest benefit bestowed by the Queen on the maori people.

My dear old lady, perhaps, you are not aware that during every hour of the day while you are awake and during every hour of the night while you are asleep there are one hundred laws looking after you. They refer to your way of life, your travels, your hours of sleep, your hours awake, your occupation and what you say; of these one hundred laws, perhaps, ninety-five of them apply, equally to your Pakeha friends and perhaps five differentiate. The law pertaining to crimes, the law pertaining to debts, law pertaining to property (except land) and law pertaining to slander are the same, there is one law for maori and for Pakeha, the Treaty of Waitangi ordained it so.

The laws that differentiate the maori from the Pakeha are the laws pertaining:

- 1 maori representation in Parliament
- 2 maori Lands
- 3 Liquor *

* When Sir Apirana Ngata wrote this, legal amendments, especially in the Licensing Amendment Act of 1948, have almost entirely removed the differentiation between maori and Pakeha in this matter.

The maori people have their own special representatives in Parliament elected only by the maori people. The reasons for this special provision were twofold; maori problems had their own peculiarities and the maori people were ignorant of most things pertaining to the Pakeha way of life in those days. My own opinion, however, is that the reason for the four maori Members was the fear on the part of the Pakeha that as maori and Pakeha populations in these islands were very much on a parity and that if the maori people were given the right to vote with the Europeans, there was a possibility many more maori Members would be elected to Parliament. However, maori representation in Parliament is one of the few remaining special provisions for the maori people.

The laws pertaining to maori lands are entirely different from the laws pertaining to European lands. Matters for decision are ownership of lands, and who should succeed to deceased owners. There were no wills, the nearest equivalent being a dying request. There were many restrictions pertaining to the sale, to the leasing and mortgaging of maori land which do not pertain to European lands. The differences in regard to Crown purchases have already been explained.

In times past, rates were not levied on Maori lands. This was not because of the Treaty of Waitangi. Likewise in days gone by Maori lands were not affected by taxation and again it was not because of any provisions in the Treaty. The Treaty had provided for "all the rights and privileges of British subjects". If the law had adhered to the spirit of the Treaty, maori land would have borne the burden of rates and taxation long ago. It was in the year 1894 that maori lands were subjected to rates and then it was half of the rate and it was not until 1910 that full rates as for European lands, were levied.

- 1 It was only in the year 1893 that maori lands were taxed, it was a light tax, half of the tax payable by the Pakeha. However, only leasehold maori lands were taxable. It was in the year 1917 that a heavier tax was levied on leased maori land equivalent to half the rate of taxation on European lands.
- 2 At present, if the levies on our lands were in accordance with all that the law provides these would not be anywhere near as heavy as what are levied on Pakeha lands. maori lands not clothed with title cannot be charged with rates County Councils have very devious procedures to follow to put a charge on maori land for non-payment of rates. Only maori lands under lease, were subject to taxes and these at half the amount charged against European lands. All other maori lands that were not under lease,

being farmed and occupied by the maori owners, and Pa areas were not affected by taxation.

- 3 Various laws made it possible to sidestep many of the levies which should have affected our lands in accordance with the words of the Treaty "all the rights and privileges of British subjects". Could it be the laws were wrong and were contravening the Treaty? To all those who are agitating under the Treaty for remedies for our grievances, I say be careful lest you awaken the legal experts of the Pakeha people, who will say:

"Let them have what they are asking for; let the purport of the Treaty be exercised to the very end: Put the same levies on the Maori as are levied on the Pakeha".

Why the vacillation of Parliament, the maker of the laws? Why have not rates and taxes been levied on maori land over the fifty years since the Treaty, namely up to the year 1893? And why after that only half the burden carried by the Pakeha was levied on the maori land? The Pakeha authorities could see the maori back could not carry the burden because of inexperience and general confusion in his own affairs and for this reason the impact of this part of Pakeha law was to be made gradual. "*A bird cannot fly without feathers*". This is a saying of the maori. The Pakeha could similarly say to us "Rating is the life line of the roads which you and your descendants use; it is the life line of our country—there are the railways, schools, hospitals and post offices."

We cannot grasp the Treaty as a shield to use against rating and taxation. It is the leniency of the law which has spared us.

We are conversant with the law pertaining to liquor. Liquor and the Bible came to this country together, if anything, liquor arrived here slightly ahead of the Bible. There would have been no special liquor laws for the Maori if only the maori had consumed liquor wisely. However, because of the abuse, its use as a lubricant to facilitate land sales, its use to mentally incapacitate the Chiefs so that they wasted their substance and its use for bragging on the maraes, the wise law makers were able to decide for themselves and to say:

"Dear Sirs our beverage is not elevating these people, they are strangers to it, they are still in their infancy, let us put a barrier against the consumption of liquor, let us prohibit some Maori areas, let us prohibit the consumption by the womenfolk, let us prohibit everywhere except on licensed premises and prohibit the consumption on the maraes".

The day may come when these restrictions can be lifted, when the maori has become accustomed to liquor, when his blood stream can counter the fiery effect of liquor. The Pakeha may on the other hand say, let us prohibit altogether the consumption of liquor in New Zealand.

Let me end here my general explanations of this article of the Treaty. Let me issue a word of warning to those who are in the habit of bandying the name of the Treaty around, to be very careful of this portion of the Treaty lest it be made the means of incurring certain liabilities under the law which we do not know now and which today are being borne only by the Pakeha. If we suffer through being europeanised too quickly and if we can gain some respite by a gradual acceptance of Pakeha ideas, then let those parts of the Treaty sleep on peacefully.

THE CONFLICTING PARTS

In my explanations about article two of the Treaty I did say that there was one part of that article which was still not quite clear, the part about the fishing grounds together with the fresh water lakes, the mud flats, pipi beds and oyster rocks. The reason I am making special mention of these specific matters is that, there seems to be some difficulty or conflict between Articles two and

three of the Treaty. Article two states that "The Treaty guarantees to the maori people their rights and possessions to their lands, their forests and their fisheries." There is no doubt about the lands and forests. But the part in doubt is that which concerns the lakes situated amidst all the land, the mudflats, that is, the lands which become submerged by sea water at high tide. To the maori these lands belong to him and that is why he considers his rights to these should be established under Article Two of the Treaty. However, I have already explained above that Article Three of the Treaty gave to New Zealand British laws which became effective on the signing of the Treaty and conform with "*all the rights and privileges of British Subjects*".

British law states that the sea from high water mark to a point three miles out belongs to the Crown. The mudflats, the pipi beds, the oyster rocks and the fishing grounds are all below high water mark. These are conflicting points that have been left in doubt. The voice of Parliament has in no way indicated any legislation which would establish in us ownership of these possessions of our ancestors.

The Arawa case concerning its fresh water lakes is still before the Courts and whether it will be decided there remains to be seen; the case might very well be settled out of Court between the people and the Government. I will not say much about that here. The Supreme Court has however given its decision that the Arawa people proceed with their claim through the Maori Land Court.

CONFISCATED LANDS

In conclusion I would just like to say a word about the lands that were confiscated by past Governments. Some have said that these confiscations were wrong and that they contravened the articles of the Treaty of Waitangi.

The Government placed in the hands of the Queen of England, the sovereignty, and the authority to make laws. Some sections of the Maori people violated that authority. War arose from this and blood was spilled. The law came into operation and land was taken in payment. This itself is a maori custom—revenge, plunder to avenge a wrong. It was their own chiefs who ceded that right to the Queen. The confiscations cannot therefore be objected to in the light of the Treaty.

The objections should be made in the light of the suffering of some of the tribes by reason of the confiscation of their lands. The wrongs were done by others while lands belonging to others were confiscated. Consequently, many tribes suffered through having no lands. Some tribes were too severely punished. It was from these objections that earnest supplications were made to Ministers or by way of petitions to Parliament. While the Government could not defend itself under the provisions of the Treaty, Governments have used the Treaty as a shield against these supplications and claims.

So my friend Bennett, will you please pass on to the dear old lady the answer to her short questions. I am afraid the explanations have been somewhat lengthy. It could have been quite short if I had just stated, the Treaty of Waitangi created Parliament to make laws. The Treaty has given us the Maori Land Court with all its activities. The Treaty confirmed Government purchases of lands which is still being done and it also confirmed past confiscations. The Treaty sanctioned the levying of rates and taxes on maori lands, it made the one law for the Maori and the Pakeha. If you think these things are wrong and bad then blame our ancestors who gave away their rights in the days when they were powerful.

Mark Craig
Club Development Officer
Auckland Rugby League
Mark.C@Aucklandleague.co.nz

12/03/2024

Dear Auckland City Council,

I am writing to you on behalf of Auckland Rugby League to express our strong support for the proposed increase in funding through the Sport and Recreation facilities Investment Fund (SRFIF) as outlined in Auckland Council's Long-term Plan 2024-2034. As a Regional Sport Organisation deeply invested in the growth and development of Rugby League in Auckland, we believe that the Long-term Plan (LTP) presents a crucial opportunity to shape the future of our sport and our communities.

As a key pillar in our strategy to 2030, Auckland Rugby League has been steadfast in our commitment to growing participation at all levels of the game. One of our proudest achievements has been the phenomenal growth we have witnessed in the girls and women's spaces within our sport. The number of female participants has surged, reflecting a growing demand for opportunities for girls and women to engage in Rugby League at both grassroots and elite levels.

However, as participation numbers continue to rise, so too does the need for fit-for-purpose facilities to accommodate this growth. This entails community Clubrooms, female changing rooms, sand carpeted fields, floodlit lighting. Adequate and accessible facilities are essential in providing safe and enjoyable playing experiences for our participants. Without suitable facilities, we risk hindering the development of Rugby League in Auckland and depriving our communities of the benefits that sport brings.

The proposed increase in capital funding for sport and recreation through the Sport and Recreation Facilities Investment Fund (SRFIF), is a welcome step towards addressing the infrastructure deficit that our sport faces. By investing in facilities that meet the needs of our growing participant base, we can ensure that rugby league remains a vibrant and inclusive sport for all Aucklanders.

As we look towards the future, Auckland Rugby League is committed to working collaboratively with Auckland Council to identify and prioritize the needs of our sport and our communities. We believe that by investing in fit-for-purpose facilities and supporting initiatives that promote participation, we can create a healthier, more active, and more connected Auckland.

In closing, I would like to extend our gratitude to Auckland Council for its ongoing support of rugby league in Auckland. Together, we can continue to make a positive impact on the lives of our participants and contribute to the thriving sporting landscape of our city.

Thank you for your attention to this matter, and we look forward to the opportunity to further discuss how we can work together to achieve our shared goals.

Sincerely,

Mark Craig
Club Development Manager
Auckland Rugby League

WESTERN SPRING SPEEDWAY – MORE THAN JUST RACING

There is so much more to Western Springs speedway than the racing, there is a huge sense of community and belonging. The feeling or vibe that is around the stadium, the feeling of a community, safety for children and families, excitement of been there with the cars, fumes, dirt and the whole atmosphere. Take away the facts of the locals, cricket, noise, etc. it's about people living in a community and how this will be lost to us if Western Springs speedway were to close. This continues throughout the off season with drivers and car owners stripping down cars, rebuilding cars, engines etc. And the promoters preparing for the season ahead. All talking about the season that was and looking forward to what next season brings.

My parents took me to my very first meeting at 2 months old in 1963 along with my older brother. We went to every meeting and speedway became a huge part of our lives, as a young girl I have so many vivid memories, the lights hanging over the track, sitting behind the start finish line and when the meeting finished been able to walk across the track to the pits. Sitting with friends and having to pick your favorite driver to win at the start of every race, hot chips and an ice cream were a Saturday night treat to name just a few.

Growing up with stories from my father, who went to the very first meeting in 1929 as a young boy, riding from Blockhouse Bay with his brothers on their pushbikes and witnessing "something so amazing" dad always told me he was spellbound by the blazing lights, the heady scent of petrol fumes and the fearless men straddling rumbling motorbikes. Whilst my dad never raced he became an ultimate racing fanatic, along with my mother, they were both instrumental in setting up the Speedway supporters club which held monthly meetings with drivers attending and it was a highlight to have the overseas drivers there. Dad became the Patron of the supporters club. My brother took up sprint car racing and with most young speedway girls I met my husband through racing we in turn took our children there and would love it to be there for our grandchildren.

55 years on and looking at this side of speedway it is so very important in our lives and so many others, whether it spectators, drivers, crew, car owners, safety crew, the promoters, we are all part of something special. Getting to know the people that you sit next to and seeing them throughout the seasons, always saying goodbye after the last meeting and saying "seeing you next year". Seeing generations change, grandparents, and grandchildren, mums dads, hearing about births and deaths throughout the off season , seeing babies come and grow up through the speedway seasons and seeing some of these babies grow up to become our future generation of drivers at Western Springs. These people are all part of our speedway lives and home, looking forward to sitting on the stands and catching up with these people.

My children collecting the clay that flew up onto the terraces, making small race tracks and playing with their toy cars, as so many generations before them and children still do to this day. The highlight of going to the pits, been able to sit in your favorite driver's car and getting your t-shirt signed or autograph book signed and in today's society have a photo taken with your favorite driver. What other sporting place allows young children to experience this with to their idols.

So Western Spring speedway as I started with is so much more than just the cars, it's also about the people, there is a great history behind Western Spring Speedway, generations of families coming through and a lot of them are spectators coming to see a fantastic show. Our future generations deserve to experience what Western Springs community have given to me, so many before me and whoever may follow, a total sense of belonging and been part of such a spectacular sport.

Ruth Boere

Auckland Council Proposed Long Term Plan 2024 – 2034

SCOW/Cornwallis Petrelheads Submission

March 2024

Introduction:

Save Cornwallis Old Wharf (SCOW) is an incorporated nonprofit organization, formed in the 1990's to restore the wharf at Cornwallis. The wharf is now a heavily used, community fishing wharf, one of few remaining on the Manukau Harbour. SCOW co-funds wharf maintenance alongside Auckland Council.

SCOW functions as the community organization run by resident volunteers and dedicated to improving the area. One of our successful initiatives is the Cornwallis Petrelheads, a group of resident volunteers who are trapping pests in an effort to protect the grey-faced petrel breeding colony on the peninsula and hopefully create a pest-free peninsula.

We are grateful to Auckland Council, the Waitakere Ranges Local Board and other funders who provide financial support for our trapping program.

Cornwallis is a peninsula in the Manukau Harbour and it has the most popular family beach on the harbour. During summer, thousands of visitors flock to the beach, the wharf and to launch boats, and to enjoy the surrounding Waitakere Ranges Regional Park area. The residential enclave of private properties sits within regenerating native bush in the Waitakere Ranges Regional Park.

Submission on the Long Term Plan (LTP):

1. Building a Footpath on Cornwallis Rd

We request funding for installing and improving footpaths be increased in the LTP and that Cornwallis Road be included as a top priority project. This could be paid for by reassigning funds from urban raised pedestrian crossings, speed bumps and temporary traffic management, to building the backlog of footpaths requested by communities across Auckland. (It is our understanding that at the current rate of funding there are 100 years of footpath projects on Auckland Transport/Council's waiting list).

Cornwallis Rd is a very narrow winding road, heavily used by vehicles towing large boats and the thousands of visitors to the wharf, the beach and the park. In the residential area there is a makeshift footpath which Auckland Transport does not recognize as a footpath, that in sections doubles as storm drainage.

Safety of pedestrians is a huge issue. The numbers of visitors to the area is increasing and many try to use the footpath. But it is unsafe because the road is so narrow and the path is nonexistent in places. Many residents drive to the beach and parents drive their children to the school bus stop because it is too unsafe to walk in the neighborhood.

If Auckland Transport is serious about pedestrian safety and getting people to walk instead of driving cars, then it should make it a priority to build safe footpaths for communities that are asking for them, including Cornwallis and reallocate funds to this purpose.

2. Preparing a Fire Suppression and Response Plan for Cornwallis and Huia

We request funding be identified in the LTP for a fire suppression and response plan for Cornwallis and Huia.

This is especially pertinent given last weekend's fire at the Puonga end of the peninsula which was started by park visitors setting off fireworks in the bush. The fire destroyed bush and threatened private homes. There have been 2 other significant bush fires on the peninsula in the past decade, started by park visitors. Wildfire is a major risk and the top concern of residents.

Such fire plans are called for in the Regional Parks Management Plan and are underway for 3 communities. SCOW requests that funding be identified for a plan for the Cornwallis and Huia area. The community is doing its part, developing engineering plans for supplementary water supply pipe on the wharf, which would make water available for firefighting, regardless of tide, weather conditions or daylight. If proven feasible, the community will fundraise for its installation. We ask Council to do its part and fund a plan for the area.

3. Implementing the Regional Parks Management Plan, particularly the Recreation and Track Plan for Waitakere Ranges Regional Park (WRRP)

We support the allocation of 2 years of funding in the LTP for the preparation of the Recreation and Track Plan for the WRRP and request funding be included in subsequent years for the plan's implementation.

Cornwallis residents are conscious of increasing numbers of visitors coming to the WRRP and the increasing demand for different activities and facilities. Especially pressing is the need to get more walking tracks back open to provide different walking experiences and spread visitors across the park.

In particular SCOW supports reviewing recreation demand and how to accommodate increasing visitor use; getting tracks open more quickly; and reviewing track construction and maintenance standards to reduce costs as part of the proposed Recreation and Track Plan.

These initiatives could be funded by reducing the amount of money Council spends on four colour printed/digital communications and communications overall. Too much money is spent on expensive documents that aren't user friendly, and items such as billboards and posters, sign writing on vehicles that are wasteful. For example the 4 color illustrated Long-term Plan Consultation document is fiendishly difficult to read on a computer because of its landscape layout. Simple user-friendly documents, more that are just in black and white, will get the message across at a much reduced cost in resources and staff time and will give the public the message that the document really is a draft and Council is willing to listen to feedback and modify the final document.

4. Reinstating the Natural Environment Targeted Rate (NETR)

a. Fully fund the Regional Pest Management Plan (RPestMP) –

SCOW supports the NETR being restored to the planned rate. It should be used to fully fund implementation of the RPestMP and continue Council's landscape-scale pest and weed management activities. These have a huge positive impact on the success of the pest and weed management efforts of volunteers and residents. It should also be used to rebuild walking tracks and reopen them more quickly.

b. Maintain the regional grant programme to support communities and volunteers

As part of the above, greater support should be given to community and volunteer initiatives including maintaining or increasing the Regional Environment and Natural Heritage grant funding. This funding is essential to SCOW/The Petrelheads maintaining its trapping program.

We support initiatives that engage the community in managing pest animals, plants and pathogens, and restoring and connecting native ecosystems. P45

And we support additional community-led landscape-scale plant and animal pest control contestable funding. P46

All these can be funded from reworking how the NETR funds are spent.

5. Reworking the Waitakere Rural Sewerage Targeted Rate

The proposed cost increases for this Septic Tank Pump-out Rate and the portion of it for Council overhead are exorbitant. The annual rate per pump out is proposed to increase to a three year cost of \$1010.40 of which \$559.41 goes to the contractor and \$450.99 is for Council overhead. The programme has been in existence long enough Council costs should be minimal and declining.

SCOW opposes the 13% rate increase and requests a review of the entire program, in particular the unacceptably high Council overhead. Residents should be given the option of organizing and paying for the pump out themselves and not being subject to the rate.

Thank you for considering our submission.

Gillman Rae, Chair
Save Cornwallis Old Wharf (SCOW)/Cornwallis Petrelheads
sales@ott.co.nz

Tēnā koe Mayor Brown,

Re: Auckland Council - Long Term Plan - Auckland Surf 10:20 Capital Development Rebuilds

Surf Life Saving Northern Region (SLSNR) is aware of their requirements to inform the current Auckland Council LTP process, specifically relating to the request for ongoing Auckland Council investment in our ‘Surf 10:20’ Lifesaving Facility Capital Redevelopment Programme.

The following sets out a high level forecast of the anticipated priorities for our programme of rebuilds. As in the past this order may sometimes change due to build readiness, or other factors. Additionally SLSNR has forecast the relevant contribution from Auckland Council based on the existing 35% contribution to the ‘Lifesaving Footprint Cost’. Following the completion of the rebuilds of Bethells Beach and Mairangi Bay facilities, outside the need for any new facilities there is a smaller programme of redevelopments based on refurbishing the existing structures at Piha and Omaha.

While the summary that follows is limited to the ongoing Auckland Council funding investment in the existing programme of lifesaving facility redevelopments, as submitted to Auckland Council in March 2023, there is also a need to create a joint strategy (‘Lifesaving Blueprint’) beyond the status quo to complement the wider SLSNR investment in the ‘Auckland Council Ten Year Plan’ and better inform the location of current and future lifesaving services, whilst addressing the need for facilities and service delivery in new and emerging locations.

Summary Table of Investment Sought and Forecast Timelines

Priority	Location	Proposed Construction Date	Total Cost (incl. escalations)	Council Contribution
*	Bethells Beach <i>Cyclone damage</i> (rebuild)	*ASAP – current constraints around funding and consents* Forecast – November 2024 if all funding secured	\$6.8mil	\$2.4mil
1	Mairangi Bay (rebuild)	November 2025	\$6.9mil	\$2.42mil
2	Piha (refurb)	2026	\$4.5mil est.	\$1.4mil
3	Omaha (refurb)	2027	\$4mil est	\$1.8mil
				\$8.02mil

Proposed Timeline of Funding Drawdowns

Financial Year	Anticipated funding to drawdown from Council
2025	\$2.4mil – Bethells Beach
2027	\$2.42mil – Mairangi Bay
2028	\$3.2mil – Piha and Omaha

This is the proposed drawdown schedule based on a one major project per financial year basis. If Council was not opposed SLSNR would promote a drawdown schedule that allowed the above funding to flow across multiple financial years or a three-year period so as not to stagger clubs unnecessarily. That is to say, a process that would support multiple clubs builds taking place in the same year if necessary.

Submission to Auckland Council Long Term Plan

Sport and recreation is a fundamental necessity for Auckland to ensure that our community are engaged, active and able to connect with one another. We know the benefits of this are significant and ultimately create a happier, healthier community. We are proud to be Aucklanders and we want to ensure the infrastructure supports our people. We recognise the vital part that Auckland Council plays in ensuring sport and recreation facilities are a priority and appreciate the ongoing work done to ensure these are able to be used by our community.

Basketball is a growing sport, we have over 100,000 tamariki and rangitahi who want to play basketball and we know it appeals to a wide demographic which means the opportunities for growth are huge. We have inclusivity as a strategic focus including to increase opportunities for women and girls and ensure our Māori and Pasifika have equal opportunities to participate. We have people participating from a broad range of ethnicities and age groups every day so we know basketball truly is a sport for all. We want to ensure our facilities are able to meet this level of growth across the whole region and that Auckland Council gets to a position to provide the facilities for our community.

We use facilities across the wider Auckland area which we share with many community groups so access is limited which means a lot of people are missing out on the opportunity to participate. With the larger venues our bookings are often bumped for priority bookings/events which means we have to cancel our planned leagues or events or scramble to find an alternative venue to avoid disruption to our members, often with little success.

Having recreational spaces in Auckland is a critical element of our infrastructure and requires adequate, sustainable funding to ensure the facilities meet the need. We know through the Sport NZ study that we have a significant shortfall of community sport and recreation facilities across Auckland, including an identified shortage of 77 courts across the greater Auckland region. This means a lot of people are missing out!

We strongly support retaining the Sport and Recreation Facilities Investment Fund and the proposal to add a further \$35 million to this, this is critical to ensuring we can sustain existing facilities and look to add new facilities to begin to move towards supporting the level of demand we are experiencing.

We encourage an assessment of the framework and cost to maintain our facilities to ensure Auckland Council is maximizing use of available funds and that our facilities are of a consistently high standard.

We ask that Auckland Council retain the Sport and Recreation Facilities Operating Grant and intentionally consider increasing the grant fund to ensure we maximise the facilities we have right now. We are keen to see Auckland Council working with other funders and key stakeholders to maximise the areas of focus for capital investment. This will enable the decisions to be informed by people close to the delivery so that investment is strategic, targeted and fit for purpose. There are opportunities to use funds to convert buildings or cover outdoor courts to provide quick solutions to increase year-round facility access now so we are keen to see some quick wins with this funding.

We hope Auckland Council take this opportunity to work to catch up to the demand for a critical element of our city's infrastructure.

Yours sincerely,

A handwritten signature in blue ink that reads 'Claire Hamilton'.

Community Waitākere

Submission to the Auckland Council LTP 2024 - 2023

Background

Community Waitākere is a community development organisation serving our West Auckland communities. We focus on building the capacity and capability of our community to support locally led initiatives and leadership for the community sector. We do this through providing support services, catalysing community action, and advocating for and demonstrating the value of the community sector. Our focus areas are social and community development, local ecology, environmental restoration, and climate action.

We know a thriving city can only be achieved by thriving local neighbourhoods, where all people have the basics to meet their needs. There are increasing inequities in our communities which means that certain groups are more disadvantaged than others. This is for multiple reasons and is complex in nature. We encourage the Council to always have equity as a focus on planning, policy and investment and to commit to being an effective and genuine Treaty partner.

We also know the community and social sector are critical in supporting communities and provide so much value that is often understated, so an ongoing commitment to supporting these organisations is vital. We would like to draw Council's attention to the [Strengthening Communities report for Tāmaki Makaurau — Community Waitākere \(communitywaitakere.org.nz\)](https://communitywaitakere.org.nz) as a reference point.

In reference to the areas of the LTP which Council has sought feedback on, below are our comments.

1. Transport

We **support most** of the **central proposal** for the transport plan including the focus on public transport, completing cycleways and building low-cost cycleways, limiting raised tables and reviewing Auckland Transport's costs.

We specifically support:

- Council acknowledging the role transport plays in emissions and the variety of approaches that are proposed to reduce emissions.
- Introduction of a \$50 weekly cap for public transport covering bus, trains and inner harbour ferries and the proposed ways to pay
- the prioritisation of the Lincoln and New North Road upgrade
- improvements to the North Western motorway
- investment in cycling to complete existing projects and look for ways to deliver lower cost cycleways acknowledging these also provide walking routes and other activities

We recommend;

- that Auckland Council continue to provide support for Te Whau Pathway as part of the wider transport network
- that Council invest in low-cost infrastructure that slows down cars and provides other benefits at the same time. Planting trees, artwork, sculptures, seating and planter boxes make places feel more inviting, create a sense of belonging (which means more people will be walking around) and makes roads feel narrow which slow cars down.

-

2. Water

We **support** the **central proposal** for water, particularly the Making Space for Water programme. The community sector can play a crucial role in engaging communities and supporting recover and resilience in this area.

We specifically support:

- Delivery of the Making Space for Water programme over 10 years and in particular the need for “Community-led flood resilience” initiatives. To achieve this Council must build long term partnership agreements with community organisation who are best placed to support this work.

3. Parks and Community

We **support** the **central proposal** in shifting to fairer funding model for Local Boards, funding 35 million towards sport and recreation, having 70% of the Sport and Rec Investment Fund no longer contestable, and using the Independent Single Facilities Priority Plan to inform decisions. We also support Auckland Council working with Ministry of Education to make better use of assets.

We specifically support:

- Continuing to transition the parks and community portfolio from as asset to a service approach to allow greater flexibility to adapt to changing and diverse community needs
- Continue the already budgeted \$700 million to support council to deliver differently via partnerships

-

We recommend the sport and recreation investment also goes into outdoor sports with higher participation rates from Māori, Pasifika, and women and girls in West Auckland e.g. sports such as Rugby League, Waka Ama, Volleyball, Touch and Netball.

4. City and Local Development

In general, we **support** the **central proposal** and the deliver a vibrant city centre and local town centres. We believe investment in this area should be needs based and a careful balance considered between major destination sites (such as the waterfront) and local places where our communities spend most of their time, town centres. The investment in local town centres in West Auckland has be largely neglected. Therefore, we would like Council to **do less** in the area of city centre development.

We specifically support:

- Restoring Eke Panuku's \$100 million Strategic Development fund
- Continue to regenerate our neighbourhoods of Henderson and Avondale and give serious consideration to supporting investment in the Glen Eden town centre

We recommend urban regeneration to be prioritised in the areas that need it most and to consider where the most building consents have been granted and increase infrastructure in these areas e.g. Henderson-Massey Local Board

5. Environmental Management and Regulations

We support the **central proposal** to nurture and monitor our natural environment including activities related to climate change, community resilience, urban design and Māori-led community partnerships.

We specifically support:

- Resuming the Natural Environment Targeted rate at the previously planned level to that our environment is nurtured and prioritised for our future generations
- Continue to work closely with community groups such as Community Waitākere to focus on environmental restoration projects such as Orangihina reserve
- Support restoration and local Pest Free initiatives such as Pest Free Te Atatū that engage the community managing pest animals, plants and pathogens

6. Economic and Cultural Development

We **support** the **central proposal** where funding for major cultural events will continue, negotiations will be had with Central Government to support visitor attractions and subsidised fees for facilities, events and venues will continue.

7. Council Support

We **support** the **central proposal** in delivering services such as emergency management, supporting opportunities for Mana Whenua and Māori communities and improving community engagement with Auckland Council.

We recommend the increase in Māori outcomes funding starts from Year 1, rather than in Year 4 of the LTP. This would show Auckland Council's commitment to improving outcomes for Māori communities which in turn, will improve outcomes for all.

8. Strategic direction on climate change

We support Council's prioritisation and ongoing commitment to Climate Change and the variety of initiatives that are being proposed.

Community Waitākere commissioned a West Auckland Community Response to the Flood and Cyclone events in 2023. This study highlights what did and did not work well at both a community and council/government level. This study has strong recommendation of what would enable community and council to be better prepared to respond into the future. We encourage the various Council teams to use this to inform future practices and plans.

[West Auckland Emergency Response report — Community Waitākere \(communitywaitakere.org.nz\)](https://communitywaitakere.org.nz)

The Living Wage Movement Aotearoa Auckland Network

Submission on Auckland Council Long Term Plan

Request to Speak

The Living Wage Movement, Auckland Network appreciates the opportunity to make a written submission and further advises that we request to be heard and speak to this submission directly to the Council at a future occasion convened to hear public submissions, whether it be in person or via Zoom.

Who we are

The Living Wage Movement is a broad base organisation from community groups, unions and faith-based organisations. We are connected by one common goal - a Living Wage for workers to reduce poverty in New Zealand.

Why we are making this submission

350 businesses and organisations including seven councils accredited Living Wage Employers. It's time for Auckland Council to play its role in changing the lives of thousands of low wage workers.

What we do

Champion the Living Wage in cities and towns across Aotearoa through a diverse group of people from Faith, Community and Unions.

Commission an independent calculation of the New Zealand Living Wage rate.

Offer Living Wage Employer accreditation, for employers to demonstrate their commitment to fairness and dignity for all workers and support the movement.

Contact: teisa@livingwage.org.nz | 0211068156

OUR ASK

We're asking Auckland Council to become an accredited Living Wage Employer, and to include this in the 24/25 Long Term Plan.

We are asking you to become an accredited Living Wage Employer, this means ensuring:

- All directly employed workers are on the current Living Wage.
- All indirectly paid workers employed by contractors, delivering a service to the council on a regular and on-going basis are either on the current Living Wage, or will be moved to the Living Wage on milestones agreed in the accreditation process.

Including this in the Long-Term plan under budget and operational decisions gives certainty to your workforce.

In recognition of Auckland Council's efforts in advancing the Living Wage for cleaning workers and directly employed individuals, we commend the strides made thus far. The community wholeheartedly supports the council's ongoing commitment to this initiative. Building upon this progress, the time is ripe for accreditation, marking the next crucial step towards fostering a flourishing Auckland.

Mayor has shown his support for becoming a Living Wage Employer

Before the council term, the current mayor committed to

- (1) Maintaining the Living Wage as the minimum rate for all directly employed staff and regularly contracted workers
- (2) Auckland to apply for accreditation this term
- (3) Mayor's office to meet quarterly with a delegation from the Living Wage Movement to ensure the implementation of these commitments.

Adding accreditation to the Long-Term Plan fulfills your public commitment.

Contact: teisa@livingwage.org.nz | 0211068156

Why becoming an accredited Living Wage Employer matters

"It has stopped me from working long hours – no more weekend jobs, no more stress and fatigue. I am able to look after my wellbeing and spend more quality time with my family, especially my two young daughters."

- Josephine Wiredu, Etu member and cleaner at Auckland Council

When pursuing Living Wage Employer accreditation, your decision will profoundly impact cleaners, security guards, library assistants, event services attendants, leisure recreation assistants, lifeguards, fitness instructors, and catering assistants. Despite often being overlooked, these frontline workers play a pivotal role in serving our community on behalf of the council.

Contracted employees such as cleaners and security guards are often missed when Councils consider their remuneration structure. Living Wage Employer accreditation requires Auckland Council to do a deep dive into their employment and procurement agreements, to ensure these workers are paid at least the Living Wage.

As well as having a positive impact on the lives of workers, extensive research both in New Zealand and overseas shows the Living Wage benefits the wider community in a variety of ways.

- a. Workers who are paid the Living Wage are more productive.
- b. When people on low incomes have more discretionary income, they spend it on local businesses and stimulate the local economy.
- c. Job turnover is reduced.
- d. No perceptible growth in unemployment through raising the wages of those
- e. workers on the lowest rates.
- e. The Living Wage will create stability for the wider community who currently live precariously in a wage to cost of living relationships.

Becoming a Living Wage Employer is one way to enact your vision for the city.

In the draft long term plan, you've said:

"Putting us on a sustainable financial path is necessary if we want to make the investment required for Auckland to be a beautiful, thriving, and safe place to live. This means our LTP needs to focus on areas where we will have the most impact for the next 10 years." (pg.7, Long-Term Plan 24/25)

Raising the wages of workers in our community to be able to live a dignified life is a crucial step towards achieving our objectives.

By prioritizing investments in the people of Auckland, we can contribute to the creation of a vibrant, safe, and sustainable city.

Evidence shows that low-income families reinvest more of their hard-earned money back into the community, and we should celebrate that by supporting them the best we can by ensuring they are paid enough to do so.

The best way to achieve the Living Wage for workers in the long term is through Living Wage Employer accreditation.

To be an accredited Living Wage Employer, Auckland Council must demonstrate that all direct employees and indirectly paid workers are paid the Living Wage.

The council is then open to being independently verified each year to ensure this workforce continue to be paid the Living Wage.

Seven local Government Authorities are accredited Living Wage Employers

Wellington, Hutt, Porirua, Christchurch, and Dunedin City Councils are accredited Living Wage Employers.

Regional and district councils, Environment Canterbury and Kapiti District Council, have also recently become accredited.

All of the listed councils have taken the necessary steps to meet the Living Wage Employer criteria.

Various amounts of support have been provided by Living Wage Aotearoa NZ to help council navigate the accreditation process. Council officials may also consult with their counterparts in accredited Living Wage councils to complete the process.

Hundreds of employers from many industries have maintained Living Wage Employer accreditation for several years. The Living Wage rate is updated every year and is based on movement in the average hourly earnings in New Zealand. The updated rate is announced in the April each year.

Accredited Living Wage Employers have five months to pay the updated rate.

[You can read more about the rate calculation and updates here.](#)

Request to Speak

The Living Wage Movement Auckland Network appreciates the opportunity to make a written submission and further advises that we request to be heard and speak to this submission directly to the Council at a future occasion convened to hear public submissions, whether it be in person or via Zoom.

SUBMISSION TO AUCKLAND COUNCIL LONG TERM PLAN

27 March 2024

Introduction

This submission is made on behalf of Glen Eden Business Association Inc (GEBA), representing over 130 businesses in the Glen Eden area. Our diverse membership includes retail, commercial, professional services, and hospitality establishments.

Auckland's 52 Business Improvement Districts (BIDs), including the GEBA, play a crucial role. We strive to enhance the business environment, foster innovation and prosperity, and attract new businesses, customers, and visitors, contributing significantly to Auckland's economic well-being.

Support for upgrades to Glen Eden Village

The 2013 Glen Eden Implementation Plan envisioned a revitalised town centre with improved connections, traffic calming, and a large public square. Ten years later, progress seems limited beyond recent traffic measures in Glenmall Place. While other areas see development, Glen Eden appears stagnant.

The Glen Eden Business Association urges renewed focus on the town's redevelopment over the next decade. They also recognise the potential closure of the Glen Eden level crossing with the upcoming City Rail Link project. GEBA emphasises the importance of early discussions with planners to understand the impact and explore alternative solutions that could benefit the town centre

Other Matters of Concern

- **Long-Term Differential Strategy (LTDS):** We strongly oppose the discontinuation of the LTDS, which has benefited businesses by gradually lowering their share of general rates. The arguments presented for this change are not convincing, especially for small businesses, the backbone of Auckland's economy. We urge you to maintain the LTDS.
- **Draft Waste Management and Minimisation Plan 2024:** We support the plan's focus on waste reduction and resource recovery. We agree

with the proposed approach of a fortnightly rubbish collection for households with an option for larger bins but urge you to ensure this system caters to the needs of businesses as well.

- **Transport Plan:** We agree that a key priority for transport should be to make the most of council's existing assets and planned spend, including the council's significant investment in the City Rail Link (CRL) and other large rapid transit network projects.

But we ask that all transport projects are planned and implemented in close collaboration with BIDS. A key concern we have is the disruption caused to business from transport developments, including often excessive temporary traffic management. We ask for this to be addressed.

- **Local Board Funding Policy:** We agree with the *central proposal*, which sets out a 50/50 combination approach (that is, reallocating some existing funding between local boards and providing some new funding (\$20 million opex and \$30 million capex) over the first three years of the LTP 2024-2034.

We, the GEBA, are committed to working collaboratively with Auckland Council to revitalize Glen Eden Town Centre and unlock its full potential.

We believe that by implementing the recommendations in this submission, we can create a thriving commercial hub that benefits businesses, residents, and visitors alike.

Yours sincerely,

Gary Holmes – Glen Eden Business Association Manager

Long-Term Plan 2024-2025

Submission 14134

Rates increases

There are 3 scenarios proposed: one is called the “Central Proposal”; one is called “Get More” and the third is called “Get Less”.

The Central Proposal, which is what Auckland Council proposes, has a 7.5% increase in rates in yr 1; 3.5 % in yr 2; 8 % in yr 3 and no more than 3.5% for the 7 years after that.

	Year 1	Year 2	Year 3	Years 4-10
Central proposal	7.5%	3.5%	8%	No more than 3.5%
Get More	14%	10%	10%	5% thereafter
Get Less	5.%	3.5%	3.5%	No more than 1% above CPI inflation

Part of the reason the Auckland Council (AC) is strapped for cash is that successive mayors have campaigned on a promise they would not increase the rates by more than 2.5%. This has led to a shortfall of funds, and the need to defer expenditure, including renewals of assets, and to cut projects and staff.

AC should not bind itself – and future mayors and councillors – to an unrealistic maximum 3.5% rates increase, carefully located beyond the term of this mayor and council. It should provide for costs that will provide the services and infrastructure the city needs at a realistic level.

- **Oppose restricting overall rates increase to “no more than 3.5 per cent a year after that” in Yrs 4-10 of the Central Proposal. (Page 22). This will constrain future councils.**
- **In general, support the “Get More” proposal (pp 24-25), although at a lesser rate than that proposed. In particular, support greater spending on the environment, urban regeneration for towns in the west – Avondale, Glen Eden and Henderson, increased public transport, more grade separation of rail especially in the west, acquisition of more parks, a halt on sale of parks and community assets, increased spending on historic heritage.**

Greater spending on the environment is needed because for one or more years the Natural Environment Targetted Rate or NETR was reduced (once again, to keep down overall rates) and reserves used, which has resulted in a deficit for the environment.

Transport (page 32-34)

- **Call for funding for shuttle bus service to outer villages in the Waitakere Ranges Heritage Area and to open track entry points in the regional park.**
- **Support grade separation of rail crossings, in particular, Glen Eden.**
- **Call for construction of cycleway from New Lynn to Henderson along rail line.**
- **Call for expanded park and ride at Glen Eden on the site in Waikumete Road.**

Making Space for Water (page 38)

- **Generally support this, but note that no projects in the Waitakere Ranges are listed in the current proposed projects. In particular, the work to deal with erosion of the Piha Stream and improve the hydrology in the Piha Wetland (already scoped in Morphum Reports) should be included in the list.**

Parks and Community (page 23, page 24, pp 39-41)

This section of the plan is vague and it is not at all clear what is proposed, however, this area, which includes parks and libraries, arts, Maori and Pacifica programmes and grants programmes, is one of the most important to the public. The Central Proposal involves “working only on highest priorities” and states there will be unspecified cuts to services in “planning, monitoring, education, communication and public engagement”.

It also says it plans cuts to “experience centres” in regional parks (page 39). What exactly this means is not clear, but it seems likely it is the Arataki Visitor Centre and Education Centre, Ambury Park and possibly the Botanic Gardens. This is opposed. If anything as people are separated from the natural world and New Zealand’s farming heritage, there is even more need for education centres which introduce children, immigrants and families to New Zealand’s heritage.

The city is intensifying at a rapid pace as required by the Unitary Plan and central government. Much of the new townhouse and apartment development has no or minimal outdoor space for recreation, vegetable gardens or simply being outdoors. People need to be able to spend time outdoors for their health and wellbeing. Space for these such activities needs to be provided in public open space and will require bigger budgets than AC has previously provided.

- **Support the Get More proposal for Parks and Community to respond to the need of the public for these services which are critical for people’s wellbeing, including well maintained and developed parks, libraries and community centres.**
- **Support the continuation of Arataki Visitor Centre and Education Centre, Ambury Park and Botanic Gardens at the current level.**

- **Oppose limiting capital spending on parks to \$4.2 billion as proposed in the Central Proposal. Greater spending could support greater parks acquisition – needed in a growing city – and development of regional parks such as Te Muri, Pakiri, Te Rau Puriri, as well as the many local parks in the west that do not even have a park sign or seat.**
- **Oppose any future sales of land zoned open space or reserves including those held under the Reserves Act or the Local Government Act**
- **Support buying more parks and additions to parks, both regional and local. In particular, support the purchase of land previously identified by ARC at Ihumatao and Crater Hill.**
- **Transfer ownership of Puketutu Island from Watercare to Auckland Council to be a regional park.**
- **Call for the plan to include budget for a swimming pool in the New Lynn/Avondale/Glen Eden area. This had been long planned and people in this part of Auckland lack access to a swimming pool compared to other parts of the city.**
- **Support development of planned park and iconic building at Wynyard Point on land purchased for this purpose by the former Auckland City Council and Auckland Regional Council. Oppose sale, leasing or use of this land for a stadium.**

AC is preparing to undertake a new 10-year contract for maintaining local parks. Project 17 – the first out-sourced 10-year maintenance budget – was heralded as an “outcomes” focused contract and promised to improve on previous service levels. While I have not seen any audits of the contract, the perception is that standards have fallen.

- **A review/audit of P17 is needed before AC undertakes another 10-year parks maintenance contract and this should be shared with local boards and the public. AC is now preparing for the next 10-year contract, P27 – Te Arahura, but there should be an opportunity for local boards and communities to have input.**

City and Local Development (pp 42-43)

Of the West towns and villages, only Avondale and Henderson are amongst those specified for regeneration projects under the Central Proposal.

- **Call for Glen Eden to be included as a regeneration location.**

Environmental Management and Regulation (page 44-46)

- In the Pay More proposal (page 46), support the NETR being restored to the planned level and increase it by 3.5 % annually in line with inflation to raise \$412 over 10 years. This is \$62 million more than the Central Proposal.

NETR Option	10-year revenue and expenditure	Rates impact 2024/2025	Additional increase 25/26 onwards
1. Retain at 2023/24 level	\$176 m	\$23.69m	n/a
2. Resume at \$30 in 24/25 for av value property and increase at 2% per year	\$245m	\$30m	0.02%
3. Proposed, resume at previously planned level	\$350m	\$47.02m	n/a
4. Resume at previously planned level and increase at 3.5% per year	\$412m	\$47.02m	0.04%

- Support Option 4 (page 99). This would allow increased implementation of the Regional Pest Management Plan. There would be greater support for community initiatives including increasing the Regional Environment and Natural Heritage grant funding.
- In the “Ak Have Your Say” section of the Consultation Document (page 135-145 and specifically 144) there is no way you can say you support Option 4.

The other options would involve scaling back. Option 3, the Council’s preferred option would provide “limited capacity for community-led initiatives or to deal with emerging threats.” (page 99)

In the Central Proposal it is proposed to reduce environmental/sustainability education in schools.

- **Oppose reduction in environmental education for schools or young people in general.**

Attachment D in the Supporting Information document (pages 444-451) provides additional information about the NETR, though still not very much detail. It is difficult to tell how much of this expenditure will come out to the Waitakere Ranges.

This chart is a summary of what is provided.

NETR expenditure	Over 10yrs	Over 10yrs	Over 10yrs	Over 10 yrs	
	Option 1	Option 2	Option 3	Option 4	
Mainland plant and pest	\$85m	\$115m	\$173m	\$198m	Option 1 & 2 have much reduced possum control, reduced pest plant control in buffer areas around parks, less control pigs, deer & goat around Waitaks. Only Option 4 deliver planned level or control. Option 3 has some reductions. Option 4 provides mammal pest control in 18 regional parks
Plant pathogens, kauri dieback, myrtle rust	\$48m	\$63m	\$80m	\$91 m	Options 1 & 2 reduced kauri dieback control, track maintenance. No new kauri research or monitoring. Option 4 provides for kauri tracks meeting standards and remain open to public
Island pests	\$19m	\$22m	\$24m	\$28m	
Marine pests	\$10m	\$13m	\$13m	\$25m	Option 4 would allow management of Caulerpa
Marine ecology	\$3m	\$3m	\$4m	\$6m	Options 1 & 2 reprioritise

					seabird protect and habitat monitoring, Options 3&4 increase mapping and monitoring
Enabling tools	\$3m	\$3m	\$4m	\$4m	
Community-led action	\$4m	\$18m	\$40m	\$46m	Options 1 & 2 reduced support for community groups, supply of traps etc, reduced reveg. Option 4 adds funding for community-led landscape scale pest control
Biodiversity priority ecosystems	\$4m	\$8m	\$12m	\$14m	Options 1&2, reduced level of management of priority eco-systems
	\$176m	\$245m	\$350m	\$412m	

Council Support (page 50-52)

I note the absence of information about historic heritage. The central proposal says “identify, advise and protect heritage places for town centres and local areas”. The Pay Less proposal states: “delivery or focus on meeting minimum requirement for heritage programmes”. It is unacceptable to reduce spending on heritage places which is already much reduced from what was available in the first term of AC.

- **Oppose any reduction in spending on historic heritage.**

PART 5 Major Investment (Page 55-71)

- **Oppose sale of any more airport shares as the airport is the gateway to Auckland and AC should maintain its interest.**
- **Oppose leasing port area. Port should stay in AC ownership through Port of Auckland. ARC brought the port back into public ownership so ratepayers would have control of the port company and port land. Support Option 1 (page 70)**
- **Support the notion of an Auckland Futures Fund which is really a reinstatement of Infrastructure Auckland, but the fund should not be developed by selling Council/public assets such as the airport shares or Port leases.**

Both the airport shares and the Port have provided good dividends to Council and will continue to do so. It makes no sense to sell the airport shares and then make other investments to provide income. Retaining the airport shares both provides an income and a direct say in the future of the airport company.

With the Port, leasing the port land to another company will diminish the Council's influence over the port land and how the port company develops the site. The port is critical to the economic success of Auckland and provides employment for Aucklanders through manufacturing industries that rely on what comes over the wharves.

- **Oppose taking Captain Cook Wharf, Marsden Wharf and Bledisloe Terminal out of Port of Auckland, in case they are not needed by the Port now, or in the future.**

Queens Wharf and Princes Wharf and much of Wynyard Quarter are already in public ownership and there are opportunities there for developing public uses. It is proposed to shift these wharves to AC "to be used for something else" (page 143). That "something else" could be a stadium or high-rise apartments or offices which would lock the public out of the harbour as has occurred with development on Princes Wharf. AC should focus on the areas it can already develop public access.

Recovery (page 91)

The Council's recovery efforts are very focused on existing funding from Central Government and itself. There isn't any proposal to fund work that needs to happen beyond that to increase the resilience of the Auckland region as a result of climate change and more severe weather events. Some of the challenges are outlined on page 86 but there doesn't seem to be any funding.

The Pay More proposal proposes additional climate funding up to \$100 million a year from year 3 for reduction of carbon emissions (page 46), but there doesn't seem to be ongoing funding to prepare for or address weather events, except for the Making Space for Water – which is a one-off govt/AC fund.

Other changes to rates (page 100)

Waitakere Rural Sewerage Targetted Rate

AC is proposing a 13% increase in the Septic Tank Pump-Out Rate which provides for a three-yearly pump-out of septic tanks. The annual rate is proposed to go up from \$296.75 to \$336.80 which is an

increase per tank of \$129.15 over three-years to a cost of \$1010.40. Of this \$559.41 goes to a contractor to do the actual job, and \$450.99 to the Council for admin and communication.

- **Oppose the increase in the septic tank pump out rate and call for a review of the unacceptable Council admin costs for this rate.**

Fairer Funding for Local Boards (page 110)

Since amalgamation in 2010, Local Boards have been funded as 90% population, 5% deprivation and 5% land area.

The Council now proposes to change this to population 80%, deprivation 15% and land area 5%. There does not seem to have been any consultation with local boards or the public about this change.

While reducing the impact of population will benefit Waitakere Ranges Local Board which is a very large forested area with major areas of unpopulated parkland, it does not recognize the burden, cost and responsibility of caring for an area which contains much of the region's natural eco-systems, natural habitats and wildlife.

- **Support fairer funding of local boards to achieve equity, but argue there should be greater recognition of, and provision for, boards which contain the region's priority eco-systems and natural areas.**
- **Propose that the formula for Local Boards should be 75% population, 5% deprivation, 20% environmental priority, and that there should be consultation with local boards and the public on this formula.**
- **Call for greater financial support from council for the Waitakere Ranges Heritage Area, which is almost entirely contained within the area of the Waitakere Ranges Local Board. This would enable Council to meet its obligations under the Waitakere Ranges Heritage Area Act 2008.**

Auckland Council Long-Term Plan 2024-2034 Submission

Submitter:

Pest Free Waitākere Ranges Alliance
% EcoMatters, PO Box 15215, New Lynn, Auckland 0640

Contact:

On behalf of the Pest Free Waitākere Ranges Alliance Committee:
Michelle Swanepoel, Coordinator, michelle@pfwra.org.nz, 0274 994 596

Introduction

The Pest Free Waitākere Ranges Alliance (PFWRA) is an alliance of all the groups restoring biodiversity within the Waitākere Ranges Heritage Area.

Our vision is for the Waitākere Ranges to be restored and thriving. We strive to achieve this by prioritising conservation of the Waitākere Ranges and acting collectively - kotahitanga.

Our Submission

We agree

With the vision that Auckland be beautiful, thriving, and safe, and that this will be achieved with a stunning natural environment.

*A stunning natural environment is a thriving environment, one which sustains our taonga species. The path to creating this **prioritises conservation and restoration**, as this will deliver a safe place for our special species to thrive, hence a place that people can enjoy.*

Manaaki whenua, manaaki tāngata, haere whakamua.

If we take care of the land and take care of the people, we will take care of the future.

We support

Resuming the Natural Environment Targeted Rate (NETR) to previously planned levels, with an increase at 3.5% per year and Option 4 for NETR expenditure (Supporting Documentation, Attachment D, pg 444-451).

We'd like to advocate for a larger percentage of NETR (greater than the 13% allocation of 2022/23) going to expand community-led action (which is the expressed approach by Council for environmental action).

*Enabling community-led action means activating volunteerism. A study of the groups undertaking restoration in the Waitākere Ranges by the Alliance in 2021/2022 established that groups with **paid coordinators had 10 times as many volunteers as groups without a paid coordinator**. This has proven to deliver excellent returns on funding, for the environment, and communities.*

However, in 2022/2023 there was a major shortfall in funding available for community-led action, particularly for Coordination and Community Facilitation - applications amounted to \$1,982,935

whereas there was only \$1,043,000 (including a contribution from Healthy Waters) in available funding.

Based on data obtained during our 2021/22 survey, this equates to 15,774 fewer volunteers and 70,290 missed volunteer hours. In monetary terms, using the living wage of \$26/hr, this is \$1,827,540.

We support

The reinstatement of the Water Quality Targeted Rate.

We note that the Western isthmus water quality improvement programme only invested in infrastructure projects, favouring central Auckland projects such as St Mary's Bay and Masefield Beach, Grey Lynn, Morningside and Fanshawe Street, but excluded the Waitākere Ranges.

We recognise that a different approach is needed for our area, but this should not preclude it from receiving attention.

The Waitākere Ranges is an area of national significance as outlined in the Heritage Area Act of 2008. Aquatic ecosystems contribute to its heritage features, yet, popular west coast beaches have the poorest water quality in the Auckland region. Five of its lagoons and bays (Bethells Lagoon, Piha North Lagoon, Piha Lagoon, Foster Bay, and Wood Bay) have long term health risk warnings and are closed to swimming. As well, Karekare is regularly closed for swimming as not meeting health guidelines and Laingholm Beach and Wood Bay are noted as being the poorest marine environments in the area.

The current water quality improvement programme spend distribution is not equitable. We'd like to advocate for a larger investment into discovering the causes and remedies of water pollution in the Waitākere Ranges. We'd like stream restoration prioritised along with improved monitoring, also including the funding of community-led initiatives to undertake some of this mahi.

We support

Under Environment and Regulation (pg 23), we agree with the support of volunteers and community in looking after our environment, pest management and native biodiversity programmes.

We would promote that this support needs to be robust to ensure that the work being done is properly resourced, specifically:

- *sufficient funding for group Coordinators/Facilitators*
- *resourcing (traps, bait, herbicides),*
- *and support such as data infrastructure and opportunities to upskill*

We support

The Making Space for Water programme outlined on pg 38, however, compared to the actual need, the scope needs expanding. We also note that no projects are listed under the current proposed projects in the Waitākere Ranges.

We support

Under Parks and Community (pg 39), improving fairness of funding of local boards.

We do not support

Under Environmental Management and Regulation (pg 44), a reduction to environmental/sustainability education programmes.

Less than 4.5% of attendees at the PFWRA's events fall within the 16-24yr age bracket. Closer to 50% of attendees fall within the 45-64yr bracket, and 25% are 65yrs and over. If these numbers are reflective of volunteerism on the ground (we believe they are), then it is reasonable to assume that our 65yr plus volunteer-base (25%) will retire from volunteer work within the next 5-8 years. There needs to be a succession programme to ensure that environmental volunteerism can be sustained. We have identified environmental school programmes as being a key feature for capacity building for environmental groups, also to ensure the longevity of this type of volunteer work.

We would advocate that school programmes should be well supported.

We do not support

Pg 100, an increase in the Waitākere Rural Sewerage Targeted Rate from \$296.75 to \$336.80 per year.

To Summarise

The PFWRA supports:

- NETR & WQTR being reinstated to previously planned levels
- More support for volunteers and community in looking after our environment, pest management and native biodiversity programmes
- Making Space for Water
- Support for Climate Action initiatives
- The Waitākere Ranges Local Board receives fair funding recognising that the Waitākere Ranges Heritage Area must be maintained to a higher standard under the 2008 Act.

The PFWRA opposes:

- Any reduction in support to school programmes.

The PFWRA questions:

- What data infrastructure is available to community groups, outlined as a key area of NETR, and part of community action expansion?

The PFWRA advocates:

- That recreation should defer to conservation goals in high value ecological areas.
- We'd promote careful planning around projects such as Making Space for Water, where natural waterway corridors can also function as safe traffic-free space for dog-walkers, runners, strollers with babies and cyclists. Carefully planned greenways will ensure sustainable and long term enjoyment of nature for all. Recreation and conservation can work together.

Executive Summary

As of March 2024, Tāmaki Makaurau has a Māori population of 296,000, with just 14 per cent (42,906) able to whakapapa to Tāmaki while 86 per cent are mātāwaka, meaning their iwi and hapū connections are outside the region.

For Māori to be adequately supported and enabled to engage in Auckland Council strategies and consultations, there must be appropriate and objective mechanisms. As a result, the Independent Māori Statutory Board (IMSB) was established with representatives from the 19 recognised Tāmaki Makaurau iwi.

This IMSB model highlights a significant misrepresentation of voices and perspectives that affect all Māori living in this region. Council groups can be influenced by the outcomes and perspectives that affect mana and tangata whenua (Māori who whakapapa to Tāmaki Makaurau) without considering many Māori who are mātāwaka.

A recent campaign requiring strong representation and feedback from Māori living across the region i.e. *AK Have Your Say for Māori Seats for Auckland Council*, was questioned by Te Whānau o Waipareira Trust (Waipareira) due to the known lack of awareness and engagement the campaign had made, and the impact it would have on the influence of the IMSB.

For a more impartial approach to regional and community challenges, the Council is reviewing its current structure and partnerships model to include a mandated Principal Mātāwaka Partner, with a network of advisors contributing to the collective Tāmaki Makaurau Māori voice. This approach would see great advances made with the wellbeing aspirations of Tāmaki Makaurau Māori through aligning the Kia Ora Tāmaki Makaurau (KOTM) framework with community-led providers delivering integrated services to residents.

Through such an established network of providers throughout the region, Council would enhance its ability to engage, support, coordinate, and align Council group strategies to Māori aspirations for Health, Education, Employment and Training, Housing, and Justice sectors.

Within this feedback, Te Whānau o Waipareira Trust (Waipareira) proposes the following opportunities to support Auckland Council's Long-Term Plan:

- Eighty Five percent of funding allocated by Auckland Council to achieve Māori Outcomes is devolved to Waipareira, as the lead Whānau Ora Collective provider, to support commissioning and procurement to mātāwaka community providers; through its current and trusted commissioning for outcomes framework.
- Local Board funding allocations to Māori outcomes are equitably distributed to Waipareira based on the population of mātāwaka in the respective community, with at least 50 percent of allocations being devolved.
- Waipareira becomes the Council's ratified Principal Mātāwaka Partner to actively participate and advocate for mātāwaka in IMSB and Council discussions and strategies impacting

outcomes for the majority of Māori across Tāmaki Makaurau. This will be supported by a network of community-based advisors working closely with respective Local Boards.

- Waipareira supports the socio-economic wellbeing of mātāwaka through building urban apartments/housing and kaupapa-Māori health clinics on Council owned land within the Waitākere and/or Henderson-Massey regions. In addition, Waipareira will be granted a *First Right of Refusal* and renewable 99 Year Ground Leases for green and brownfield developments in West Tāmaki Makaurau.
- Te Pae Herenga o Tāmaki (TPHoT) provides the integrated model and resources for a community-based co-management of sport and recreation facilities and parks across Tāmaki Makaurau.

With mātāwaka direction and insights provided from Waipareira alongside the voice of mana whenua through the IMSB, Council groups are able to receive a well-rounded and objective perspective on a range of issues affecting all Māori. Coupled with an integrated partnership model through TPHoT, Council groups will also greatly enhance their impact, response time, and ability to deliver community-led outcomes and aspirations.

Introduction

Auckland Council's Long-Term Plan (LTP) opportunity for feedback is the catalyst for this submission. Throughout this document, the need for a mandated Principal Mātāwaka Partner is made evident, alongside high-level considerations to improve Council group assets, their long-term costs and support greater outcomes through a more community-driven funding framework. Each of these points align to Kia Ora Tāmaki Makaurau (KOTM), thus, supporting Council group outcomes for Māori.

As the mātāwaka Māori population throughout Tāmaki Makaurau increases so does the impact Council decisions will have on that sector. Te Whānau o Waipareira Trust (Waipareira) recognises the substantial opportunity to ratify urban Māori advocates and advisors to represent the interests of urban Māori. This will illuminate the significance of having an additional voice during Council and Independent Māori Statutory Board's (IMSB) decision-making to ensure objectivity and equity are integrated into the future structure and outcomes of Tāmaki Makaurau.

As a recognised Urban Māori Crown Treaty Partner, and member of Tāmaki Makaurau Whānau Ora Collective, Te Pae Herenga o Tāmaki (TPHoT), Waipareira believes its ability to support Council growth and vision will advance all Māori and non-Māori socio-economic and health and wellbeing outcomes.

Key Purpose

The purpose of this submission is to highlight the return on investment and strategic value of Auckland Council working in a Treaty-based partnership with Waipareira, the largest kaupapa-Māori health, education, and training, social and housing provider in Aotearoa.

As the lead provider and back-office support for TPHoT Collective, and the ability to disseminate funding through a devolved, integrated, and coordinated model, the impact and speed at which Council can influence and deliver community-driven outcomes through this partnership is augmented.

Regional Context

Independent Māori Statutory Board

The Independent Māori Statutory Boards (IMSB) provide Tāmaki Makaurau tangata/mana whenua with official representation at key strategic discussions regarding the future interests of Tāmaki Makaurau and its Māori population¹. However, the following table outlines this Board represents approximately 42,906 Māori currently living in the region, less than a twenty percent of the Tāmaki Makaurau Māori population.

Table one: Tāmaki Makaurau Iwi Affiliation population. Data provided by Census 2018

Mātāwaka Māori

Māori living in Tāmaki Makaurau who do not affiliate to any of the 19 iwi and or hapū recognised by Auckland Council are referred to as mātāwaka. A term which only highlights the division between Māori in Tāmaki Makaurau rather the celebrating the connection through our collective identity as indigenous people's of Aotearoa. The following table outlines the figures from Census 2013 which highlight that Tāmaki Makaurau is home to an extensive population of mātāwaka Māori (84.9%)².

Mātāwaka Affiliations	Tāmaki	Aotearoa	Tamaki / Aotearoa %
Ngāpuhi	50,577	125,601	40.3
Ngāti Kahungunu	7,812	61,629	12.7

	150,243	604,593	24.85%

Table two: Tāmaki Makaurau Mātāwaka Māori population. Census 2013 data provided by Auckland Council³

With such a significant portion of the Māori population having no affiliations to the Tāmaki region, they remain unsupported by local iwi and hapū decision-making and having access to some services. There is a strong need for more mātāwaka voices to be represented at key opportunities to support this growing population.

Māori Wards

To effectively address the needs of Māori living across Tāmaki Makaurau, Māori Wards (seats) were presented as an option for Auckland Council to increase representation in the decision-making. This would have enabled at least one elected community representative to sit alongside at least one mana whenua representative to speak directly to the issues Māori communities are facing across the region after the 2025 local elections. This approach was declined by the Council, which results in mātāwaka Māori being represented by mana whenua groups on the IMSB. In spite of the majority of whānau Māori living in Tāmaki Makaurau as being mātāwaka, their voices and issues are secondary to the interests of mana/tangata whenua being represented through the IMSB, resulting in a disproportionate focus on outcomes for a minority group. (this is outlined above in tables one and two.)

Local Board	Māori population	Distribution of Māori pop.
Rodney	7,551	4.2%
Hibiscus and Bays	6,735	3.7%
Upper Harbour	3,210	1.8%

Table three: Tāmaki Makaurau Local Board Māori population. Census 2018 data provided by Auckland Council⁴

Emergency Response | Cyclone Gabrielle and COVID-19

The impact of Cyclone Gabrielle and the long-term damage it caused is not lost on West Tāmaki Makaurau whānau. With most of the damage being localised in the West and financial pressures from the long-term effects of COVID, inflation, and natural disasters/emergencies; one year on, some whānau Māori are still trying to get their lives back on track.

Auckland Council's slow reaction during the initial impact of Cyclone Gabrielle⁵, meant a coordinated effort was led by Te Whānau o Waipareira Trust⁶ to provide immediate assistance and support to the whānau (Māori and non-Māori) impacted by rising flood waters and access to essentials such as bedding and clothing. This ability to quickly mobilise was also observed by Waipareira during our COVID vaccination and Rapid Antigen Test (RAT) distribution efforts to support Māori across urban and rural North Island communities, as the lead Tāmaki Makaurau Whānau Ora Provider. This was on a scale previously unseen by a kaupapa-Māori organisation⁷.

Impact on Mātāwaka

Key to the success of the Auckland Council LTP is to have the support of and valued input by all Māori living in the region. As highlighted, the majority of the Māori population do not affiliate to the iwi and/or hapū in Tāmaki Makaurau, and their voices are therefore not being represented accurately and equitably to Auckland Council through the IMSB.

This has a significant negative impact on:

- Council groups' ability to accurately address and acknowledge all Māori community issues that affect the majority of the Māori population,
- Current and future engagement with Council groups throughout Māori communities, particularly where mana whenua are not the primary voice and,
- Mātāwaka trust in Council groups' ability to adequately support their current and future health, wellbeing, social and cultural aspirations, and outcomes.

Te Whānau o Waipareira Trust

Organisation Purpose

As a response to the urban migration of Māori in the 1950s, and the lack of wellbeing support subsequently provided by Government and iwi structures in the decades after, a pan-tribal urban

⁷ <https://www.tpk.govt.nz/en/mo-te-puni-kokiri/corporate-documents/cabinet-papers/all-cabinet-papers/covid19-response-responding-to-community-need>

Māori steering committee was established to construct Hoani Waititi Marae, the first mātāwaka marae in Tāmaki Makaurau. Completed and officially opened in 1980, Hoani Waititi Marae provided an environment where tikanga and mātauranga Māori is protected and nurtured for urban Māori living away from their ancestral iwi and hapū homesteads. As such it became West Tāmaki Makaurau's hub for mātāwaka wellbeing and throughout the 1980s when funding, services, and programmes supported by the Department of Māori Affairs became community based.

WAI414

In 1998, Waitangi Tribunal Claim 414 (WAI414) was submitted to the Tribunal to have the charitable efforts conducted by the non-tribal group, Te Whānau o Waipareira, since 1984, recognised in accordance with Te Tiriti o Waitangi, as a direct result of the, *“piecemeal approach to welfare funding that was inappropriate for Māori [sic] clients... and trapped its beneficiaries in a state of dependence on the Government”*⁸. Waipareira was subsequently granted Māori-Crown Treaty Partner status on the basis that the Government had not worked with or treated Waipareira with goodwill or intent. Ushering in a new generation of urban Māori authority groups across the country, and brought a change to the way in which the Crown viewed, understood and engaged urban Māori groups who had assumed new welfare responsibilities for their respective communities.

Whānau Ora Commissioning Agency Network

Since 1998, Waipareira has moved to become the back-office function and lead partner for TPHoT. This positions Waipareira as a widely community-connected advocate for Tāmaki Makaurau mātāwaka outcomes across the spectrum of services and sectors such as health, education, employment and training, justice, housing, and social services.

With the Tāmaki Makaurau Māori population projected to increase as migration to major urban centres for employment, education, and training opportunities naturally occurs in the country's largest city, the need for mātāwaka Māori to feel their voices are adequately reflected in the growth and vision of the city will also increase.

Long-Term Plan Feedback

Community-Driven Distribution of Māori Outcome Funding

With the significant majority of Māori living in Tāmaki Makaurau with iwi and hapū affiliations outside of the region, there is a significant need for increased awareness and understanding of how communities outside of the IMSB's iwi affiliations best require funding to be applied to their respective communities.

To improve Council's ability to deliver equitable and unbiased outcomes for all Tāmaki Makaurau Māori, Waipareira proposes that 85% of the Māori Outcomes Fund be devolved to Waipareira to distribute across the region through TPHoT. This approach to funding is currently applied across the

⁸ https://forms.justice.govt.nz/search/Documents/WT/wt_DOC_68641192/Wai%20414.pdf

Whānau Ora Commissioning Agency, with Health NZ (Te Whatu Ora) seeing the benefits of the framework and now utilising it within their commissioning for outcomes approach.

Devolving funds to communities through the proposed commissioning framework strengthens Council groups' procurement process through as Waipareira as the proxy for kaupapa-Māori investment plans.

This commissioning model has a direct alignment with KOTM's focus on *Effective Māori Participation and Māori Identity and Culture*.

Principal Mātāwaka Partner

To achieve the successful delivery of Māori outcomes across all communities, in alignment with Council groups' focus on KOTM, Waipareira proposes, through its recognised status as an urban Māori-Crown Treaty Partner and mātāwaka advisor, that it becomes the Council groups' *Principal Mātāwaka Partner*. This position would be ratified into Auckland Council's Governing Body, its Local Boards, and relevant Council-Controlled Organisations in accordance with the Statement of Expectations⁹. It also needs firm alignment to Treaty principles, to promote, alongside mana whenua, a democratic and united voice for all urban Māori living within Tāmaki Makaurau, regardless of iwi affiliation.

Waipareira recognises that all whānau Māori living in Tāmaki Makaurau should have an equitable share in aspirations for a community and city they live, work, and play in. With a ratified *Principal Mātāwaka Partner* to lead these aspirations on behalf of the respective communities, and presenting this voice alongside the IMSB and the Council, Waipareira through its networks, experiences, political nous is well positioned to:

- support the successful delivery of KOTM across all key outcome measures,
- provide key insights into developing and delivering community-based outcomes through years of ongoing trusted engagement and long-standing service delivery across TPHoT and,
- promote a broader awareness of the impacts on non-Tāmaki Makaurau affiliated whānau Māori living across the city, allowing greater objectivity in decision-making.

This approach has a direct impact on KOTM's focus on *Effective Māori Participation*.

Reducing the Cost of Asset Ownership

To support Council's debt reduction strategy, Waipareira proposes an opportunity for Council to maintain ownership of land assets and be provided with a *First Right of Refusal*, renewable 99-Year Ground Leases on suitable green and brownfield developments in West Tāmaki Makaurau, enabled through Community Housing Provider (CHP), Health NZ and Auckland Council funding. This would be for the express purpose of building more kaupapa-Māori housing, health clinics, and urban marae. Such action would see Council receive additional income on previously under-utilised/unused (re-zoned) land assets in West Tāmaki Makaurau, as well as support long-term aspirations for strategic outcomes within Council.

⁹ <https://www.aucklandcouncil.govt.nz/about-auckland-council/how-auckland-council-works/council-controlled-organisations/Documents/statement-expectations-substantive-cco.pdf>

This approach supports the focus KOTM has on improving *Māori Identity and Culture, Papakāinga and Māori housing, Whānau and Tamariki Wellbeing Support (through place-based services in council owned venues)*.

Sport and Recreation Community Partnership

To facilitate key outcomes aligned with the physical wellbeing of all Māori, accessibility and exposure to sports and recreation opportunities need to be enhanced. To enable this, Waipareira proposes that through TPHoT, an integrated sports and wellbeing programme can be established targeting all age representations, i.e. Juniors, High School, Seniors, Masters, and supporting a broad number of sports.

Further to this, using the community-based co-management of facilities, TPHoT would create efficiencies in the ongoing care and maintenance of facilities, parks and sport grounds across Tāmaki Makaurau, reducing costs for Auckland Council.

Local Board Feedback

With the significant number of mātāwaka Māori living across West Tāmaki Makaurau, there is an opportunity to strengthen shared outcomes and interests between Local Board outcomes through KOTM, mana whenua interests, and mātāwaka Māori engagement across the region.

The following section highlights how Waipareira can support the achievement of outcomes for each identified stakeholder in the region.

Henderson-Massey

Devolve at least 50 per cent of budget allocated to Māori outcomes within the Henderson-Massey Local Board to Waipareira to determine, through mātāwaka Māori, input in alignment with Local Board outcomes. This will allow Waipareira to address how funding can be best utilised to deliver the greatest positive impact for non-Tāmaki Makaurau iwi affiliated Māori in the community.

Outcomes may include, but are not limited to:

- Enhancing access to te ao Māori activities and opportunities to engage in culture, language and people in a safe as supported environment.
- Delivering annual cultural events such as Waitangi@Waititi and Matariki ki Waipareira as key events to celebrate the community's heritage.
- Supporting whānau with transport across Henderson-Massey to clinical and social wellbeing appointments to enhance service engagement and delivery.
- Partnering with Waipareira to develop fit-for-purpose housing on under-utilised land.
- Having a mātāwaka advisor role on the Henderson-Massey Local Board, led by Waipareira.

Waitākere Ranges

Devolve at least 50 percent of budget allocated to Māori outcomes within the Waitākere Ranges Local Board to Waipareira to determine, through mātāwaka Māori input in alignment with Local Board outcomes. This will allow Waipareira to address how funding can be best utilised to deliver the greatest positive impact for non-Tāmaki Makaurau iwi affiliated Māori in the community.

Outcomes may include, but are not limited to:

- Using mātauranga Māori to lead environmentally regenerative and sustainable programmes for local flora and fauna.
- Increase whānau resilience in preparation for a region-wide emergency response through developing emergency safety plans.
- Mātāwaka feeling connected to the region through local extending more invitations to Hoani Waititi Marae for kaupapa Māori events and activities.
- Partnering with Waipareira to develop fit-for-purpose housing on under-utilised land.
- Having a mātāwaka advisor role on the Waitākere Ranges Local Board, led by Waipareira.

Whau

Devolve at least 50 percent of budget allocated to Māori outcomes within the Whau Local Board to Waipareira to determine, through mātāwaka Māori input in alignment with Local Board outcomes. This will allow Waipareira to address how funding can be best utilised to deliver the greatest positive impact for non-Tāmaki Makaurau iwi affiliated Māori in the community.

Outcomes may include, but are not limited to:

- Using mātauranga Māori to strengthen ties between mana whenua and mātāwaka relationships through a shared connection to the region.
- Partnering with Waipareira to develop fit-for-purpose housing on under-utilised land.
- Having a mātāwaka advisor role on the Whau Local Board, led by Waipareira.

Waipareira Alignment to Kia Ora Tāmaki Makaurau

The following analysis has been conducted to highlight how Waipareira can deliver impact and support Auckland Council’s focus on Māori outcomes through KOTM¹⁰

	Council Objective	Waipareira Support
Kia ora te kāinga (Papakāinga and Māori Housing)	The council group supports Māori housing and papakāinga aspirations through providing expert advice, appropriate investment and improved associated infrastructure.	Waipareira and Housing For Social Benefits adequately supported to successfully deliver housing developments throughout Tāmaki Makaurau.

¹⁰ <https://www.aucklandcouncil.govt.nz/about-auckland-council/how-auckland-council-works/kaupapa-maori/maori-outcomes/Documents%20%20Kia%20ora%20Tmaki%20Makaurau/kia-ora-tamaki-makaurau.pdf>

TE WHĀNAU O WAIPAREIRA

KŌKIRITIA | ROTO | TE KOTAHITANGA

Kia ora te Umanga (Māori Business, Tourism and Employment)	The council group supports a resilient and regenerative Māori economy by supporting economic opportunities for Māori businesses and iwi organisations.	Waipareira delivers Māori business development programme through TPHoT to build local economy and opportunities.
Kia ora te marae (Marae Development)	Invest in marae to be self-sustaining and thriving hubs for Māori and the wider community.	Devolve marae funding to TPHoT to increase speed and impact of marae support across urban marae.
Kia ora te reo (Te Reo Māori)	The council group supports te reo Māori to be seen, heard, spoken and learned throughout Tāmaki Makaurau.	Distribution of key actions within Te Reo Action Plan across TPHoT to support implementation.
Kia ora te Ahurea (Māori Identity and Culture)	The council group reflects and promotes Māori culture and identity within the environment, and values mātauranga Māori.	Council support increased engagement and awareness of Waitangi@Waititi and Matariki ki Waipareira events to support Tāmaki Makaurau Māori identity.
Kia ora te whānau (Whānua and Tamariki Wellbeing)	The council group will enable whānau Māori to experience relevant and welcoming public facilities and services. It will support Māori-led services where appropriate.	Improved partnership to support showcasing relevant Council services. Devolve Māori community grants to TPHoT to distribute across communities. Establish an integrated community of sports and recreation partners to co-manage community-based facilities and services that support whānau involvement and participation in physical activity.
Kia ora Rangatahi (Realising Rangatahi Potential)	Rangatahi Māori of Tāmaki Makaurau are supported in career development and participate meaningfully and effectively in decision-making processes.	Waipareira provide pathway for rangatahi Māori into Council supported 'apprenticeships' in administration and back office roles.
Kia ora te Taiao (Kaitiakitanga)	Māori exercise tino rangatiratanga and kaitiakitanga through Te Tiriti based relationships with the council group, to enhance the mauri of te taiao.	Council financial contribution to Waipareira developing and leading mātauranga Māori programmes and services specific to the sustainability of local resources.
Kia ora te Hononga (Effective Māori Participation)	Mana whenua and Māori are active partners and participants at all levels of the council group's decision making.	Ratified Principal Mātāwaka Partner role filled by Waipareira, with advisors across communities working with Local Boards.

Recommendations

Throughout this document, Waipareira has highlighted key points for consideration by Auckland Council and the IMSB. To conclude, a clear outline of the recommendations is made with the intention to maximise the impact on Māori outcomes through Auckland Council's LTP:

- 85 percent of funding allocated by Auckland Council to achieve Māori Outcomes is devolved to Waipareira, as the lead Whānau Ora Collective provider, to support commissioning and procurement to mātāwaka community providers through its current and trusted commissioning for outcomes framework.
- Local Board funding allocations to Māori outcomes are equitably distributed to Waipareira based on the population of mātāwaka in the respective community; with at least fifty percent of allocations being devolved.
- Waipareira becomes the Council's ratified Principal Mātāwaka Partner to actively participate and advocate for mātāwaka in IMSB and Council groups' discussions and strategies impacting outcomes for the majority of Māori across Tāmaki Makaurau; supported by a network of community-based advisors working closely with respective Local Boards.
- Waipareira supports the socio-economic wellbeing of mātāwaka through building urban apartments/housing and kaupapa Māori health clinics on Council-owned land within the Waitākere and/or Henderson-Massey regions, with Waipareira given a *First Right of Refusal* and renewable 99-Year Ground Leases for green- and brownfield developments.
- TPHoT provides the integrated model and resources for a community-based co-management of sport and recreation facilities and parks across Tāmaki Makaurau.

PROUD TO BE MĀORI

Submission by Titirangi Residents & Ratepayers Association on Long Term Plan 2024-2034

27 March 2024

From: Titirangi Residents & Ratepayers Assoc

Contact: Dr Mels Barton, Chair

PO Box 60-203, Titirangi, Auckland 0642

021 213 7779

melsbarton@gmail.com

1. Introduction

- 1.1. Thank you for the opportunity to present **Titirangi Residents & Ratepayers Association (TRRA)**'s submissions on the **Long Term Plan 2024-2034**.
- 1.2. This submission is made by The Titirangi Residents and Ratepayers Association, a non-profit incorporated society formed in 1987 to promote and represent the interests of ratepayers and residents in the Titirangi area. The Association can be traced back to the 1920s when an unincorporated society is recorded as lobbying Council regarding roads.
- 1.3. We wish to speak to our submission if that opportunity is provided.

2. Key Points

Rates increases

- 2.1. Support “pay more and get more” proposal for rates increases. But do not support restricting increases to 3.5% beyond the term of this council. That is short sighted & irresponsible. Future councils need to be able to set whatever increase is required at the time.
- 2.2. Support spending more on:
 - 2.2.1. Environment & regulation
 - 2.2.1.1. Managing and protecting trees. Increase resourcing for management of natural assets (trees) by Council:
 - 2.2.1.1.1. Funding for evaluation of nominated trees for Notable Trees Schedule;
 - 2.2.1.1.2. Funding of review and adding new Significant Ecological Areas;
 - 2.2.1.1.3. Support the details in The Tree Council’s submission;
 - 2.2.1.1.4. Resourcing effective implementation of the Waitakere Ranges Heritage Area Act - currently council pays lip service to this. Need to be monitoring annually the heritage features so that 5 yearly reports actually have results to be based on. Restoration & enhancement of the heritage features is a statutory responsibility.
 - 2.2.1.2. Restoring and enhancing nature and biodiversity
 - 2.2.1.2.1. Support the details in Forest & Bird’s submission
 - 2.2.2. Water
 - 2.2.2.1. Water quality enhancement for freshwater & marine;
 - 2.2.2.2. Stormwater management
 - 2.2.2.3. Pollution control and pollution prevention
 - 2.2.2.4. Making Space for Water
 - 2.2.3. Parks & community
 - 2.2.3.1. Adding new parks, enhancing and better management of existing parks;
 - 2.2.3.2. Maintain and enhance special park facilities like Arataki Centre & the Botanic Gardens;
 - 2.2.3.3. As the city grows we need more parks not less, buy more Regional Parks, develop the parks we do have. Spend more on parks;
 - 2.2.3.4. Community groups need financial support - enhance grants;
 - 2.2.3.5. Provide a new swimming pool for west Auckland;
 - 2.2.3.6. Enable local people and local contractors to look after Local Parks. These huge regionwide contracts are a disaster for service levels. The community needs to have input before future 10 year contracts are awarded.
 - 2.2.4. Public transport & active transport (walking & cycling)
 - 2.2.4.1. Enhance public transport and make it cheaper to use;
 - 2.2.4.2. Support more cycleways & walkways to get people out of their cars

- 2.3. Do less of:
 - 2.3.1. Roads - we don't need more roads or wider roads, we just need to maintain the ones we have properly
 - 2.3.2. Marketing
 - 2.3.3. Asset sales - stop selling off our open space, we oppose any sales of land zoned Open Space or Reserves. We oppose the sale of any of the port, its land or its activities.
 - 2.3.4. Sprawl - we need a compact city not a sprawling one. We can't afford to support the infrastructure.
 - 2.3.5. Badly planned intensification - this is all we are seeing now, the slums of the future.
 - 2.3.6. Oppose development of yet another stadium. Auckland has far too many stadia that cannot support themselves financially as it is. We certainly do not need another one.
- 2.4. Oppose asset sales proposals. Oppose leasing of port & development of port land. Leave the port operations as they are currently. Stop trying to sell off the city's assets, we need them for future generations.
- 2.5. Support targeted rate proposals.
 - 2.5.1. Support resuming NETR and increase at same rate as general rates annually, minimum of 3.5% increase annually;
 - 2.5.2. Support resuming WQTR and increase at same rate as general rates annually, minimum of 3.5% increase annually;
 - 2.5.3. Discontinue the Long Term Differential Strategy so that business contributes the same as residents to the targeted rates;
 - 2.5.4. Support Option 4 for NETR to enable more to be spent on enhancing the environment & on grants such as RENH for community groups to do the work.
 - 2.5.5. Support spending money to treat infected kauri on public land with phosphite. Without this treatment 100% of them will die.
- 2.6. Support congestion charge.
- 2.7. Support making space for water proposals.
- 2.8. Support climate change initiatives.
- 2.9. Support storm recovery proposals.
- 2.10. Support restrictions on greenfield development.
- 2.11. Support fairer funding & other proposals for Local Boards.
 - 2.11.1. Recognise that the funding for Local Boards that have low population and large areas of high quality ecosystem need extra resources to manage these areas that is currently underfunded. There should be special provision made for these Local Boards to recognise the importance of managing the region's most important areas of ecosystem.
 - 2.11.2. The Waitākere Ranges Heritage Area has statutory obligations that Council is paying lip service to. Meeting these obligations requires additional resourcing.
- 2.12. Support Maori outcomes proposals.

- 2.13. Support the idea of the Auckland Futures Fund, but oppose it being created by asset sales.
- 2.14. Support spending more on developing climate resilience in Auckland - see the Forest & Bird proposal.
- 2.15. Oppose dropping cycleways - needed to get people out of cars. Use real cost of raised crossings not the spin implying they cost 10x as much as they actually do.
- 2.16. Oppose reduction in environmental education for schools.
- 2.17. Oppose reduction in spending on historic heritage - this should be increased as it has already been cut to unsustainable levels.
- 2.18. Oppose the increased costs to the septic pump out service. The admin costs are outrageous & unjustifiable.
- 2.19. Do not force Local Boards to sell community assets or increase rents when these are providing vital community services that council cannot otherwise provide.
- 2.20. Support investment in community services & open space, including purchase of new Regional Parks.
- 2.21. Support Regional Park proposals.
- 2.22. Community led action doesn't come free. Volunteers need to be coordinated & coordinators need to be paid. Increase the value of community grants to enable this work to be expanded.
- 2.23. Support increases to dog control budget. Needs to be targeted at managing conflicts on beaches with wildlife.
- 2.24. Support resourcing to enable the Waitākere Ranges to become a Dark Sky place.
- 2.25. Oppose waterfront stadium.
- 2.26. Oppose disposing of regional art collection but support greater public access to it.
- 2.27. Golf strategy?? Sell the golf courses! Or better still turn them into parks and plant them with trees as they could be providing valuable green space for everyone & contributing to the Making Space for Water outcomes. Why is the Mayor focused on supporting this minority sport for the wealthy?

3. Waitakere Ranges Local Board Priorities

- 3.1. Support all proposed WRLB priorities;
- 3.2. We consider all these proposed priorities are very important;
- 3.3. Resource treatment by phosphite and monitoring of kauri dieback infected trees on public land in Regional & Local Parks needs to be added to the WRLB priorities;
- 3.4. Resourcing community groups that undertake weed, predator and pest control on public and private land throughout the region. Access to grant funding to support paid coordinators and underpin this work (which Council cannot afford to resource doing itself) is essential to ensuring this voluntary workforce is able to continue to undertake this work needs to be added to the WRLB priorities.

Rates increases

There are 3 scenarios proposed: one is called the “Central Proposal”; one is called “Get More” and the third is called “Get Less”.

The central proposal proposes 7.5% increase in rates in yr 1; 3.5 % in yr 2; 8 % in yr 3 and no more than 3.5% for the 7 years after that.

	Year 1	Year 2	Year 3	Years 4-10
Central proposal	7.5%	3.5%	8%	No more than 3.5
Get More	14%	10%	10%	5% thereafter
Get Less	5.%	3.5%	3.5%	No more than 1% above CPI inflation

Part of the reason the Auckland Council (AC) is strapped for cash is that successive mayors have campaigned on a promise they would not increase the rates by more than 2.5%. This has led to a shortfall of funds, and the need to defer expenditure and cut projects and staff.

AC should not bind itself – and future mayors and councillors – to an unrealistic max 3.5% rates increase, carefully located beyond the term of this mayor and council. It should anticipate costs that will provide the services and infrastructure the city needs at a realistic level.

- **Oppose overall rates increase of “no more than 3.5 per cent a year after that” in Yrs 4-10 of the Central Proposal. (Page 22).**
- **In general support the “Get More” proposal (pp 24-25), although at a lesser rate than that proposed. In particular, support greater spending on the environment, urban regeneration for towns in the west – Avondale, Glen Eden and Henderson - increased public transport, more grade separation or rail esp in the west, acquisition of more parks, a halt on sale of parks and community assets, increased spending on historic heritage.**

Greater spending on the environment is needed. We **support** resuming the Natural Environment Targeted Rate (NETR) to previously planned levels, with an increase at 3.5% per year and Option 4 for NETR expenditure (We refer her to Supporting Documentation, Attachment D, pg 444-451). Indeed, we consider a much larger percentage of NETR (greater than the 13% allocation in, for example, 2022/23) should go to expand community-led action (which is the expressed approach by Council for environmental action). It appears to us that the Council raises NETR funds from ratepayers to support its stated strategy of enabling community-led action, and then only allocates a small fraction for this purpose. Having coordination and community facilitation means activating volunteerism. For example, a study of the groups undertaking restoration in the

Waitākere Ranges (of which we are one) by the Pest Free Waitakere Ranges Alliance in 2021/2022 established that groups with paid coordinators had 10 times as many volunteers as groups without a paid coordinator. Yet, in 2022/2023., there was a major shortfall in funding available for community-led action – the CCF fund received applications for amounted to \$1,982,935, but there was only \$1,043,000 (including a contribution from Healthy Waters) allocated to this from NETR funding.

Transport (page 32-34)

- We call for funding for shuttle buses for outer villages in Waitakere Ranges Heritage Area, including Piha, and services to open track ends.

Making Space for Water (page 38)

- We generally support this, but note that projects in the Waitakere Ranges are not listed in the proposed projects. In particular, the work to deal with erosion of the Piha Stream and improving the hydrology in the Piha Wetland (already scoped in Morphum Reports) should be instated in the list.

Parks and Community (page 23, page 24, pp 39-41)

We support fairer funding of local boards to achieve equity.

Environmental management and regulation (page 44-46)

- In the Pay More proposal (page 46), support the NETR being restored to the planned level and increase it by 3.5 per cent in line with inflation to raise \$412 over 10 years This is \$62 million more than the Central Proposal.

NETR Option	10-year revenue and expenditure	Rates impact 2024/2025	Additional increase 25/26 on
1. Retain at 2023/24 level	\$176 m	\$23.69	n/a
2. Resume at \$30 in 24/25 for av value property and increase at 2% per year	\$245	\$30	0.02%
3. Proposed, resume at previously planned level	\$350	\$47.02	n/a
4. Resume at previously planned level	\$412	\$47.02	0.04%

and increase at 3.5% per year			
--	--	--	--

- We support Option 4 (page 99). This would allow increased implementation of the Regional Pest Management Plan. There would be greater support for community initiatives including increasing the Regional Environment and Natural Heritage grant funding.

The other options would involve scaling back. Option 3, the Council’s preferred option would provide “limited capacity for community-led initiatives or to deal with emerging threats.” (page 99)

In the Central Proposal it is proposed to reduce environmental/sustainability education in schools.

- **Oppose reduction in environmental education for schools**

Attachment D in the Supporting Information document (pages 444-451) provides additional information about the NETR, though still not very details. It is difficult to tell how much of this expenditure will come out to the Waitakere Ranges.

This chart is a summary of what is provided.

NETR expenditure	Over 10yrs	Over 10yrs	Over 10yrs	Over 10 yrs	
	Option 1	Option 2	Option 3	Option 4	
Mainland plant and pest	\$85m	\$115m	\$173m	\$198m	Option 1 & 2 have much reduced possum control, reduced pest plant control in buffer areas around parks, less control pigs, deer & goat around Waitaks. Only Option 4 deliver planned level or control. Option 3 has some reductions. Option 4 provides mammal pest control in 18 regional parks

Plant pathogens, kauri dieback, myrtle rust	\$48m	\$63m	\$80m	\$91 m	Options 1 & 2 reduced kauri dieback control, track maintenance. No new kauri research or monitoring. Option 4 provides for kauri tracks meeting standards and remain open to public
Island pests	\$19m	\$22m	\$24m	\$28m	
Marine pests	\$10m	\$13m	\$13m	\$25m	Option 4 would allow management of Caulerpa
Marine ecology	\$3m	\$3m	\$4m	\$6m	Options 1 & 2 reprioritise seabird protect and habitat monitoring, Options 3&4 increase mapping and monitoring
Enabling tools	\$3m	\$3m	\$4m	\$4m	
Community-led action	\$4m	\$18m	\$40m	\$46m	Options 1 & 2 reduced support for community groups, supply of traps etc, reduced revege. Option 4 adds funding for community-led landscape scale pest control

Biodiversity priority ecosystems	\$4m	\$8m	\$12m	\$14m	Options 1&2, reduced level of management of priority eco-systems
	\$176m	\$245m	\$350m	\$412m	

Council Support (page 50-52)

We note the absence of information about historic heritage. The central proposal says “identify, advise and protect heritage places for town centres and local areas”. The Pay Less proposal states: “delivery or focus on meeting minimum requirement for heritage programmes”. It is unacceptable to reduce spending on heritage places which is already much reduced from what was available in the first term of AC. For example, there is no longer the \$10 million acquisition fund that allowed Council to purchase and restore and on-sell at-risk heritage sites.

- **We oppose reductions in spending on historic heritage.**

Recovery (page 91)

The Council’s recovery efforts are very focused on existing funding from Central Government and itself. There isn’t any proposal to fund work that needs to happen beyond that to increase the resilience of the Auckland region with climate change and more severe weather events. Some of the challenges are outlined on page 86 but there doesn’t seem to be any funding.

The Pay More proposal proposes additional climate funding up to \$100 million a year from year 3 for reduction of carbon emissions (page 46), but there doesn’t seem to be ongoing funding to prepare for or address weather events, except for the Making Space for Water – which is a one-off govt/AC fund.

Other changes to rates (page 100)

Waitakere Rural Sewerage Targetted Rate

AC is proposing a 13% increase in the Septic Tank Pump-Out Rate which provides for a three-yearly pump-out of septic tanks. The annual rate is proposed to go up from \$296.75 to \$336.80 which is an increase per tank of \$129.15 over three-years to a cost of \$1010.40. Of this \$559.41 goes to a contractor to do the actual job, and \$450.99 to the Council for admin and communication.

- **We oppose the increase in the septic tank out rate and call for a review of the unacceptable Council admin costs for this rate.**

TE KAWERAU IWI
TIAKI TRUST

AUCKLAND COUNCIL
PROPOSED
LONG-TERM PLAN
SUBMISSION

2024

Tēna koutou

Te Kawerau ā Maki acknowledge the challenges that continue to be faced by Auckland Council including the economic/fiscal situation, the legacy of Covid-19 and Cyclone Gabriel, the challenges of climate change, the housing crisis, environmental degradation, biosecurity threats, aging or insufficient infrastructure, population growth, cost-of-living issues, and regulatory changes. We recognise the need for Council to strike a balance in what it can afford while continuing to invest where it is needed most.

The Mayor set out his vision for Auckland to be a place with a stunning natural environment, an effective transport system and development pattern, decent and affordable public services and infrastructure, a culturally diverse and dynamic city, and a thriving and growing economy. The Mayor reiterated this vision must be achieved while recognizing the position of Māori. Other themes in the Mayoral proposal include:

- Better, faster, cheaper
- Fix, finish, optimise
- Partnership (with Central Government)
- Enhanced decision-making and funding at a Local Board level

By and large we support the proposed Long-Term Plan as set out in the Mayoral proposal and supporting consultation documents. We also support the 'City Deal' concept including clearer avenues for Tāmaki Makaurau to retain revenue (i.e. GST). We believe the three high-level options (spend less, get less; maintain; and spend more, get more) provide a useful way for people to consider and provide feedback.

The approach that we take in this submission is that unless noted otherwise we take a generally supportive or neutral position, and will instead focus our comments and feedback on specific matters relevant to our iwi and that we need to work on with Council in the spirit of partnership and cooperation. We expect cooperation with Auckland Council on any matters that impact our rights or wellbeing. To this end we include feedback on the proposed LTP and well as identifying new areas/line items where we see a need to work with us specifically.

Auckland Council as an agent of the Crown (being delegated powers by the Crown) has a partnership and need to cooperate with Te Kawerau ā Maki under Te Tiriti o Waitangi, and as legislated under the Te Kawerau ā Maki Claims Settlement Act (2015), the Resource Management Act (1991), the Local Government Act (Auckland) (2009), the Waitākere Ranges Heritage Area Act (2008) and as acknowledged in the Auckland Plan and Auckland Unitary Plan. Treaty Partnership means cooperating for mutual outcomes and making decisions together and acting together in good faith. This is particularly important in relation to our role in the management of natural resources and heritage. Our Treaty Settlement and Waitākere Ranges Heritage Area Act legally direct Council to do things it continues to fail to do adequately:

- Cooperate with Te Kawerau ā Maki and work within the principles of Te Tiriti (s3.9 Deed of Settlement)
- Memorandum of Understanding with Auckland Council (s5.16 Deed of Settlement)
- Deed of Acknowledgement (s29 Waitākere Ranges Heritage Area Act)

Just as Council seeks a new partnership with Central Government, we seek to 'reset' our relationship with Council. We want to help Council deliver better value-for-money with the iwi. There are six key areas we want Council to work with us on:

1. Securing ongoing capacity support

Council has a role in supporting our iwi to be able to participate and contribute to decision-making functions. This requires capacity support on an ongoing basis to enable us to coordinate responses and to assist in the maintenance of our Treaty relationship. The current (2023-2024) capacity and relationship funding is approximately \$201,000. The payment setting was \$50,000 per year between 2010-2023 without CPI resulting in a year-on-year reduction. We seek the new funding of \$201,000 per year be locked in moving forward, with CPI adjustments. This will help ensure we can maintain capacity levels.

2. Development of an MOU and annual work programme

Our Treaty settlement identifies an MOU with Council as a priority. We drafted one in 2017 and are still waiting for Council to acknowledge it and come to the table. In 2022 the Minister of Treaty Settlements and the Minister of Te Arawhiti jointly wrote to Council encouraging it to enter into an MOU with us, and highlighted the same four matters set out below. As part of an MOU we wish to enter into annual work programmes with Council so as to achieve better value for time and money. We think this would help foster a better working relationship between Te Kawerau ā Maki and Council. It is fair to say the ‘fix, finish, optimise’ element of our relationship is still sitting where it was in 2017. We would like this done by December 2024 so that we can focus on moving forward.

3. Complete the WRHA Deed by December 2024 and establish a WRHA Forum by March 2025

The Waitākere Ranges Heritage Area is a nationally significant area requiring enhancement and integrated management. It was established in 2008 modelled roughly on the great parks in the UK (such as the Lakes District) yet it has not been properly implemented by either central government or Council. Barely anyone that does not live in the Ranges is even aware of the Act or that there is in essence a rain forest National Park on the doorstep of Auckland. There is certainly little enhancement happening. Central government has left both Te Kawerau ā Maki and Council holding the figurative baby. In 2017 our iwi called a rāhui over the forest of the area due to kauri dieback disease. We put kauri dieback on the map and helped Council be a leader in research in this field. We’ve also fed into every 5-year report on the WRHA since its inception. Our feedback is the same every 5-years: where is our Deed? Why is there not a forum for the area? Why is there not a plan for the area? We have asked Council repeatedly. We now seek a deadline of December 2024 for the Deed. This doesn’t cost money – just willpower to do what is right and what is already required by legislation.

4. Financial support for the development of Te Henga Marae

We are the only iwi in Tāmaki Makaurau without a marae or papakāinga. The Auckland Plan talks about ‘Māori Outcomes’ and ‘Māori Wellbeing’ and this project is therefore critical to both of us. The relationship between the legacy Waitākere City Council and ourselves on this matter is a long one, and we are grateful to both the legacy Council for its role and to Auckland Council in helping with funding towards the resource consent which we have obtained. There is already budget allocated in the LTP towards marae and papakāinga infrastructure, however this was designed for replacing kitchens and septic systems in existing marae, not for iwi who don’t have one at all. The current settings mean a maximum of \$170,000 can be applied for as a marae grant, whereas in the same-sized regional sports facilities grants there is no cap with some projects receiving \$4,500,000 in assistance. There is no cap on the regional sports facilities grant because it is understood that a project of scale requires bulk funding to help mobilise the project and attract further funding, and is considered on its merits. However, when it comes to marae of the same complexity and scale these settings are not applied. Anyone who has tried to deliver a social development knows this can’t be done \$170,000 per year. We are requesting a more meaningful and coordinated approach, and are seeking Council to support up to 25% of the construction cost as a one-off so that we have a sound basis from which to raise further funding. This 25% could be primarily made up of the next 10 years’ worth of marae and papakāinga allocation we would otherwise draw down on, and would materially advance the timeframe of an already long-overdue project. Given there has been year-on-year underspend in Māori Outcomes since 2010 we think Te Henga is a good candidate for more robust help. Please see our design in the video below.

<https://youtu.be/TOhhtYli7b8?si=cVup0UeTL4eKS6-v>

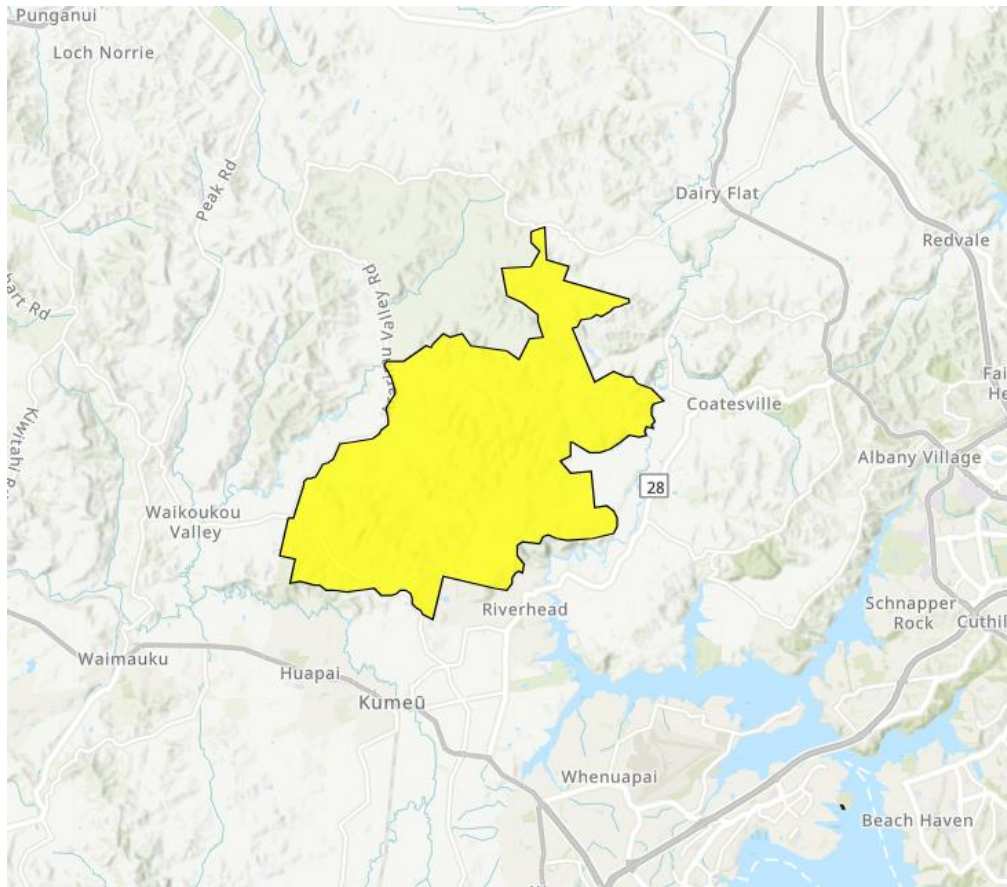

5. Commitment to support our aspirations at Te Onekiritea (Hobsonville)

Our 2014 Treaty Settlement contained three key pieces of commercial redress in exchange for the confiscation and loss of all of West Auckland and North Shore. One of these is approximately 11ha of headland at Te Onekiritea (Hobsonville Point). We also have 0.28ha of cultural redress located on the headland for a future marae. The surrounding headland contains a Right of First Refusal. The land is currently owned by Kāinga Ora who have breached our Treaty Settlement on this matter. We seek to further formalise a position with Council on the matter of Te Onekiritea and seek Council support for our aspirations which were thoroughly fought for through the Treaty Settlement process. There is no budget implication to this request, in fact we believe we can save Council significant value. All we require is for this project to have some in-kind (existing FTE hours) assistance to formalise the situation.

6. Commitment to support our aspirations at Riverhead Forest

The key commercial redress in our Treaty settlement was 86% of Riverhead Forest. In 2015 we worked with Council through the Unitary Plan hearings on upzoning 300ha to unlock development and economic potential of the iwi. We know that infrastructure is key. We want to solve this cooperatively with Council, as there are Treaty, Future Development Strategy and Unitary Plan provisions that direct the enablement of Treaty Settlement land. We seek Council to support our economic wellbeing and intent of commercial redress by establishing a working group to proactively work through the planning issues with us in the long-term. The land is away from geohazards, is adjacent to the urban area of Auckland, and is of a scale (3,275ha) that provides strategic and long-term thinking of how to grow the city.

The operationalisation of these items and a related work programme through the Long-Term Plan is a key step.

We look forward to working together in partnership.

Noho ora mai,

Edward Ashby
CEO
Te Kawerau Iwi Tiaki Trust

Te Kawerau ā Maki Submission on the Auckland Council LTP (2024)				
Provision	Support/ Oppose/ Partial	Relief Sought	Budgetary Implication	Legal and Policy Alignment (RAG)
High Level Budget Options – Do More	Support (first preference)	The do more option is short-term pain for long-term gain. While there is a concern about the affordability of this option on low-income households, Council's rates are lower than some other councils and the highest point (year one) is the equivalent on average of around \$9 per week. This would allow the city to accelerate its response to climate change, transport, and infrastructure issues which frankly cannot wait if we hope to secure our wellbeing past 2030. It also includes restoration of the environment rather than 'holding the line'.	<ul style="list-style-type: none"> • 14% in year one • 10% in year two • 10% in year three \$52.0b Capex \$76.5b Opex	
High Level Budget Options – Central	Support (second preference)	The central option is a 'hold the line +' proposal, whereby most things will be maintained as they are but few of the bold measures needed to meet critical targets on climate change, environment, and infrastructure will be advanced. It advances Auckland but more slowly than what is needed.	<ul style="list-style-type: none"> • 7.5% in year one • 3.5% in year two • 8% in year three \$39.3b Capex \$72.0b Opex	
High Level Budget Options – Do Less	Oppose	The do less option will fail to meet key commitments in the Auckland Plan and including inadequately addressing climate change and biodiversity collapse – both critical issues NZ has resolved on at the UN. It will also fail to meaningfully address infrastructure issues, particularly around water.	<ul style="list-style-type: none"> • 5.5% in year one • 3.5% years two and three • no more than 1% above CPI inflation ongoing \$33.5b Capex \$69.2b Opex	
Māori Outcomes Funding	Support	Council has duties to assist Māori Outcomes. The budget is vital in helping Council meet its commitments to Māori. The budget has not increased since 2010 to keep up with inflation, so this additional budget is highly supported. We do think the increase is less than the 14 years of compounding inflation that was not included in the original budget, but it is a move in the right direction.	\$21.0m increase starting in \$3m increments from year 4	
Transport (Do More Option)	Support	This would allow a rapid transition to better and more sustainable public transport options, as well as things like improvements to Lincoln Road and unsealed roads – both of which are local transport issues for Te Kawerau ā Maki	\$52b (capex + opex)	
Climate Acton Transport Targeted Rate	Support	This targeted rate is important in helping tackle transport emissions which are the main source of emissions for Auckland	Within total transport budget	
Water	Support	Supportive of the 'do more' or central options that include: <ul style="list-style-type: none"> • upgrade of the aging Huia Water Treatment Plants Huia and the Nihotupu 1 raw water main to ensure uninterrupted supply and better service • construction of the 33 kilometre North Harbour watermain from Titirangi to Albany, to complete by 2030 • construction of the North Harbour 2 watermain until 2025 for completion by 2030 • construction of the second stage of the Northern Interceptor, including trunk sewers for local catchments • re-establishing the volcanic cone on Puketutu Island to the shape it was prior to the island becoming a quarry • deliver the Making Space for Water programme over 10 years (or 6 years in the 'Do More' option) to strengthen resilience to flooding through a number of initiatives • undertake limited work supporting investment in 	\$32,625b (capex + opex)	

		priority housing areas, including \$475 million of stormwater investment for the Auckland Housing Programme areas supported by the Housing Acceleration Fund		
Water Quality Target Rate	Support	The WQTR Fund was highly supported by Aucklanders and has enabled meaningful investment in water quality improvements. We seek the WQTR be reinstated.	Targeted rate	
Environment (Do More Option)	Support	Two of the largest existential threats are climate change and biodiversity collapse. Our investment should reflect the importance of the foundational function of the environment in supporting all other outcomes and in the urgency of the need to act. We think the measures of success here need improvement also against what is proposed in the LTP. The 'Do More' option is necessary and will deliver: <ul style="list-style-type: none"> • deliver most of the programmes committed to in the Regional Pest Management Plan (RPMP) and maintain support for community initiatives • increase levels of support and grow community stewardship of green spaces and partnership support for mana whenua, exercise kaitiakitanga (guardianship) and support larger, landscape-scale initiatives. 	\$600,362m (capex + opex)	
Natural Environment Targeted Rate (Do More Option)	Support	The NETR Fund was highly supported by Aucklanders and has enabled meaningful investment into nature which is a core component of the Mayor's vision and our iwi priorities. We seek the NETR be resumed and increased for inflation at 3.5%	Targeted rate + 3.5% per annum	
NEW PROVISION: Natural Environment Targeted Rate (Kauri Protection)	N/A	Te Piringa / Cascades Kauri is one of the largest catchments of old-growth kauri in the region. It also has some of the most celebrated walks in the Waitākere Ranges. Many of its oldest and biggest residents – the 600-1000 year old kauri – are succumbing to kauri dieback. We seek support as a line item within the NETR for a project to treat the largest kauri with phosphite to help them fight off the disease. This would be a programme including Te Kawerau kaimahi alongside specialists. If we fail to save our oldest residents we've collectively failed as stewards.	\$200,000 of NETR	
Inland Port in North-West (Mayoral Proposal)	Support	Utilising the existing rail line makes sense and creating a distribution hub at place could significantly reduce over-reliance on the CBD in terms of freight. This could also align well with Te Kawerau ā Maki plans in the long-term at Riverhead. Any investment in the rail network in the Northwest should also support reconnecting passenger heavy rail connection between Swanson and Huapai.	Unknown	
Asset Sales	Partial	We would be opposed to the sale of the Henderson Civic Centre for reasons covered in previous engagements – in essence this is the only civic space in West Auckland other than a library. Other assets would be on a case-by-case basis.	N/A	N/A
Greater Funding and Powers of Local Boards	Support	Better supporting local decision-making and resourcing this is in general supported, provided it aligns with iwi rights and interests. We consider however that the Waitākere Ranges Local Board, which contains the nationally significant Waitākere Ranges Heritage Area within its borders, is not adequately funded to reflect the significance of essentially having a national park occupy 80% of its area, and the duty of care and investment needed to support this. We seek an additional \$5m be allocated to the Local Board to be better able to invest in ensuring the Act is implemented.	\$5m additional funding to the Waitākere Ranges Local Board	

		We would argue this investment should be matched by Central Government who also have a duty to implement the Heritage Area.		
NEW PROVISION: Capacity Funding	N/A	We seek the continuation of current levels of capacity funding to support our ability to participate in decision-making processes and relationship with Auckland Council. This is currently approximately \$201,000 which we seek to continue, however adjust for annual inflation so that we avoid the situation of a sinking lid that was encountered for the past 14 years.	No change to existing funding levels, but with annual inflation adjustments	
NEW PROVISION: Te Kawerau ā Maki and Council MOU and Annual Plan	N/A	Te Kawerau ā Maki do not have a formal relationship agreement with Auckland Council, despite having drafted one and lodging it as draft in 2017. We seek this is done as a priority with a deadline of December 2024. As part of the MOU we seek to co-develop an annual work programme to ensure we are working together smartly, efficiently, and effectively.	No impact	
NEW PROVISION: Te Henga Marae	N/A	Te Henga marae and papakāinga project is known as the Kainga Whakahirahira (settlement of significance) to Te Kawerau ā Maki. It represents the return or renaissance of the iwi within its tribal heartland and is central to the cultural and social wellbeing of Te Kawerau ā Maki. Te Kawerau ā Maki are currently the only mana whenua iwi without a marae in the Auckland region. The establishment of a Te Kawerau marae at Te Henga was a longstanding legacy commitment of the former Waitākere City Council and goes back to around 1992. Te Kawerau ā Maki will require ongoing support from Council in the establishment of the Te Henga marae as the project is an absolute cultural and social priority for Te Kawerau ā Maki and is subsequently a key Māori wellbeing project for Council as defined in the Auckland Plan. We seek Council to support up to 25% of the construction as a one-off. This would include 10 years of marae funding at \$170k per year (\$1,700,000), and 10 years of papakāinga funding (\$1,700,000) to assist with completing building consent and construction works of both the marae and papakāinga.	\$3,750,000.00 (of existing Māori Outcomes budget so not additional spend to overall budget)	
NEW PROVISION: Waitākere Ranges Heritage Area Deed and Forum	N/A	The Waitākere Ranges Heritage Area Act (2008) stipulates that a Deed of Recognition should be entered into with Te Kawerau ā Maki in recognition of its tangata whenua status over the area, and to set out the methods by which we can contribute to the decision making regarding the implementation of the Act and the management of public lands. Te Kawerau ā Maki has consistently, formally, and regularly identified a desire to progress the Deed since 2008 – it has been 16 years of us asking Council to do what the law tells it to do. Te Kawerau interests and rights over the Waitākere Ranges are also enshrined in legislation through the Te Kawerau ā Maki Treaty Settlement. Te Kawerau are currently cooperating with Council in the regional park in Waitākere following the rāhui placed over the forest in 2017. We seek to formalise this relationship through the Deed. We see the Deed as also providing a formal mechanism (method) of establishing a WRHA Forum by which the iwi, Council, and Central Government, with advice from community groups, can develop a strategic plan for the whole area so that its core components of (a) national significance, (b) enhancement, and (c) integrated management can finally be progressed.	We do not anticipate any budgetary implication within the first 2 years, as the Deed and the establishment of the Forum could be undertaken within existing operational budgets or functions. One of the functions of the forum would be to establish a budget, if any, for future years.	
NEW PROVISION:	N/A	Te Kawerau ā Maki heartland is the Waitākere Ranges, and we have stepped up to protect the	\$160,000 (per annum with inflation adjustments)	

Waitākere Ranges Kaitiaki Monitoring		environment here through the 2017 rāhui and many other projects and actions. This is our duty as kaitiaki, however this comes with an operational burden. Council is required to work with us to 'contribute to the decision-making over the management of the public lands and implementation of the act' yet has failed to structurally or systematically do this for 14 years. We seek Council support in funding two full-time Te Kawerau ā Maki rangers to work alongside our Council peers in protecting and monitoring the area in the spirit of partnership and as anticipated in both our Treaty Settlement and the WRHAA.		
NEW PROVISION: Waitākere Ranges Heritage Area 'Heart of the Ngāhere Sanctuary'	N/A	The Waitākere Ranges Heritage Area is nationally significant, requires enhancement, and integrated management. Kauri are a nationally threatened species, kauri dieback is an unwanted organism, and the National Pest Management Plan for Kauri Dieback legally requires land owners to undertake certain measures to protect kauri, including establishing kauri protection areas. Te Kawerau ā Maki undertook a rāhui in 2017 to protect the forest from dieback and poor forest health. We have publicly proposed a landscape-level sanctuary in the heart of the forest to help prevent further spread of the pathogen but also to establish a pest-free area and to enhance the environmental values of the central mass of the forest (the area away from the edges where people live and pest invade from). There is a strong legal and moral case to establish a sanctuary in the heart of the Ranges. We seek this is done in part under the NPMP Kauri Dieback and other mechanisms by 30 June 2025.	Mostly in-kind/existing opex and functions, however we would anticipate enhanced pest control within the sanctuary. Costing would need to be carefully established, but would anticipate \$1m per annum and could be developed by Council, DOC, Te Kawerau and community organisations.	
NEW PROVISION: Te Onekiritea Point (Hobsonville)	N/A	Te Kawerau ā Maki owns 0.3 ha of land at Te Onekiritea (Hobsonville Point) as cultural redress land and has an exclusive right of refusal to purchase the surrounding 11ha of the Point though our Treaty Settlement. This is a key piece of our commercial redress opportunity. It is currently owned/administered by Kainga Ora (previously Hobsonville Land Company) and is surplus land. The ability to purchase the RFR is contingent on whether Council first wishes to purchase the land for open space (in which case the RFR transfers to Council). Te Kawerau have for many years tried to acquire our redress at Te Onekiritea and have been actively and intentionally undermined by Kainga Ora and its predecessors who have marketed our Treaty land as open space or reserve to the wider public, entered into discussions with the Upper Harbour Local Board about it being transferred for community purposes, and tried to sell it to Auckland Council for the past decade through 'unofficial talks' to try and circumvent triggering our Treaty Settlement. It has been marketed and offered to everyone except Te Kawerau ā Maki in direct breach of our Settlement. In previous discussions with Auckland Council it was indicated that Council only wishes to ensure open space of around 3-4ha of the coastal edge of the area, and would support Te Kawerau acquiring the balance to give effect to our Settlement. We seek a formal non-monetary commitment from Council to assist us in resolving the matter via a working group.	No impact	

<p>NEW PROVISION: Riverhead forest development and plan change</p>	<p>N/A</p>	<p>Te Kawerau ā Maki own in fee simple approximately 3,275 ha of Riverhead Forest. This was received as the main component of commercial redress within the 2015 Treaty Settlement and is the key strategic asset from which to drive the economic wellbeing of the iwi into the future. During the Unitary Plan hearings Te Kawerau ā Maki sought to have a precinct placed over the Riverhead Forest Treaty land to recognise its unique status as commercial redress land inextricably bound to the economic development of the iwi, and to enable Te Kawerau ā Maki to work with Council jointly on a solution that unlocked the potential of the land in a sustainable way. Due to the compressed timeframes of the PAUP process, Council went on the record noting that there was not the time or adequate information at hand to agree to the full scope requested by Te Kawerau ā Maki, but that as with other iwi submissions through the PAUP there would be future opportunity for a Council assisted/led plan change. Te Kawerau ā Maki see opportunity to work with Auckland Council and the Government to help address the current Auckland Housing Crisis, and potentially also assist with the planting of permanent native trees at a significant scale. Te Kawerau ā Maki have ambitions to provide large scale and strategic master planned community solutions at Riverhead. Te Kawerau ā Maki are currently in the process of developing a business case for Riverhead and seek to work with Council and Government closely in framing and responding to planning issues. We request a dedicated Council working group to work with us on the initial plans for this, eventually leading to a Council-supported plan change. This would be in line with the intent of the Treaty Settlement, Auckland Plan, AUP RPS, and FDS in relation to supporting the development and use of Treaty Settlement land.</p>	<p>No impact</p>

Piha Art Gallery: Erosion and flood risk

Healthy Waters: Tom Mansell and Jack Dickens

Parks and Community Facilities: Helen Biffin

April 2024

Background

- Piha Stream is eroding towards the Art Gallery located at 21 Seaview Road, Piha
- Erosion at the base of the Piha catchment is common due to its position. The area surround the art gallery is flat and low-lying, formed by sediment deposits from a steep catchment. This allows river channel to moves and changes within its floodplain. Currently, the channel is increasing it's bends and becoming wider to handle the large amounts of water flowing down from higher ground.
- Healthy Waters have investigated multiple options for erosion mitigation in the stream.

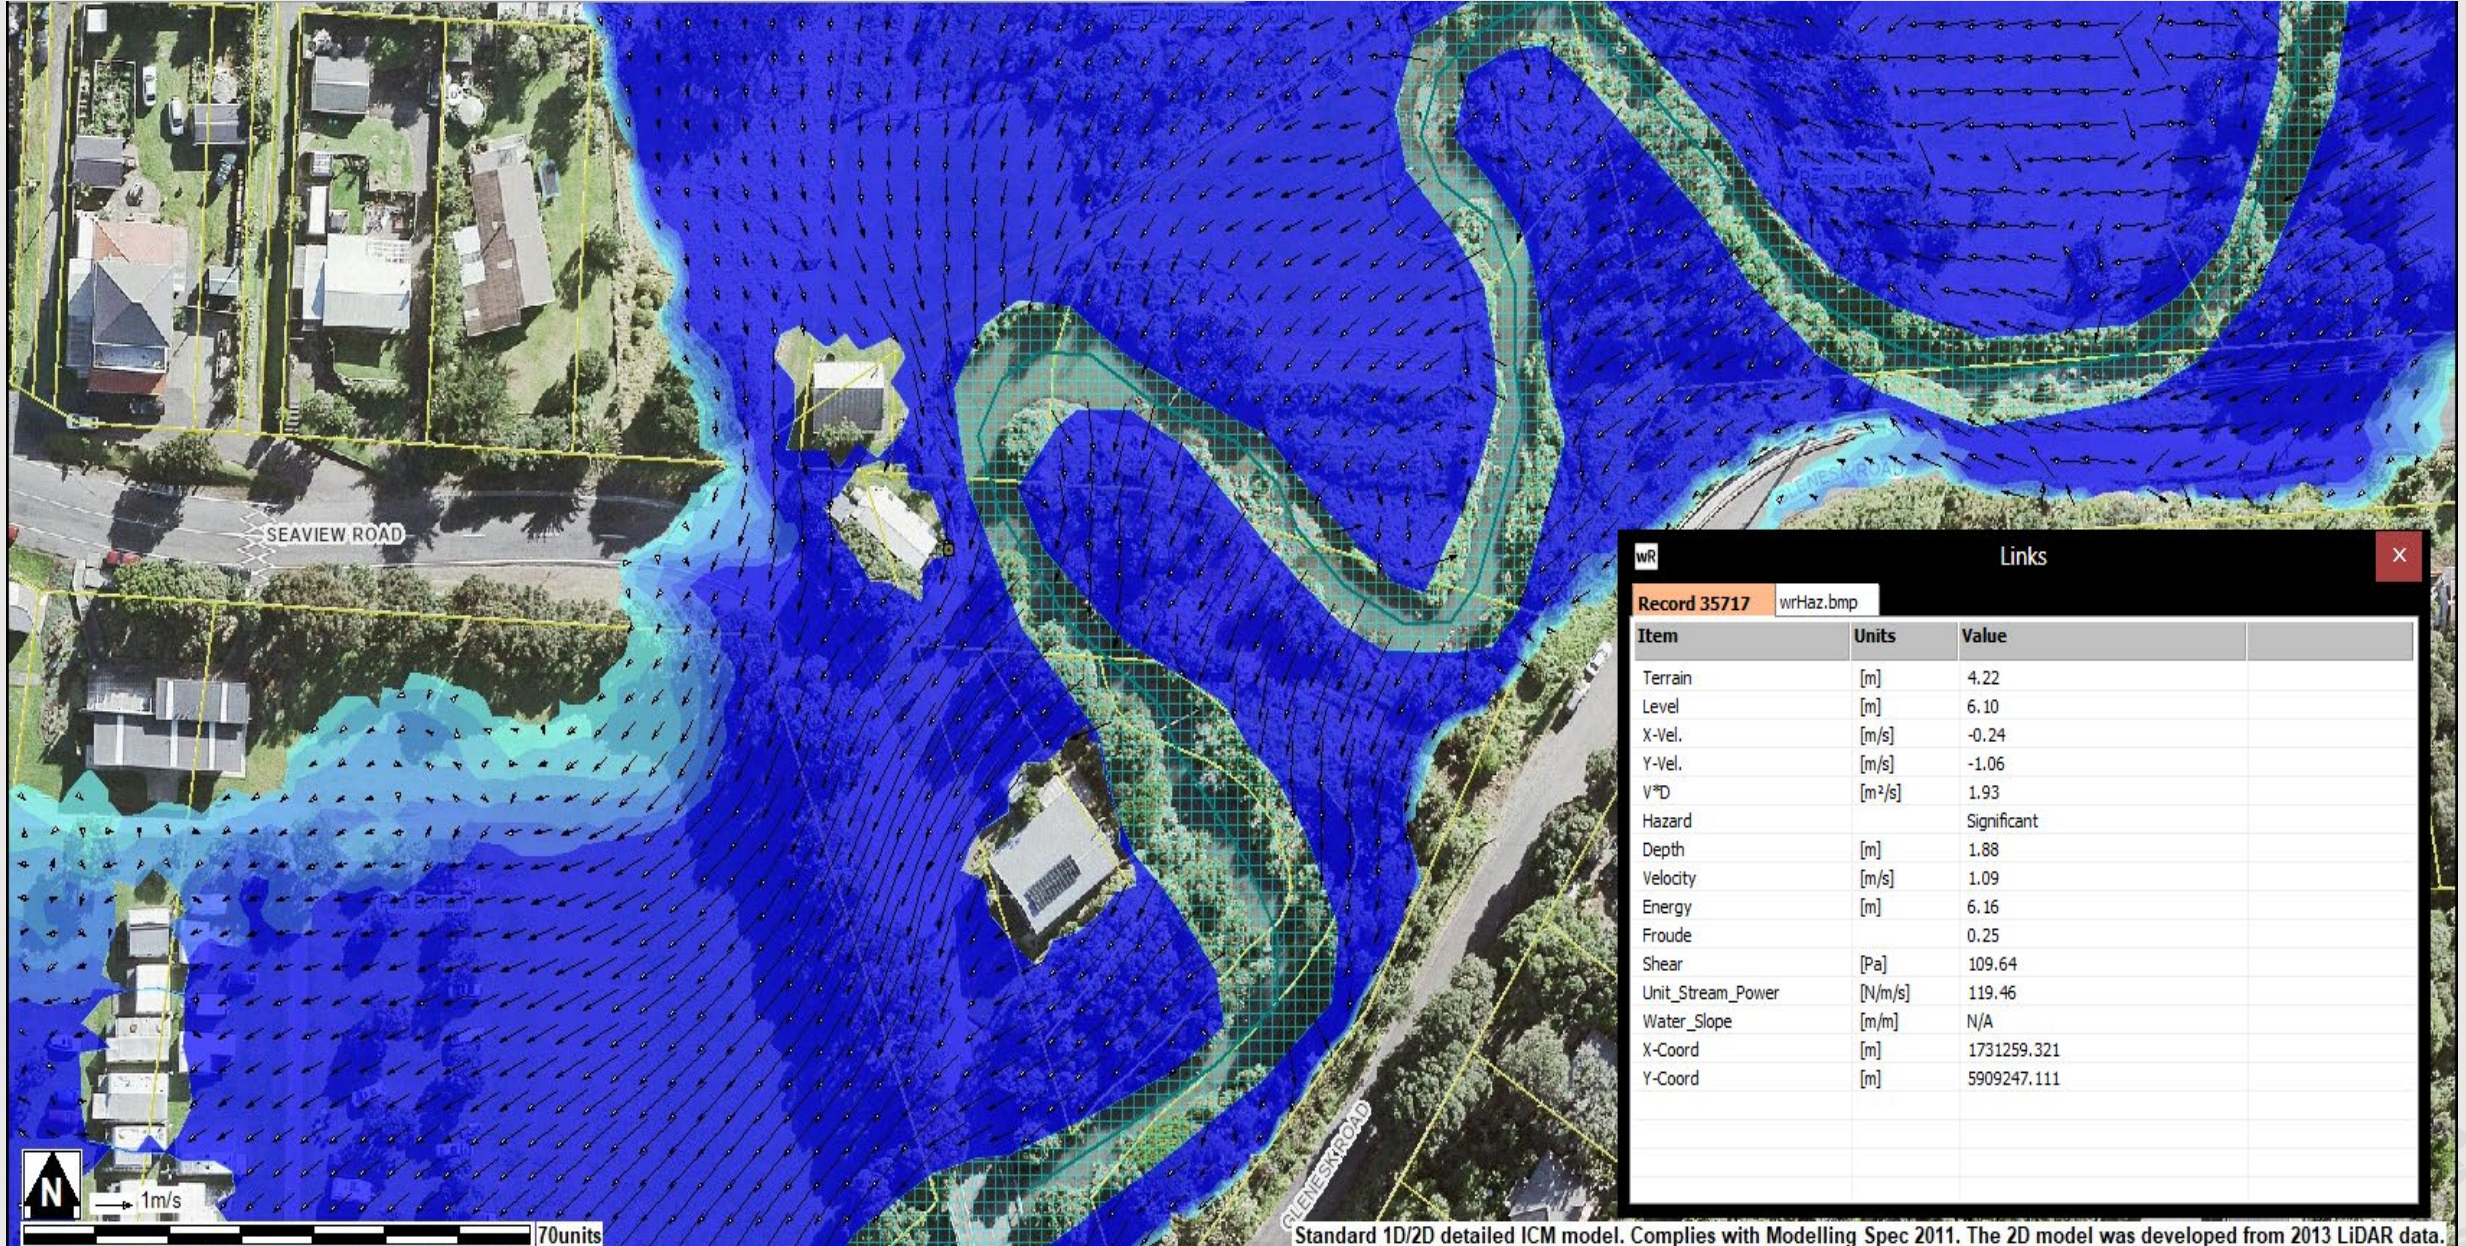

Recommendations

- Healthy Waters is recommending moving the Art Gallery due to the unmitigable flood risk
- The cost of constructing an erosion mitigation solutions is approximately \$2.5 million including design and consenting.
- The art gallery was assessed using the property categorisation
- This building would be considered a Category 3 building (intolerable risk to life)

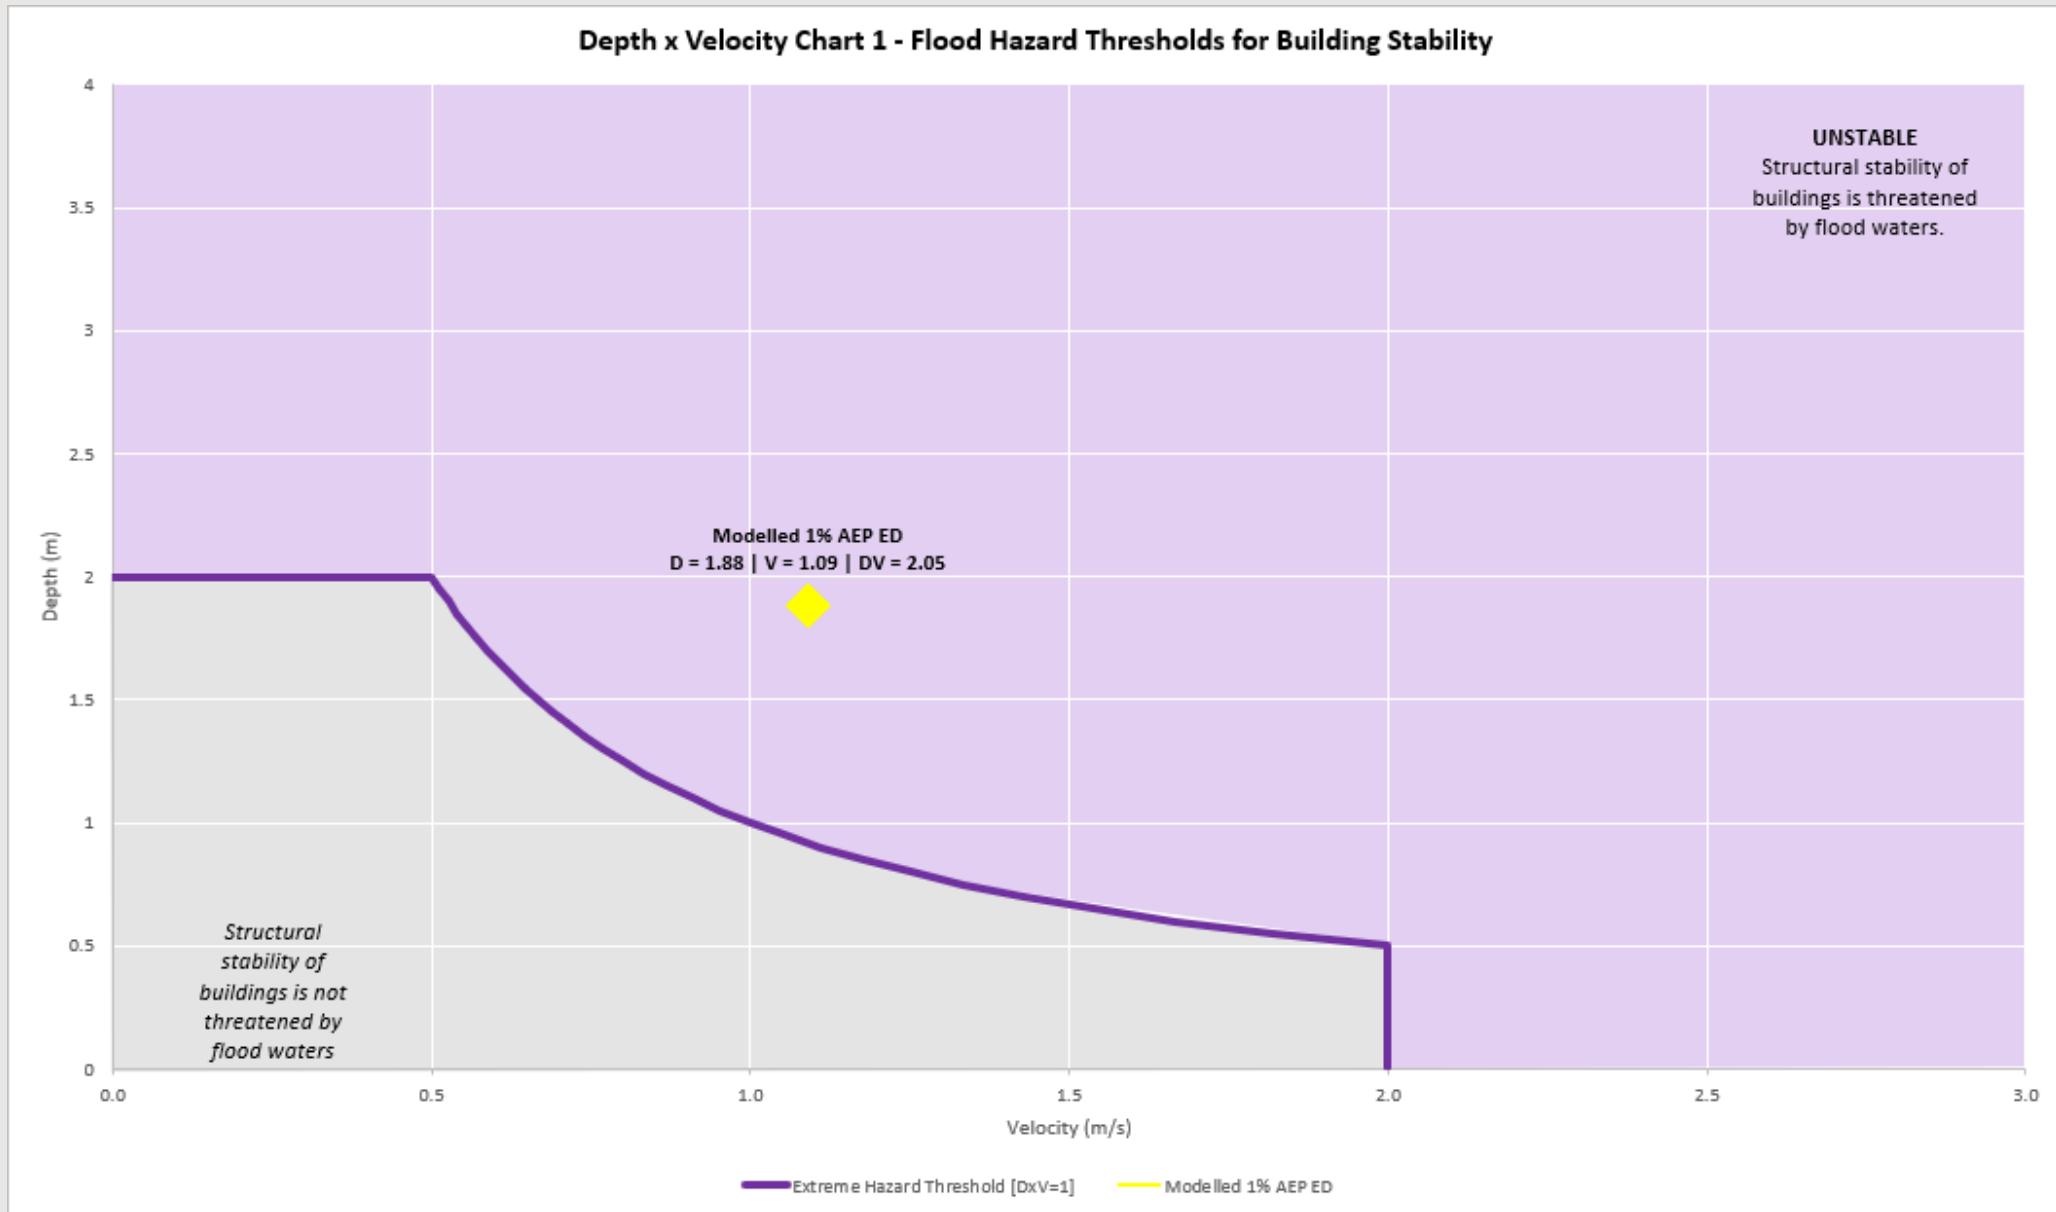

Flood hazard assessment: Flood modelling

Standard 1D/2D detailed ICM model. Complies with Modelling Spec 2011. The 2D model was developed from 2013 LiDAR data.

Flood Hazard Assessment: Building stability

Flood hazard assessment: Person stability
