### PRACTICE NOTE

---

#### PLANS FOR SUPERMARKETS AND GROCERY STORES

---

2 March 2023

This practice note supersedes the Practice Note of 26 July 2017.

- [1] Section 113(2) of the Sale and Supply of Alcohol Act 2012 provides that a single alcohol area for a supermarket and a grocery store must be described by means of a plan of the footprint of the premises concerned showing:
- (a) the proposed configuration and arrangement of the premises or level;
  - (b) the perimeter of the area.
- [2] The Committee has become aware that some of the plans submitted with applications have been difficult to interpret and, in particular, it has been difficult to ascertain the size and location of the single alcohol area in relation to the remainder of the premises.
- [3] Accordingly, the Committee directs that all applications for supermarkets and grocery stores comply with one of the following options:
- (a) The application must be accompanied by clear and legible scale plans which comply with section 113(2) of the Act. Any application which is not accompanied by scale plans will not be accepted by the Committee and will be returned to the applicant as an incomplete application.
  - (b) If the submitted plans are not to scale, then a strip of contrasting tiles or contrasting floor treatment identifying the single alcohol area must be clearly identified on the plans. The single alcohol area in the premises must then comply with this direction by the placement of the tiles or floor treatment.
- [4] The Committee's preference is the use of a strip of contrasting tiles or contrasting floor treatment to visually identify the single alcohol area.
