Subject: Plan Modification: Clause 20A modification to Auckland Unitary Plan

Corrections are required to the Auckland Unitary Plan (Operative in Part) 2016 (the AUP).

I seek your approval of this plan modification pursuant to clause 20A, first schedule, Resource Management Act 1991.

You have delegated authority, as a tier four manager, to make a decision to correct an error to an operative plan under clause 20A. Schedule 2A of the Auckland Council Combined Chief Executives Delegation Register¹ authorises all powers, functions, and duties under RMA's first schedule (except clause 17 which cannot be delegated) to tier four positions.

The Council will consider the relevant assessment criteria below for controlled activities:

(1) for controlled activities in D17.7.1(1), (2) and (3):

(a) the extent to which the proposal will affect the identified values of the scheduled historic heritage place it relates to, including the setting, and the measures to avoid, remedy or mitigate adverse effects on the scheduled historic heritage place;

D17. Historic Heritage Overlay

D17.1. Background

These provisions apply to scheduled historic heritage places on land and in the coastal marine area that are identified in [Schedule 14.1 Schedule of Historic Heritage](#) and shown on the Plan maps.

Scheduled historic heritage places have been evaluated and meet the heritage significance criteria and thresholds set out in the Regional Policy Statement (Chapter [B5.2](#)).

A scheduled historic heritage place can be an individual feature, or encompass multiple features and/or properties, and may include public land, land covered by water and any body of water. A historic heritage place may include; cultural landscapes, buildings, structures, monuments, gardens and plantings, archaeological sites and features, traditional sites, sacred places, townscapes, streetscapes and settlements.

The provisions within this chapter manage the protection, conservation, maintenance, modification, relocation, use and development of scheduled historic heritage places.

Some precincts contain more detailed information and specific rules relating to a scheduled historic heritage place/s. Where this is the case the more specific precinct rules will replace the rules in D.17.4 in this section.

Categories of scheduled historic heritage places

Each scheduled historic heritage place has been assigned a category (refer to Section [B5.2.2.\(4\)](#)).

[Schedule 14.1 Schedule of Historic Heritage](#) contains the following categories of places:

- Category A Places: historic heritage places of outstanding significance well beyond their immediate environs; generally expected to be of significance to the Auckland region or a greater geographic area;
- Category A* Places: the most significant scheduled historic heritage places from legacy plans where the total or substantial demolition or destruction was a discretionary or non-complying activity (rather than a prohibited activity). This is an interim category until a comprehensive re-evaluation of these places is undertaken and their category status is addressed through a plan change process;
- Category B Places: historic heritage places that are of considerable significance to a locality or greater geographic area. Most scheduled historic heritage places are Category B; and
- Historic Heritage Areas: groupings of interrelated, but not necessarily contiguous, places or features that collectively meet the Category A or B criteria. Historic Heritage Areas may include both contributing and non-contributing sites or features, places individually scheduled as Category A or B places, and notable trees. Before the map for each Historic Heritage Area in [Schedule 14.2. Historic Heritage Areas - Maps and statements of significance](#) there is a statement of significance which

summarises the heritage values of each Historic Heritage Area and the relative importance of the values.

Primary features and non-primary features of Category A, A and B places*

The primary features of Category A, A* and B places form the fundamental basis for scheduling a historic heritage place. The primary features of historic heritage places are identified in [Schedule 14.1 Schedule of Historic Heritage](#), and for some places in [Schedule 14.3 Historic Heritage Place maps](#).

Not all primary features of Category B places have been identified. Until such time as the primary features of Category B places are identified, all features within the extent of place of a Category B place will be considered a primary feature for the purposes of implementing the rules in this chapter.

Non-primary features are features which are not specifically identified as either a primary feature or a feature in the exclusions column in [Schedule 14.1 Schedule of Historic Heritage](#) or as identified in [Schedule 14.3 Historic Heritage Place maps](#).

Extent of place of scheduled historic heritage places

Most scheduled historic heritage places include an identified area around a heritage feature; referred to as the 'extent of place'.

The extent of place comprises the area that is integral to the function, meaning and relationships of the place and illustrates the historic heritage values identified for the place. The provisions relating to a historic heritage place apply within the area mapped as the extent of place on the Plan maps, including the airspace.

[Schedule 14.3 Historic Heritage Place maps](#) clarifies the extent of place that applies to some historic heritage places.

Exclusions

Some scheduled historic heritage places have listed exclusions in [Schedule 14.1 Schedule of Historic Heritage](#), for example the interiors of buildings or ancillary buildings. Features listed as exclusions do not contribute to, or may detract from the values for which the historic heritage place has been scheduled.

[Schedule 14.3 Historic Heritage Place maps](#) clarifies the exclusions that applies to some historic heritage places.

Archaeological sites or features

Scheduled historic heritage places that are archaeological sites, or include archaeological sites or features that contribute to the significance of a scheduled place, are identified in [Schedule 14.1 Schedule of Historic Heritage](#). The proportion of archaeological sites within Auckland that are identified in [Schedule 14.1 Schedule of Historic Heritage](#) is low.

Archaeological sites are subject to additional rules to manage activities that have the potential to adversely affect archaeological values, such as land disturbance, or disturbance of the foreshore or seabed. The accidental discovery rule in [E12 Land](#)

[disturbance - District](#) applies in order to protect presently unknown archaeological values that may be discovered when works or development is undertaken.

Places of Māori interest or significance

Scheduled historic heritage places and places identified as having significance or value to Mana Whenua may overlap. In these instances the provisions in [D21 Sites and Places of Significance to Mana Whenua Overlay](#) also apply, in addition to any other overlay that may apply to the scheduled historic heritage place.

Setting of a historic heritage place

The setting of a historic heritage place includes elements of the surrounding context beyond the identified extent of place within which a historic heritage place is experienced. The setting of a historic heritage place includes the sea, sky, land, structures, features, backdrop, skyline and views to and from the place. It can also include landscapes, townscapes, streetscapes and relationships with other historic heritage places which contribute to the value of the place.

Unscheduled historic heritage

Much of Auckland's heritage has not been identified or evaluated to determine its significance.

Some places that have been identified as having significant heritage values are not presently included in the historic heritage schedule, either because of incomplete information, lack of consultation with landowners, or for other reasons. Presently unscheduled historic heritage places that meet the criteria for scheduling will be evaluated for inclusion in the schedule through future plan change processes.

Role of Heritage New Zealand Pouhere Taonga (Heritage New Zealand) in heritage protection and management

Heritage New Zealand has both an advocacy and a statutory role in relation to the conservation and protection of historic heritage.

Heritage New Zealand maintains the New Zealand Heritage List/Rārangi Kōrero which is a list of historic places, historic areas and wahi tapu areas. Heritage New Zealand is also required to establish and maintain the list of National Historic Landmarks/Ngā Manawhenua o Aotearoa me ōna Kōrero Tūturu. A scheduled historic heritage place in this Plan may also be on the New Zealand Heritage List.

In addition to the requirements of this Plan, the Heritage New Zealand Pouhere Taonga Act 2014 requires an authority to be obtained from Heritage New Zealand to modify or destroy any archaeological site meeting the criteria set out in that Act, whether or not it is recorded or scheduled.

If works are proposed to a scheduled historic heritage place, and the place meets the definition of an 'archaeological site' in the Heritage New Zealand Pouhere Taonga Act 2014, then the works will be subject to the provisions of that Act in addition to this Plan. Some places that meet the definition of an 'archaeological site' under the Heritage New Zealand Pouhere Taonga Act 2014 will not be included in [Schedule 14.1 Schedule of](#)

[Historic Heritage](#), and an authority to modify an archaeological site will be required from Heritage New Zealand.

Prior to starting work, or making an application for a resource consent affecting a historic heritage place Heritage New Zealand should be contacted to confirm whether, in addition to any rules applying in this Plan:

- (1) an authority is required from Heritage New Zealand to modify an archaeological site; or
- (2) the place is on the New Zealand Heritage List/Rārangi Kōrero or list of National Historic Landmarks.

D17.2. Objectives [rcp/dp]

- (1) The protection, maintenance, restoration and conservation of scheduled historic heritage places is supported and enabled.
- (2) Scheduled historic heritage places are protected from inappropriate subdivision, use and development, including inappropriate modification, relocation, demolition or destruction.
- (3) Appropriate subdivision, use and development, including adaptation of scheduled historic heritage places, is enabled.

D17.3. Policies [rcp/dp]

Maintenance and repair

- (1) Encourage and enable maintenance and repair appropriate to scheduled historic heritage places where it is:
 - (a) based upon a clear understanding of the heritage values of the place; and
 - (b) undertaken in accordance with good practice conservation principles and methods.
- (2) Encourage and support maintenance and repair appropriate to scheduled historic heritage places through such measures as:
 - (a) reducing or waiving consent application costs;
 - (b) providing funding, grants and other incentives; or
 - (c) providing expert advice.

Use and development, including adaptation

- (3) Enable the use, development and adaptation of scheduled historic heritage places where:

- (b) it will contribute to the ongoing maintenance and enhancement of the historic heritage values of the place;
 - (c) it is in accordance with good practice conservation principles and methods;
 - (d) it will not result in cumulative adverse effects on the historic heritage values of the place;
 - (e) it will support the long-term viability, retention or ongoing use of the place; and
 - (f) it will not lead to significant adverse effects on the surrounding area.
- (4) Enable the use of scheduled historic heritage places, whether or not the use is otherwise provided for in the zone, where it does not detract from the heritage values of the place and will not otherwise have significant adverse effects.
- (5) Support use, development or adaptation appropriate to scheduled historic heritage places through such measures as:
- (a) reducing or waiving consent application costs;
 - (b) granting consent to infringement of the development standards for underlying zones and Auckland-wide rules where this does not result in significant adverse effects;
 - (c) providing funding, grants and other incentives;
 - (d) providing expert advice; or
 - (e) providing transferable development rights.
- (6) Enable use and development of contributing and non-contributing sites or features within a Historic Heritage Area where it is compatible with the historic heritage values of the area.
- (7) Require the assessment of the effects for proposed works to scheduled historic heritage places, including where one or more places are affected, to address all the effects on:
- (a) the heritage values of the place/s;
 - (b) the significance of the place; and
 - (c) the setting and the relationship between places.

Modifications, restoration and new buildings within historic heritage places

- (8) Maintain or enhance historic heritage values by ensuring that modifications to, or restoration of, scheduled historic heritage places, and new buildings within scheduled historic heritage places:

- (a) minimise the loss of fabric that contributes to the heritage values and level of significance of the place;
 - (b) do not compromise the ability to interpret the place and the relationship to other heritage places;
 - (c) complement the form, fabric and setting which contributes to, or is associated with, the heritage values of the place;
 - (d) retain and integrate with the heritage values of the place;
 - (e) avoid significant adverse effects, including from loss, destruction or subdivision that would reduce or destroy the heritage values of the place; and
 - (f) avoid, remedy or mitigate adverse effects on the heritage values of the place.
- (9) Enable modifications to, or restoration of, scheduled historic heritage places, and new buildings within scheduled historic heritage places where the proposal:
- (a) will not result in adverse effects on the significance of the place;
 - (b) will contribute to the ongoing maintenance and enhancement of the historic heritage values of the place;
 - (c) is in accordance with good practice conservation principles and methods;
 - (d) will not result in cumulative adverse effects on the historic heritage values of the place; and
 - (e) will contribute to the long-term viability, retention or ongoing functional use of the place.
- (10) Support modifications to, or restoration of, scheduled historic heritage places that will do any of the following:
- (a) recover or reveal heritage values of the place;
 - (b) remove features or additions that compromise the heritage values of the place; or
 - (c) secure the long-term viability and retention of the place.
- (11) Provide for modifications to, or restoration of, parts of buildings or structures where this is necessary for the purposes of adaptation, repair or seismic strengthening, either in its own right or as part of any modifications.

Demolition or destruction

- (12) Avoid the total demolition or destruction of the primary features of Category A scheduled historic heritage places.
- (13) Avoid the total or substantial demolition or destruction of features (including buildings, structures or archaeological sites) within scheduled historic heritage places where it will result in adverse effects (including cumulative adverse effects) on the overall significance of the scheduled historic heritage place to the extent that the place would no longer meet the significance thresholds for the category it has been scheduled.
- (14) Avoid the total or substantial demolition or destruction of:
- (a) the primary features of Category A* and Category B scheduled historic heritage places;
 - (b) the non-primary features of Category A and A* scheduled historic heritage places; and contributing features within Historic Heritage Areas;
- unless:
- (i) the demolition or destruction is required to allow for significant public benefit that could not otherwise be achieved; and
 - (ii) the significant public benefit outweighs the retention of the feature, or parts of the feature, or the place; or
 - (iii) the demolition or destruction is necessary to remove a significant amount of damaged heritage fabric to ensure the conservation of the scheduled historic heritage place.
- (15) Enable the total or substantial demolition or destruction of features (including buildings, structures or archaeological sites) where:
- (a) it is established that the feature detracts from the heritage values of a scheduled historic heritage place;
 - (b) the feature is identified as a non-contributing feature within a scheduled Historic Heritage Area; or
 - (c) the feature is identified as an exclusion in [Schedule 14.1 Schedule of Historic Heritage](#).
- (16) Provide for the temporary and reversible dismantling of parts of buildings or structures where this is necessary for the purposes of seismic strengthening, without determining the dismantling to constitute total or substantial demolition or destruction.

Relocation

- (17) Avoid the permanent relocation of the primary features of Category A historic heritage places beyond the scheduled extent of place.
- (18) Avoid the temporary relocation of the primary features of Category A historic heritage places beyond the scheduled extent of place, unless the relocation is necessary to allow for significant public benefit that could not otherwise be achieved.
- (19) Avoid the permanent relocation of features of scheduled historic heritage places unless:
 - (a) it is necessary to allow for significant public benefit that could not otherwise be achieved; and
 - (b) the significant public benefit outweighs the value of retaining the feature in its present location.
- (20) Enable the permanent relocation of buildings or structures beyond the scheduled extent of place where any of the following apply:
 - (a) it is established that building or structure detracts from the heritage values of a scheduled historic heritage place;
 - (b) the building or structure is identified as an exclusion in [Schedule 14.1 Schedule of Historic Heritage](#); or
 - (c) the building or structure is identified as a non-contributing feature within a scheduled Historic Heritage Area.

Temporary activities

- (21) Provide for signs associated with temporary activities within scheduled historic heritage places where any adverse effects on the heritage values of the place are avoided, remedied or mitigated.
- (22) Provide for freestanding displays, exhibits and temporary structures within scheduled historic heritage places where any adverse effects on the heritage values of the place are avoided, remedied or mitigated.

Subdivision

- (23) Provide for the subdivision of scheduled historic heritage places only where:
 - (a) the subdivision will support use and development that is complementary to the heritage values of the place;
 - (b) all the potential effects of the subdivision and any associated development on the heritage values of the place have been considered and any adverse effects on these values are avoided to the greatest extent possible, and any other effects are remedied or mitigated; and

- (c) the subdivision contributes to the retention of the place.

Infrastructure

- (24) Enable the operation, maintenance, repair and upgrading of network utilities and small-scale electricity generation facilities, and connections to buildings for network utilities within scheduled historic heritage places in a manner that avoids, remedies or mitigates new adverse effects on the heritage values.
- (25) Enable the establishment of network utilities and small-scale electricity generation facilities within scheduled historic heritage places where all of the following apply:
 - (a) there is a functional need or operational constraint that necessitates their location within a scheduled historic heritage place;
 - (b) significant adverse effects on the heritage values of the place are avoided where practicable; and
 - (c) other adverse effects are avoided, remedied or mitigated.
- (26) Avoid the relocation and total or substantial demolition or destruction of features within a scheduled historic heritage place to provide for network utilities and electricity generation facilities unless all of the following apply:
 - (a) a functional need or operational constraint limits available alternatives;
 - (b) there is no reasonable practicable alternative;
 - (c) the infrastructure will provide a significant public benefit that could not otherwise be achieved; and
 - (d) the adverse effects on the heritage values of a place are minimised to the extent practicable.

D17.4. Activity tables

Tables D17.4.1 to D17.4.3 specify the activity status of land-use activities (pursuant to section 9(3) of the Resource Management Act 1991), subdivision (pursuant to section 11 of the Resource Management Act 1991), and activities in the coastal marine area (pursuant to section 12(1), (2) or (3) of the Resource Management Act 1991) affecting scheduled historic heritage places. The most restrictive applicable rule determines overall activity status.

Table D17.4.1 Activity table – Activities affecting Category A, A* and B scheduled places applies to Category A, A* and B scheduled historic heritage places as identified in [Schedule 14.1 Schedule of Historic Heritage](#) and [Schedule 14.3 Historic Heritage Place maps](#).

Table D17.4.2 Activity Table - Activities subject to additional archaeological rules applies to historic heritage places where additional archaeological rules apply as identified in [Schedule 14.1 Schedule of Historic Heritage](#).

Table D17.4.3 Activity Table - Activities in Historic Heritage Areas applies to Historic Heritage Areas, as identified in [Schedule 14.1 Schedule of Historic Heritage](#) and [Schedule 14.2 Historic Heritage Areas - Maps and statements of significance](#). Where a Category A, A* or B scheduled historic heritage place, or a site subject to an additional archaeological rule is also located within a Historic Heritage Area, Table D17.4.1 and Table D17.4.2 also apply.

Other rules that apply to scheduled historic heritage places are contained in:

- [E26 Infrastructure](#);
- [E12 Land disturbance - District](#); and
- Chapter F Coastal - the rules in the activity table in Chapter F General Coastal Marine Zone apply, except where reference is made to the rules in this chapter.

Rules relating to the extent of place for places annotated with # in [Schedule 14.1 Schedule of Historic Heritage](#)

Where the extent of place for a scheduled historic heritage place is annotated with a # in [Schedule 14.1 Schedule of Historic Heritage](#), no geographic extent of place has been mapped. In this case the rules in Table D17.4.1 and Table D17.4.2 apply to all land or water within 50m of the feature annotated with #.

Rules where the primary features of Category B places are not identified

Not all primary features of Category B places have been identified in [Schedule 14.1 Schedule of Historic Heritage](#). Until such time as the primary features of Category B places are identified, all features within the extent of a Category B place will be considered a primary feature for the purposes of the rules in this chapter.

Rules relating to the interiors of scheduled buildings

The rules in Table D17.4.1 apply to the interiors of scheduled buildings unless they are specifically identified as exclusions in [Schedule 14.1 Schedule of Historic Heritage](#) or [Schedule 14.3 Historic Heritage Place maps](#).

Rules relating to seismic strengthening

The temporary and reversible dismantling of parts of buildings or structures for the purposes of seismic strengthening will not be considered to constitute demolition or destruction for the purposes of these rules.

Rules relating to demolition or destruction of a feature (including building, structure, archaeological site or feature)

For the purpose of determining the rules relating to demolition or destruction of a feature, volume is measured from the outermost surface of the building or feature, including any surfaces below ground level, unless a site-specific rule applies. Details for determining the particular application of this rule for some scheduled places is provided in [Schedule 14.3 Historic Heritage Place maps](#).

A blank in the activity status for an activity in Tables D17.4.1, D17.4.2 or D17.4.3 means that the provisions of the zone or Auckland-wide provisions apply.

D17.5. Notification

- (1) An application for resource consent for the following controlled or restricted discretionary activities listed in Table D17.4.1 Activity Table – Activities affecting Category A, A* and B scheduled places, Table D17.4.2 Activity table - Activities subject to additional archaeological rules or Table D17.4.3 Activity table – Activities in Historic Heritage Areas will be considered without public or limited notification, or need to obtain written approval from affected parties unless the Council decides that special circumstances exist under section 95A(9) of the Resource Management Act 1991:

- (a) modifications to buildings, structures or features of a scheduled historic heritage place specifically for seismic strengthening;

- (b) restoration activities;
 - (c) signs not otherwise provided for as a permitted activity ;
