**SCHEDULE 2**  
**PROPOSED STANDARD CONDITIONS**

## SCHEDULE 2 – STANDARD CONDITIONS

### *Explanatory Notes*

- A. *Where any standard condition in Schedule 2 conflicts with a site specific condition in Schedule 3, the site specific condition in Schedule 3 shall take precedence.*
- B. *Where the commentary to the conditions below refers to the “Operative Plan”, this means the relevant section of the current operative Auckland Council District Plan.*
- C. *The conditions below have been drafted prior to preparation of the Unitary Plan. Accordingly, some fine tuning of terminology used in the conditions may be required once that document is finalised. For example, the term zoned “primarily for a residential purpose” is used in the conditions as zone names in the Unitary Plan are not yet known.*

### **Height in Relation to Boundary**

- 1. *Any new building or building extension (excluding goal posts and similar structures) shall comply with the height in relation to boundary controls [attached to this Schedule] from any adjoining land zoned primarily for a residential purpose, or zoned for an open space/outdoor recreation purpose.*

**Commentary:** It is unnecessary to apply this control to mixed use zones as they generally do not have Height in Relation to Boundary (HIRTB) controls applied to them but allow residential activity along with commercial activity. The current HIRTB diagram in the Auckland Isthmus Section of the Operative Plan is attached to the conditions. However, it may be appropriate to refer to the diagram included in the new Unitary Plan once the HIRTB control is confirmed for that plan. The HIRTB control is not applied to the road boundary as in some instances it may be appropriate to address a building facade directly to a road boundary for urban design purposes, or to practically accommodate building intensification on existing school sites. Accordingly, the relationship of buildings to road frontages can be dealt with on a case by case basis as part of an outline plan.

The HIRTB control will ensure school buildings do not unreasonably dominate or shade adjoining residential or open space/outdoor recreational land. However, other general controls such as height limits or coverage controls are not included as flexibility needs to be retained to intensify existing school sites as urban intensification and population growth continues. Removal of such controls will not result in significant adverse effects due to the effectiveness of the HIRTB controls, use of site specific controls in Schedule 3 to address any site specific issues identified through the designation process, and the use of the outline plan process to enable fine tuning of any design solutions.

## Noise

2. *The operation of the school shall comply with the following noise limits at the boundary of any site zoned primarily for a residential purpose, or in the case of a rural zone, at a point 20m from the facade of any dwelling, or the site boundary, whichever is closest to the dwelling:*

<i>DAY/TIME</i>	<i>NOISE LEVEL (<math>L_{eq}</math>) dBA</i>
<i>Mon – Sun, 7.00am – 10.00pm (0700 -2200)</i>	<i>55</i>
<i>Mon – Sun, 10.00pm –7.00am (2200 -0700)</i>	<i>45</i>

$$L_{MAX}= 75dBA$$

*These noise levels shall not apply to noise from standard school outdoor recreational activities occurring between 0800 and 1800 hours Monday to Saturday.*

*Noise levels shall be measured and assessed in accordance with NZS 6801: 2008 “Measurement of Environmental Sound” and NZS 6802:2008 “Environmental Noise”.*

*Noise from construction shall not exceed the limits recommended in, and shall be measured in accordance with, New Zealand Standard NZS 6803:1999 “Acoustics – Construction Noise”.*

**Commentary:** Many existing school designations have no noise conditions. Where there are noise conditions, these are variable across different schools. The noise condition above is considered to provide reasonable flexibility for school operation while not unreasonably impinging on the aural amenity of surrounding areas that may be noise sensitive. It is unnecessary to apply these limits to mixed use zones as they should have adequate internal noise insulation controls for residential units.

## On-Site Car Parking - Schools

3. *Additional on-site car parking shall be provided at the rate of two carparks per new classroom or classroom equivalent, except where the Council accepts, on the basis of a specifically commissioned parking study by an appropriately qualified engineer and/or transportation planner, that a lesser level is appropriate. For the avoidance of doubt, this condition shall only apply where there is a net increase in the number of classrooms or classroom equivalents.*

**Commentary:** The parking ratio is based on the existing standard parking ratio condition of 2 per new classroom from the Isthmus and Manukau Sections of the Operative Plan, but with allowance for the council to consider a reduced rate (Isthmus) retained. Some clarification around new classrooms and classroom equivalents is added. The additional requirement to provide a suitable on-site drop off area in the condition frequently used in the Manukau Section of the Operative Plan is removed. The reason for this is that many of these existing sites are already intensively developed, and it may not be practical to

retrofit on-site pick up/drop off areas in many instances. Accordingly, it is preferable that on-site pick up and drop off areas for existing schools should be dealt with on a case by case basis as part of an outline plan, other than those where particular site specific conditions were agreed during designation of those sites.

### **On-Site Car Parking - Early Childhood Education (Preschool)**

4. *In addition to any car parking required for the school, on-site car parking for early childhood education (preschool) shall be provided at the rate of one car park per every 10 children the facility is licensed or designed to accommodate, plus one per each full time equivalent staff member required for the license or design capacity of the centre, except where the Council accepts, on the basis of a specifically commissioned parking study by an appropriately qualified engineer and/or transportation planner, that a lesser level is appropriate.*

**Commentary:** The ratio is based on the existing rules for childcare centres in the Isthmus and North Shore Sections of the Operative Plan, but is amended slightly to link more clearly to design/license capacity, and to allow the Council to consider a lesser number as in the school car parking ratio. The condition will only apply to designations catering for *Early Childhood Education (Preschool)* in the designation purpose.

### **Scheduled Trees**

5. *No tree or group of trees specifically scheduled in the District Plan may be cut, damaged, altered, injured, destroyed or partly destroyed, or works undertaken within the drip line of any such tree(s), other than in accordance with an outline plan submitted and processed in accordance with s176A of the Resource Management Act 1991. This condition shall not apply to minor trimming or maintenance undertaken by hand operated secateurs or pruning shears in accordance with accepted aboriginal practice, or where removal or trimming is required to safeguard life or property.*

**Commentary:** The language used in this condition is largely based on the existing general tree conditions for school designations in the Isthmus Section of the Operative Plan, with emphasis changed to specifically scheduled trees.

### **Scheduled Heritage Buildings**

6. *No additions or alterations shall be made to any building or group of buildings specifically scheduled for a heritage purpose in the District Plan, other than in accordance with an outline plan submitted and processed in accordance with s176A of the Resource Management Act 1991. This condition shall not apply to internal alterations unless the interior of the building forms part of the scheduled heritage item in the District Plan.*

**Commentary:** The language used in this condition is largely based on the existing site specific heritage building conditions for designations in the Isthmus Section of the Operative Plan, but has been made more general to allow its application to all school designations in the Unitary Plan that contain scheduled heritage buildings.

## Outline Plans

7. *That an outline plan of works shall not be required for:*
- a) Any internal building works other than those that result in a net increase in the number of classrooms or classroom equivalents;*
  - b) General building maintenance and repair work including but not limited to re-painting, re-cladding and re-roofing;*
  - c) Installing, modifying and removing playground furniture and sports structures (e.g. goal posts);*
  - d) Amending any internal pedestrian circulation routes/pathways;*
  - e) Installing, maintaining or repairing any in ground infrastructure services such as stormwater, sewerage and water lines and connections, including any ancillary earthworks;*
  - f) Provision of landscaping and gardens, provided that it does not conflict with any designation condition or alter landscaping required as mitigation as part of an outline plan for other works; or*
  - g) General site maintenance and repair work, or boundary fencing otherwise permitted by the District Plan.*

**Commentary:** The purpose of this condition is to provide for an exemption from the need to submit an outline plan for routine minor works or amenity enhancement.

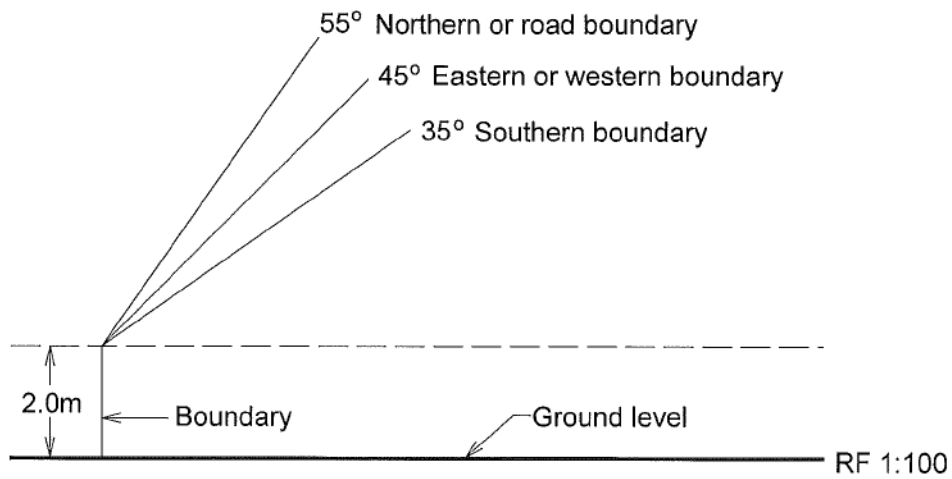

Height in Relation to Boundary Diagram (Auckland City District Plan: Isthmus Section)

Note: North is True North  
Bearings on the circle increase in a clockwise direction

Figure 7.4 Recession Plane Cross Section

**SCHEDULE 3**  
**PROPOSED SITE SPECIFIC CONDITIONS**

## SCHEDULE 3 – SITE SPECIFIC CONDITIONS

### **Explanatory Notes**

- A. *Where any standard condition in Schedule 2 conflicts with a site specific condition in Schedule 3 the site specific condition in Schedule 3 shall take precedence.*
- B. *The conditions below have been drafted prior to preparation of the Unitary Plan. Accordingly, some fine tuning of terminology used in the conditions may be required once that document is finalised. Where conditions refer to specific concept plans in square parenthesis these will need to be amended to reflect the nomenclature used in the Unitary Plan.*
- C. *The common name of the school/educational facility is included in square parenthesis below the designation notation does not form part of the schedule and is to assist the Council only by identifying the institution currently occupying the site subject to the Designation.*

### **MoE 3 Educational Purposes - Junior High School (years 7 - 10) [Albany Junior High School]**

- 1. *Along the Albany Highway frontage, buildings shall be located not closer than 14 metres from the boundary. Where the designation adjoins land zoned for residential or recreational purposes, buildings should be located not less than 10 metres from the boundary. All these setbacks should be observed unless written consent is obtained from any landowners or occupiers who are considered by the territorial authority to be adversely affected and that consent is submitted to the Council for consideration under section 176A of the Resource Management Act 1991. Provided that no such written consent shall authorise a building on the designated site to exceed the height in relation to boundary control of the relevant underlying zone or allow the length of that part of the building infringing the yard to be greater than 10 metres.*
- 2. *Buildings shall not exceed 15 metres in height, provided that where buildings or parts of buildings locate closer than 20 metres to any designation boundary, which adjoins land zoned for residential, or recreational purposes buildings shall not exceed 8 metres in height.*
- 3. *All parking associated with the school shall be provided on-site, at a minimum rate of one space for every 10 pupils aged 16 or over plus one space for every employee. All drop off and pick up points, including a bus-bay, shall be located on site. All parking spaces, accessways and manoeuvring areas should be formed and finished with an all-weather dustfree surface, drained and marked out.*
- 4. *No access to the school is to be obtained directly off Albany Highway. Access shall be provided from Appleby Road and from two entry points from the proposed subdivision to the south. The detailed access arrangements, including the distribution of different types of access (buses, student drop-off and pick up and staff, student and visitor vehicles) between the three access points, shall be determined by a Traffic Effects Report, which is required to be submitted in accordance with Condition (5).*
- 5. *The Outline Plan of Works shall include, among other things, a stormwater management plan providing details of stormwater control measures for the development and silt control measures for the construction process, and a traffic effects report pursuant to Section 176A(3)(f) of the RMA (without limiting the consideration of any other matters to avoid, remedy or mitigate any adverse effects on the environment).*

- *The stormwater run-off management plan should detail the volume of stormwater likely to be generated from the site upon development including proposals for stormwater containment and discharge. Before submitting the stormwater management plan to the Council, the Requiring Authority will consult with tangata whenua over the design and make any necessary alterations.*
- *The traffic effects report will address, among other things, access issues and the effects of traffic and means of mitigation.*
- *Any proposals contained in either the stormwater management plan or the traffic effects report shall comply with the then current standards imposed and administered by the relevant authority responsible for stormwater discharges and roads.*

6. *A minimum of 80% of the site shall have a permeable surface.*

**MoE 5 Educational Purposes - Senior High School (years 11 - 13)  
[Albany Senior High School]**

1. *The roll of the school shall not exceed 1,500 pupils.*

*Buildings and Site Layout*

2. *All buildings and structures shall comply with the following development controls:*

- *Height in relation to boundary: no part of any building shall infringe a height in relation to boundary control from any adjacent land zoned residential of 2.5m plus the shortest horizontal distance between that part of the building and any site boundary.*
- *The height of all buildings (excluding any goal posts associated with sporting activities), shall be limited to the height limits shown on the concept plan attached to this designation.*
- *Minimum building setbacks: From the Albany Highway boundary as at 1 June 2007 – 5m; Side and Rear boundaries — 1.2m (includes unformed road on southwest boundary).*
- *Maximum building coverage: 35%*
- *Minimum permeable area: 30%*

*Transportation and Traffic*

3. *That the School Travel Plan being developed by the Requiring Authority (as a component of the Albany Senior High School project) to actively promote the Traffic Demand Management (TDM) targets for travel modes other than by private vehicles and thereby mitigate the impact of school traffic on Albany Highway, be developed in consultation with Council officers. A preliminary travel plan, shall be prepared prior to occupation of the site for academic, and shall be reviewed and updated annually. The Travel Plan shall be developed in conjunction with the School, Auckland Transport and the Council as part of an overall Integrated Transport plan that covers the needs of all educational institutes within the Albany Basin.*

4. *The Requiring Authority and the School Board of Trustees shall (i) monitor school related traffic and parking in the vicinity of the school, and (ii) resource, develop, review and if necessary amend the Travel Plan for the school in consultation with the Council to mitigate*

*real and potential adverse traffic effects as and when the school becomes operational. The monitoring of parking shall have particular regard to any overspill of carparking from the school to the neighbouring residential area of The Landing.*

#### *Ecological and Arboriculture*

5. *That within Area C as shown on the concept plan attached to this designation, there shall be no removal of any tree unless such a tree is dead, suffering from an untreatable disease which has caused or will cause a significant decline in its health, or is causing significant risk to people or property. A tree shall be deemed to be within Area C if more than 50% of the trunk is located within this area. No buildings shall be erected within Area C. For the purposes of this condition, the term "building" means any permanent structure exceeding 0.5m in height. Minor structures associated with the use of tracks such as steps, boardwalks and directional/educational signage not exceeding 0.5m in height shall be allowed under this condition, provided that such works are undertaken in a manner that does not detrimentally affect the health of any trees.*
  
6. *The Requiring Authority shall undertake the establishment of 5ha revegetation plantings to off-set the loss of vegetation. This may include new areas of planting and/or enrichment planting of existing planted areas that would benefit from increased planting density. Such planting will be undertaken within the Lucas Creek catchment and, where proposed on reserve land, will meet the approval of [the appropriate Council officer].*  
  
*In recognition that suitable planting locations may be owned by a third Party (e.g. reserve land administered by the Auckland Council), a cash contribution offered to the Auckland Council equivalent to the actual cost of undertaking the necessary plantings (on a pro rata basis for any area less than 5ha) shall be deemed to satisfy this condition should the Requiring Authority be unable to reasonably undertake the required planting due to permissions being declined by third parties for suitable locations within the Lucas Creek Catchment. The Requiring Authority shall be required to show it has taken all reasonable steps in trying to secure access to suitable locations for planting before offering any cash contribution in lieu of works to the Auckland Council.*
  
7. *The Requiring Authority shall undertake restoration plantings within the cleared tracks within the bush area that were created in order to facilitate the geo-tech investigations (although only where these plantings are outside the footprint of the school buildings sports fields and school operational areas) with the exception of retaining a fire egress track as indicated on the concept plan submitted with the designation which may potentially be required depending on the final design solution adopted.*
  
8. *The Requiring Authority shall undertake, dense planting of the edges of the remaining bush with pioneer "edge" type species in order to protect any remaining 'interior' habitats and communities from edge effects.*
  
9. *The Requiring Authority shall undertake the planting of tree species that would be attractive to birds along the frontage between the school and Albany Highway (e.g. Puriri and Kowhai), in order to maximise the "invitation area" on the school side of the Oteha Stream wildlife corridor.*
  
10. *A comprehensive salvage operation is to be undertaken with regard to lizards (both skinks and geckos) prior to the commencement of any vegetation removal. The methods to be employed in this salvage operation will need to be prepared by a suitably qualified and experienced herpetologist, as will the actual salvage operation itself.*

11. *The Requiring Authority shall undertake the preparation of a combined Landscape Mitigation, Tree Protection and Ecological Management Plan (LMTPEMP) prepared by suitably qualified and experienced landscape architect, arborist and ecologists, which shall be submitted to the Auckland Council as part of the first Outline Plan of Works. This Plan(s) shall demonstrate achievement of conditions 11 -16 inclusive. It shall have regard to:*
- (a) The Freshwater Ecological Values Report from SKM dated October 2007;*
  - (b) The evidence of Mr Craig Douglas Bishop report in the matter of the Resource Management Act 1991 and in the matter of a notice of requirements by the Minister of Education regarding the Albany Senior High School dated September 2007;*
  - (c) The Peer Review of Assessment of Ecological Effects report prepared by Boffa Miskell dated October 2007.*
12. *The LMTPEMP will include:*
- (a) Details of how the significant trees on the site which are in close proximity to proposed development are to be protected from damage or accidental spillage during the construction period and supplied with adequate air and water to their root zones. This should include on monitoring of water quality and quantity to ensure changes in available soil moisture levels around the trees are minimized and irrigation undertaken if necessary. These trees are identified in the Arborlab Report (25 September 2006) as trees 6, 7, 8, 10, 11, 12 and 12a (herein referred to as 'Significant Trees') and the group of trees scheduled under the North Shore section of the District Plan as identified in the District Plan as No. 94 and identified in the Arborlab Report as T22 (1 x Kauri), T23 (1 x Rimu) and T24 (1 x Totara).*
  - (b) A report from a qualified Arborist attesting to the effects of the proposed works on these trees will be submitted to Auckland Council for assessment prior to works commencing.*
  - (c) A requirement that no site works or hard surfacing shall occur within 10m of the centre of any Scheduled Trees on sites identified in the District Plan as at 1 June 2007 as No. 94 and identified in the Arborlab Report submitted with the notice of requirement as T22 (1 x Kauri), T23 (1 x Rimu) and T24 (1 x Totara), provided that minor low impact works within this area may occur with the express written permission of the Council,*
  - (d) A requirement that no site works shall occur that have a detrimental effect on any trees or vegetation on neighbouring properties, without their owners and the Auckland Council's express written permission and mitigation to the approval of Auckland Council.*
  - (e) A schedule of the species, number of plants and sizes at time of planting for both revegetation areas and amenity planting.*
  - (f) A landscape plan shall include a date for implementation of the planting which shall be prior to the end of the planting season (May to September) following the completion of site works. The planting must be maintained in perpetuity on the site being used for education purposes.*
  - (g) An implementation and maintenance programme, including a weed management plan for the site (detailing a minimum of three (3) years following initial planting). The plan shall include details of target weed species (actual and likely), methods of eradication,*

*ground preparation for the replanting, replacement species types, replacement plant numbers and replacement plant sizes (at the time of planting).*

- (h) The means by which twice-annual weed and animal pest/predator monitoring will be undertaken, and the means by which the result will trigger appropriate control activities.*
  - (i) The means by which students will be encouraged to participate in the care of this bush, with particular regard to formal educational opportunities and the school curriculum.*
  - (j) The means by which student access into the bush area will be controlled.*
- 13. All stormwater, wastewater and stream alteration plans shall be prepared in consultation with the Auckland Council Arborist and a suitably qualified Arborist for the Minister of Education and final plans shall not have any significant detrimental effects on the significantly Scheduled Trees.*
  - 14. The war memorial plinth located between the trees identified in Condition 19 above shall be retained in its existing position as at 1 June 2007.*
  - 15. The stone bollards adjacent to the road frontage that were erected as a World War II memorial to past pupils shall be retained on site, but may be relocated from their existing positions.*
  - 16. The Old Albany School Building scheduled as a building of heritage significance in the District Plan as at 1 June 2007 may be relocated within the designation as part of any school development, but may not be demolished or removed from the site (except that it may be temporarily removed from the site during construction of the school for the purposes of protection from construction activity and/restoration). The details of how this building will be reinstated shall be detailed in any Outline Plan of Works involving relocation of this building. This condition shall only apply to the core of the building as it stood in October 1938, and not the more recent additions.*
  - 17. A minimum of one parking space for every 10 pupils aged 16 or over, plus one for every employee shall be provided on-site, to a maximum of 300 spaces. For the avoidance of doubt, these parking spaces shall include temporary spaces for drop off and pick up of students.*

**MoE 6 Educational Purposes - Secondary School (years 7 - 13)**  
**[Alfriston College]**

*The Requiring Authority shall, either directly or through the School Board of Trustees, prepare and maintain, to the satisfaction of the Council, a School Travel Management Plan. The Plan shall be implemented within the first term of the operation of the school activity on the site, monitored over time, and reviewed as necessary to remain effective. The Plan shall have as an objective the safe transportation of pupils between homes and the school by means other than the private motor vehicle. The plan shall ensure the availability of storage for cycles, and encourage the use of alternatives to travel of students to the site by use of a private motor vehicle*

**MoE 14 Educational Purposes**  
**[Auckland College of Education]**

*That there be no building development on the site within the area identified as open space, Area A on Concept Plan Diagram [E08-15]. The area identified on Concept Plan Diagram [E08-15] as*

*open space shall be retained as such provided that permitted activities within the open space area include informal recreation, organised recreation, sports and playing fields.*

**MoE 16 Educational Purposes – Secondary School (years 7 – 13) and may include residential accommodation for students  
[Auckland Grammar]**

*The columnar basalt feature in the old quarry face which is scheduled in the District Plan shall not be excavated, physically investigated, damaged, or altered other than in accordance with an Outline Plan of Works submitted and processed in terms of Section 176A of the Resource Management Act 1991.*

**MoE 18 Educational Purposes – Secondary School (years 7 – 13)  
[Avondale College]**

- 1. If the dwelling existing on the Lot 1 DP 159809 in January 2004 is removed, a landscaping strip with a minimum width of 2m shall be established along the length of eastern boundary of this site. If condition 5 above has already been given effect to an additional 1m of landscaping shall be established along the length of the eastern boundary.*
- 2. If the dwelling existing on the Lot 8 DP 50025 in January 2004 is removed, a landscaping strip with a minimum width of 2m shall be established along the length of the north western boundary of this site.*
- 3. A 3m front yard is required on each of the above sites. If any of the dwellings existing on these sites in January 2004 are removed a minimum of 50% of the front yard of the relevant site(s) shall be landscaped and maintained in such a manner as to create and preserve a good standard of visual amenity.*

**MoE 22 Educational Purposes - Senior High School (years 11-13), Special School and may include Early Childhood Education (preschool(s))  
[Bairds Education Centre]**

- 1. The Bairds Senior High School (Years 11-13) shall be limited to a maximum of 400 students on site at any one time.*
- 2. The Early Childhood Education Centres shall have a combined total of no greater than 100 children on site at any one time aged between zero and five years old.*
- 3. The Special School shall be limited to a maximum of 100 students on site at any one time.*
- 4. The number of car parking spaces required to be provided in to the use of any buildings on site for Educational Purposes – Senior High School shall be provided at a ratio of 1 parking space per 5 students, plus 2 accessible parking spaces.*
- 5. The number of car parking spaces required to be provided in to the use of any buildings on site for Special School purposes shall be calculated at a ratio of 2 parking spaces for every 3 staff members employed on site or operating from the site at any one time, plus 1 space for every 30 pupils aged 15 years and over, and 1 accessible car parking space.*
- 6. That bicycle stands/racks shall be provided adjacent to the main entrance of the Senior High School.*

7. *The Requiring Authority, either directly or through the School Board of Trustees, shall develop a School Travel Management Plan (STMP) for the secondary school which provides specifically for the safe transportation of pupils and measures to reduce vehicle dependency, including measures for car pooling, the encouragement of the use of public transport and of cycling and walking. This Plan shall be developed in consultation with staff at Council and submitted within 2 months of the alteration to the designation being confirmed. The STMP shall be maintained and regularly reviewed and updated as necessary to remain effective while the Centre is being operated under this designation.*

**MoE 56 Educational Purposes - Secondary School (years 7 - 13) and may include Early Childhood Education (preschool)  
[Clendon Teen Parent Unit]**

1. *That the Clendon Teen Parent Unit and Ancillary Childcare Facility shall provide educational and associated child care facilities for up to 30 students and 30 children at any one time.*
2. *Practical and physical access to the rear of Weymouth Intermediate School over the Teen Parent Unit site shall be permanently maintained for the purpose of transporting relocatable classrooms onto or off the School campus, and for emergency access for emergency vehicles.*
3. *The lighting on site shall be sufficient for operational and security purposes and shall be designed in accordance with the District Plan: to prevent the intrusion of direct light into neighbouring properties.*

**MoE 87 Educational Purposes: Primary School (years 0-8), Secondary Schools (years 7 – 13) and may include Early Childhood Education (preschool)  
[Ormiston Campus]**

*Airport Noise*

1. *No "Activities Sensitive to Air Noise" are to be located on parts of the site identified as subject to "Moderate Aircraft Noise Area" controls, as identified and defined in the District Plan.*

*[Designation Concept Plan]*

2. *The designation concept plan shall address the following matters:*
  - (a) *Main Building Area*  
*All major buildings shall be located within the Main Building Area shown on the Designation Concept Plan (ASC Architects, September 2008)*
  - (b) *Ormiston Road Frontage*  
*Site development shall be such that a strong built edge along the Ormiston Road frontage is achieved. Building fronting Ormiston Road shall be designated so that an active edge to Ormiston Road is maximised as far as is practicable*
  - (c) *Assembly Buildings*  
*All buildings that may be open for the assembly of people outside of school hours, such as a theatre, auditorium, gymnasium, etc, shall be located so that their main entry foyer fronts directly onto either Ormiston Road, the through-site road or the Western Boundary Road in the event that the council has given notice to the Minister in accordance with Condition 12(c). The main entry foyer shall maximise clear glazing fronting the street to the maximum extent practicable.*
  - (d) *Gateway Buildings*

*Buildings shall be located on both corners of the junction of Ormiston Road and the through-site road to achieve a gateway entrance to the site*

- (e) *Open Space Area*  
*The Open Space Area (as shown on the Designation Concept Plan, ASC Architects, September 2008) shall provide primarily for active recreation playing fields. The Open Space Area may provide for recreation buildings and may also provide for minor educational buildings (including early childhood facilities) and service buildings.*
- (f) *Secondary Access Points*  
*Secondary Vehicular Access Points, if required shall be located generally where indicated on the Designation Concept Plan (ASC Architects, September 2008), but with regard to traffic volumes, safety, circulation and amenity of adjoining roads*
- (g) *Through-Site Road*  
*Site development shall be such that a strong built edge along both frontages of the through-site road is achieved and buildings fronting the through-site road shall be designed so that active edges to the road are maximised as far as is practicable.*

#### *Transportation — General*

- 3. *That the Requiring Authority, either directly or through the School Board of Trustees, prepare and maintain a School Travel Management Plan, to the satisfaction of the Council. The Plan shall be implemented within the first term of the operation of the school activity on the site, monitored over time, and reviewed as necessary to remain effective. The Plan shall have as an objective the safe transportation of pupils between homes and the school by means other than the private motor vehicle. The plan shall ensure the availability of walking school buses and covered storage for cycles, and encourage the use of alternatives to travel of pupils to the site by use of a private motor vehicle.*

#### **MoE 93 Educational Purposes – Primary School (years 0 – 8) [Gladstone School (Auckland)]**

- 1. *No buildings shall be constructed on the school property within 10m of the school's northern boundary unless this is provided for by means of a subsequent designation or an alteration under section 181 of the Act.*
- 2. *No new or additional building shall project beyond a building envelope contained by a 35° recession plane from points 2m above the common side boundary of 152 Carrington Road (Lot 1, DP140099) and 150 Carrington Road (Gladstone Primary School) unless:*
  - a. *This is provided for by means of a subsequent designation or alteration under section 181 of the Act; or*
  - b. *Written consent is obtained from the owners and occupiers of 2/152 Carrington Road.*
- 3. *No additional buildings shall be constructed on school property within 8m of the northern side boundary of 152 Carrington Road (Lot 1, DP140099) unless:*
  - a. *This is provided for by means of a subsequent designation or alteration under section 181 of the Act; or*
  - b. *Written consent is obtained from the owners and occupiers of 2/152 Carrington Road*
- 4. *The entry to the carpark at 150 Carrington Road (former Pt Lot 23 Allot 34) shall be chained or otherwise secured against unauthorised access between the hours of 10.00pm and 7.00am Monday to Friday and during weekends and public holidays.*
- 5. *No security lights shall be positioned along the southern wall of the classroom block at 150 Carrington Road (former Pt Lot 23 Allot 34) or be located in such a manner that there is direct illumination into 152 Carrington Road.*

**MoE 97 Educational Purposes – Kura Kaupapa Maori (years 0 – 13) and may include Early Childhood Education (preschool)  
[TKKM o Puau Te Moananui-a-Kiwa]**

1. *Outline Plan of Works - Transport*

*Any Outline Plan of Works or consents for new classrooms for the Composite School or new buildings for the operation of the Kohanga Reo shall be accompanied by a report produced by a suitably qualified traffic engineer and/or transportation planner that gives consideration to the following matters:*

- i. The effects on the surrounding road network arising from parking usage at the school, the pick-up and drop off of students, and the ability to cater for this on site, including addressing any real or potential road safety implications.*
- ii. Pedestrian accessibility to the site and the need for any infrastructure to ensure safe crossing points are provided for.*

2. *Travel Plan*

*A School Travel Plan shall be undertaken by the Requiring Authority, either directly or through the School Board of Trustees, and any future actions / improvements to the roads identified would need to be discussed in consultation with Auckland Transport Community Transport group, prior to submission of any Outline Plan of Works or consents for new classrooms for the school.*

- i. The Travel Plan shall identify current travel patterns, and set standards and goals to mitigate real and potential adverse traffic effects. This is envisaged to be a live document that addresses traffic-related concerns from school activities on an on-going basis and monitored by bi-annual surveys undertaken by the school and results provided to Auckland Transport Community Transport group.*
- ii. Surveyed results shall be to the Auckland Transport Community Transport School Travel Planning format and be submitted bi-annually to the Community Transport Manager.*

3. *Parking*

- i. Carparking shall be provided at the rate of two carparks per classroom, except where the Council accepts, on the basis of a specifically commissioned parking study by an appropriately qualified engineer and/or transportation planner, that a different level is appropriate.*
- ii. Cycle parking spaces shall be provided at a minimum of one space per ten Composite School students and staff. Visitor cycle parking spaces shall be provided at a minimum of 1 space plus 1 per 400 students and staff at the school. This condition shall apply when new composite school classrooms are constructed.*
- iii. In addition to the car parking requirements for the Composite School (outlined in Condition 6(i)), the Kohanga Reo shall be provided with a minimum of one car park on the site for every member of staff in attendance, plus one car park for every 10 children or people the facility is designed to accommodate, except where the Council accepts that a different level is appropriate, on the basis of a specifically commissioned parking study by an appropriately qualified engineer and/or transportation planner.*

**MoE 127 Educational Purposes - Primary School (years 0 - 8) and may include Early Childhood Education (preschool)  
[Hingaia Peninsula School]**

1. *The school design and building layout will accommodate the possibility of a north-south side road, perpendicular to Hingaia Road.*
2. *If the school is built prior to this road being available for use, access and egress will be from Hingaia Road. In this case, the school design will allow for design modifications so that when the side road is operational the school will take access and egress from the side road and access and egress from Hingaia Road will be permanently closed.*
3. *The school design and building layout must provide for long term vehicle access and egress to the site from a side road, and not directly from Hingaia Road.*

**MoE 152 Educational Purposes - Kura Kaupapa Maori (years 0-13)) and may include Early Childhood Education (preschool)  
[Te Kura Kaupapa Maori o Te Raki Paewhenua]**

1. *The roll of the school shall not exceed 290 inclusive of 40 pupils at the Kohanga Reo.*
2. *The development of the site and buildings shall comply with the following development controls:*
  - *Landscaping Requirements to include a combination of trees, shrubs and plants along with grassed areas associated with and surrounding the playing fields — Minimum of 30%.*
3. *Parking provision: All car parking, car loading and bus loading spaces shall be located on site and shall meet the following standards:*
  - *Four car parks, inclusive of two disabled spaces, plus one additional car parking space for every 10 pre-school or school pupils, and one additional drop-off/loading space for every 20 pre-school or school pupils.*
  - *All parking spaces, access ways and manoeuvring areas shall be formed and finished with a dust free surface, drained and marked out.*
4. *The Requiring Authority shall, either directly or through the School Board of Trustees, shall (i) monitor school related traffic in the vicinity of the school, (ii) resource, develop, review and action an agreed Travel Management Plan for the school to Councils satisfaction to mitigate real and potential adverse traffic effects as and when the school becomes operational.*
5. *That all activities taking place at the school comply with the following noise levels measured at the boundary of other properties and shall apply all hours of the day, every day of the week:*
  - *All Properties zoned Business 1 to 8                      65 dBA L<sub>10</sub>*
  - *All Properties zoned Business 9 & 10                      70 dBA L<sub>10</sub>*

*This provision shall not apply in respect of the noise generated from children's voices outside between 0800 hrs and 1800 hrs on any school day.*
6. *The proposed Kohanga Reo and Composite School shall, to the extent practicable, incorporate the following building design and landscaping principles:*
  - a. *The development of the site and buildings shall:*

- *Respond to the visual character and quality of their surrounds in terms of materials, building form and detailing and in particular where buildings open onto or incorporate access points onto, paths and roads;*
  - *Respond to the visual amenity of surrounding areas by limiting the extent to which glare from the use of outdoor lighting, lit architectural features, and reflective surfaces adversely impacts on the comfort of people or degrades the level of visual amenity, including any adverse effects on the night time sky environment;*
  - *Allow for passive surveillance of the street for the maintenance of personal safety in public spaces;*
  - *Seek to break down large building facades in scale to provide visual interest when viewed from the street and any public area;*
  - *Seek to define the street edge or building setback;*
  - *Seek to assist the observer to understand its various parts and understand its function, and in particular the clear definition and convenient location of various entry points;*
  - *Screen lift plant and other mechanical plant located on top of buildings with architectural features or locate them in the roof;*
  - *Make use of the site layout, screening, and sound damping material to mitigate any adverse effects of noise nuisance on neighbouring activities.*
- b. *The landscaping shall enhance and/or complement the proposed school campus and street scene, and in particular:*
- *Use tree planting to break up parking areas and reinforce the understanding of the parking layout;*
  - *Make use of landscape features to define the street edge;*
  - *Make use of landscape planting to break-up and or soften the appearance of large or bulky buildings; and*
  - *Provide landscaping around all playing fields.*
- c. *The site development shall ensure pedestrian amenity, safety and convenience by:*
- *Facilitating pedestrian linkages and access to adjacent streets and public open spaces;*
  - *Ensuring that pedestrian routes are direct and easily defined;*
  - *Ensuring sufficient segregation of pedestrian access from vehicle carriageways;*
  - *Providing adequate and appropriate pedestrian shelter; and*
  - *Ensuring that pedestrian ways meet the needs for access of people with sight and mobility impairments.*

- d. *The site layout - for vehicle access, circulation, parking and the provision for service vehicles shall avoid adverse effects on any road or adjacent site, and in particular ensure:*
- *that the internal circulation of the parking areas is designed for the safe and efficient movement of vehicles on and off the site, through an easily comprehended layout;*
  - *the provision of adequate sight lines and appropriate surface markings and signs; and*
  - *that parking areas are constructed to a high standard of visual amenity, with low maintenance all weather materials, adequate drainage and landscape planting.*

**MoE 203 Educational Purposes - Primary School (years 0 - 8) and may include Early Childhood Education (preschool)  
[Stonefields School & ECE]**

1. *The proposed development be subject to the following conditions regarding traffic and parking:*
- a. *Parking shall be provided on a staged basis at a rate of two parking spaces per classroom for the primary school, and one per staff member and one per ten children for the early childhood centre, to a maximum of 58 in total for all activities on the site. This shall also include any short term parking spaces for pick up and drop off. The maximum of 58 spaces may be reduced to 55 spaces only if public transport (bus) services have been provided to the Stonefields development area, in general accordance with the proposals illustrated in the Integrated Traffic Assessment v3, dated November 2008 prepared by SKM Consultants.*
- b. *The Requiring Authority, either directly or through the School Board of Trustees, shall develop a Travel Plan which provides specifically for measures to reduce vehicle dependence, including measures for walking school buses, car pooling, the encouragement of the use of public transport, where possible the development and use of remote pick up/drop off points, and the encouragement of walking, cycling and the use of public transport. This Plan shall be developed in consultation with relevant staff at Auckland Council, and submitted as part of the Outline Plan of Works for any development stage increasing the number of people on the site. The Travel Plan shall be maintained and regularly updated while the school is operating under this designation.*

**MoE 226 Educational Purposes – Primary School (years 0-8) and may include Early Childhood Education (preschool)  
[Orewa West Primary School & ECE]**

*The area of vegetation shown as “Retain Bush in this Area” on the GHD Limited Drawing 57-1-17261-02-02 Revision A (dated 11/03) is to be retained.*

**MoE 227 Educational Purposes - Secondary School (years 7 - 13)  
[Otahuhu College]**

*The Robertson Hill scoria cone feature which is scheduled in the District Plan shall not be excavated, physically investigated, damaged, or altered other than in accordance with an Outline Plan of Works submitted and processed in terms of Section 176A of the Resource Management Act 1991.*

**MoE 267 Educational Purposes – Primary School (years 0 – 8) and may include Early Childhood Education  
[Hobsonville Point Primary]**

1. *The designation shall lapse on the expiry of 15 years from the date on which it is included in the District Plan if it has not been given effect to before the end of that period.*
2. *The requiring authority shall, either directly or through the School Board of Trustees:*
  - i. *Monitor school related vehicle traffic in the vicinity of the school once a year for a period of 3 years following the opening of the school.*
  - ii. *Resource, develop, review and action a Travel Plan which:*
    - (a) *Sets the goals of the school with respect to sustainable travel modes and to mitigate real and potential adverse traffic effects;*
    - (b) *Seeks to minimise the provision of on-site car parking;*
    - (c) *Facilitates the integration of the school with the surrounding transport network (including issues of pedestrian and cyclist permeability into the site);*
    - (d) *Is maintained and updated annually while the school is operating under this designation.*

*This Travel Plan shall be developed in consultation with Auckland Council and Auckland Transport or their successors and shall be reviewed at the time of submitting each Outline Plan of Works relating to increased capacity.*
3. *The proposed development shall be subject to the following conditions regarding traffic and parking:*
  - i. *For the primary school parking shall be provided on a staged basis at a rate of three parking spaces per two classrooms plus two per three staff members, unless the Travel Plan developed under Condition 2(ii) identifies that a lower level of parking provision can meet the demands for off street parking.*
  - ii. *For the early childhood education centre car parking shall be provided on a staged basis at a rate of one per four child places per session.*
  - iii. *Disabled and loading parking provisions shall be provided in accordance with the specifications provided in the Waitakere City Council - Code of Practice (or its equivalent document) and in accordance with the minimum requirements stipulated in the Auckland Regional Parking Strategy 2009.*
  - iv. *The design and layout of group car-parking areas and if required bus/vehicle passenger pick up and drop off areas shall be developed in consultation with [the appropriate Council officer].*
4. *All activities taking place at the school shall comply with the following noise levels measured at the most exposed location at or within the boundary of properties zoned for residential purposes”.*

*7.00am-7.00pm Monday-Saturday = L10 50dBA*  
*7.00pm-10.00pm Monday-Saturday 7.00am-10.00pm Sundays & Public Holidays = L10 45dBA*  
*10.00pm-7.00pm Other times = L10 40dBA, LMax 70dBA*  
*This provision shall not apply in respect of the noise generated from normal outdoor school activities between 0800hrs and 1800hrs (excluding Sundays and public holidays).*

*Sound will be measured in accordance with the requirements of NZS 6801: 1991 'Acoustics - Measurement of Sound' and assessed in accordance with requirements of NZS 6802:1991 'Assessment of Environmental Sound'.*

5. *In the event of archaeological evidence being uncovered (e.g. shell, middens, hangi or ovens, pit depressions, defensive ditches, artifactual material or human bones) work is to cease in the vicinity of the discovery, and an Archaeologist, Historic Places Trust and Auckland Council are to be contacted so that appropriate action can be taken before any work can recommence there.*
6. *All buildings and structures shall be designed in recognition of the matters listed in Condition (12) and shall comply with the following development controls:*
  - Site Coverage*
    - (a) *Maximum building coverage: 35%;*
    - (b) *Maximum impermeable surface coverage: 40%;*
  - Building Height*
    - (c) *Buildings adjoining Hobsonville Point Road;*
      - i. *Maximum height 15.0 metres;*
    - (d) *Buildings adjoining Eastern Avenue and other local streets;*
      - i. *Maximum height 12.0 metres.*  
*(Height excludes goal posts associated with sporting activities; chimneys/flues, flag poles and aerials).*
7. *The Requiring Authority shall submit with the first Outline Plan of Works a detailed landscape plan in respect of the whole school site. This plan shall include the following details:*
  - i. *Planting and landscape works along the Eastern Avenue boundary.*
    - (a) *This shall comprise information regarding the location of planting, boundary treatments, the location of paths and vehicle crossings - and the approved plan must align with existing or proposed landscape treatment within or along Eastern Avenue; and*
    - (b) *This is to be developed in consultation with [the appropriate Council officer];*
  - ii. *The location of existing and proposed buildings;*
  - iii. *The surrounding street context: show the adjacent streets, footpaths, the location of any pedestrian crossings, and bus stops;*
  - iv. *Contour information;*
  - v. *Framework tree planting (species, grades and locations), and the location and planting (planting plans) for any garden areas, hedges;*
  - vi. *The articulation and identification of outdoor space, including outdoor play areas (both hard surfaces and grassed areas);*

*Note: Outdoor space may be defined by a combination of buildings, trees, landform, fences/hedges or other feature;*
  - vii. *Vehicle access and parking areas including cycle parks;*
  - viii. *Entrances for cyclists and pedestrians; and*
  - ix. *The location, style and height of fencing on exterior boundaries of the school which face roads or other public spaces.*
8. *A plan detailing how the historic heritage values of the former airforce runway will be recognised on the school site. The plan will be developed in consultation with the Historic Places Trust and Auckland Council or their successors and submitted with an Outline Plan of Work on the site.*
9. *The Requiring Authority shall submit with each subsequent Outline Plan of Works a landscape plan which demonstrates how the additions continue to contribute to the matters identified in conditions (7) and (8) above.*

10. *All subsequent Outline Plan of Works submitted by the Requiring Authority in respect of the school site shall be accompanied by a statement that records the extent to which the design reflects or departs from the detailed landscape plan approved in Condition (7) above.*
11. *Prior to the opening of the school, the Requiring Authority shall construct separate vehicle access points to the primary school and early childhood education centre. These vehicle access points are to be gained from Eastern Avenue, and a separate visitor/staff car park area and service/loading area may be gained off Road 14. The location and design specifications shall be developed in consultation with [the appropriate Council officer] prior to the submission of an Outline Plan of Works.*
12. *Each Outline Plan of Works for built form shall be accompanied with an urban design statement detailing how the design has been developed in response to the following design principles, where they are applicable:*
  - i. *The location of school buildings shall to the extent practicable contribute to the built form of any adjacent street with the placement of buildings with, and located as close as practicable, to adjacent street facing boundaries;*
  - ii. *All buildings facing the street, open space, and on-site car parking areas shall interact with these spaces with openings such as doors and windows to provide passive surveillance;*
  - iii. *The height of buildings at the intersection of Hobsonville Point Road and Eastern Avenue shall be maximised where possible, and shall be designed to address both street frontages;*
  - iv. *Where fencing on road boundaries is required it shall be low height, permeable and recessive in colour and design; and*
  - v. *The school shall, to the extent practicable facilitate connectivity from the school site to the surrounding street and pedestrian networks.*
13. *Development of the site shall be undertaken in a way that recognises the principles of Low Impact Design stormwater management systems (as detailed in the relevant Integrated Catchment Management Plan) and incorporates measures to mitigate the impact of impervious surfaces and earthworks, utilising soils and vegetation to trap pollutants and reduce stormwater runoff. Details of the proposed Low Impact Design measures shall be submitted to the Council with the first and any subsequent Outline Plan of Works for development.*
14. *A sustainable water supply system shall be implemented. This shall include installing water re-use tanks for non-potable supply and the use of water efficient fixtures to minimise the amount of reticulated water supply required.*

**MoE 138 Educational Purposes - Junior High School (years 7-10) and may include Early Childhood Education (preschool)  
[Mission Heights Junior College]**

1. *That the Requiring Authority, either directly or through the School Board of Trustees, prepare and maintain, to the satisfaction of the Council, a School Travel Management Plan. The Plan shall be implemented within the first term of the operation of the school activity on the site, monitored over time, and reviewed as necessary to remain effective. The Plan shall have as an objective the safe transportation of pupils between homes and the school by means other than the private motor vehicle. The plan shall ensure the availability of covered storage for cycles and encourage the use of alternatives to travel of students to the site by use of a private motor vehicle*

2. *That cycle storage identified in the School Travel Management Plan in condition (1) above be provided at a ratio of 1 per 5 pupils over year 4.*

**MoE 272 Educational Purposes - Primary School (years 0 - 8)  
[Pinehill School]**

*That the stand of trees located in the north-eastern corner of the site be retained unless removal of one or more of these trees is necessary to avoid injury to persons or damage to property, where there shall be replanting within six months of removal, and that Council's consent be sought prior to the removal of any tree or trees.*

**MoE 290 Educational Purposes: Primary School (years 0-8), Kura Kaupapa Maori (years 0 – 8) and may include Early Childhood Education (preschool)  
[Ranui Campus]**

1. *The designation shall lapse on the expiry of 10 years from the date on which it is included in the District Plan if it has not been given effect to before the end of that period.*
2. *The total student roll of the two schools and early childhood education centre shall not exceed 770 students.*
3. *All buildings and structures shall comply with the following development controls:*
  - *The height of all buildings (excluding any goal posts associated with sporting activities) shall not exceed 8m except for assembly halls, recreational facilities, and cultural or performance facilities, which shall not exceed 10m.*
4. *The Requiring Authority, either directly or the School Board of Trustees, shall:*
  - Monitor school related traffic in the vicinity of the schools once a year for a period of 5 years following the opening of each school;*
  - Resource, develop, review and action a Travel Plan for the schools to set the standards and goals of the schools with respect to sustainable travel modes and to mitigate real and potential adverse traffic effects; and*
  - Limit the provision of on-site public car parking to a minimum.**This condition will be achieved by working in partnership with Auckland Council and Auckland Transport to ensure the integration of the school with the surrounding transport network, including issues of pedestrian and cyclist permeability to the site.*
5. *All development shall be undertaken in accordance with the Geotechnical Report prepared by Babbage Consultants Ltd titled “Ranui School for Ministry of Education Geo-Environmental Assessment Report”, ref: 43329, dated November 2007, and the review of this report prepared by GHD Limited titled “Geotechnical Peer Review, Notice of Requirement for the Ministry of Education, New Schools at Ranui, Waitakere City”, dated 4 March 2008.*
6. *The Requiring Authority shall provide written confirmation from a Chartered Professional Engineer (with experience in geotechnics, and familiarity with the report and report review detailed in Condition 11 above) that the recommendations contained within the report and report review detailed in Condition 11 have been fully satisfied.*
7. *Development of the site shall adhere to a Low Impact Design stormwater management system that minimises impervious surfaces and earthworks, utilise soils and vegetation to trap pollutants and reduce stormwater runoff.*

**MoE 315 Educational Purposes – Secondary School (years 7 -13) and may include Early Childhood Education (preschool)  
[Eden Campus Teen Parent Unit]**

1. *The teen parent unit and ancillary childcare facility shall be limited at any one time to being occupied by the following number of people (total of 71 persons/children):  
Students 30  
Children (0-5yrs) 32  
Adult childcare supervisors 6  
Teachers 3*
2. *The childcare facility shall only operate in conjunction with the teen parenting unit.*
3. *A total of seven on-site car parks shall be provided for the teen parenting unit and ancillary childcare facility. For any other secondary school activity undertaken on the site, carparking shall be provided at a rate of two car parks per classroom additional to the car parks required for the teen parenting unit and ancillary childcare facility. The exception to this is where the Council accepts, on the basis of a specifically commissioned parking study by an appropriately qualified engineer, that a lesser level is appropriate.*
4. *At no time on site shall the school roll exceed a maximum of 110 pupils (being students and/or children 0-5 years).*

**MoE 318 Educational Purposes - Secondary School (years 7 – 13) and may include Early Childhood Education (preschool(s))  
[Hobsonville Point Secondary]**

1. *The designation shall lapse on the expiry of 15 years from the date on which it is included in the District Plan if it has not been given effect to before the end of that period.*
2. *All activities taking place at the school shall comply with the following noise levels measured at the most exposed location at or within the boundary of properties zoned for residential purposes:  
7.00am-7.00pm Monday-Saturday = L10 50dBA  
7.00pm-10.00pm Monday-Saturday 7.00am-10.00pm Sundays & Public Holidays = L10 45dBA  
10.00pm-7.00pm Other times = L10 40dBA, LMax 70dBA  
This provision shall not apply in respect of the noise generated from outdoor school activities between 0800hrs and 1800hrs (excluding Sundays and public holidays).  
Sound measured in accordance with the requirements of NZS 6801:1991 'Acoustics - Measurement of Sound' and assessed in accordance with the requirements of 'NZS 6802:1991 'Assessment of Environmental Sound'.*
3. *All buildings and structures shall be designed in recognition of the matters listed in Condition (4) (below) and shall comply with the following development controls:*
  - i. *The principal facades of secondary school classrooms, administrative buildings and recreational facilities (e.g. halls, gymnasiums etc) shall have frontage to Hobsonville Point Road.*
  - ii. *The maximum height of all buildings (excluding goal posts associated with sporting activities, chimneys/flues, aerials, flagpoles and any other such plant) fronting Hobsonville Point Road or Squadron Drive shall not exceed 15.0 metres in height.*
  - iii. *The maximum height of all buildings (excluding goal posts associated with sporting activities, chimneys/flues, aerials, flagpoles and any other such plant) with primary frontage to Western Avenue or Buckley Avenue shall not exceed 12.0 metres in height.*

- iv. *No buildings shall be constructed above or within 5.0 metres of the location of any future bulk public stormwater lines which traverse the site and connect to the Council stormwater pond to the north of the site. The 1 in 100 year overland flow path from the upstream catchment should be conveyed through the site within a constructed Overland Flow Path (OLFP) in this “no-build” zone.*
  - v. *The early childhood education centres shall have frontage to Western Avenue.*
  - vi. *All buildings and structures shall comply with the following site coverage controls:*
    - (a) *Maximum building coverage: 35%; and*
    - (b) *Maximum impermeable surface coverage: 40%.*
4. *Each Outline Plan of Works for built form shall be accompanied with an urban design statement detailing how the design has been developed in response to the following design principles, where they are applicable:*
- i. *The location of school buildings, including the early childhood education centres, shall to the extent practicable contribute to the built form of any adjacent street with the placement of buildings aligned with, and located as close as practicable to adjacent street facing boundaries;*
  - ii. *All buildings facing the street, open space/reserves, and on-site car parking areas shall interact with these spaces with openings such as doors and windows to provide passive surveillance;*
  - iii. *Multi-storey buildings are the envisaged built form outcome as viewed from the street and sought for the Hobsonville Point Road and Squadron Drive frontages;*
  - iv. *The height of buildings at the intersections of Hobsonville Point Road and either Squadron Drive or Western Avenue shall be maximised where possible, and the buildings shall be designed to address both street frontages;*
  - v. *Ensure that future school building development, including the early childhood education centres, shall provide a positive interface to the proposed adjoining residential land located at the corner of Western Avenue and Buckley Avenue;*
  - vi. *Where fencing on road boundaries is required it shall be low height, permeable and recessive in colour and design; and*
  - vii. *The school shall to the extent practicable, facilitate connectivity from the school site to the surrounding street and pedestrian networks. Pedestrian and cyclist access points to the school are encouraged to be provided from all street boundaries.*
5. *The Requiring Authority shall submit with the first Outline Plan of Works a school Design Concept Plan detailing staging and built form information including the following:*
- i. *Detail on where taller height buildings will be located; and*
  - ii. *A summary of the manner in which it is anticipated that the school development will change over time as it accommodates intensifying use.*
6. *The proposed development be subject to the following conditions regarding vehicle access:*
- i. *Prior to the opening of the school, Western Avenue shall be formed, constructed and vested in Auckland Council;*
  - ii. *Prior to the opening of the school, the Requiring Authority shall construct separate vehicle access points to the secondary school and early childhood education centres. These vehicle access points are to be gained from either Buckley Avenue or Western Avenue. The location and design specifications shall be developed in consultation with [the appropriate Council officer] prior to the submission of the first Outline Plan of Works;*
  - iii. *Any proposals for a drop off facility or bus parking within the site and fronting Hobsonville Point Road shall be subject to the following:*
    - (a) *A revised Integrated Transportation Assessment. This assessment shall be undertaken in consultation with Council’s Transport Assets, Transport Strategy, Urban Design and Parks Planning Teams and be subsequently submitted with the first Outline Plan of Works; and*

- (b) *The design of any bus drop off or parking facility shall be consistent with the design matters identified in Condition (4)(i) and (4)(ii) above.*
7. *The proposed development be subject to the following conditions regarding traffic and car parking:*
- i. *On-site car parking spaces shall be provided on a staged basis as follows:*
    - (a) *Staff car parking shall be provided at a rate of two spaces per three staff members;*
    - (b) *Student car parking shall be provided up to a rate of one space per ten pupils over 16 years of age; and*
    - (c) *For the early childhood education centres car parking spaces shall be provided at a rate of one per four child places in a day;*
  - ii. *The above rates are to be reduced and on-site car parking minimised where the Approved Travel Plan prepared under Condition (8) below, identifies that there is a lesser demand;*
  - iii. *Disabled and loading parking provisions shall be provided in accordance with the Waitakere City Council Code of Practice (or its equivalent document) and the Auckland Regional Parking Strategy; and*
  - iv. *The design and layout of group car parking areas shall be developed in consultation with [the appropriate Council officer].*
8. *The Requiring Authority shall, directly or through the School Board of Trustees:*
- i. *Monitor school related traffic in the vicinity of the school once a year for a period of 3 years following the opening of the school.*
  - ii. *Resource, develop, review and action a Travel Plan which:*
    - (a) *Sets the goals of the school with respect to sustainable travel modes and the mitigating real and potential adverse traffic effects;*
    - (b) *Seeks to limit the provision for on-site car parking to a minimum;*
    - (c) *Facilitates the integration of the school with the surrounding transport network (including issues of pedestrian and cyclist permeability to the site); and*
    - (d) *Is maintained and regularly updated while the school is operating under this designation.*

*This Plan shall be developed in consultation with Auckland Council and Auckland Transport and shall be reviewed at the time of submitting each Outline Plan of Works relating to increased capacity.*
9. *In the event of archaeological evidence being uncovered (e.g. shell, middens, hangi or ovens, pit depressions, defensive ditches, artifactual material or human bones) work is to cease in the vicinity of the discovery, and an Archaeologist, Historic Places Trust and the Auckland Council are to be contacted so that the appropriate action can be taken before any work may recommence there.*
10. *A plan detailing how the historic heritage values of the former airforce runway will be recognised on the school site. The plan will be developed in consultation with the Historic Places Trust and Auckland Council and shall be submitted with the first Outline Plan for work on the site.*
11. *The Requiring Authority shall submit with the first Outline Plan of Works application a Landscape Concept Plan. This plan shall be developed in consultation with [the appropriate Council officer] and must include the following:*
- i. *The location of existing and proposed buildings within the site;*
  - ii. *The surrounding street context - the adjacent streets footpaths, the location of any pedestrian crossings, and bus stops. Any landscape works proposed in the landscape plan must complement and be well integrated within the street context;*
  - iii. *Contour information;*

- iv. *Framework tree planting (species, grades and locations), and the location and planting (planting plans) for any garden areas, hedges - the species and layout must complement and be well integrated with the landscape works (existing and proposed) for the surrounding streetscapes;*
  - v. *The articulation and identification of outdoor space - show outdoor play areas (both hard surfaces and grassed areas);  
Note: Outdoor space may be defined by a combination of buildings, trees, landform, fences/hedges or other features;*
  - vi. *Vehicle access and parking areas including cycle parks;*
  - vii. *Entrances for cyclists and pedestrians; and*
  - viii. *The location, style and height of fencing on exterior boundaries of the school which face roads or other public spaces.*
12. *To ensure that the proposed secondary school and early childhood education centres appropriately interface with the adjoining stormwater wetland, a detailed landscape plan shall be prepared and implemented by the Requiring Authority in relation to this interface. The landscape plan shall be prepared by the Requiring Authority in consultation with [the appropriate Council officer] for final review and comment prior to the submission of the first Outline Plan of Works.*
13. *The Requiring Authority shall with each Outline Plan of Works for school development:*
- i. *Provide a landscape plan(s) which demonstrates how the development and/or additions continue to contribute to the matters identified in Conditions (10, (11) and (12) above; and*
  - ii. *Implement the approved landscape plan(s) provided in response to Condition 13(i) as it relates to each Outline Plan of Works within the site.*
14. *Development of the site shall be undertaken in a way that recognises the principles of Low Impact Design stormwater management systems (as detailed in the relevant Integrated Catchment Management Plan) and incorporates measures to mitigate the impact of impervious surfaces and earthworks, utilising soils and vegetation to trap pollutants and reduce stormwater runoff. Details of the proposed Low Impact Design measures shall be submitted to the Council with the first and any subsequent Outline Plan of Works for development.*
15. *A sustainable water supply system shall be implemented in any buildings on the site. This shall include installing water re-use tanks for non-potable supply and the use of water efficient fixtures to minimise the amount of reticulated water supply required.*
16. *The Requiring Authority shall provide details of the location of buildings in relation to the location of public wastewater drainage to enable Council to establish any requirements necessary to ensure the ongoing integrity of the wastewater lines and ensure that any access for maintenance is protected. This information shall be submitted with the first Outline Plan of Works.*

**MoE 333 Educational Purposes - Special School (years 0 - 13)  
[Luke St Special School]**

- 1. *The height of all buildings (excluding any goal posts associated with sporting activities) shall not exceed 10m except for assembly halls, recreational facilities, and cultural or performance facilities.*

2. *No part of any building shall project above a 45° recession plane measured from any point 2 metres above the ground level along any boundary of the site.*
3. *The minimum building setbacks to be met are as follows: from the Luke Street boundary - 3m; the western and rear boundaries - 8m; eastern boundary - refer condition 8 below.*
4. *A fence shall be erected at the cost of the Requiring Authority along the full length of the common boundary between 32-44 Luke St and 50 Luke St. From the Luke St boundary, no new fence shall be erected for the first 1.8m. From a distance of 1.8m from Luke St to 137m from Luke St a solid (minimum 200mm thick) fence shall be constructed along the boundary. The fence shall be a minimum of 3m high (above existing ground or finished ground level). Where existing buildings are on or very near the boundary from 1.8m to- 137m from Luke St the fence may be integrated and aligned into those buildings. Beyond 137m from Luke St to the northern boundary a new Hurricane wire fence with 3 barbed wires atop shall be constructed to a minimum height of 2m (above existing or finished ground level). The fence shall be erected prior to the occupation and use of the site as a school.*
5. *Noise from all activities on the site shall be subject to the following standards:*
  - i) *The noise level from any activities within the site, except where otherwise specified below at (iv), measured at or within the boundary of any adjacent site (not held in common ownership) zoned Business 4 shall not exceed:*  
7.00am - 10.00pm 60 dBA L10  
10.00pm - 7.00am 60 dBA L10
  - ii) *The noise level from activities within the site, except where otherwise specified below at (iv), shall not exceed the following limits when measured at or within the boundary of any residential zoned site:*  
Monday to Saturday 7.00am - 10.00pm 55dBA L10  
Sunday & Public Holidays 9.00am - 6.00pm 55dBAL10  
All other times 45dBA L10 75dBA Lmax
  - iii) *Noise levels shall be measured and assessed in accordance with the requirements of NZS 6801:1991 "Measurement of Sound" and NZS 6802:1991 "Assessment of Environmental Sound".*
  - iv) *The above limits shall not apply to noise generated by normal school related outdoor activities on any parts of the site between the hours of 8.00am and 6.00pm.*
  - v) *Sound from construction activity shall not exceed the limits recommended in and shall be measured and assessed in accordance with NZS 6803:1999 "Acoustics - Construction Noise".*
6. *In the event that any archaeological sites or remains are discovered during the earthworks, then the works at that place of discovery will cease immediately and the appropriate statutory authorisations or consents obtained.*
7. *In consultation with the adjoining owners, the Requiring Authority shall, establish a 'separation distance' from any existing buildings or plant at 46-62 Luke St that contain refrigeration equipment or piping. Existing buildings or plant for the purposes of this condition shall be those which existed at the date of the recommendations on this Requirement on behalf of the Auckland Council.*  
*The 'separation distance' shall be determined by a person suitably qualified and experienced in the assessment and management of hazardous facilities and substances based on the following recognised industry codes of practice:*
  - *AS/NZS 2022: 2003 Anhydrous Ammonia - Storage and Handling*

- *AS/NZS 1677.2:2000 Refrigerating Systems - Safety Requirements for Fixed Applications*

*The separation distance shall be not less than 25m, and no buildings shall be established within this 'separation distance'.*

8. *An Emergency Management Plan ('EMP') shall be prepared, at the cost of the Requiring Authority and in consultation with the owner and occupier of 50 Luke Street, by a suitably qualified person taking into account all of the various emergency and hazardous issues that may arise as a result of activities that occur at 50 Luke St. Copies of the EMP shall be provided to Council, the NZ Fire Service and the owner and occupier of 50 Luke Street.*

*The Requiring Authority shall engage in a consultative manner with the owner and occupier of 50 Luke Street to have the EMP reviewed as required and in any event no later than on each third anniversary of the opening of the school to take into account any changes to regulations, procedures and methodologies that may occur over time. Copies of any reviewed EMP shall be provided to the Council, the NZ Fire Service and the owner and occupier of 50 Luke St.*

*The EMP shall be completed prior to the occupation of a school on the site and will remain in place as long as 50 Luke St is used for activities that may give rise to hazardous emergencies.*

*The EMP shall be developed and maintained in accordance with the Ministry of Education's own Emergency Response Management Plan guidelines as well as the guidance prepared by ERMA and the Department of Labour and must address the matter of what triggers and methods are used to identify any potential risk events.*

*The EMP shall include regular (at least 12 monthly) drills. The Requiring Authority shall invite the operator of the factory at 46-62 Luke Street to participate in these drills.*

**MoE 364 Educational Purposes Primary School (years 0 – 8) and may include Early Childhood Education (preschool)  
[Te Maturanga]**

*That the Te Maturanga Early Childcare Centre shall provide child care facilities for a maximum of 43 children aged up to 5 years at any one time.*

**MoE 409 Educational Purposes - Primary School (years 0 - 8) and may include Early Childhood Education (preschool)  
[Willowbank Primary School]**

*The school will have a maximum roll of 540 pupils provided that the roll will be able to exceed 540 pupils up to a maximum of 700 pupils for a period not exceeding three years.*
