# Purpose/Introduction

The Local boards funding policy sets out how local boards are funded to meet the costs of:

- providing local activities
- administration support.

# Background

Auckland Council’s 21 local boards have decision making responsibility for local activities. The full list of local activities is set out in the Allocation of decision-making table in the 10-year Budget. They include amongst others:

- local recreation services e.g. swimming pools
- local libraries
- local parks
- local events
- local community development.

Funding for local activities is split into three parts based on the nature of the service provided and the allocation of decision making between the Governing Body and local boards. The three classifications of activities are set out in the table below.

<b>Nature of service</b>	<b>Nature of local board decision making role <sup>1</sup></b>	<b>Examples of activities</b>
Asset based services	Make decisions within parameters set by the Governing Body	Swimming pools, Libraries Local parks
Locally driven initiatives	Make decisions on how locally driven initiative funding allocated from Governing Body is spent	Local events Local community grants
Locally driven capital projects	Make decisions on how locally driven capital projects funding allocated from Governing Body is spent	Local park improvements Streetscape improvements
<sup>1</sup> Local boards make decisions on specific location, design, and build of new facilities, service standards, and renewals, within parameters set by the governing body. Local boards also decide on use of facilities, including change of use and leases. Local board’s decision making is set out in full in the “Allocation of decision-making responsibility for non-regulatory activities” in the 10-year Budget.		

Local boards have decision making responsibility for fees and charges for both asset based services and locally driven initiatives within any parameters set by the Governing Body. For example, local boards can set the fees for adult entry to swimming pools but may not charge for the entry of children, under 16.

How local asset based services, locally driven initiatives, locally driven capital projects and administration support, will be funded is set out below.

# Funding for local asset-based services

Local asset based services will be funded by:

1. fees and charges set by the local board and collected from local asset based services
2. plus any other revenue including grants, donations, and sponsorships
3. plus any revenue from a targeted rate set by the Governing Body to fund local asset based services
4. plus general rate funding to meet the balance of costs of local asset based services being provided to each local board area, set by the Governing Body in the 10-year Budget after taking into account Governing Body expectations for fees, charges and other revenue.

## Funding for locally driven initiatives (operational funding)

The amount of budget available to each local board for locally driven initiatives is determined by:

1. fees and charges collected from locally driven initiatives
2. plus any funding surplus from local asset based services in excess of projected funding<sup>1</sup> by the Governing Body when setting general rates funding for local asset based services where the local board changes costs or revenue from local asset based services from the levels projected by the Governing Body
3. minus any funding deficit from local asset based services below that projected funding<sup>1</sup> by the Governing Body when setting general rates funding for local asset based services where the local board changes costs or revenue from local asset based services from the levels projected by the Governing Body
4. plus any revenue from grants, donations, and sponsorships
5. plus any revenue from a targeted rate set to fund local activities in the local board area plus an allocation from a budget pool for locally driven initiatives funded from the general rate.

## Level of total budget available for locally driven initiatives

The total general rates funded budget available for locally driven initiatives will be set by the Governing Body and will be identified in the 10-year Budget or annual plan.

---

<sup>1</sup> Projected funding is the level of funding the Governing Body would otherwise have provided in the absence of that local boards decisions to change revenues and/or costs

# Allocation of total budget pool

Each local board will be allocated a share of the total budget available after deducting the funding for the Aotea / Great Barrier Island Local Board and the Waiheke Island Local Board, see section 4.4 below. Each local board's share of the budget will be equivalent to its share of the regional population adjusted for deprivation <sup>2</sup> and land area, excluding Aotea/Great Barrier Island and Waiheke Island. This is set out in the table on the next page.

Factor	Proportion of total general rate funded locally driven initiative budget	Local board share
Population <sup>1</sup>	90 per cent	Local board population divided by the total population of all local boards <sup>3</sup>
Deprivation <sup>2</sup>	5 per cent	Average local board deprivation divided by the total of the average deprivation of each local board <sup>3</sup>
Land area	5 per cent	Local board land area divided by the total land area of all local boards <sup>3</sup>
<sup>1</sup> adjusted each year to reflect changes in population estimates provided by Statistics New Zealand <sup>2</sup> based on the most recently available update of the Index of Deprivation provided by the Ministry of Health <sup>3</sup> excluding Aotea / Great Barrier Island Local Board and Waiheke Local Board		

## Funding for Aotea/Great Barrier Island Local Board and Waiheke Island Local Board

The amount of budget available for locally driven initiatives on Aotea / Great Barrier Island and Waiheke Island is determined by:

1. fees and charges collected from locally driven initiatives
2. plus revenue from fees and charges for local asset based services in excess of that projected by the Governing Body where the local boards sets higher fees, (see section 3 above)
3. minus revenue from fees and charges for local asset based services below that projected by the Governing Body where the local boards sets lower fees, (see section 3 above)
4. plus any revenue from grants, donations, and sponsorships
5. plus any revenue collected from targeted rates set to fund local activities
6. plus a general rates allocation

General rates funding will be provided to meet the balance of the costs of providing locally driven initiatives on Aotea/Great Barrier Island and the Waiheke Island. This will be based on the expenditure on these activities agreed with the Governing Body in their local board agreements each year net of revenue generated from the items in 1 to 5 above.

## Transition

The table below sets out the transition mechanism that will be applied from 2021/2022 onwards.

Local boards funded to the level of the allocation formula	Local boards funded above their allocation under the formula
Increases in the total budget for locally driven initiatives budget will be applied as per the formula	Locally driven initiatives budget will be held at its current absolute level (no increases for inflation) until it is exceeded by the allocation under the formula

## Definition of local asset based services and locally driven initiatives

The Governing Body, after considering local board feedback, will determine which services are local asset based services and locally driven initiatives when the total budget for local activities is set.

## Funding allocation for locally driven initiatives (capital funding)

This funding enables local boards to deliver small local asset based projects, either directly, in partnership with the community, or through joint agreements between boards.

The budget available for locally driven capital projects will be set by the Governing Body and will be identified in the 10-year Budget or annual plan. These funds will be allocated to local boards on the following basis:

1. one per cent of the total fund allocated to the Aotea/Great Barrier Island local board
2. two per cent of the total fund allocated to Waiheke Island local board
3. the remainder of the fund allocated to the remaining local boards, with each board's share equivalent to its share of the regional population adjusted for deprivation and land area, as set out in the table below:

Factor	Proportion of budget for locally driven capital projects	Local board share
Population <sup>1</sup>	90 per cent	Local board population divided by the total population of all local boards <sup>3</sup>
Deprivation <sup>2</sup>	5 per cent	Average local board deprivation divided by the total of the average deprivation of each local board <sup>3</sup>
Land area	5 per cent	Local board land area divided by the total land area of all local boards <sup>3</sup>
<sup>1</sup> adjusted each year to reflect changes in population estimates provided by Statistics New Zealand <sup>2</sup> based on the most recently available update of the Index of Deprivation provided by the Ministry of Health <sup>3</sup> excluding Aotea / Great Barrier Island Local Board and Waiheke Local Board		

## Funding allocation for other purposes

The Governing Body may make available funds to local boards for purposes other than local asset based services, locally driven initiatives, locally driven capital projects or administrative support. These funds will be allocated to local boards on the same basis as funding for locally driven initiatives (capital funding).

## Funding allocation for administrative support

The funding for administrative support is allocated by adopting the following method:

- a. Allocation for the costs related to elected members in a local board - number of elected members multiplied by the budgeted cost per elected member
- b. Allocation for meeting other administrative costs - estimated cost of other administrative support for all local boards divided by the number of local boards.

In estimating the costs, the special circumstances of the Aotea/Great Barrier Island and Waiheke Island are taken into consideration to ensure equitable allocation of funds.

## Funding allocation for non-dedicated purposes

There is no allocation of non-dedicated (general purpose) funding to local boards in the 10-year Budget 2021-2031.

## Funding sources for funds allocated for local activities

Funding sources for funds allocated for local activities are set out in the Revenue and Financing policy.
