Opting out of Auckland Council's Flood and Landslide Recovery Assistance Programme

You can opt out of the risk assessment process at any time **before we have given you a risk category** for your property.

Once your property is given a category it can only be given a different category – it can't be 'uncategorised.' This is because 'uncategorised' is not recognised in the Government's risk assessment framework.

To opt out of the risk assessment, please confirm your decision in writing to: propertycategory@aucklandcouncil.govt.nz

Once you have opted out, **you cannot opt back into the risk assessment process** and Auckland Council's Flood and Landslide Recovery assistance programme.

There are risks associated with properties affected by the extreme weather events, so if you opt out, there may be long term impacts on your property. **We strongly recommend you seek independent legal advice** before deciding to opt out.

Please note: Your completed Flooding and Landslide Registration Form and a record of your decision to opt-out will be included in your property file.
